ROSE HILL, N.Y. U.S.A.

MILLS' FAIRVIEW SEED FARMS.

ROSE HILL, N. Y., Jan. 1, 1906.

To My Friends and Customers:—

I am pleased to present you this new Seed Catalogue for 1906 and would like to have you carefully examine it.

My large Seed and Plant trade has been built up to its present large proportions from a very small beginning simply because my business policy has always been to treat every customer right, furnish the best stock that can be had for the money; and satisfy in every way possible.

My seed crops the past season have been very satisfactory and I was never better equipped and able to supply a lot of choice seed than I am this season.

I grow millions of plants in my greenhouses and furnish them to my customers in every part of the country at the lowest prices. When you buy direct of me, you buy from the grower and save middlemen's commission. I always guarantee satisfaction to every customer and those who have planted my seeds know what they are and it is not necessary for me to say any more. Those who have not tested them should give a trial order this year and see how well I can please you.

I want to call particular attention to my grand New Early Cucumber, as shown on the front cover, also my two great Cabbages, "The Early June" and the "New Main Crop" cabbage for which \$25.00 is offered for a name. Both of these are offered on the back cover.

Mills' Supply Catalogue should be in the hands of every person who uses goods of any kind. It gives factory prices and saves 30% to 50% to the consumer.

For pure bred Poultry and Eggs I am prepared to meet your wants on nearly 80 breeds and varieties of land and water fowls.

F. B. MILLS, Seedsman.

INSTRUCTIONS ABOUT ORDERING.

How to Order.

Those who send a neat plainly written order will be sure to have it filled correctly and with dispatch. Always be sure to **sign your name, post office, county and state**, and, if possible, use one of my Order Blanks and Envelopes. Cash must accompany all orders and money should be sent by Postoffice Order, Bank Draft, Express Order or Registered Letter; small amounts will be accepted in postage stamps, providing you cannot send anything else. Do not send money loose in a letter without registering, it is not safe, and if lost I am not responsible for it. Silver or gold coin should be sewed or pasted in cloth or pasteboard to prevent breaking through the envelope.

Private Checks.

Do not send your check for small amounts, because it costs 10 cents extra to collect same, which is deducted from the amount, and besides, orders are held until my bankers report private checks paid. This causes needless trouble and delay in filling orders. Always carry out the price of each article, and, after adding the amounts together, remit the exact sum.

Important.

It occasionally happens that an order is lost (that very seldom occurs), therefore, if any who order, do not hear from me within a reasonable length of time, they should send a duplicate order naming the date on which the former order was sent, the amount of money enclosed and in what form. Do not simply say "I sent an order about ten days ago and have not heard from you," but go on and give date and so on, as requested. This will enable me to investigate the matter and fill the duplicate order immediately.

Free by Mail.

I send seeds, bulbs and plants free by mail at the prices named in this catalogue, except where there are special quotations, for the goods to be sent by express or freight, customers pay the charges. This brings them to the doors of my customers, without trouble or expense.

Express and Freight.

My facilities are the very best for shipping and on all articles that are to be sent by express or freight, I secure the lowest express or freight rate, but I DO NOT pay the transportation charges, and it is understood that the customer pays them upon receipt of the goods, and, in ordering, always be sure to state whether goods should be sent by express or freight and give plain shipping instructions.

Prepaid Railroad Stations.

Many of my farmer customers live near prepaid railroad stations where there are no agents. In such cases I ship the goods to the nearest station to this prepaid station, as I never pay freight charges on heavy seeds. This insures quick delivery and no danger of loss.

My Guarantee.

I exercise the greatest care to have my seeds, potatoes, bulbs, plants, etc., fresh, clean, pure, and true to name and to reach the customer in good condition, and grow if properly planted. My goods must be carefully inspected by purchaser upon their receipt, and if they are not found as above, I will refill the order free of charge, providing sufficient proof is given me within a reasonable length of time. I cannot guarantee crops and will not be held responsible for them, or for any liability other than as above, and if my goods are not accepted on these conditions, they must be returned at once.

Important.

I wish to impress upon the mind of every customer that it is very essential to follow the above instructions when ordering, as this insures safe and prompt delivery of all goods ordered.

If you receive more than one copy of this catalogue, please hand the extras to neighbors.

MILLS' SELECT LIST OF VEGETABLE SEEDS

Novelties, Specialties and Standard Varieties

THE FOLLOWING LIST OF VEGETABLE SEEDS will be found to contain all the standard and reliable varieties in cultivation, as well as all the latest novelties and specialties. Everything is carefully tested and nothing offered except those that will give entire satisfaction. It is useless to offer a long list of varieties, for it only confuses the purchaser and does not prove as satisfactory in the end. All my seeds are grown in latitudes best suited to the development of choice seed, and are first-class in every respect, and I can say a better lot was never offered than you will find here. Please remember that the postage is paid on all seeds offered by the packet, ounce $\frac{1}{4}$ lb., $\frac{1}{2}$ lb., lb., $\frac{1}{2}$ pt., pts. and qts. Larger quantities are sent by express or freight, customers to pay the transportation charges. Do not forget that if you order one dollar's worth of seeds from this Catalogue, you are entitled to select fifty cents' worth of packets free as a present. (See Order Sheet.)

Early Long Yellow Six Weeks Bean

Pod Strain.) This is one of the best strains of Valentine Beans ever offered. It matures quickly and is of the very best quality. Early, productive, tender and desirable for family or market use. This strain has proven unequalled and my customers who want the very best Valentine on the market should get this one. I have a choice lot this year. Pods saddle-backed, 4 inches long; even when grown, are brittle. Generally grown for early market. Per pkt., 6c.; $\frac{1}{2}$ pt., 15c.; pt., 25c.; qt., 40c., postpaid. By express or freight, not prepaid, 4 qts., 75c.; pk., \$1.30.

STRINGLESS GREEN POD—Is claimed to be absolutely stringless and the best stringless bean. The pods are ready for market several days earlier than the best strain of Red Valentine or Early Six Weeks, making it very valuable. The rich green pods, from $4\frac{1}{2}$ to 6 inches long, are so round that the back is creased, and when full grown are of fine flavor and very tender. It is very valuable for market gardeners and canning establishments. I have the pure stock that I can offer at, per pkt., 6c.; $\frac{1}{2}$ pt., 15c.; pt., 25c.; qt., 40c., postpaid. By express, or freight, not prepaid, 4 qts., 80c.

Dwarf Wax Podded

MILLS' RUST PROOF WAX—One of the very best Wax Beans in cultivation and has proven the nearest to perfection of any variety. Very early, grow upright and robust, holding their pods up well from the ground, which are always of a beautiful golden color; unsurpassed in quality; pods golden yellow, about $5\frac{1}{2}$ inches long. (See illustration.) Per pkt., 6c.; $\frac{1}{2}$ pt., 15c.; pt., 25c.; qt., 40c., postpaid. By express or freight, not prepaid, 4 qts., 85c.; pk., 1.50.

PROLIFIC BLACK WAX—Tender, yellow, with transparent pods 3 to 5 inches long, of the best flavor, stringless. Per pkt., 6c.; $\frac{1}{2}$ pt., 15c.; pt., 25c.; qt., 40c., postpaid. By express or freight, not prepaid, 4 qts., 75c.; pk., \$1.30.

IMPROVED GOLDEN WAX—Very early. Pods are large, about 5 inches long, of golden wax color and of the best quality. If gathered young are very tender and brittle. Per pkt., 6c.; $\frac{1}{2}$ pt., 15c.; pt., 25c.; qt., 40c., postpaid. By express or freight, not prepaid, 4 qts., 75c.

Two Bush Limas

Improved Bush Lima Bean

7 to 8 inches long, very fine flavor. Per pkt., 8c.; 3 pkts., 15c.; $\frac{1}{2}$ pt., 18c.; pt., 30c.; qt., 50c., postpaid. By express or freight, not prepaid, 4 qts., \$1.50.

NEW QUARTER CENTURY STRAIN BUSH LIMA—This is a new strain of Bush Lima; it is claimed by the introducers to be the best they have ever had in their 27 years' experience as seed growers. This variety is similar to Burpee's Bush Lima, but it is claimed to be an improvement, and I would advise my customers to give it a trial. Pkt., 8c.; $\frac{1}{2}$ pt., 18c.; pt., 30c.; qt., 50c.

IMPROVED BUSH—True Bush Lima. An immense yielder, growing about $1\frac{1}{2}$ feet high. Pods

Asparagus

4 Best Varieties

✓ **PALMETTO**—This is the finest and best variety grown; remarkably tender and rich when cooked; free from any tough or woody fiber. Per pkt., 5c.; oz., 8c.; $\frac{1}{4}$ lb., 16c.; $\frac{1}{2}$ lb., 30c.; lb., 45c.

✓ **BARR'S MAMMOTH**—Stalks very large; grow quickly; light in color; nearly equal to the Palmetto, but somewhat larger. Per pkt., 5c.; oz., 8c.; $\frac{1}{4}$ lb., 16c.; $\frac{1}{2}$ lb., 30c.; lb., 45c.

✓ **CONOVER'S COLOSSAL**—A well-known, large, rapid grower. Pkt., 5c.; oz., 8c.; $\frac{1}{4}$ lb., 16c.; $\frac{1}{2}$ lb., 25c.; lb., 40c.

✓ **COLUMBIAN MAMMOTH WHITE**—This is a new variety; has white shoots which stay white as long as fit for use. It can be depended upon to give a very large per cent of white plants from seed. Per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.

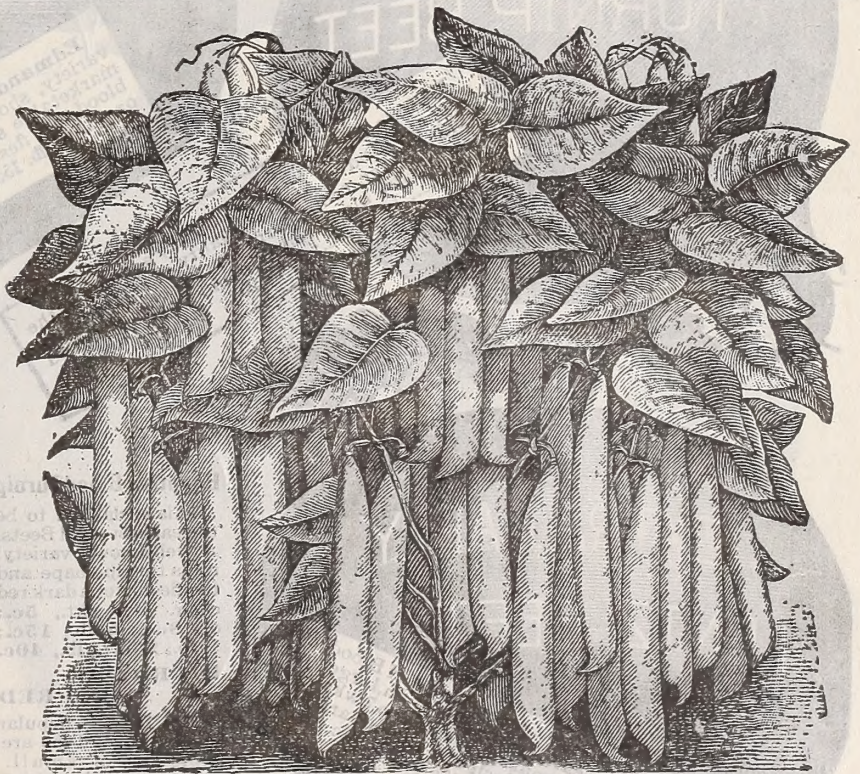

Barr's Mammoth

BEANS==Dwarf or Bush

EARLY LONG YELLOW, SIX WEEKS—An extra early variety; very productive and always makes a good, thick, meaty pod. It is liked for its productiveness and also on account of its being adapted to any soil or weather and not liable to be injured by spring frosts. Long green pods are flat, 6 to 8 inches long, and if gathered young are tender and stringless. Per pkt., 6c.; $\frac{1}{2}$ pt., 15c.; pt., 25c.; qt., 40c.; postpaid. By express or freight, not prepaid, 4 qts., 75c.; pk., \$1.30.

EXTRA EARLY RED VALENTINE—(Best Improved Round

Mills' Rust Proof Wax Bean

BEANS==Pole or Running

LAZY WIFE'S—This is a round, medium size, white pole bean. The pods are of good size, pale green in color, very thick meated, remarkably tender and are entirely stringless. Per pkt., 6c.; $\frac{1}{2}$ pt., 15c.; pt., 25c.; qt., 45c., prepaid; 4 qts., \$1.50, by express.

KING OF THE GARDEN LIMA—This is a well-known bean and produces large size pods and beans, which are of the best quality. This is unquestionably the best pole Lima Bean of today. Per pkt., 6c.; $\frac{1}{2}$ pt., 15c.; pt., 25c.; qt., 40c., postpaid. By express or freight, not prepaid, 4 qts., \$1.15; pk., \$2.00.

MILLS' PRIZE WINNER BEAN—See page 30 for description.

GARDEN BEETS

I offer the choicest and best varieties of BEETS in cultivation, and please remember that my prices are very low and seed is sent by mail, postpaid. A good supply of Beet seed should always be planted.

TRUE DARK STINSON—

This is my favorite variety and also proves a favorite with all who grow it. It is of good shape, as will be seen by the illustration, and about the size for open garden culture. It is also good for forcing on account of producing very little foliage, much less than many other varieties. The roots are very smooth and a dark blood red in color, and the flesh is the very best of any garden beets. Seed stock has previously been scarce, which has made it very high in price, but I will be able to offer my stock this season at prices which will enable every one to grow it. They can be grown close together, about four inches apart in the row. This splendid Beet will please anyone and is an extremely heavy cropper, and is the very best for markets.

Per pkt., 5c.; oz., 10c.; ¼ lb. 20c.; ½ lb., 30c.; lb., 45c.

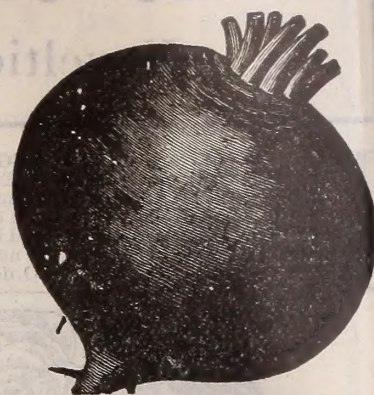

is one of the very best to grow for winter. Even if sown as late as July, it will produce roots of good size before frost. The Columbian and Stinson are at present leaders. Per pkt., 5c.; oz., 8c.; ¼ lb., 20c.; ½ lb., 30c.; lb., 45c.

CRIMSON GLOBE

This grand new variety is for early and main crop. It is just the best for table; beautiful form, very tender, with rich, red flesh. The root is of medium size, generally about 3 inches in diameter. It is a little deeper than round with a very smooth surface. It has a small tap root, while the leaves are dark and small, borne on slender stems. Flesh is not stringy or woody. It can be thoroughly distinguished from other Beets. My stock is true.

Per pkt., 6c.; 2 pkts., 10c.; oz., 15c.; ¼ lb., 40c.; ½ lb., 60c.; lb., \$1.00.

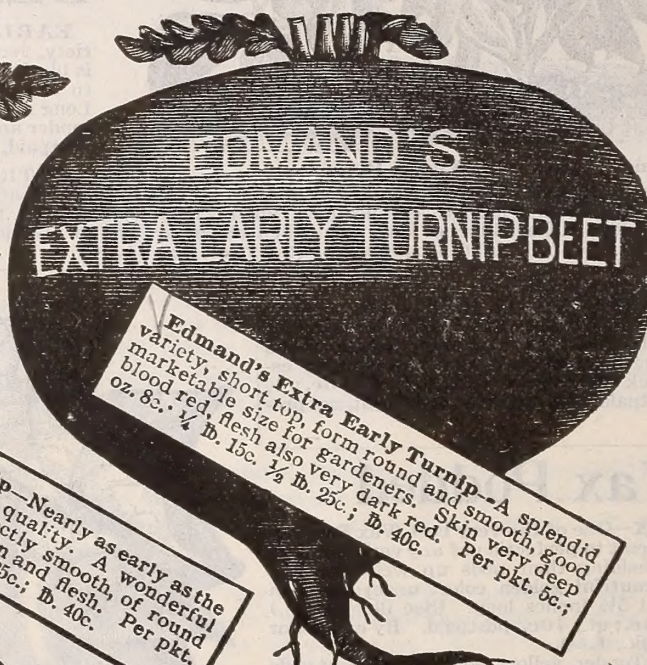

Crimson Globe Beet

DEWING'S IMPROVED BLOOD TURNIP—Flesh is deep blood red, very tender, and grows to a good size. It is pronounced one of the very best Beets for the garden. Per pkt., 5c.; oz., 8c.; ¼ lb., 15c.; ½ lb., 25c.; lb., 40c.

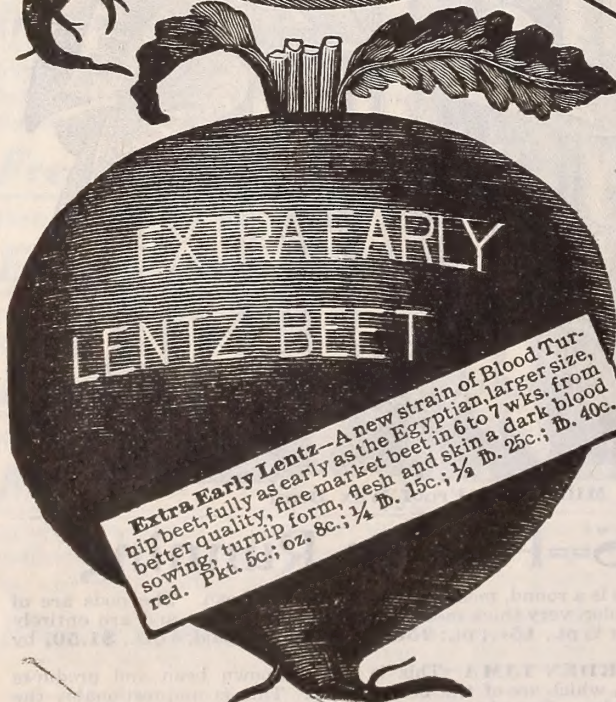

THE NEW COLUMBIAN—This new Beet has a splendid reputation on account of its small top, smooth skin and dark blood red flesh. It is of the very best quality and quite early. It is claimed by some that it is as early as the Egyptian and holds its quality for a long time. It

Eclipse Blood Turnip—Nearly as early as the Egyptian and of better quality. A wonderful form, grower, roots perfectly smooth, of round shape, intense blood red skin and flesh. Per pkt., 5c.; oz., 8c.; ¼ lb., 15c.; ½ lb., 25c.; lb., 40c.

Edmand's Extra Early Turnip—A splendid variety, short top, form round and smooth, good marketable size for gardeners. Skin very deep blood red, flesh also very dark red. Per pkt., 5c.; oz., 8c.; ¼ lb., 15c.; ½ lb., 25c.; lb., 40c.

Extra Early Lentz—A new strain of Blood Turnip beet, fully as early as the Egyptian. Larger size, better quality, fine market beet in 6 to 7 wks. from sowing, turnip form, flesh and skin a dark blood red. Pkt. 5c.; oz., 8c.; ¼ lb., 15c.; ½ lb., 25c.; lb., 40c.

Egyptian Blood Turnip

This is claimed to be the earliest of all Beets. A well-known variety; roots turnip-shape and the flesh is of a dark red color. Per pkt., 5c.; oz., 8c.; ¼ lb., 15c.; ½ lb., 25c.; 1 lb., 40c.

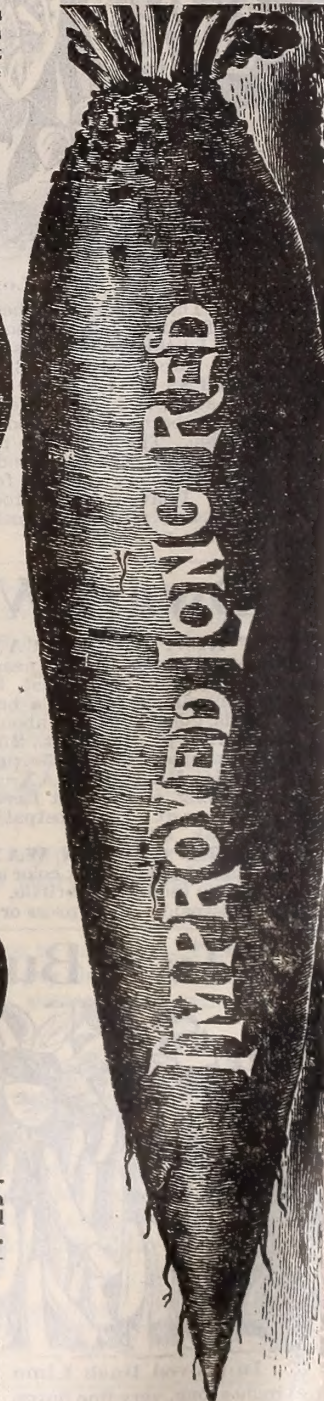

IMPROVED LONG RED

This Beet is popular everywhere. Tops are large, necks small. Roots, stems and vines red, leaves green. Roots are large, tapering at both ends, growing nearly even with the surface; flesh and skin dark red; tender, sweet and remains so when kept until spring. Per pkt., 5c.; oz., 8c.; ¼ lb., 15c.; ½ lb., 25c.; lb., 40c.

Egyptian Blood Turnip

Roots are large, tapering at both ends, growing nearly even with the surface; flesh and skin dark red; tender, sweet and remains so when kept until spring. Per pkt., 5c.; oz., 8c.; ¼ lb., 15c.; ½ lb., 25c.; lb., 40c.

SPECIAL OFFER BEETS

6 PACKETS 20 CENTS

1 packet Edmand's Extra Blood Turnip, 1 packet New Columbian, 1 packet Improved Long Red, 1 packet Improved Wanzleben Sugar, 1 packet Yellow Ovid, 1 packet Lane's Imperial Sugar. The above 6 packets of choice Beets mailed together for only 20 cents.

I offer the standard and reliable varieties and at prices quoted, the seed is sent by mail postpaid. It requires 5 lbs. to sow an acre.

Golden Tankard Yellow Mangel—My customers say that this is the most desirable variety that they have ever grown, for it contains more sugar and less water than any other variety of its class. It is also claimed that it is one of the leading varieties in England, as it is highly prized for dairy farmers. It is claimed that sheep prefer it to any other. It certainly is a very fine mangel, and on account of its peculiar shape, can be left very close in the rows, which makes it a very heavy cropper. It matures quite early, in fact a little earlier than the other sorts; is hardy and, under good cultivation, will yield from 50 to 60 tons per acre. Per pkt. 5c.; oz. 8c.; ¼ lb. 12c.; ½ lb. 20c.; lb. 30c.

Improved Mammoth Prize Long Red Mangel—This is the variety that is sometimes called Norbitant Giant or Jumbo. It is the largest variety I know of. It grows about two-thirds out of the ground and I have frequently grown them to weigh 25 pounds each. Those desiring a good red mangel will certainly want this one, as it always produces roots of good quality. Per pkt. 5c.; oz. 8c.; ¼ lb. 12c.; ½ lb. 20c.; lb. 30c.

Lane's Improved Imperial Sugar—The most popular and productive sugar beet in cultivation; yields immense crops; easily grown; an excellent cropper and considered the very best for feeding. Per pkt. 5c.; oz. 8c.; ¼ lb. 10c.; ½ lb. 15c.; lb. 25c.

MILLS' GREAT SUGAR MANGEL.

This grand new mangel is white, with a rose top. It is a fine variety for stock feeding and also for sugar making. It is of French origin and has recently been offered in America. Per pkt. 5c.; oz. 8c.; ¼ lb. 10c.; ½ lb. 15c.; lb. 25c.

Improved Wanzleben Sugar

This is the best sugar beet to grow for the manufacture of sugar. It is acknowledged generally by the European Continent, and so far as tried in America, to be by far the best variety.

Per pkt. 5c.; oz. 8c.; ¼ lb. 10c.; ½ lb. 15c.; lb. 25c.

The Best Red Globe Mangel

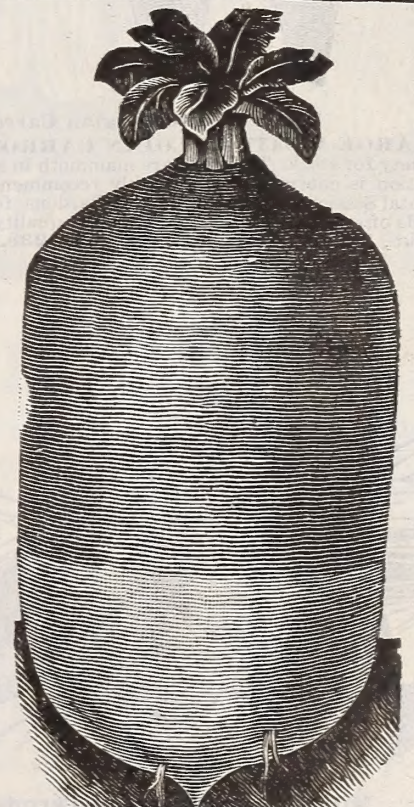

A Great Yielder

Golden Giant Intermediate

A handsome beet, growing about half above the ground and always producing large crops. The flavor of this beet is good, while the flesh is snow white. It is one of the very best keepers. The skin is a golden yellow color; neck is small while the leaves are medium in size and but few are produced. I would advise any one desiring a good yellow beet to try this one. Per pkt. 5c.; oz. 10c.; ¼ lb. 15c.; ½ lb. 20c.; lb. 30c.

4 Packets 10 cts. } 1 pkt. Yellow Ovid Mangel.
1 pkt. Wanzleben Sugar.

1 pkt. Giant Intermediate Mangel.
1 pkt. Lane's Improved Sugar.

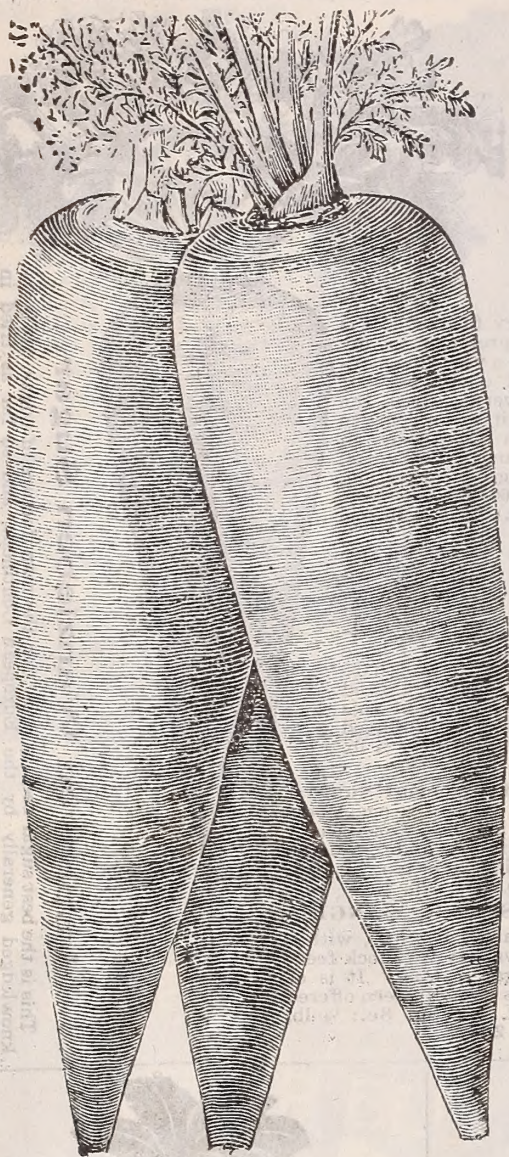

Yellow Ovid Mangel

This is a very profitable and productive mangel and grows nearly two-thirds of its length above the surface and is very easily pulled. Handsome olive-shaped; excellent for limestone soils. Skin is orange yellow. Owing to the demand for this variety, I have added it to my list. Per pkt. 5c.; oz. 8c.; ¼ lb. 12c.; ½ lb. 20c.; lb. 30c.

GARDEN AND FIELD CARROTS

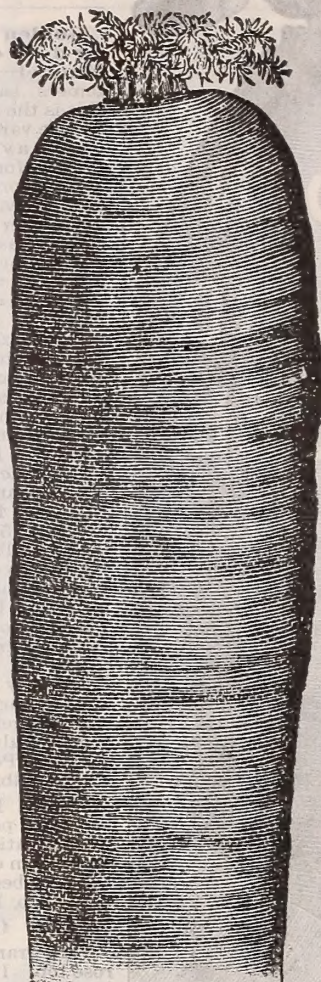

I Offer the Best Standard and Reliable Varieties

Large White Belgian Carrots

LARGE WHITE BELGIAN CARROTS—A splendid variety for stock. The roots are mammoth in size and the production is enormous. It is highly recommended by Experimental Stations and Agricultural Gardens for fattening all kinds of stock. My seed is of superior quality.

Pkt., 5c.; oz., 6c.; $\frac{1}{4}$ lb., 12c.; $\frac{1}{2}$ lb., 22c.; lb., 35c.

Agricultural Wonder

MILLS' AGRICULTURAL WONDER—This is a distinct new carrot and produces long roots of good size and true yellow color. It is claimed it will yield 50 per cent more than any other variety now cultivated. It is a most excellent quality for the table; keeps well and is productive enough to be grown for stock feeding. It has outyielded all the other field carrots, and in addition to its immense size, it is remarkably free from the toughness generally found in field carrots. Per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.

Mills' Danvers Carrot

MILLS' DANVERS CARROT—This famous variety originated in Danvers, Mass. It is most excellent for all soils and will yield greater bulk with smallest length of roots of any now grown. Is very productive, medium length, tapering at the point, roots smooth and of a rich, dark orange color and wonderfully handsome. Pkt., 5c.; oz., 8c.; $\frac{1}{4}$ lb., 20c.; $\frac{1}{2}$ lb., 30c.; lb., 50c.

Mills' Champion Yellow Carrots

MILLS' NEW CHAMPION YELLOW—This new Carrot has a beautiful yellow color and is extra fine for dairymen, as it gives butter the proper color. When the roots are full grown they average 12 lbs. and the tonnage taken from an acre will be from 30 to 50 tons. It is not only valuable as a Carrot for stock but if it is sown at the rate of 12 to 15 lbs. to the acre it will be an excellent sort for table use. I believe my customers will find this a remarkable Carrot and would advise all to give it a trial. Per pkt., 6c.; 2 pkts., 10c.; oz., 12c.; $\frac{1}{4}$ lb., 25c.; $\frac{1}{2}$ lb., 40c., postpaid.

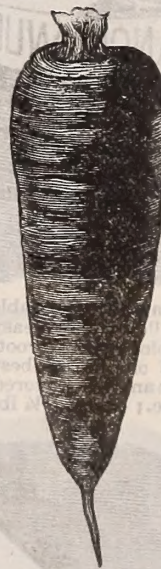

Ox-Heart or Guerande Carrot

OX-HEART OR GUERANDE CARROT—As shown by the illustration, this Carrot is finely shaped, being intermediate in length, and fully three to five inches in diameter; quality extra good. It can be pulled where other sorts require digging. Per pkt., 5c.; oz., 8c.; $\frac{1}{4}$ lb., 18c.; $\frac{1}{2}$ lb., 30c.; lb., 50c.

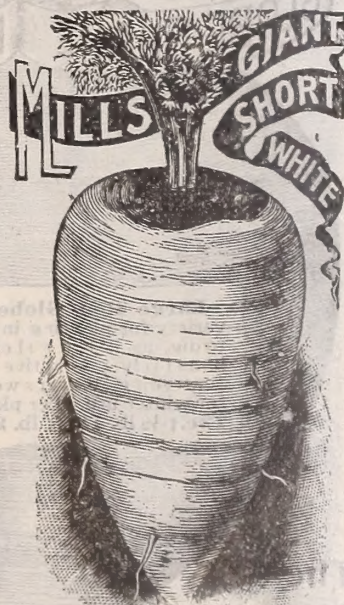

MILLS' IMPROVED LONG ORANGE—One of the best for general culture as well as garden; of fine quality for table use. Excellent for dairymen; yields heavy. Per pkt., 5c.; oz., 8c.; $\frac{1}{4}$ lb., 18c.; $\frac{1}{2}$ lb., 25c.; lb., 45c.

MILLS' GIANT SHORT WHITE CARROT—This variety is best for stock, owing to its enormous productiveness and its growing

Imp. Long Orange

well out of the ground, making it easy to harvest. Roots short, smooth, very heavy at the shoulder, tapering regularly to the point; flesh rich, white, solid, crisp and of excellent flavor. Has yielded as high as 20 tons per acre. Per pkt., 5c.; oz., 8c.; $\frac{1}{4}$ lb., 15c.; $\frac{1}{2}$ lb., 25c.; lb., 40c.

Special Offer

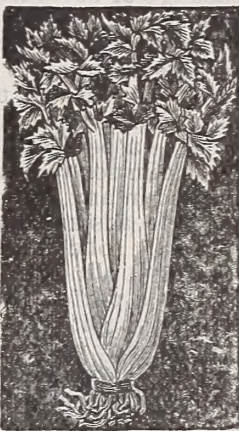

Any 4 pkts. of Carrot Seed, customer's selection, for only 15 cents.

GOLDEN SELF-BLANCHING

My stock of Celery seed is particularly fine and prices are remarkably low for strictly first-class seed. The prices are by mail postpaid.

NEW GOLDEN SELF-BLANCHING (Gilt Edge Strain)—This variety can not be too highly recommended. It is the best Celery in cultivation and is also the most popular. It is wonderfully productive. The root is perfectly solid, crisp and of delicious flavor. The heart is large, solid and a rich golden yellow. It has been the leading variety and it offers a very fine strain at the following low prices which are within reach of all my customers. Per pkt. 5c.; ½ oz. 15c.; oz. 25c.; ¼ lb. 75c.; ½ lb. \$1.40; lb. \$2.50.

Golden Heart

highly recommended for the South, where it grows more satisfactorily than almost any other kind. It is a fine keeper; and extra good shipper, retaining its color and fresh appearance as long as any other variety in existence. Per pkt. 5c.; ½ oz. 8c.; oz. 12c.; ¼ lb. 40c.; ½ lb. 70c.; lb. \$1.20.

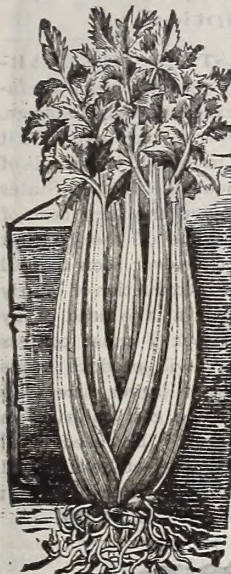

NEW LARGE RIBBED RED—My large trials have proven that this variety is a sprout of the Giant Pascal, one of the best varieties grown. It has all the good qualities of the Giant Pascal, while the ribs are thicker and much stiffer. It is exceedingly healthy and of most excellent quality, tender and well flavored and is a good variety to keep through the winter. It is very popular on account of its handsome appearance, in connection with its fine keeping quality, and my customers will certainly be pleased with it. Per pkt. 5c.; ½ oz. 10c.; oz. 15c.; ¼ lb. 50c.; ½ lb. 80c.; lb. \$1.50.

DWARF GOLDEN HEART—This variety is of dwarf habit and when blanched, the heart, which is very large, is of a pure golden yellow. It is very striking and showy; keeps well during winter. Pkt. 5c.; ½ oz. 8c.; oz. 12c.; ¼ lb. 40c.; ½ lb. 70c.; lb. \$1.20.

NEW ROSE—This Celery has a splendid flavor and it is also very ornamental for the table. It is solid, rich in flavor and keeps remarkably well, better than the yellow and the white sorts. Per pkt. 5c.; ½ oz. 10c.; oz. 15c.; ¼ lb. 50c.; ½ lb. 80c.; lb. \$1.50.

PINK PLUME—This is a splendid new variety, recently introduced, and is an advance in celeries, as an intermediate between the White and Red celeries, combining the good qualities of both. Pink Plume is just about the same as the old White Plume; rich flavor; long keeping qualities, for which the red celeries are noted. It is a strong, heavy grower with no tendency to rust, extra early and a good keeper. The stems are solid and crisp. Per pkt. 5c.; ½ oz. 15c.; oz. 20c.; ¼ lb. 50c.; ½ lb. 90c.; lb. \$1.70.

WHITE PLUME—This is a well known variety and each year adds to its popularity. It is especially recommended on account of its being blanched without barking. There is no reason why every amateur gardener should not grow this variety. It is the earliest in cultivation; seed sown in April, transplanted in July, will be ready for use in October, without banking. Give it a trial and you will be more than pleased with the result. My seed of this grand Celery is extra fine. Per pkt. 5c.; ½ oz. 10c.; oz. 15c.; ¼ lb. 50c.; ½ lb. 80c.; lb. \$1.50.

Large Ribbed Red

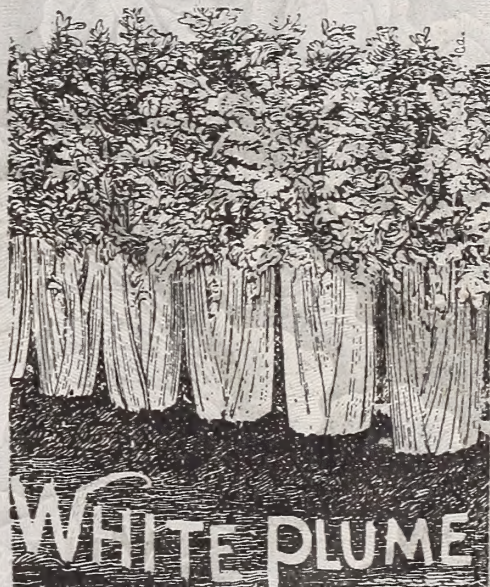

This new Celery is very handsome and stocky, of close growing, upright habit, with a golden heart. The flavor is sweet and pronounced. The stalk is large in girth and heavy in weight, giving the bunches an exceedingly handsome and attractive appearance. It may be used early or late, as it blanches easily. An excellent winter keeper. Pkt. 5c.; ½ oz. 15c.; oz. 20c.; ¼ lb. 60c.; ½ lb. \$1.10; lb. \$2.00.

New Paris Golden Queen Celery

GROUND CHERRY

The introducer says: "It is very good for canning, preserving and pies. Dried in sugar as raisins or figs, they are excellent; handsome yellow color and will keep until January. Produces fruit of strawberry flavor in great abundance, from 1 to 2 inches in diameter; highly prized." Per pkt. 5c.; 3 pkts. 10c.

WHITE PLUME

CAULIFLOWER

No seed is more important. Don't buy cheap seed. I offer the finest strain. Quality first, prices afterwards, are the two most important considerations in buying Cauliflower Seed. I wish to call particular attention to my *Early Favorite*.

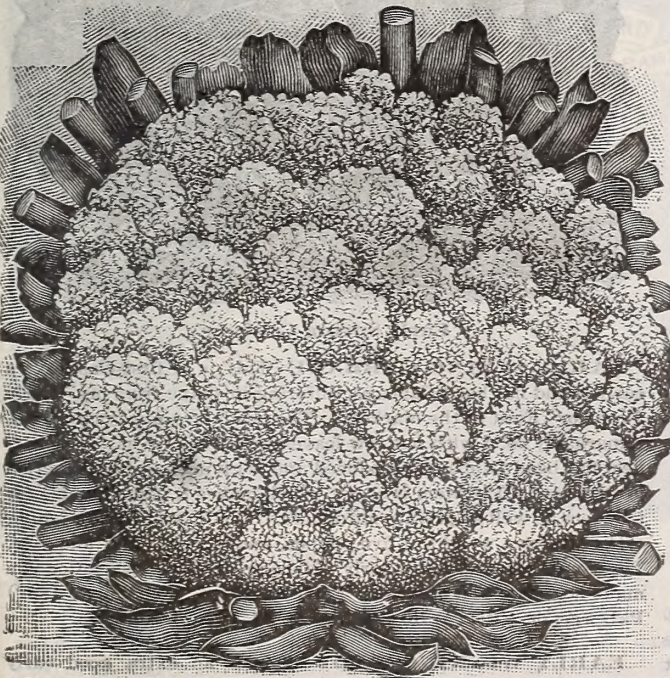

MILLS' EARLY FAVORITE—Best Variety in Cultivation

This surpasses all others and will stand the heat and drouth of any climate the best of all, and is the earliest and surest of any variety to head. For forcing it is particularly well adapted; as a sort for the family and market garden, it is unquestionably the largest as well as the best. Market gardeners, once having sown it, will sow no other. Per pkt. 10c.; 3 pkts. 25c.; 8 pkts. 50c.; ½ oz. \$1.25; oz. \$2.00.

EARLY SNOWBALL—This is a well-known variety, and considered one of the best in cultivation, and a great favorite throughout the country. It is very early, close growing, compact habit, and is well adapted for forcing under glass during the winter and spring. My stock is perfectly reliable. Per pkt. 10c.; 3 pkts. 25c.; 6 pkts. 50c.; ½ oz. \$1.25; oz. \$2.00.

EXTRA SELECTED DWARF EARLY ERFURT—This is another remarkable variety for heading. It is dwarf, with solid heads of superior quality. If planted in March the crop will be ready in June. All market gardeners and private planters will do well to plant this excellent variety. Pkt. 5c.; ½ oz. 75c.; oz. \$1.00.

EXTRA EARLY PARIS FORCING—A favorite variety and very reliable for heading, and is good for forcing. It is equally as good for outdoor culture. Per pkt. 5c.; ½ oz. 35c.; oz. 60c.

Mills' Early Favorite Cauliflower.

SPECIAL OFFER—I will mail to any address two packets of Celery and two packets Cauliflower, your own selection from this page, for **20c.**

OUR WONDERFUL NEW CABBAGE \$25.00 FOR A NAME

(SEE BACK COVER FOR ILLUSTRATION)

Here is one of the greatest cropping Cabbages I have ever raised and nearest approach to perfection of any variety seen grown in this or any other country. The introducer of this grand new Cabbage says: "Ten years ago I had sent me from Russia a trial package of several varieties of the Brassica family, including every class grown for the seed trade, none of which seem to possess superior merit other than this. Of the dozen or more plants of this type all were uniform in every respect and remarkable for perfection of form and solidity of head. From the lot we selected this as the best for seed. These were given the same care as we give to other sorts, saving the seed product, which was given a test next season. The second generation was a decided improvement over the first, and from this trial another selection for seed purposes was made, and with the same results. The third generation was so pleasing that we put out about half an acre in the summer of 1902, not one plant of which failed to produce a perfect head. All of this crop of seed was saved for seed purposes and put out in 1903 with most favorable results. We claim for this variety, first of all, uniformity. In one field of three acres there was not a single plant thrown out or that showed in any respect any variation from a true and valuable type. In uniformity and solidity of head it is a vegetable wonder, as the heads are about equal size and shape, weighing from twelve to fifteen pounds each, and unlike most types the heads are perfectly solid and the stems do not run up into the head nearly as far as in other types and the flesh is firm, tender and white, making it a most desirable form for krauts as well as for other purposes for which Cabbages are used. In hardness this Cabbage is a perfect wonder and will stand more than any other variety we have ever grown. The type is remarkable for quick growing habit, and we find that it will mature its heads fully two weeks earlier than any other late growing kind. If seeds are sown of any of the winter Cabbage on the 1st of July, this new variety, sown on the 15th, will perfect its heads first." Our crop of this Cabbage on our seed farm was a wonder to everyone who saw them and I am very anxious that all my customers who want a wonderful Cabbage should give this one a trial. We want a good name suitable for it and will pay \$25.00 to the person who suggests the one we select. After you once grow it you would never take ten times what the seed cost to be without it. Give it a trial and be convinced. Pkt., 10c.; 3 pkts., 25c., postpaid.

Early June Cabbage Earliest Cabbage in the World. Price per pkt. 10c., 3 pkts. for 25c.

(See Inside of Book Cover for Full Description.)

MILLS' FIRST IN THE MARKET—Nearly all my customers are familiar with this excellent early Cabbage. I introduced it several years ago, and it has been planted in tens of thousands of gardens throughout the United States and has always given the very best of satisfaction. It is one of the greatest early Cabbages I have ever seen to head well, and until the introduction of "Early June" this has stood at the head of my list for earliness, but I must confess that "Early June" will produce heads quicker and of even larger size than this sort, but no one can go back on "First in the Market." My seed is all carefully grown from select heads and I can supply it as follows: Per pkt. 5c.; oz. 15c.; ¼ lb. 60c.; ½ lb. \$1.00.

Early Spring Cabbage

EARLY SPRING CABBAGE—This is a first-class extra early round flat head Cabbage, differing in shape from my "Early June" or "First in the Market." The heads are always uniform, remarkably solid with but few leaves and I believe it is the earliest flat head Cabbage introduced and is giving great satisfaction everywhere. The stem is short, which makes it very valuable for truckers as well as private gardeners. The "Early Spring" quite often attains a weight of five pounds, and is very solid and firm. Those who want an extra early Cabbage of this description can make no mistake in ordering "Early Spring." (See illustration.) Pkt. 5c.; oz. 20c.; ¼ lb. 70c.; ½ lb. \$1.10.; lb. \$2.00.

Early Winningstadt.

Per pkt. 5c.; oz. 20c.; ¼ lb. 60c.; ½ lb. \$1.00; lb. \$1.75.

EARLY JERSEY WAKEFIELD—I feel perfectly safe in saying that I consider I have the finest and truest stock of Jersey Wakefield in America. There is no question but that Jersey Wakefield is one of the best early Cabbages in cultivation today and it is not to be wondered at that I should take particular pains in furnishing my customers with such an extra choice strain of seed. It forms an unusually large head almost as early as any of my other sorts. It is always sure to mature fine marketable heads in 100 days, or less, from planting. You should never buy cheap seed of this variety.

WARREN or STONE MASON—An old reliable late market sort; short stems and fine large heads. Per pkt. 5c.; oz. 10c.; ¼ lb. 35c.; ½ lb. 65c.; lb. \$1.20.

EARLY WINNINGSTADT—This is an extra good early Cabbage, forming large cone shaped heads of excellent quality and is very certain to head, as it will grow solid heads in season when other sorts fail to produce anything. Per pkt. 5c.; oz. 10c.; ¼ lb. 35c.; ½ lb. 65c.; lb. \$1.20.

MILLS' GIANT LATE FLAT DUTCH—For sureness in heading and regularity in growth, Mills' Giant Flat Dutch certainly heads the list of late cabbages. No words of praise are too high for its merits. It forms every time, large, solid heads, uniform in size and color, handsome in appearance. It has a very short stem and at the same time it is a compact grower. If there is a better cabbage in America than this I do not know of it, for every attainable sureheading cabbage has been tried and nothing has equaled my famous Flat Dutch. Farmers and all others planting this will realize more from it than any other late cabbage that I know of. Better pay an extra price for the seed and have a good crop than to buy inferior seed at a low price. 99 heads out of 100 plants set is nothing unusual. This catalogue is filled with excellent strains of cabbage, but none can surpass my Giant Flat Dutch. Per pkt. 5c.; oz. 12c.; ¼ lb. 40c.; ½ lb. 75c.; lb. \$1.25.

A Great Cropping Cabbage 7

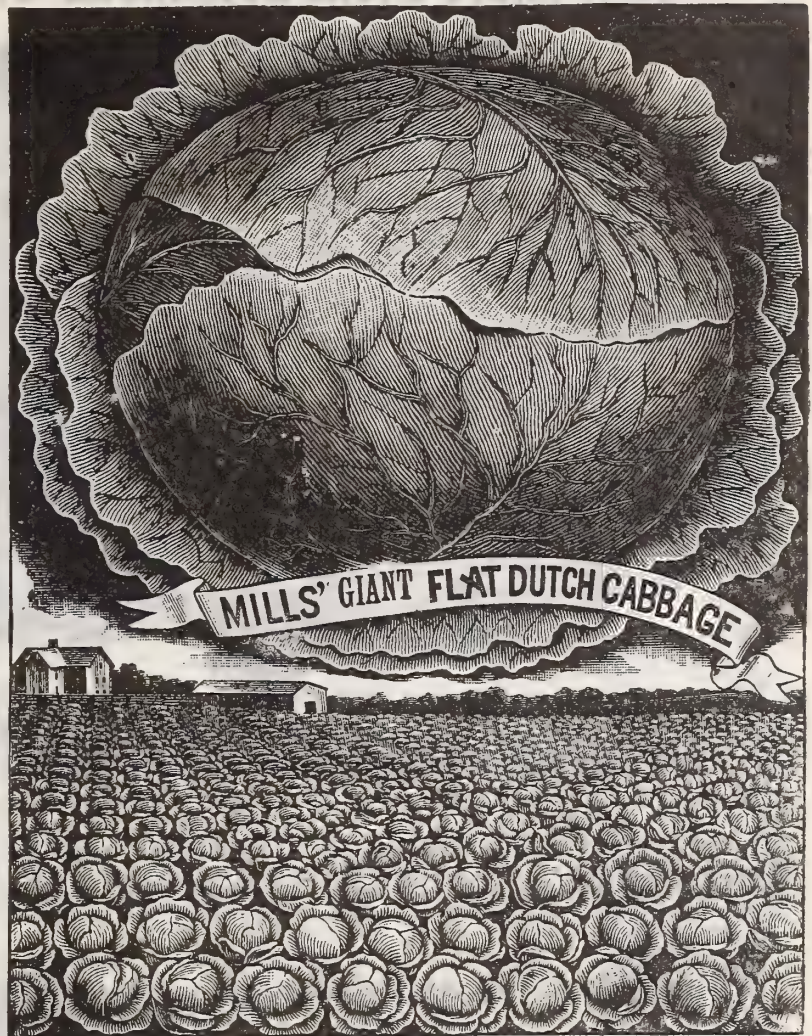

All Seasons.

ALL SEASONS—Early as the Early Summer and one-third larger. As its name indicates, it can be planted at all seasons of the year and produces a fine large head not liable to burst after heading. Per pkt. 5c.; oz. 10c.; ¼ lb. 35c.; ½ lb. 65c.; lb. \$1.10.

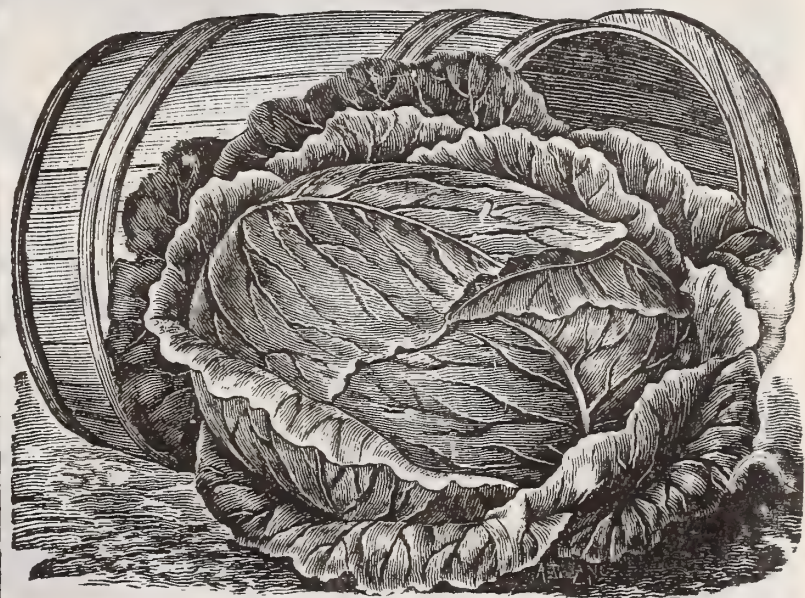

ALL HEAD EARLY CABBAGE—The earliest Cabbage in the world is Mills' "Early June." The best sure heading late Cabbage is our "new Cabbage." But what have you between? This I am frequently asked. I am now able to offer what is called All Head Early. This just fills the place. This is truthfully the finest large summer Cabbage in the world and, while this may seem a strong statement, I can prove it every time.

My claims are earliness, with heads twice as large as any other early Cabbage. The deep flat heads are remarkably solid and the most uniform in shape and size of any variety in cultivation. As tenderness is the result of rapid growth, it surpasses all others in this respect. It is the most thoroughbred of all American Cabbages and the heads grow so compact that full 1,000 more heads can be obtained to the acre than any other Cabbage. Price of extra selected stock, per pkt. 5c.; oz. 15c.; ¼ lb. 50c.; ½ lb. 90c.; lb. \$1.50.

MILLS' SUREHEAD—While the Giant Flat Dutch is my favorite variety, always producing an excellent crop, the Surehead comes very close to it and produces large, solid, firm heads, even in the most unfavorable season. Few other varieties can approach it in fine quality and uniform reliability in forming solid heads of good size. It produces large, round, flattened heads and is remarkable for its certainty to head. It is all head and always sure to head, even where other varieties fail. Single heads have weighed over 60 lbs. Per pkt. 5c.; oz. 12c.; ¼ lb. 40c.; ½ lb. 75c.; lb. \$1.25.

Mills' Surehead Cabbage.

IMPROVED HOLLANDER—This variety has been selected and perfected for more than fifty years by the Danish gardeners. They prize it so highly that they grow it almost exclusively for winter cabbage, and annually export large quantities to London, Paris and other cities. It will stand long journeys and keep far into the spring, and is of most mild and rich taste. Heads round as a ball, of good size, solid and very fine grained. Has but few outer leaves, thus admitting of close planting. Medium size and hardest of all, tender and crisp with but little waste heart. Has pleased thousands of our customers' Per pkt. 5c.; oz. 20c.; ¼ lb. 70c.; ½ lb. \$1.15; lb. \$2.10.

SURE CROP—This new variety of Cabbage "Sure Crop," will be greatly appreciated. It is sure to produce good heads in seventy to ninety days from the sowing of the seed. It is a wonderful variety of the best quality with few loose leaves. If planted quite close together produces a large crop. Give it a trial and you will be sure of a crop of Cabbage. All head and always sure to head. Per pkt. 5c.; oz. 15c.; ¼ lb. 50c.

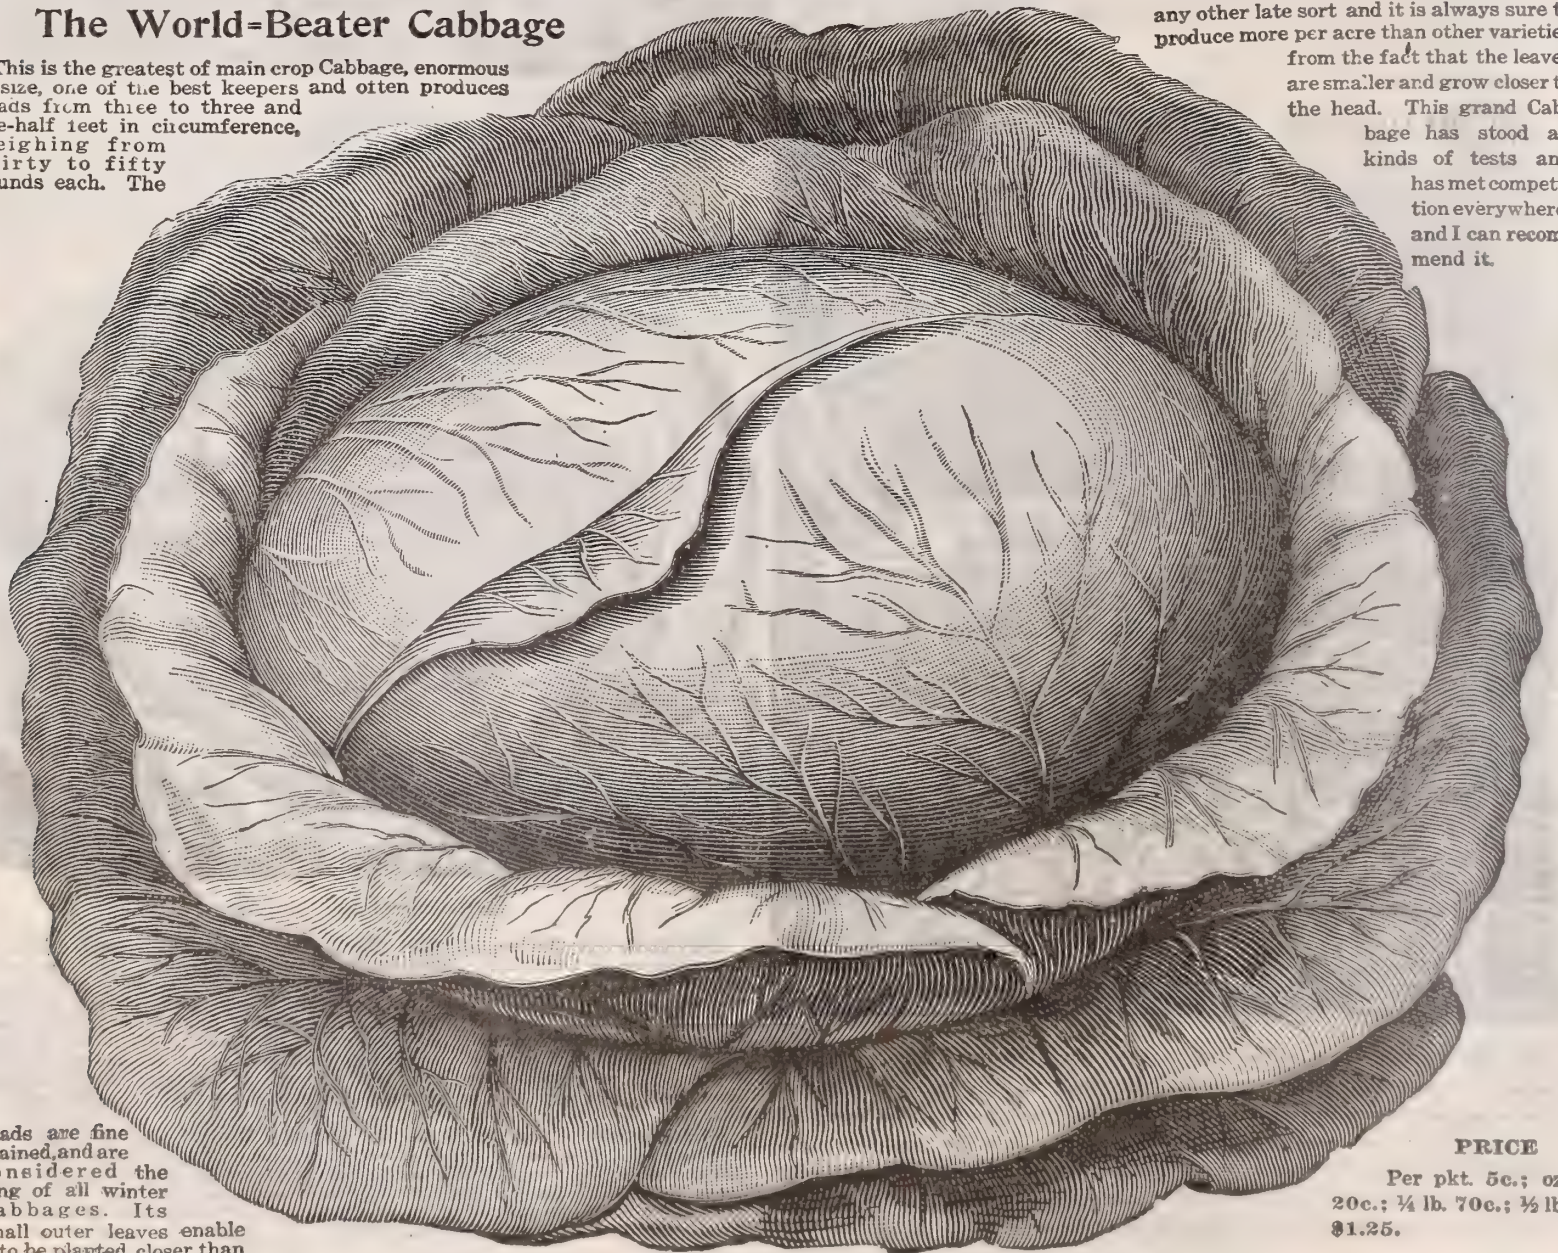

Mills' Short Stem Drumhead Cabbage

This splendid variety of winter Cabbage has given such universal satisfaction that I offer it as something of rare value and great merit. But few varieties can excel this famous sort in productiveness, beautiful appearance, excellent cooking and keeping qualities and the immense size of heads. Heads are extra hard and solid; are round and flattened on top. They grow very uniform in shape, with a strong, short stem, and present a very handsome appearance, as is shown by the engraving. From 100 heads set out, 95 large, solid heads may be expected. This is an excellent variety for customers in the South, where many varieties fail to head. Anyone can rely on the new Short Stem Drumhead. Per pkt. 5c.; oz. 12c.; ¼ lb. 40c.; ½ lb. 75c.; lb. \$1.25.

The World-Beater Cabbage

This is the greatest of main crop Cabbage, enormous in size, one of the best keepers and often produces heads from three to three and one-half feet in circumference, weighing from thirty to fifty pounds each. The

heads are fine grained, and are considered the king of all winter Cabbages. Its small outer leaves enable it to be planted closer than

Improved Danish Ball Head

This new Cabbage comes from Denmark and is prized so highly that the Danes grow it almost exclusively for winter Cabbage. The heads are hard, round, of good marketable size, fine grained and good keepers, but not so large as the late Flat Dutch, but are even harder and more solid. The true Danish Ball-Head has become wonderfully popular for winter market and I believe that in many sections, where Cabbage is largely grown, at least four-fifths of all winter Cabbage grown is Danish Ball-Head. My stock is extra fine imported seed, crop of 1905, and can be relied upon as the very best. Per pkt. 5c.; oz. 20c.; ¼ lb. 70c.; ½ lb. \$1.15; lb. \$2.10.

MAMMOTH ROCK RED—Largest Red Cabbage known; heads of a deep red inside and out and almost as solid as a rock. Per pkt. 5c.; oz. 15c.; ¼ lb. 40c.; ½ lb. 70c.

THE LUPTON

—This new winter Cabbage originated with Mr. Lupton, a well known Long Island cabbage grower, and found its first-class Cabbage. The stalk is rather short; color a dark green. The quality is fine and it is also one of the best keepers. The heads are not likely to crack, although it will not stand as long as "All Seasons," which is remarkable in this respect. It is very reliable and uniform in heading and is one of the very best. Per pkt. 5c.; oz. 15c.; ¼ lb. 50c.; ½ lb. 80c.; lb. \$1.30.

The Lupton

SPECIAL OFFER

Any 4 packets of Cabbage Seed, customer's selection, 15 cents.

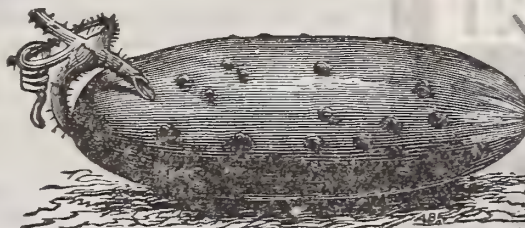

any other late sort and it is always sure to produce more per acre than other varieties from the fact that the leaves are smaller and grow closer to the head. This grand Cabbage has stood all kinds of tests and has met competition everywhere, and I can recommend it.

PRICE

Per pkt. 5c.; oz. 20c.; ¼ lb. 70c.; ½ lb. \$1.25.

CUCUMBERS= I have the finest selection of Cucumber Seed 9 ever offered. Prices of seed are by mail postpaid

MILLS' EARLIEST CUCUMBER. Best early variety in the world—This is an excellent early Cucumber and cannot be praised too highly. It is one of the earliest varieties, of good size and unequaled as a table sort, and in productiveness it is remarkable, being very prolific. Fruit grows from 5 to 8 inches in length, from 2 to 3 inches in diameter, and the illustration on front cover is as exact as can be made. They are always handsome, being uniform, straight and of a rich, dark green color. The flesh is tender, crisp and of excellent flavor. While this Cucumber is especially adapted for early planting for the table, it is equally as good for pickling. There is no Cucumber that can surpass Mills' Earliest. Per pkt. 10c.; 3 pkts. 25c.

Nichols' Medium Green Cucumber

are of a fine green color. Per pkt. 5c.; oz. 10c.

MILL'S FORCING WHITE SPINE—Very early and excellent for forcing purposes, equally as good as for outdoor culture. Excellent for customers in the South to grow for Northern markets. Per pkt. 5c.; oz. 10c.; ¼ lb. 25c.

EMERALD—I have added this Cucumber to my list on account of its being one that holds its color long after being picked. It has a dark green skin, free from warts and spines and is nearly smooth. It is suitable for pickling at any time, and good for forcing under glass as well as a good shipper. Per pkt. 5c.

FORDHOOK PICKLING—It is claimed by the introducer that this is the best variety of Cucumbers to plant for pickling, on account of their growing about three inches in length. This variety is an abundant yielder. The vines grow very strong and vigorous, and continue bearing for a long time. The skin is very thin, and makes the Cucumber very tender. If it is allowed to grow full size, it is good for table use, but you must remember that when cucumber vines are allowed to bear large fruits it will quickly check their growing and shorten crop. Per pkt. 5c.; oz. 10c.; ¼ lb. 25c.

NEW FAMOUS CUCUMBER—This is an extra long white spine Cucumber of the finest flavor of them all. Beautiful in appearance, being a long green. The vines produce an enormous crop; have large, thick, heavy leaves and the fruit grows from 10 to 16 inches long, always straight; very solid. This is a splendid Cucumber in every respect and will please all my customers, especially gardeners who want the most of all table cucumbers. Be sure and try this new Cucumber this year. Pkt. 10c.; 3 for 25c.

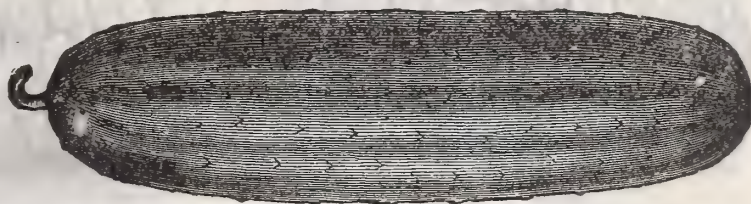

Peerless Improved White Spine Cucumber

EARLY RUSSIAN—This is one of the very earliest in cultivation and grows only about 8 inches long. It is fine for pickling. Give it a trial. Per pkt. 5c.; oz. 10c.

Cumberland

Evergreen Cucumber

EVERGREEN CUCUMBER—This new Cucumber is admitted to be an excellent pickling sort possessing all required qualifications as a perfect pickling Cucumber. Those who have grown it say that it bears three Cucumbers to ordinary kind's ore. It is a very strong grower, extra early and the fruits are excellent for slicing if allowed to grow to sufficient size. When ripe the color is yellow, but through other stages of its growth it is a handsome evergreen. Per pkt. 5c.; oz. 10c.; ¼ lb. 25c.

NEW CUMBERLAND CUCUMBER—This is a very desirable variety for pickling. The vines grow strong and fruit very freely. The Cucumbers are even size, regular form and are set very thickly on vines. This new Cucumber originated from a cross and I can certainly recommend it as very desirable especially where cucumbers for pickling are wanted. Per pkt. 5c.; oz. 15c.; ¼ lb. 40c.

GREEN PROLIFIC or BOSTON PICKLING—An excellent variety for pickling, and is immensely productive. It bears abundance of fruit of delicious flavor. Per pkt. 5c.; oz. 10c.; ¼ lb. 25c.

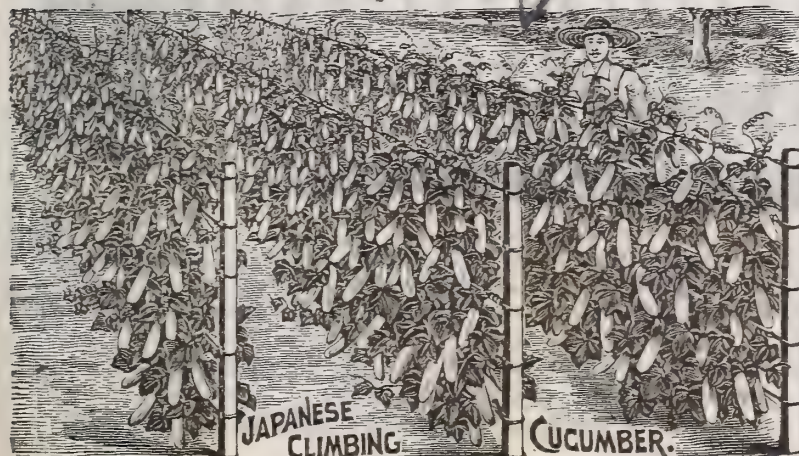

Green Prolific

IMPROVED LONG GREEN—A well-known variety. The fruit grows from 12 to 20 inches long and is one of the best for pickles, and when ripe the best for sweet pickles. Good for all purposes, and is heartily recommended. Per pkt. 5c.; oz. 10c.; ¼ lb. 25c.; ½ lb. 35c.; lb. 65c.

Improved Long Green

New Japanese Climbing Cucumber

JAPANESE CLIMBING

CUCUMBER.

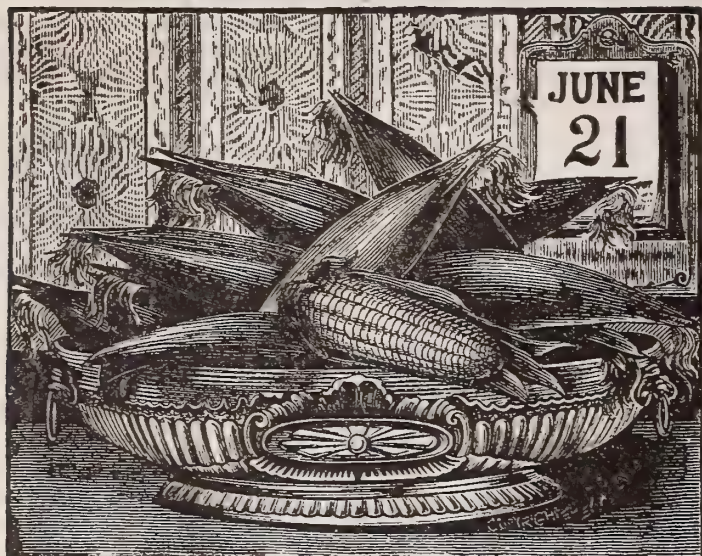

This is an excellent new variety and originally came from Japan. The young plants are bushy but as soon as they become well established, begin to climb, and may be grown on fences, poles or trellises. The vines are of healthy, vigorous growth and cling so tightly that they are not prostrated by heavy storms of wind or rain. They begin to bear early and continue to produce fruit throughout the season. The fruit is from 12 to 15 inches in length and produces but very few seeds, which makes them high in price. Per pkt. 6c.; oz. 15c.

MILLS' EARLY WHITE SPINE—This Cucumber cannot be praised too highly. It is nothing more nor less than an extra fine type of what is unquestionably the best and most widely grown in America. It is unsurpassed as a table and market sort, and is also used for pickling. No other kind exceeds it in productiveness, and it is equally good for forcing under glass or growing in the open air. The fruit is from 5 to 7 inches long and 2 to 3 inches in diameter. Color, a beautiful light green. Per pkt. 5c.; oz. 10c.

¹⁰ SELECTED SWEET CORN

The crop of Sweet Corn this season is about half crop, but my supply is sufficient to take care of all my customers.

I have the very best varieties of Sweet Corn in cultivation and exercise the greatest care in selecting my stock, which makes it superior to a great deal that is placed on the market.

New Sweet Corn "North Pole"

I believe that this new Sweet Corn is by far the best variety I have ever grown. It is a well known fact that there are numerous varieties of Early Sweet Corn, many claiming to have the earliest, but I have not, as yet, found anything that will equal "North Pole" in earliness, productiveness, making large handsome white ears in less time than any sort grown.

It is a genuine early Sweet Corn, earlier than "First Of All" and larger than any other early variety in the world and a very prolific grower, producing generally two well developed ears to a stalk. It has been thoroughly tested for the past four years and I find this wonderful early Sweet Corn not only combines the merits of other early varieties, but is really superior to them all. It can be planted very early in the spring, because the young plants will withstand slight frosts, while other varieties are tender; the seed will not rot if planted before the soil becomes warm. It is a wonder in this respect.

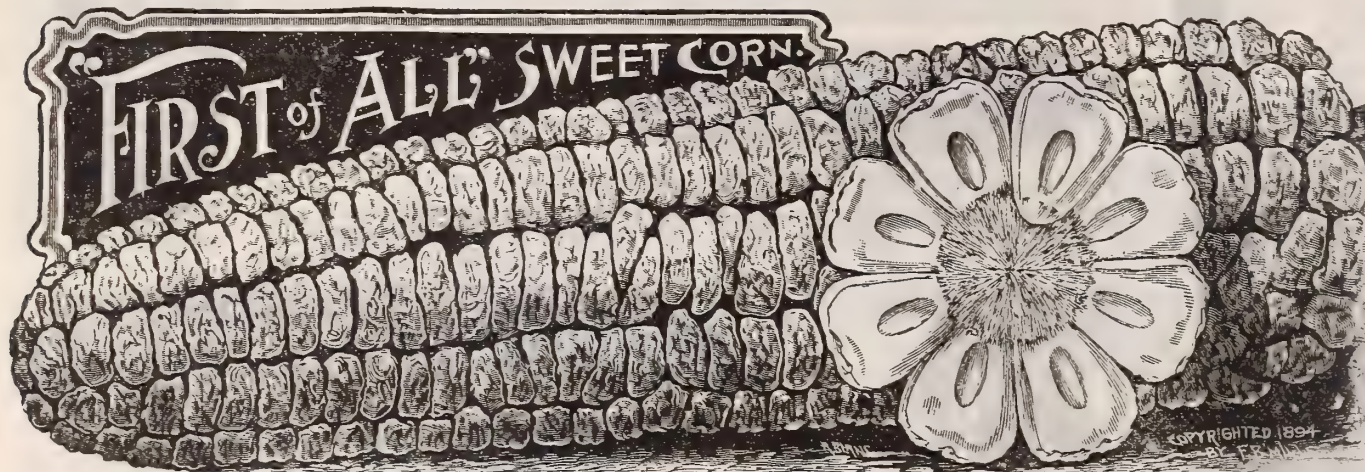

The illustration was made from an average ear as grown in our field the past season, and I can recommend this corn to every one who wants to grow the

earliest and best Sweet Corn in existence. It is surprising what wonderfully large ears this variety produces and it must not be compared with other early sorts. Try this Corn in your garden in 1903. While my stock is limited, I am in hopes to be able to have enough to go around, but not more than three packets will be sold to any one person. Per pkt. 10c.; 3 pkts. 25c. postpaid.

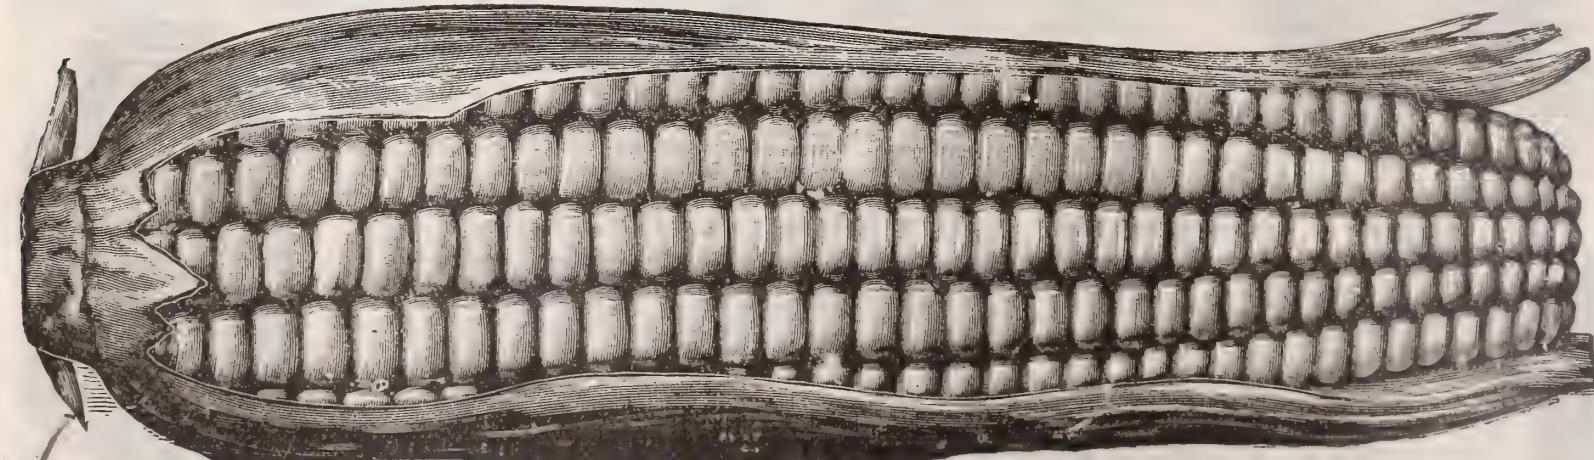

EXTRA EARLY WHITE CORY—With the exception of the "First of All," this is the earliest Sweet Corn and one of the best of all early varieties. The ears are of good size, sweet and fine quality and a first-class Corn for market gardens or private families. Pkt. 6c.; ½ pt. 12c.; pt. 20c.; qt. 35c. postpaid. By express or freight, not prepaid, pk. \$1.00.

EXTRA EARLY RED CORY—This is similar to White Cory with the exception of color, and I can supply it at the same price as the White Cory.

MILLS' "FIRST OF ALL"—This is the earliest Sweet Corn that I have been able to offer, even earlier than the Cory, which has previously been the earliest. It being a few days earlier than the Cory, not only makes it valuable for family use, but extremely valuable for market, where the earliest corn always brings the highest price. It is more dwarf in growth than the Cory, and superior in quality, tenderness and

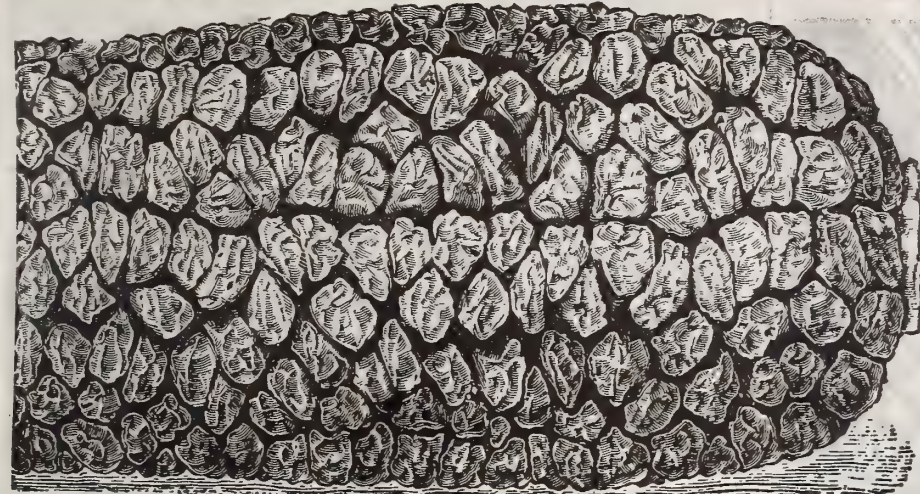

sweetness. The illustration, engraved from an average ear, reduced in size, shows the form of the ears, which are of medium size and well filled with large grains to the tip of a very small cob. Why not have the earliest Sweet Corn in your neighborhood? If you plant "First of All" you will have. I have a very nice stock to offer this year, all extra selected. Pkt. 6c.; ½ pt. 15c.; pt. 25c.; qt. 40c. postpaid. By express or freight not prepaid, pk. \$1.25; ½ bu. \$2.25.

MILLS' EARLIEST LARGE SWEET CORN—This is without doubt the largest eared early variety of Sweet Corn in cultivation, or at least I have found it so from trials made by the side of other sorts. The ears are 8-rowed, with very small cob, pure white in color. I have found it about as early as "First of All" and Cory, but where it is preferable is on account of its large sized ears. It remains fit for table use longer than any other corn cultivated. The stalks grow about five feet high, averaging about two ears each, entirely free from smut. Per pkt. 6c.; ½ pt. 12c.; pt. 20c.; qt. 35c. postpaid. By express or freight, not prepaid, pk. \$1.25; ½ bu. \$2.25.

MILLS' LATE MAMMOTH SUGAR—This is the very largest Sweet Corn. Stalks produce 2 to 3 perfect ears filled with large kernels of the best quality. Per pkt. 6c.; ½ pt. 12c.; pt. 20c.; qt. 35c. postpaid. By express or freight, not prepaid, pk. \$1.00; ½ bu. \$1.90; bu. \$3.75.

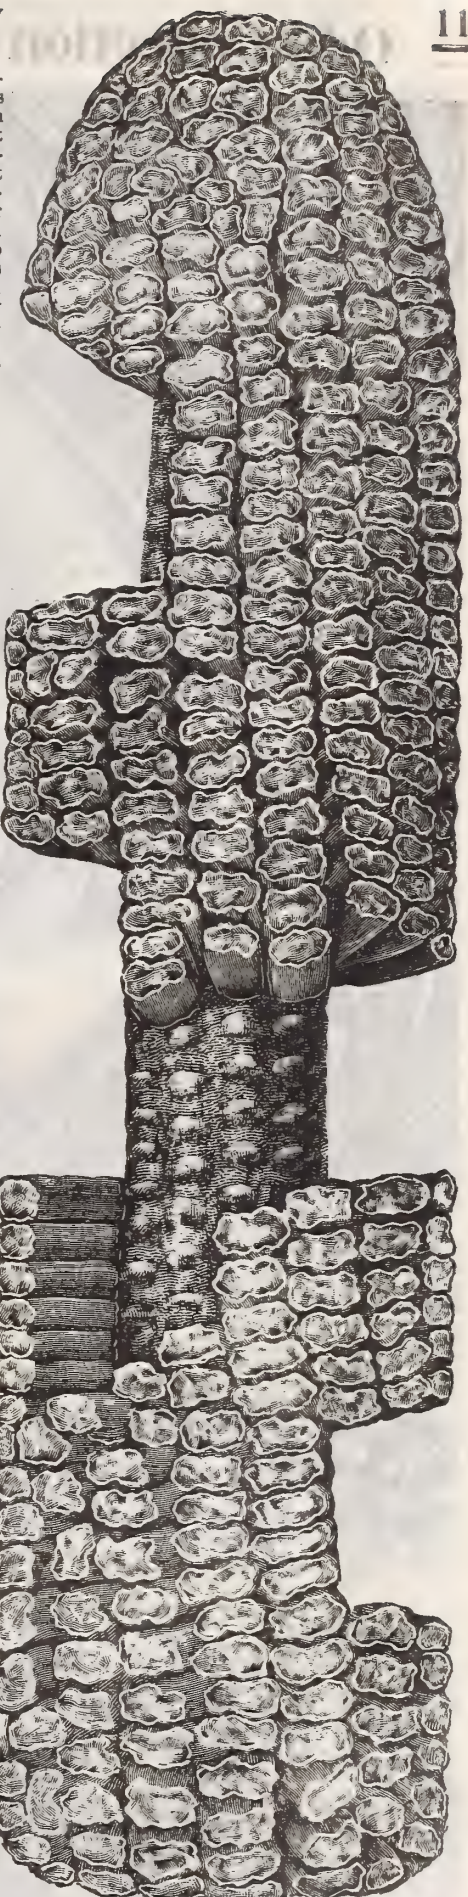

BLACK MEXICAN—Acknowledged by all to be the sweetest Corn grown. Not quite so early as some but exceedingly sweet, sugary and delicious. Per pkt. 6c.; ½ pt. 12c.; pt. 20c.; qt. 35c. postpaid. By express or freight, not prepaid, pk. \$1.00.

Zig-Zag Evergreen Sweet Corn

excellent variety for family gardens, market gardeners and canners. It can be planted any time during the season and be depended upon for a good yield. Try this corn. Per pk., 6c.; ½ pt., 12c.; pt., 20c.; qt., 35c., post-paid. By express or freight, not prepaid, pk., \$1.00.

ZIG-ZAG EVERGREEN--This is a new Sweet Corn and about eight days ahead of Stowell's Evergreen. It has very large kernels, resembling that variety and grows on the cob zig-zag fashion, as the illustration shows. It usually produces two perfect ears on each stalk, of such handsome appearance as readily to command a high price wherever offered. In trials the past summer, while other varieties did not produce a perfect ear, Zig-Zag had two as perfect ears as one could wish for. It is an

Stowell's Improved Evergreen Corn

New Sweet Corn, Gold Medal

A fine new variety I introduced four years ago and offered \$50.00 for a suitable name. Alice C. Ropes, of Salem, Mass., suggested the name Gold Medal, which was accepted, and hereafter this grand new variety will be known as GOLD MEDAL. I believe it is the finest Corn I have ever introduced. When I first purchased the seed stock I did so on account of its being so highly recommended. I have still improved it so that it is more perfect in form and produces an excellent crop, wherever it has a fair chance. It is pronounced by all who have tested it to be the best in quality of any Sweet Corn raised. It is medium in season, eight rowed, with creamy colored kernels when fit to cook. It is very sweet and tender and holds in that condition longer than any other. Do not fail to give this splendid variety a trial the coming season. Per pkt., 8c.; 3 pkts. 20c.

STOWELL'S IMPROVED EVERGREEN--This well-known variety is more largely planted by private families, gardeners and canners. My stock is the very best, being selected with great care, and I claim it to be superior to that advertised by other seedsmen as an improvement on Stowell's Evergreen. There certainly is no stock of Stowell's Improved Evergreen that can excel my "Improved." It is the very best for main crop. Per pkt., 6c.; ½ pt., 12c.; pt., 20c.; qt., 35c., post-paid. By express or freight, not prepaid, pk., 90c.; ½ bu., \$1.75; bushel, \$3.00.

Gold Medal Sweet Corn

POP CORN

offer the finest varieties of Pop Corn in cultivation. Everyone should include some of this seed in their order.

RED BEAUTY--It is very productive, of a beautiful red color and in every respect a first-class Pop Corn. Very tender and delicious and is sure to give satisfaction. Per pkt., 6c.; 3 pkts., 10c.; ½ pt., 15c.

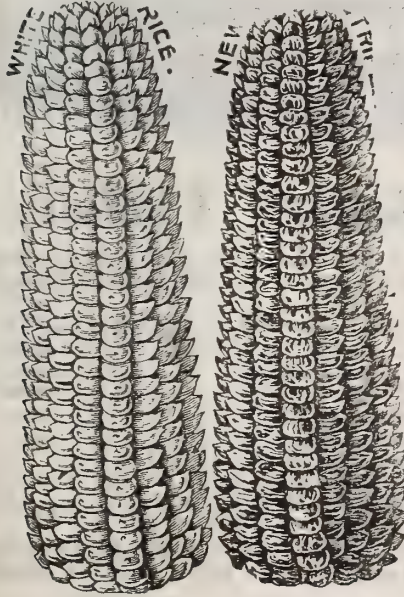

MILLS' STRIPED RICE--Clear, transparent white, and each kernel is striped with bright crimson. The ears are good size and pointed, resembling White Rice; ripen early. Per pkt., 6c.; 3 pkts., 10c.; ½ pt., 15c.; pt., 20c.; qt., 30c.

WHITE RICE--This is a well-known variety and the leading sort for the market. My stock is extra selected. Per pkt., 6c.; 3 pkts., 10c.; ½ pt., 15c.; pt., 20c.; qt., 35c.

MAPLEDALE PROLIFIC--This is a remarkable variety and is the greatest yielding sort ever found among Pop Corn. Stalks grow about 5 feet high, and it is claimed that as many as 12 ears have been produced on a single stalk. Its popping qualities are excellent, always pure white, and of good flavor. Pkt., 6c.; 3 pkts., 10c.; ½ pt., 15c.; pt., 20c.; qt., 35c.

Red Beauty Pop Corn

White Rice. New Striped Rice.

QUEEN'S GOLDEN--A beautiful golden color. Excellent for popping and very tender. Per pkt., 6c.; ½ pt., 15c.; pt., 20c.; qt., 35c.

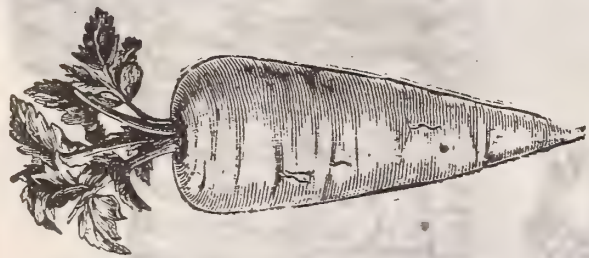

TATTOOED RICE--This is quite a novelty for Pop Corn. It is early, of rice type; color yellow. Blotched and marked in various ways. Per pkt., 10c.; 3 pkts., 20c.

Tattooed Rice Pop Corn

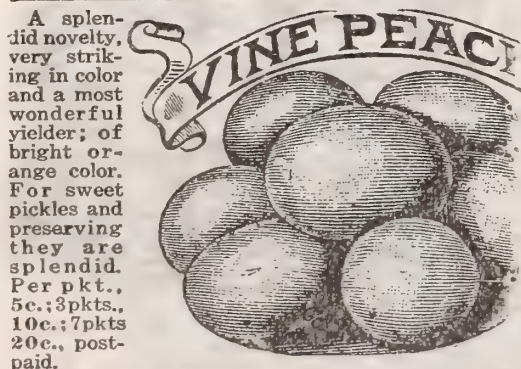

Here is a wonderful mixture of rare, strange and curious Gourds one would never think of seeing. The colors, shapes and sizes would astonish you. Just the seed you will want to plant for a curiosity. I claim that my mixture contains about all there is in the way of Gourds. Be sure to try a packet. Per pkt., 5c.; 3 pkts., 12c. oz., 15c.

PARSNIPS

The Long Smooth or Hollow Crown—One of the oldest and best varieties in cultivation; white, tender and of excellent flavor. Per pkt., 5c.; oz., 8c.; ¼ lb., 15c.; ½ lb., 25c.; lb., 40c.

A splendid novelty, very striking in color and a most wonderful yielder; of bright orange color. For sweet pickles and preserving they are splendid. Per pkt., 5c.; 3 pkts., 10c.; 7 pkts., 20c., postpaid.

PARSLEY

Champion Moss Curled—A selected variety, curly and excellent for seasoning. Pkt., 5c.; oz., 8c.; ¼ lb., 18c.; ½ lb., 30c.; lb., 45c.

HENDERSON'S EMERALD—Dwarf in growth, leaves finely curled. Pkt., 5c.; oz., 8c.; ¼ lb., 18c.; ½ lb., 30c.; lb., 45c.

White Velvet Okra

Never prickly and always round and smooth, while other varieties are either ridged or square edged. Out-yields other varieties. Per pkt., 5c.; oz., 10c.; ¼ lb., 25c.; ½ lb., 40c.; lb., 75c.

WHITE VELVET OKRA

RHUBARB OR PIE PLANT

LARGE VICTORIA—This is very large; of quick growth, fine flavor and is the standard variety. General favorite with market gardeners. Per pkt., 5c.; oz., 8c.; ¼ lb., 30c.; ½ lb., 50c.

Chinese Lantern Plant

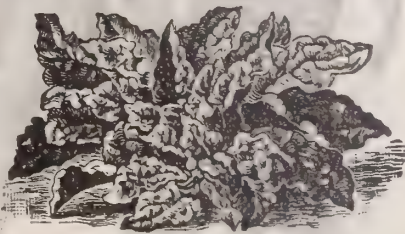

When treated like a tomato it grows and fruits freely from seed the first season. Produces numerous large unfolded husks, the shape of Chinese lanterns, at first a beautiful green color changing to yellow hue, then to bright scarlet. For pies, or dried in sugar for fruit cakes or puddings, it is most delicious. It is a Japanese production. Pkt., 5c.; 3 pkts., 12c., postpaid.

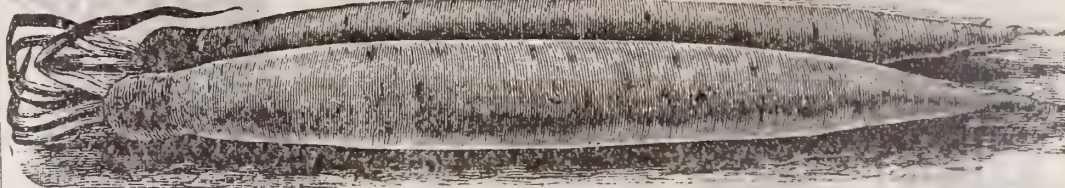

SPINACH

NEW LONG STANDING—A very popular new variety; best for spring sowing; leaves are large, thick and crumpled. Per pkt., 5c.; oz., 6c.; ¼ lb., 12c.; ½ lb., 20c.; lb., 30c.

ROUND THICK LEAVED—Grows large, thick, dark green leaves somewhat crumpled. Per pkt., 5c.; oz., 6c.; ¼ lb., 12c.; ½ lb., 20c.; lb., 30c.

Saisify or Vegetable Oysters—Mammoth Sandwich Island The best variety grown; of large size; fully double the size of other sorts. Leading variety among gardeners. Delicious flavor. Per pkt., 5c.; oz., 10c.; ¼ lb., 25c.; ½ lb., 45c.; lb., 80c.

\$1.00 Garden Seed Offer

My \$1.00 Garden Seed Collection is the most astonishing offer ever made. The collection contains one regular sized packet of each of the following: (For a full description of the different varieties see other parts of Catalogue.)

Asparagus—Conover's Colossal. Beans—Early Red Valentine; Bush Lima. Beets—New Columbian; Improved Long Smooth Blood Red. Cabbage—Early Express; Mills' Short Stem Drumhead. Carrot—Improved Long Orange. Celery—Giant Pascal. Sweet Corn—White Cory; Black Mexican. Pop Corn—Queen's Golden. Cucumbers—Green Prolific; Improved White Spine. Lettuce—Improved Hanson. Musk Melon—Emerald Gem; Osage, or Miller's Cream. Water Melon—Fordhook Early; Wonderful Sugar. Onions—Yellow Globe Danvers; Mam. Red Pompeii. Peas—New Juno; Champion of England. Parsnip—Hollow Crown. Pepper—Red Etna. Pumpkin—New Calhoun. Radish—Long Scarlet Short Top; Early Rosy Gem. Spinach—New Long Standing. Squash—White Bush Scallop; Boston Marrow. Tomato—Earliest in the World; Mills' Matchless. Turnip—Early Snowball or Six Weeks; Improved American Purple Top.

This makes 35 full size packets, which will be sent to any address in the United States for \$1.00 (or to Canada for \$1.10). You get nearly everything required for your garden for only \$1.00, and 50c. worth in packets. (See back of order sheet.)

MILLS' EARLIEST
THE EARLIEST LETTUCE IN THE WORLD.

MILLS' EARLIEST LETTUCE—This is the EARLIEST LETTUCE IN THE WORLD; beautiful flavor and shape, and will make more money for the market gardener than any other variety. It is a Lettuce for early, for general crop or any time, and I do not think it can be improved. Makes heads very quickly and will please every one who plants it. Per pkt., 5c.; oz., 12c.; ¼ lb., 40c.; ½ lb., 75c.

ST. LOUIS BLACK SEEDED FORCING—A new variety used almost exclusively for green house and hot bed culture, but can be grown successfully in the open field. It makes a very strong and rapid growth thus making it more tender and sweet than the slow growing varieties. It does not belong to the heading varieties, but if given the proper care one plant will be enough for four or five persons. I cannot offer it in larger quantities than packets as my stock of seed is limited. Per pkt., 5c.; 3 pkts., 12c.

TENDER AND TRUE (Picnic Lettuce)—All ladies are looking for a delicious Lettuce for sandwiches. This is it; unequalled for sandwiches; now generally known as the picnic lettuce. Be sure and order it. It is very valuable for forcing as well as for open ground cultivation. It is medium in size and has a very attractive appearance. It has but very little stalk, which makes it very solid. The leaves are thin, slightly crumpled, very crisp, tender and entirely without heavy veining, which makes some of the best so bitter to the taste. It is excellent for early spring sowing in the open ground and always "Tender and True;" free from rot and remains longer without wilting, when exposed for sale, than any other forcing Lettuce. Remember I have the entire stock and can offer it in packets only at the following prices: Per pkt., 5c.; 3 pkts., 12c.; oz. 10c.

New Iceberg Lettuce

Leaves are almost white; grows large and is of fine quality; excellent for early planting. Per pkt., 5c.; oz., 10c.; ¼ lb., 25c.; ½ lb., 40c.; lb. 75c.

NEW ICEBERG—This is a very quick growing variety of excellent flavor. The leaves are curly, of a bright green color. The head grows in such shape that it forms white ribs in the leaves, each one curving to the center so that they do not open outward and expose the center of the head to the sun. Per pkt., 5c.; oz., 10c.; ¼ lb., 30c.; ½ lb., 50c.; lb. 90c.

DENVER MARKET—Forms solid head of delicate light green color, and the leaves are somewhat blistered like Savoy Cabbage. It is good for forcing or open ground and slow to run to seed. Per pkt., 5c.; oz., 10c.; ¼ lb., 20c.; ½ lb., 35c.; lb. 60c.

Improved Hanson

American Gathering Lettuce

AMERICAN GATHERING—The tips of the leaves are marked with red, differing from most other varieties. It is solid, crisp and of good quality. Per pkt., 5c.; oz., 10c.; ¼ lb., 20c.; ½ lb., 35c.; lb. 60c.

NEW HARD HEAD—Grows very readily and heads extremely early. Unsurpassed in quality and beautiful in appearance. Per pkt., 5c.; oz., 10c.; ¼ lb., 20c.; ½ lb., 35c.; lb. 60c.

IMPROVED HANSON—A popular Lettuce of heading stock. Heads green outside and white within; sweet, crisp and tender even to the outer leaves. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; ½ lb., 35c.; lb. 60c.

BORECOLE OR KALE

DWARF GERMAN KALE—Is excellent for greens in the winter or spring. The leaves are bright green in color, somewhat curly and very tender. This variety is almost as hardy as a cabbage. Seed should be sown about May, or early in June, and then when plants are large enough transplant the same as cabbage. Per pkt., 5c.; oz., 10c.; ¼ lb., 25c.; ½ lb., 45c.; lb. 75c.

ENDIVE

GREEN CURLED—This is a very hardy variety, has dark green leaves, always blanch white and crisp. Per pkt., 5c.; oz., 15c.; ¼ lb., 35c.; ½ lb., 55c.

BROAD LEAVED BATAVIAN—Produces large heads of broad wide leaves, used for flavoring soups, and if blanched the leaves make a good salad. Per pkt., 5c.; oz., 15c.; ¼ lb., 30c.; ½ lb., 55c.

LETTUCE 13

PAN-AMERICAN LETTUCE—Here is a variety of Lettuce I know is just what has been wanted for a long time—one that can be

Pan-American Lettuce

grown at all seasons and yet be tender and sweet. It can be grown in the house in the winter, or in the garden in summer and might be called an all season Lettuce. It grows to a medium size in the house and somewhat larger when grown in the open garden and has a peculiar way of forming a head. The stalk is small and the leaves are thin, slightly curled, very crisp and tender and are free from any bitter taste. Another very important point about this new Lettuce is that it is slow to run to seed and remains very tender almost the entire season. It is a very hardy Lettuce and will stand more wet and cold weather than any other sort. The plants always present a bright green appearance, each plant making a compact head. Sow a packet each week during the spring and summer and have fresh Lettuce all the season. Per pkt., 5c.; 3 pkts., 12c.

TOMHANNOCK—Grows quickly and forms a beautiful plant from 10 to 12 inches high. The leaves grow upright and are handsomely wrinkled, as shown by the engraving. Per pkt., 5c.; oz., 10c.; ¼ lb., 20c.; ½ lb., 35c.; lb. 60c.

BLACK SEEDED SIMPSON—Superior to the Early Curled Simpson, being much lighter in color. The

Tomhannock Lettuce

THE EARLY CURLED SIMPSON—With the exception of my Earliest, it is one of the earliest for out-door culture. Per pkt., 5c.; oz., 10c.; ¼ lb., 20c.; ½ lb., 35c.; lb. 60c.

EARLY PRIZE HEAD—A good variety; is quite early; forms heads; good flavored and is slow to run to seed. Pkt., 5c.; oz., 10c.; ¼ lb., 20c.; ½ lb., 35c.

SILVER BALL—One of the very finest all the year around varieties; of excellent quality and good for early spring and summer use as well as for winter forcing. Pkt., 5c.; oz., 10c.; ¼ lb., 25c.; ½ lb., 45c.

GOLDEN BALL—Heads are of attractive golden color; excellent flavor, early and will stand a long time before going to seed. Per pkt., 5c.; oz., 10c.; ¼ lb., 20c.; ½ lb., 35c.; lb. 60c.

Golden Ball Lettuce

SPECIAL NOTICE—Any 5 packets of Lettuce only 15c., postpaid.

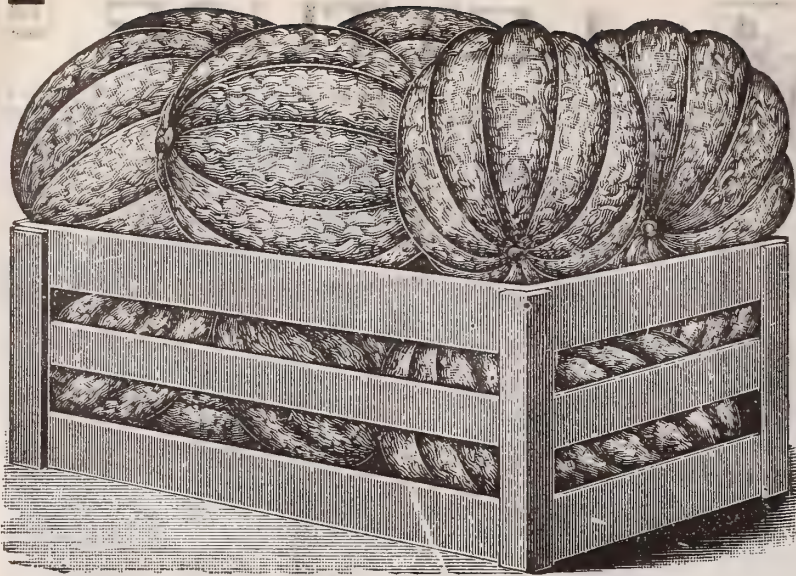

CRESS

FINE CURLED—(Pepper Grass)—Agreeable taste to salad. Per pkt., 5c.; oz., 10c.; ¼ lb., 35c.

DANDELION

IMPROVED LARGE LEAVED—Very early; if sown in May will be fit to cut in July. A very valuable variety. Pkt., 10c.; ½ oz., 25c.; oz., 40c.

MUSK MELONS

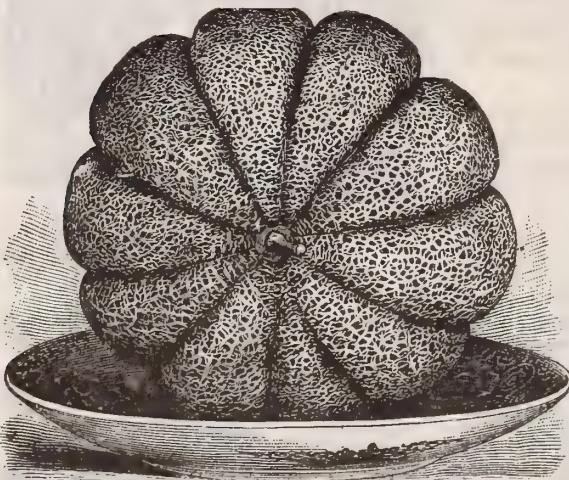

Mills' Earliest Musk Melon.

on account of its being produced from a section of Colorado, is why it has taken the name of Rocky Ford. It certainly is a very fine Melon and all who grow it will be much pleased. Per pkt. 5c.; oz. 10c.; ¼ lb. 30c.; ½ lb. 50c.; lb. 90c.

Mills' New Strawberry Musk Melon.

MONTREAL MARKET—The largest round Musk Melon in the world, weighing from 30 to 40 lbs. each; slightly ribbed; ripens early and keeps well. Per pkt. 5c.; oz. 10c.; ¼ lb. 30c.

Improved Jenny Lind Musk Melon.

IMPROVED JENNY LIND—This is a splendid early variety, and the best Musk Melon ever grown, according to Dr. Harris. It being very early makes it valuable to grow in the North. The vines are hardy in growth and bear abundantly handsome melons of fine flavor. Per pkt. 5c.; oz. 10c.; ¼ lb. 25c.; ½ lb. 45c.

Ornamental Pomegranate.

This is a handsome little fruit, averaging a trifle smaller than the Vine Peach, perfectly round and dark yellow, irregularly striped and flashed with deep mahogany color. It is very fragrant, and is claimed by some to be superior to Vine Peach for preserves. It grows on a vine similar to Vine Peach, but leaves are somewhat smaller. Per pkt. 5c.

MILLS' NEW STRAWBERRY MUSK MELON—Here is quite a novelty in Musk Melons, and has only recently been introduced. From trials I have made of it, it has proven to be a very satisfactory melon. The originator claims it has a flavor like that of the strawberry, hence its name. It is of the small netted type, and the fruit weighs from five to ten pounds each. Its flesh is of an attractive orange red color, and is highly recommended by all who have grown it. Color of the outside is green turning to yellow hue as it ripens. It is claimed that the way this new melon was originated was by planting certain varieties of strawberries between every other row of the New Hybrid Musk Melon, and in this way a splendid Musk Melon has been developed which we call Strawberry. I have been fortunate in growing a limited amount of seed, and offer my customers choice stock at very low prices. Per pkt. 5c.; oz. 10c.; ¼ lb. 35c.; ½ lb. 50c.; lb., 90c.

EXTRA EARLY HACKENSACK—This comes from a selection of the popular Hackensack, but ripens fully ten days earlier. The Melons are of good size, heavily ribbed and netted thickly with light green; flesh of fine flavor. Pkt. 5c.; oz. 15c.; ¼ lb. 35c.

OSAGE OR MILLER'S CREAM—Flesh rich salmon color, very thick, sweet and melting in quality. The rind is thin and finely netted; very early. Per pkt. 5c.; oz. 8c.; ¼ lb. 20c.; ½ lb. 30c.; lb. 50c.

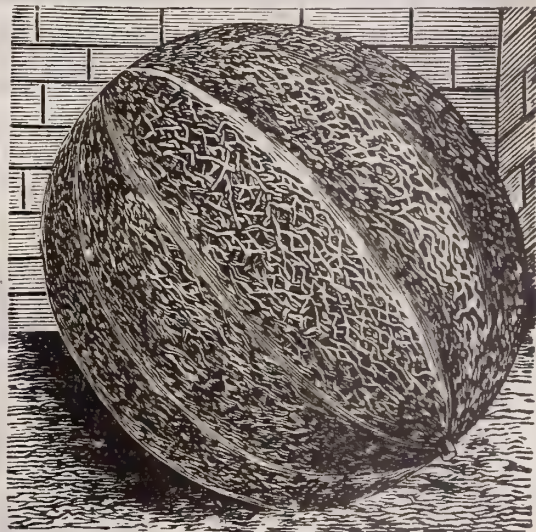

EMERALD GEM—One of the very best. Skin is smooth and emerald green in color. Vines grow thrifty and produce an abundance of fruit. Per pkt. 5c.; oz. 8c.; ¼ lb. 30c.

GIANT CHICAGO MARKET

—This fine Melon has been a favorite in the Chicago market for many years. It originated with a market gardener of long experience, especially successful as a Melon grower, in which no little skill is required, as market men well know. It is claimed that these Melons have sold for \$3.00 per dozen to vegetable markets and commission houses, since first introduced. It is the very best quality; flesh is rich and sugary; grows to a large size and is very productive. It is ribbed, extra well netted and has very thick green flesh. For shipping it has not a superior. Per pkt. 5c.; oz. 10c.; ¼ lb. 25c.; ½ lb. 45c.

MILLS' EARLIEST—This is the EARLIEST Musk Melon that I know of, and is sure to create a sensation wherever grown. It is ahead of the Jenny Lind, and in fact, ahead of all the Musk Melons offered. The melons are of uniform size, of fine shape and appearance, extremely delicious and sell in any market. They are nearly round, as may be seen by the illustration; of good size, finely netted, while inside they are of a rich orange color, and I venture to say the flesh is thicker than any other variety in cultivation, there being a very small seed cavity. As to the flavor, it takes the lead, is far ahead of anything I have ever tested. It can be recommended alike for either home or market use, and has fully demonstrated that it deserves the name MILLS' EARLIEST. Nothing is so delicious as a really good early Musk Melon. I know that this, the earliest, sweetest and most delicious Musk Melon, will please everybody growing it, whether growing one or two hills or five or ten acres. Per pkt. 5c.; oz. 10c.; ¼ lb. 35c.; ½ lb. 60c.

ROCKY FORD OR NETTED GEM—This Melon has become famous. It is an early variety, of small size, weighing from 1¼ to 1½ lbs.; skin is green, ribbed and thickly netted, while the flesh is thick, of a light green color. It is a very firm and solid Melon and will keep in perfect condition for fully a week after being taken from the vines. Some claim that it comes from the Netted Gem, and

Rocky Ford or Netted Gem Musk Melon.

PERFECTION OR PRINCESS—It is of nutmeg shape, quite even size, weighing from 6 to 8 lbs. each; skin is a dark green color, heavily netted. Flesh is of a salmon color, very rich and sweet flavored. Per pkt. 5c.; oz. 10c.; ¼ lb. 35c.

Giant Chicago Market Musk Melon.

Special Offer Any 4 packets of Musk Melons for only **15c**

WATER MELONS 15

MILLS' EARLIEST WATER MELON—This is absolutely the Earliest Water Melon known, except Harris' Early. It is of the most delicious flavor, very juicy and sweet and is splendid for family use, as a few vines yield many early melons. Everyone should try this new early Water Melon. It is the melon to plant if you are in a climate where the seasons are short, for it will ripen where other varieties will not. The flesh is deep red in color and exceedingly brittle. Give it a trial. Per pkt. 5c.; oz. 10c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 65c.

NEW FAVORITE—Flesh bright red; excellent for shipping, and buyers will have no other when they can obtain this. Per pkt. 5c.; oz. 8c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 60c.

CITRON—Fruit round, handsome and small; used for making preserves only. Per pkt. 5c.

HARRIS' IMPROVED EXTRA EARLY—A few years ago, Mr. B. F. Harris, of Tennessee, originated and introduced what he called Harris' Early Water Melon, which was, at that time, the earliest of all. Since then Mr. Harris has been working on an improvement of this strain, and has finally succeeded in bringing out his famous Improved Extra Early. This is the best extra early Water Melon on earth. It will mature anywhere where melons will grow. The shape and appearance of this Water Melon is shown by the illustration. The skin is mottled with green and white, while the flesh is red, sweet, juicy and crisp. If you want the earliest of all, plant this improved strain. Per pkt. 8c.; 3 pkts. 20c.

HARRIS' EARLY WATER MELON.—With the exception of Harris' Improved, this is the earliest Water Melon offered. Mr. Harris says that for more than twenty years he has been trying to find an extra early Water Melon that could be depended upon, and his Extra Early meets the requirements. It will ripen and be gone before common melons begin to ripen. It is a good sized melon for an extra early, ripening in from 60 to 70 days, weighing from 15 to 20 pounds each, which can be shipped thousands of miles. I wish to say to my customers that I have a fine lot of this seed and for a crop I would certainly recommend it, but if you want a melon still earlier plant a packet of the Improved, which is just being introduced this season and we control the seed stock. Price of this Water Melon per pkt. 5c.; oz. 10c.; ¼ lb. 25c.

KOLB'S GEM—Largely grown in the South for shipment to Northern markets; fruit nearly round; rind dark green marbled with lighter stripes. Per pkt. 5c.; oz. 10c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 70c.

CUBAN QUEEN—A large variety, often weighing 80 lbs. each. The rind is marked with irregular stripes of light and dark green; a very snowy variety and largely grown. Per pkt. 5c.; oz. 10c.; ¼ lb. 25c.; ½ lb. 45c.; lb. 80c.

MAMMOTH IRON-CLAD—Excellent variety of large size; the weight averaging nearly 50 lbs. each. The flesh is deep red and of the best flavor. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.

NEW DIXIE—Beautifully striped. The flesh is of intense deep bright scarlet, very sweet and tender. Growers say the Dixie is the best eating and the most productive melon they have ever grown. Per pkt. 5c.; oz. 10c.; ¼ lb. 25c.

Harris' Improved Extra Early Water Melon.

KLECKLEY SWEETS—This is a famous Water Melon and has become very popular. Skin is tender, which does not permit its being shipped a long distance to market. It is more desirable to plant for the home garden or nearby markets. Fruits are oblong in form, large size with dark green skin and very brittle, thin rind. Flesh is a bright scarlet with white seeds, crisp and entirely free from any stringiness. This grand melon will surely please anyone. Per pkt. 5c.; oz. 10c.; ¼ lb. 30c.; postpaid.

FORDHOOK EARLY—This is one of the very earliest Water Melons. The introducer says that from seed planted the 10th of May large ripe melons were picked the last week in July. The average weight is from 35 to 40 lbs. each. Color medium green; flesh is a bright red and very sweet. Per pkt. 5c.; oz. 10c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 60c.

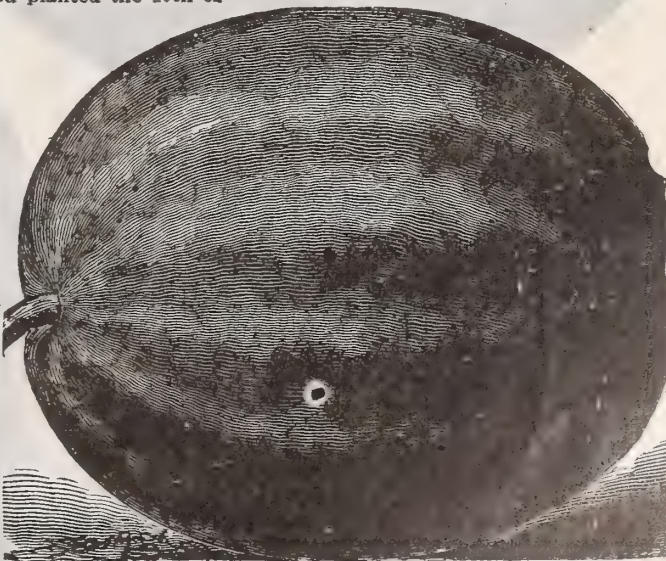

SWEETHEART—This grand new melon is one of the earliest; large, handsome, good keeper; fruit large; rind thin but firm; ripens early; flesh very bright red, solid and thick. Per pkt. 5c.; oz. 10c.; ¼ lb. 20c.

ICEBERG OR BLUE GEM—In general shape, size and appearance, this is similar to Kolb's Gem, but is distinctly darker, and the skin where the melon rests on the ground is rich yellow instead of white as in that variety. It has a very firm, hard rind, and excellent good shipper. Per pkt. 5c.; oz. 10c.; ¼ lb. 30c.

THE WONDERFUL SUGAR-MELON—This splendid Water Melon has become very popular and is grown in some localities to the exclusion of most other sorts. It is oblong shape; the flesh is of a soft, pale pink and the melons have a solid heart; fine keeper. The rind is never more than an inch thick. Does well in any weather. It has a delicious flavor. Every one should give this melon a trial. Per pkt. 5c.; oz. 10c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 60c.

DUKE JONES—This is a large, blocky oval fruit, but quite thick through. They are excellent for shipping. Fruits grow very large. Have a dark green skin with bright red flesh of excellent quality. Per pkt. 5c.; oz. 10c.; ¼ lb. 25c. postpaid.

Fordhook Early Water Melon.

Mills' Reliable Onion Seed

Celebrated "Prize Taker" Onion

THE PRIZE TAKER is a fine variety and hard to excel, if you get the genuine American grown Prize Taker. It is large and handsome, of superior quality and grows uniform in size, nearly a perfect globe as shown in the illustration.

It has a very small neck and always ripens up hard and fine, without any stiff necks. The skin is of a bright straw color. It grows to an enormous size, often measuring from 10 to 15 inches in circumference; attracts attention in any market and can be sold at a better price than any other variety. The keeping qualities are excellent and the bulbs appear to be as firm and solid in the spring as when put away in the fall. I can guarantee to supply the genuine American grown Prize Taker seed at the following prices: Per pkt., 5c.; oz., 10c.; ¼ lb., 25c.; ½ lb., 40c.; lb., \$1.00.

BROWN WONDER ONION (New Variety)—Here is a variety that will please every person growing Onions of any kind. It makes a beautiful appearance wherever offered. This Onion is extremely early in ripening and never makes scallions or stiff necks. It is very hard and solid, more so than any Onion I have ever grown. The bulb grows to a good size, even when the plants are young. It is an excellent keeper, in fact I think it will keep longer than any Onion I have ever known. The color is a clear brown, and quite a novelty to everyone. It cannot be half appreciated until after once grown. Be sure that you try it this year. I have only a small stock of seed. Per pkt., 5c.; 3 pkts., 12c.

New White Queen

—Bulbs are small, flat, pure white and of excellent flavor. Sown in February they will produce Onions 1 to 2 inches in diameter early in summer. Sown in summer they will be ready late in autumn; excellent for pickling. All who want hard, mealy little White Onions should plant this variety. Per pkt., 5c.; oz., 12c.; ¼ lb., 50c.; ½ lb., 85c.; lb., \$1.60.

White Queen Onion

The Prize Taker Onion

LARGE RED WETHERSFIELD—There are many strains of this celebrated Onion offered, but I am positive that none can surpass my famous stock of this popular variety. Some strains will not mature until late in October, and this is what Onion growers should avoid. I have taken particular pains for years in selecting from bulbs that will produce very large crops of late Onions; two pound specimens the first year, from seed, are of frequent occurrence. It is a magnificent keeper and produces enormous crops; 600 to 800 bushels are frequently raised upon a single acre. The skin is a deep purplish red; the flesh white, moderately fine grained. They are good for shipping and I claim there is no strain that can surpass my famous stock of this popular variety. Thousands of my customers endorse it as the best they have ever sown. Every Onion grower receiving this Catalogue should order their supply of me, for I can furnish the best stock that can be had, at as low a price as such stock can be furnished by any seedsman. Per pkt., 5c.; oz., 8c.; ¼ lb., 25c.; ½ lb., 50c.; lb., 90c.

MAMMOTH SILVER KING—This variety grows very large. Bulbs are of attractive shape flattened but thick through, as shown in engraving; average diameter 5 to 7 inches; bulbs often weigh 2½ to 4 lb. each. Skin is a beautiful silver white; flesh is particularly mild and pleasant flavor. It can be grown in nearly all sections of the United States from

seed the first year. Any one desiring the largest and handsomest White Onions, of the finest flavor, will be more than satisfied with the Mammoth Silver King. It cannot be too highly recommended, either for family use or for sale at markets, where its size and beauty will prove very striking. Per pkt., 5c.; oz., 15c.; ¼ lb., 40c.; ½ lb., 75c.; lb., \$1.40.

MAMMOTH RED POMPEII—This magnificent mammoth Onion originated in Italy. It is of very fine quality and has produced Onions weighing 2½ to 3 lbs. from black seed the first year. Notwithstanding their enormous size, their shape is always round and symmetrical. Their skin is very thick and delicate in appearance, and is a beautiful reddish brown color. Flesh is pure white, very fine grained and remarkably mild and pleasant in flavor. In sections where Onions can be grown during the autumn, this variety, if transplanted in April, will attain larger size than almost any other variety. Per pkt., 5c.; oz., 10c.; ¼ lb., 35c.; ½ lb., 65c.; lb., \$1.25.

SOUTHPORT RED GLOBE—This is a splendid large Red Globe Onion and is similar to the White Globe, except in color. It matures quite early; of perfect globe shape; large size, deep red skin, fine grain, flesh mild and tender; very productive and is an excellent keeper. This Onion has become very popular in market, and Onion growers are growing large crops. Per pkt., 5c.; oz., 10c.; ¼ lb., 35c.; ½ lb., 65c.; lb., \$1.25.

Mills' Selected Yellow Globe Danvers 17

Mills' Selected Yellow Globe Danvers.

EXTRA EARLY RED—This is one of the standard American Onions, adapting itself to a wide variety of soils and situations. It will succeed in cold, mucky ground where other sorts would fail. It matures ten days sooner than the Red Wethersfield, and in rich soil grows almost as large. Extra Early Red is a somewhat flattened Onion. It can be made to produce fine, marketable Onions in 90 days from the sowing of the seed. It is of mild flavor and keeps well. The color is a deep, rich red, the grain is fine and close, and the Onion is solid and heavy. It is hardy and reliable, and well adapted for the early market. This Onion will succeed almost anywhere, but is peculiarly fitted for northern latitudes, where the seasons are short and cool. Per pkt., 5c.; oz., 10c.; ¼ lb., 25c.; ½ lb., 50c.; lb., 90c.

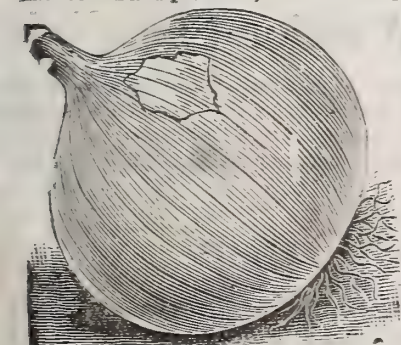

Extra Early Red

MILLS' WHITE PICKLING—This is the earliest Onion in cultivation. At maturity the tops die down directly to the bulb, leaving the nicest little bulb imaginable; is pure white, very delicate and mild flavored. For table use and pickling it is most valuable. My customers will be more than pleased with this Onion. Give it a trial. Per pkt., 5c.; oz., 15c.; ¼ lb., 50c.; ½ lb., 90c.

WHITE PORTUGAL OR SILVER SKIN—A well known variety and a great favorite with market gardeners and truckers; flavor mild and pleasant; skin of silvery white and of handsome appearance. Per pkt., 5c.; oz., 10c.; ¼ lb., 35c.; ½ lb., 65c.; lb., \$1.25.

Be sure and give this Onion a trial. ¼ lb., 50c.; ½ lb., 85c.; lb., \$1.60.

WHITE VICTORIA—It is a very handsome globe-shaped Onion of mild sweet flavor. A large grower says: "It is really a beauty and it is enjoyable to see a crowd stare and wonder when a lot of these white beauties are taken to market long before anybody thought of its being time for Onions of such size."

Per pkt., 5c.; oz., 15c.;

RED GLOBE WETHERSFIELD ONION—This is a new Onion, only recently introduced, and there are great claims made for it. It is admitted that it has a record of over 700 bushels of splendid Onions to the acre, and not a scullion among them. They ripen early, are large size and admired by all who see them. Red Globe Wethersfield will be a valuable Onion in the future on account of its being so attractive in appearance in the market, and it commands the highest price. The outer skin possesses that lustre and richness of color so desired and yet so often lacking in the ordinary Red Globe stock. I have harvested a large crop of the seed which was from extra selected bulbs, and I am satisfied will give my customers great satisfaction. For illustration see cut. By all means give Red Globe Wethersfield a trial. Per pkt., 5c.; oz., 10c.; ¼ lb., 35c.; ½ lb., 65c.; lb., \$1.25 postpaid.

NEW AUSTRALIAN BROWN—This is a most remarkable variety; medium size, hard and solid; attractive for market. The color of the Onion is a clear amber brown. It has proved to be nearly four weeks earlier than the Red Wethersfield. Per pkt., 5c.; oz., 10c.; ¼ lb., 30c.; ½ lb., 50c.; lb., 90c.

MILLS' EUREKA EARLY RED GLOBE—This is one of the handsomest small red Onions in cultivation; is very early, of perfect globe shape and at least 10 days earlier than any other Red Globe Onion. Grows very even in size. Per pkt., 5c.; oz., 10c.; ¼ lb., 35c.; ½ lb., 60c.; lb., \$1.00.

MILLS' YELLOW GLOBE DANVERS is the earliest strain of Yellow Globe Danvers Onion that I have been able to find, after testing and experimenting for many years. When once planted, customers will have no other kind. They grow uniformly large size and command the highest market price. My stock is raised with particular care and only the best Onions selected for seed. Skin is a rich golden yellow; flesh white, very fine grained, mild pleasant flavor, excellent keeper and one of the most hardy and productive Onions cultivated. My seed stock this season of this Onion is not very large, but the seed is plump and very heavy, of strong vitality and reliable in every respect. If you want a choice lot of these beauties, order this strain of seed. Per pkt., 5c.; oz., 15c.; ¼ lb., 50c.; ½ lb., 75c.; lb., \$1.00.

YELLOW DUTCH or Strasburg—Bulbs of good size and quite flat, skin yellow, flesh white. Excellent for growing sets. Per pkt., 5c.; oz., 10c.; ¼ lb., 25c.; ½ lb., 45c.; lb., 80c.

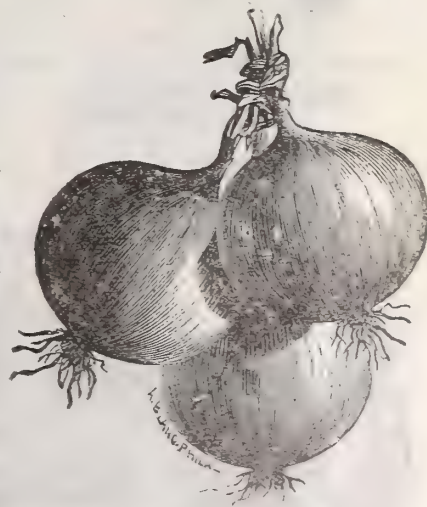

RED VICTORIA—This is identically the same as the White Victoria except the skin is a very dark red and flesh white or beautiful rose color. Per pkt., 5c.; oz., 15c.; ¼ lb., 50c.; ½ lb., 85c.; lb., \$1.60.

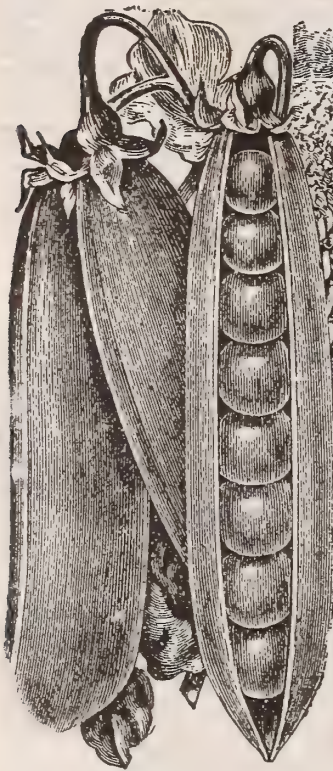

Red Globe Wethersfield Onion

SOUTHPORT WHITE GLOBE—A very handsome silvery white, and perfectly ball-shaped Onion of large size, commanding the highest prices in the markets. Flesh firm, fine grained, of mild flavor and an excellent keeper. Its even, regular size, perfectly globular form, combined with the clear silvery whiteness of the thin skin, makes it one of the handsomest Onions grown. Owing to its large size, it is later in ripening than the White Portugal or Silver Skin, the latter being of flattened form. Per pkt., 5c.; oz., 10c.; ¼ lb., 35c.; ½ lb., 65c.; lb., \$1.25.

Southport White Globe

MILLS' CHOICE NORTHERN GROWN STOCK. My Seed Peas are the very best quality, being all Northern Grown. Those marked (*) are wrinkled varieties. Sacks free.

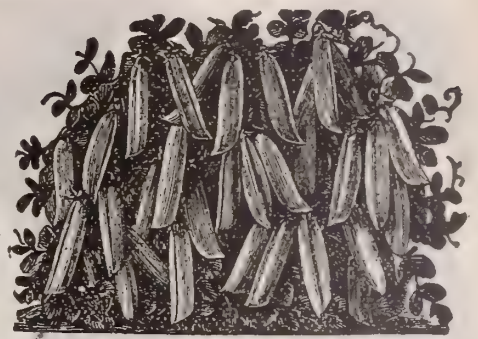

50 DAYS FROM PLANTING.

Mills' First of All Peas

Earliest Variety in the World

The best Extra Early Pea. This variety is unequalled for yield, size of pod, and regularity of growth. Height about 2½ feet and produces pods of good size, which are well filled with smooth, round, creamy-white Peas that ripen so early as not to require more than two pickings to clear the crop. It is the best Extra Early Smooth Pea grown. Per pkt., 8c.; ½ pt., 15c.; pt., 25c.; qt., 45c., postpaid. By express or freight, not prepaid, pk., \$1.00; ½ bu., \$1.90; bu., \$3.50.

Little Gem Peas

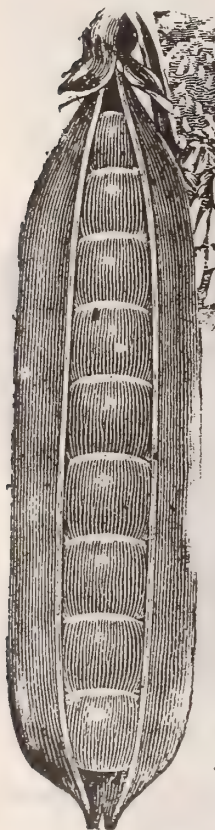

LITTLE GEM—Per pkt., 10c.; ½ pt., 20c.; pt., 35c.; qt., 50c., postpaid. By express or freight, not prepaid. Per pk., \$1.50.

✓ **THOMAS LAXTON**

New Early Large Podded Pea. This fine new early Pea was raised by crossing Gradus (Prosperity) with a very early seedling of the Earliest of All type. It is a wrinkled marrow with a good constitution. In earliness it is within a day or two of "Earliest of All," but pods contain on the average 7 or 8 very large Peas of the richest flavor. The height is from 3 to 3½ feet. As a first early we consider this is the finest early pea ever introduced and likely to supersede that fine early pea, Gradus, being earlier, hardier in constitution and darker in color. It is a reliable market gardener's as well as private gardener's pea. Pkt., 10c.; ½ pt., 20c.; pt., 35c.; qt., 50c., postpaid. By express or freight, not prepaid, 4 qts., \$1.20.

*New Surprise Pea

An extra early wrinkled variety which comes into the market as soon as the extra early smooth kinds. It is a splendid variety. The vines grow about two feet high and need no bushing. Pods are well filled and market gardeners will be pleased with them. Per pkt., 10c.; ½ pt., 20c.; pt., 35c.; qt., 50c., by mail, postpaid. By express or freight, not prepaid, pk., \$1.50; ½ bu., \$2.80.

Northern Grown Peas

Nott's Excelsior

A Grand Early Pea

This is the greatest Pea novelty in existence; fully as early as the American Wonder and can be counted on as first-class in every respect. My customers have had it fit for table use, time after time, 45 days after planting, with the most ordinary cultivation. They grow to a uniform size; height about one foot, and are at all times very tender and of fine quality. The demand has been so great that the seed has been very scarce for several years.

Per pkt., 10c.; ½ pt., 20c.; pt., 35c.; qt., 50c., postpaid. By express or freight, not prepaid, pk., \$1.40; ½ bu., \$2.60; bu., \$5.00.

New Surprise Pea

✓ American Wonder Pea

Superior quality and earliness, combined with habit of growth, makes this one of the very best Peas in cultivation. It is of dwarf robust habit, producing a profusion of good sized, well filled pods. Per pkt., 10c.; ½ pt., 20c.; pt., 35c.; qt., 50c., postpaid. By express or freight, not prepaid, pk., \$1.50; ½ bu., \$2.80; bu., \$5.00.

✓ EXTRA EARLY

The Most Profitable Pea for Market-Gardeners.

Special Offer

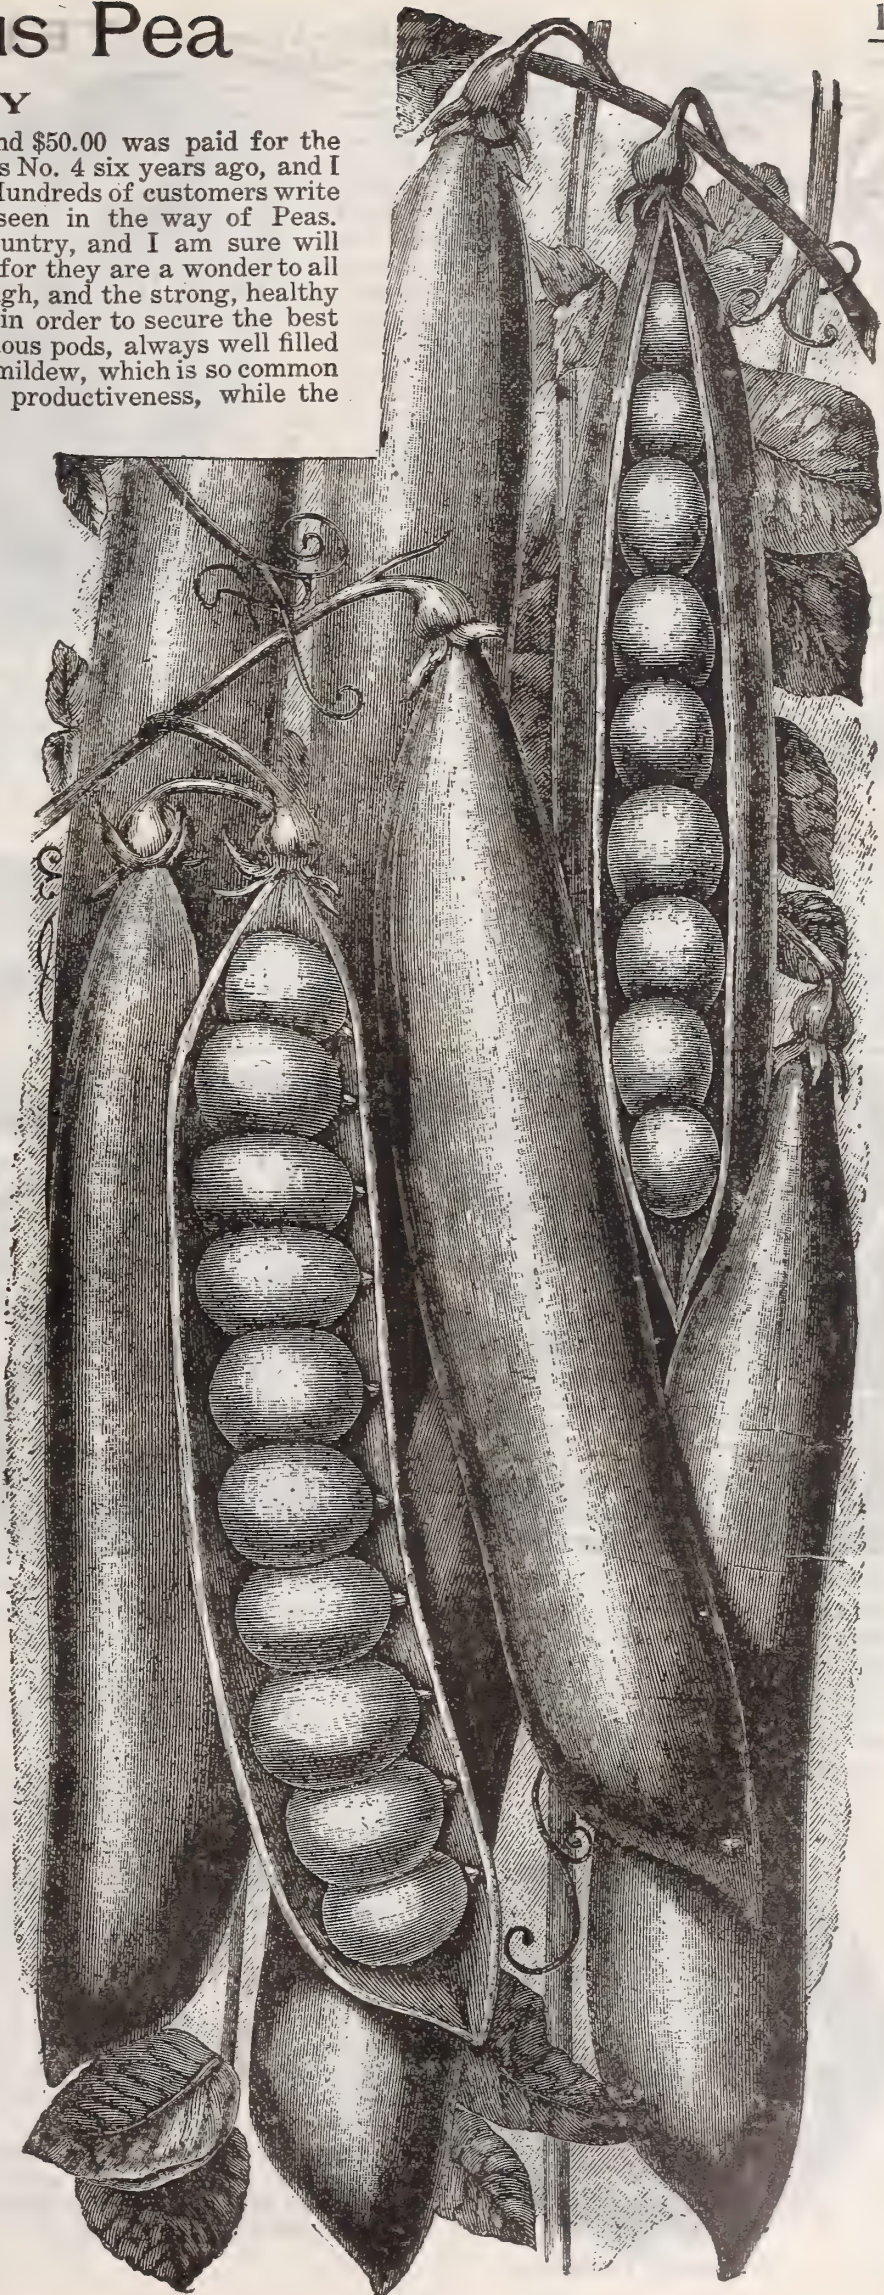

I will send one regular size packet of three Early Peas offered on this page, your selection for only 15 cents, postpaid.

Mills' Enormous Pea

GREAT VARIETY

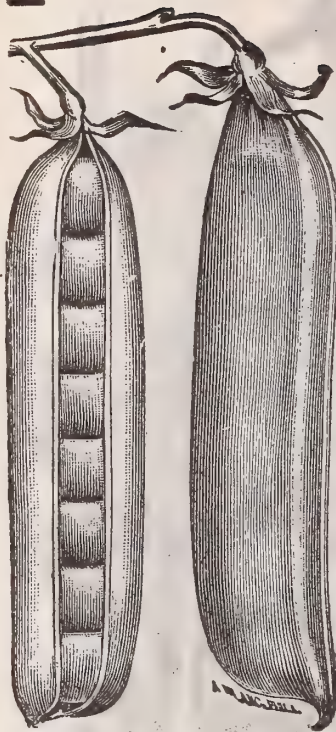

19

This grand new Pea was first introduced as No. 4, and \$50.00 was paid for the name, this novelty was first offered to my customers as No. 4 six years ago, and I claimed they would find it something new and rare. Hundreds of customers write me that it surpasses everything they have ever seen in the way of Peas. They have been fully tested in every section of the country, and I am sure will please everyone who takes pride in growing fine Peas, for they are a wonder to all who see them growing. They grow about four feet high, and the strong, healthy vines are so vigorous that they must be planted thinly in order to secure the best results. They are immense yielders, producing enormous pods, always well filled with from 8 to 10 Peas. They are entirely free from mildew, which is so common among late Peas, and they stand at the very head for productiveness, while the flavor is of the very best. Ever since the new variety has been introduced there has been an enormous demand for the stock, and consequently, on account of selling my seed stock short, I have not been able to plant as large an acreage as I ought to, but am in hopes of having enough to supply all my customers this season. Per pkt., 10c.; 3 pkts., 25c.; ½ pt., 20c.; pt., 35c.; qt., 60c., postpaid.

MILLS' MAMMOTH BEAUTY—This is a mammoth variety and not only the largest, but the very best for yield and quality, being a first-class sort for market gardeners and private gardens. They will produce more pods to the vine and more shelled peas to the bushel of pods than any other variety I have ever grown. Vines grow from 3 to 4 feet high, of very stout growth. If you want a mammoth Pea of the very best quality, you should give this a trial. It stands at the head and I control all the seed. Per pkt., 10c.; 3 pkts., 20c.; ½ pt., 15c.; pt., 25c.; qt., 45c., postpaid. Stock limited; order early.

PRIDE OF THE GARDEN, GOLDEN SUGAR—This splendid variety has proven itself worthy of a place in every garden. I have grown it for twelve years, and have found no other Sugar Pea that will compare with it. In the first place they are of much better flavor than other Sugar Peas. They are what the name indicates, Golden Sugar; are entirely free from strings and are very tender and brittle; grow from 3½ to 4 feet high, of very stout growth and vines are covered with pods. They are earlier than most any Sugar Pea and a good Sugar Pea is almost unknown in this country. They are used the same as snap or string beans. I control the entire stock and you should order from headquarters. Per pkt., 10c.

NEW PEA JUNO—A splendid dwarf main crop wrinkled marrow Pea, enormously prolific and one of the very best flavor. It grows about 2 feet high, requiring little or no bushing, though it is greatly helped by it. Vines are laden with pods, which contain from 7 to 9 peas of the finest quality. It possesses the merit of preserving its tenderness and good flavor long after it is young and also retains its attractive dark green color when ready for the table. Give it a trial. Per pkt. 8c.; ½ pt. 15c.; pt. 25c.; qt. 40c., postpaid. By express or freight not prepaid, pk. \$1.10; ½ bu. \$2.10; bu. \$4.00.

✓CHAMPION OF ENGLAND—A well known variety and acknowledged to be one of the best for late sowing. Per pkt. 8c.; ½ pt. 12c.; pt. 20c.; qt. 35c., postpaid. By express or freight not prepaid, pk. \$1.00; ½ bu. \$1.90; bu. \$3.80.

CANADA FIELD PEA—Fine for cattle feeding and extensively sown with oats, also excellent for green soiling. Per pkt.

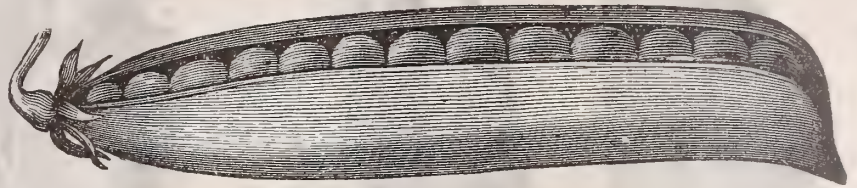

5c.; pt. 18c.; qt. 30c., postpaid. By express or freight not prepaid, pk. 50c.; ½ bu. \$1.00; bu. \$1.75.

***BLISS EVERBEARING**—Grows 18 inches to 2 feet high; pods are from 3 to 4 inches long, of very large size and peas are of the finest quality. It is an everbearing variety and has a peculiar branching character, forming as high as ten stalks from a single root stalk. It is certainly a grand Pea. Per pkt. 8c.; ½ pt. 15c.; pt. 25c.; qt. 40c., postpaid. By express or freight not prepaid, pk. \$1.25; ½ bu. \$2.25; bu. \$4.25.

A strong, luxuriant-growing main crop variety, attaining a height of about 4½ feet. It is exceedingly

prolific, averaging 18 pods to the stalk, while up to 24 to the stalk is not uncommon. The pods, the largest of all varieties, are packed with immense wrinkled marrow peas, 6 to 8 being the average, while 10 to 12 to a pod are frequently found. The quality is superb, rich, sugary and meltingly tender. For family use the "Telephone" Pea is without a peer. Per pkt. 8c.; ½ pt. 15c.; pt. 25c.; qt. 40c. postpaid. By express or freight not prepaid, pk. \$1.25; ½ bu. \$2.50; bu. \$4.50.

*Bliss Everbearing Pea

PUMPKINS

YANKEE PIE—This splendid pumpkin has been produced through careful selection of sugar varieties. The pumpkin is not large but of delightful quality just the quality to make excellent pies, and I am sure that no pumpkin ever introduced has given more genuine pleasure than the Yankee Pie. I know this variety will give you great satisfaction. It is extremely early, remarkably prolific, yielding 6 to 12 medium sized pumpkins to a vine; fine grained, sweet, sugary and the earliest Pie Pumpkin that I know of. Per pkt. 5c.; oz. 8c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 55c.

NEW CALHOUN—Color creamy brown while the inside flesh is deep salmon yellow. Fine grain and an excellent pumpkin. Per pkt. 5c.; oz. 8c.; ¼ lb. 20c.; ½ lb. 35c.

TENNESSEE SWEET POTATO—Color of skin and flesh is creamy white; thick meated; oblong in shape. Per pkt. 5c.; oz. 10c.; ¼ lb. 20c.; ½ lb. 30c.

QUAKER PIE—Creamy white inside and out; flesh is sweet and rich. Per pkt. 5c.; oz. 10c.; ¼ lb. 25c.

WINTER LUXURY—Golden russet color and one of the best for pies; great keepers; enormously productive; fine grain, rich and sweet. Per pkt. 5c.; oz. 10c.; ¼ lb. 25c.; ½ lb. 45c.

ONE HUNDRED WEIGHT—This is another enormous variety, a selection from "King of the Mammoth." If you want to grow mammoth pumpkins, try "One Hundred Weight." Seeds are very scarce and high. Per pkt. 8c.; 2 pkts. 12c.

NEW JAPANESE PIE—A Japanese variety, valuable for cooking; flesh thick, rich salmon color, fine grain, dry and sweet; one of the best for pies. Per pkt. 5c.; oz. 10c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 60c.

COMMON FIELD—This is the ordinary pumpkin used to plant in the corn fields for feeding stock. Very productive. Per pkt. 5c.; oz. 6c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 35c.

SMALL SUGAR—These are orange yellow in color; flesh fine grain, good keeper and one of the best pie pumpkins ever offered. Per pkt. 5c.; oz. 10c.; ¼ lb. 20c.; ½ lb. 30c.; lb. 50c.

KING OF THE MAMMOTH—This is a giant, often attains the enormous weight of from one hundred to two hundred pounds each. Per pkt. 5c.

Small Sugar Pumpkin

Winter Luxury

PEPPERS

21

NEW CELESTIAL—Grows about 1½ to 2 feet high. Up to the time they are fully grown, they are a rich creamy yellow, and when ripe they turn to a bright scarlet. Per pkt. 5c.; ½ oz. 10c.; oz. 15c.

RUBY KING—The largest and handsomest of the red varieties. The fruit is from 5 to 6 inches long; a bright red color; mild and pleasant flavor. Per pkt. 5c.; ½ oz. 10c.; oz. 15c.

BELL OR BULL NOSE—An early red variety; is large, mild flavor, thick and fleshy. Excellent for pickling. Per pkt. 5c.; ½ oz. 10c.; oz. 15c.

Mustard

BLACK—Per pkt. 5c.; oz. 10c.; lb. 40c.
WHITE—Very best, mild and is exceedingly tender. Pkt. 5c.; ¼ lb. 20c.; lb. 40c.

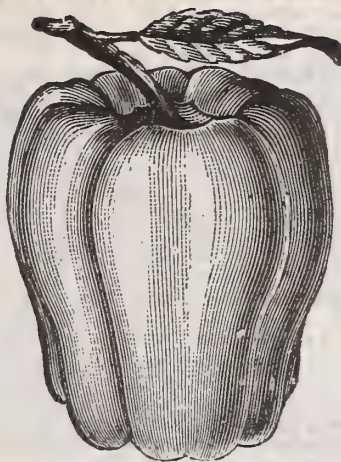

DOMESTIC COFFEE BERRY

Claimed to be an excellent substitute for coffee. It is hardy, easily raised and very productive; a Japanese production and has been but little grown in America. It should be planted in May and cared for the same as a crop of beans. The plant may be used as a forage crop, for hay and as green manure for plowing under, as it makes such a strong growth. Per pkt. 5c.; 3 pkts. 12c.; ½ pt. 15c.; pt. 25c. qt., 35c., postpaid. Pk. 75c., by express.

Collards

GEORGIA COLLARDS—Known as Cole or Cole-wart; originated in the South. Grown South for greens. Per pkt. 5c.; oz. 10c.; ¼ lb. 30c.; ½ lb. 55c.

MAMMOTH GOLDEN QUEEN—One of the largest, handsomest and most productive; perfect shape; of uniform, large size, mild flavor and of a golden waxy yellow color. Per pkt. 5c.; ½ oz. 12c.; oz. 20c.

RED ETNA—An excellent branching variety and bears from 10 to 12 peppers on a plant; rich dark scarlet in color; of sweet mild flavor and of medium size, about 3 inches long, 1½ inches thick. Per pkt. 5c.; ½ oz. 10c.; oz. 15c.

GOLDEN UPRIGHT—Fruits of golden color, tinged with bronze; mild flavor. Per pkt. 5c.; ½ oz. 12c.; oz. 20c.

CHINESE GIANT PEPPER—This is a mammoth variety and produces enormous fruits from ten to fifteen inches in circumference, and yet it is very early and prolific. It grows about two feet high and is a handsome plant branching freely and very strong to carry so many Peppers which are somewhat bunched together. These Peppers are thick, tender and mild; while the skin, when ripe, is of a brilliant scarlet. It is certainly a wonder. Per pkt. 10c.; 3 pkts. 25c.

Tobacco

FINE HAVANA—A heavy cropper, delightful flavor, and the earliest cigar variety to mature, and will grow two crops from one planting, in the South. Per pkt. 5c.; oz. 25c.; ¼ lb. 75c.

CONNECTICUT SEED LEAF—An old and well tried variety, from which good crops are grown, especially in the Connecticut valley. Per pkt. 5c.; oz. 20c.; ¼ lb. 75c.

White Peanuts

A variety that combines many good qualities, viz: earliness, size and prolificness; yielding fewer imperfect pods and makes less "pops" than any other kind, yielding, on medium ground, 100 bu. per acre. Vines averaging 3½ to 4 feet across, which makes valuable forage for stock; color of the nut is white, 2 to 3 in a pod, and is an excellent paying crop for the South, and does not require rich soil. Per pkt. 6c.; pt. 25c.; qt. 45c. postpaid.

Pot, Sweet and Medicinal Herb Seed

No garden is complete without a few sweet, aromatic Herbs for medicinal purposes. Sow in spring in shallow drills one foot apart, and when well up thin out or transplant to a proper distance apart. Those marked (*) are perennial, and when once obtained in the garden, may be preserved for years.
Anise—Seeds Aromatic. **Balm**—Has Medicinal Qualities. **Coriander**—Seeds Aromatic. **Caraway**—Seeds Aromatic. **Dill**—Seeds Aromatic. **Horehound**—Has Medicinal Qualities. **Lavender**—Very Fragrant. **Rosemary**—Very Fragrant. **Summer Savory**—For Seasoning. **Sweet Fennel**—Seeds Aromatic. **Sweet Basil**—Culinary Herb. **Sage**—Culinary Herb. **Sweet Majoram**—For Seasoning. **Thyme**—For Seasoning. **Wormwood**—Has Medicinal Qualities. Price 5c. per pkt. for any of the above.

Brussels Sprouts

PERFECTION—This is the best variety grown. It is very tender, good flavor and stands the frost quite well. It grows a stem about two feet high and on this produces sprouts about two inches in diameter, which resemble miniature cabbages. Per pkt. 5c.; oz. 15c.; ¼ lb. 35c.; ½ lb. 65c.; lb. \$1.10.

Kohl-Rabi or Turnip Rooted Cabbage

EARLY PURPLE VIENNA—It is largely grown for table use in Germany. Per pkt. 5c.; oz. 20c.; ¼ lb. 60c.; ½ lb. \$1.00; lb. \$2.00.

EARLY WHITE VIENNA—Best for table use. Per pkt. 5c.; oz. 15c.; ¼ lb. 45c.; ½ lb. 80c.; lb. \$1.50.

PROCOPP'S GIANT—As shown by the illustration, it is covered with peppers, and grows to a very large size. I have seen peppers measuring from 8 to 9 inches long. They are just mild enough to be pleasant to the taste. Per pkt. 5c.; ½ oz. 12c.; oz. 20c.

Mr. Thomas A. Dawes, of Ferguson's Wharf, Va., writes: I purchased a packet of your Procopp's Giant Pepper. The pods are the largest I ever saw in my life. I weighed two, one weighed 11 oz. and the other 13 oz. A wonder to all who saw them.

LONG RED CAYENNE (True)—Fruit conical shaped; red in color; the flesh is strong. Per pkt. 5c.; ½ oz. 15c.; oz. 25c.

Chinese Giant Pepper.

Egg Plant

NEW YORK IMPROVED LARGE PURPLE—The best variety; skin deep purple; free from thorns; flesh white; is quite productive. Per pkt. 5c. ½ oz. 20c.; oz. 30c.

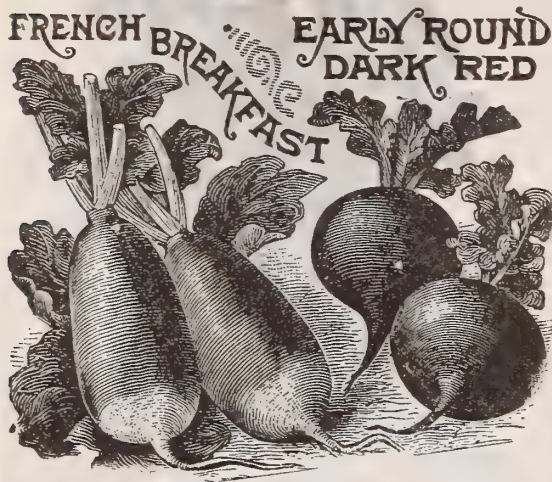

BLACK PEKIN—Almost round and of large size; skin jet black, glossy and smooth; flesh white, solid and fine grained; medium early. Per pkt. 5c.; ½ oz. 15c.; oz. 25c.

GARDEN LEMONS

The fruit is striped green; slightly smaller than the Vine Peach; thinner flesh and is decidedly more acid, thus dispensing with the sliced lemons, so important in putting up the melon peach. Cultivate as musk melons. Per pkt., 5c.

22 RADISHES

growing under glass in frames or boxes. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

CHARTIERS OR SHEPHERD—Color crimson, rose shaded lighter toward bottom; roots large; open garden; best all seasons. Pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

NEW WHITE LADY FINGER—Finest long white Radish in cultivation; is of very rapid growth and remarkably tender, crisp and brittle. Per pkt. 5c.; oz. 10c.; ¼ lb. 18c.; ½ lb. 30c.; lb. 50c.

MIXED RADISH—Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.

MILLS' EARLIEST—This is without doubt the earliest Radish in cultivation, and from 4 to 6 days ahead of the varieties offered by many seedsmen, who are claiming to have the earliest. It is a beautiful variety, round form with dark scarlet skin, very fine flavor, tender and surpasses all other strains of Turnip Radishes. I know of none of my vegetables that will pay the market gardener better than Mills' Earliest Radish. It has short narrow leaves, making a very short top. It is a favorite variety and all my customers should plant it. Per pkt. 5c.; oz. 8c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 60c.

EARLY ROUND DARK RED—Deep dark red in color, very early and one of the best strains of extra early scarlet Turnip Radishes in cultivation. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

FRENCH BREAKFAST—This is an early, bright scarlet; tender, crisp and an excellent variety for forcing in frames for early market. It is one of the quickest growing and its beautiful rose scarlet color, with white tip, recommends it everywhere. It is the standard early variety in the French market; grows in all climates and is very attractive. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

LONG SCARLET SHORT TOP—Without doubt the best long red Radish; is very early and the leading out-door quick growing variety; brittle and the roots are a bright red. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

ROSE OLIVE SHAPED—Growth quick; rich carmine red. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

CALIFORNIA WHITE MAMMOTH WINTER—Grows nearly a foot long and from 2 to 3 inches in diameter; white, solid and good flavored; one of the best winter sorts. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

WHITE STRASBURG—Flesh is firm, brittle and tender; excellent for summer use, as it grows quickly. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

EARLY WHITE TURNIP—A grand summer variety; turnip rooted with small top and of quick growth; skin and flesh pure white, crisp and tender. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

WHITE FOX—This new white Turnip Radish has a short top and grows rapidly. It is excellent for forcing or growing under glass in frames or boxes. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

EARLY SCARLET TURNIP, WHITE TIPPED—Here is a Radish that is sure to please all who plant it. It presents a beautiful appearance in market and is very popular. It is fine for forcing purposes, tender, crisp, mild and pleasant. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

BRIGHT SCARLET NEW LONG CARDINAL—This new variety is entirely distinct. Is remarkable for earliness, the root being fit for use 30 days after seed is sown; shape is quite regular, smooth and of a size is intermediate, with the long and half long sorts. The roots are tipped with white. Sells well in all markets, its beautiful color attracting attention of buyers. Per pkt. 5c.; oz. 8c.; ¼ lb. 20c.; ½ lb. 30c.; lb. 50c.

NEW LEAFLESS—This is a great addition to my list of Early Radishes, and a curiosity in any garden. This new variety has been named "Leafless" from the fact that its shyness in developing foliage is more noticeable than in any other variety. The seed lobes make very rapid growth directly from the sprouting of the seed, and are practically the only green parts to be seen until the bulb is fit for pulling, by this time only one or two very short leaves are produced, which are very distinct, being rough and crumpled. Color of skin is very bright scarlet, while the flesh is white, crisp and tender. Per pkt. 5c.; oz. 15c.

New Leafless Radishes.

EARLY SCARLET GLOBE RADISH—This is a splendid forcing Radish and is considered the earliest Scarlet Globe Radish in cultivation and the best in every way. It is a beautiful oval, rich scarlet, handsome form and color. The flesh is very tender, crisp, juicy and mild, and while it is a leading variety for forcing, it is equally as good for outdoor culture. This Radish cannot be excelled. Per pkt. 5c.; oz. 10c.; ¼ lb. 20c.

A GRAND NEW RADISH, EARLY WELCOME—This is a novelty in Radishes, which was introduced five years ago as No. 8, and I believe it gives as great satisfaction as any new vegetable I ever introduced. It is a very choice selection of scarlet Radishes and I know that everyone after growing it will agree that they never saw a better variety. It is one of the earliest varieties in existence, is crisp and brittle, excellent flavor and a remarkably quick-growing variety, maturing in from 15 to 20 days from sowing the seed. The skin is of a rich scarlet, while the flesh is pure white. Per pkt. 5c.; oz. 10c.

EARLY ROSE GEM—Root a deep scarlet, blending into pure white at the bottom. It is exceedingly tender never becoming hollow or pithy. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

EARLY SCARLET TURNIP RADISH—Is well-known as an excellent variety of the finest quality, and is a beautiful, brilliant, scarlet variety, of the greatest value for gardeners to plant for the first early sort to meet the greatest demand for the early market when all vegetables are scarce and prices are high. Pkt. 5c.

Rose China White Radish.

Early Rosy Gem Radish.

ROSE CHINA WINTER (Scarlet China)—Very bright rose colored winter variety of excellent quality and the very best for winter use. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

SQUASHES

Mammoth
Hubbard Squash

The Great
Squash for
Family Use

MAMMOTH HUBBARD—This is another strain of the Hubbard Squash, noted for its enormous size, and such stock is sure of being a good seller in any market, no matter the competition. The Mammoth Hubbard Squash is more attractive in market than the common variety. It is equal in every respect to the well known Hubbard, but where I claim it is superior is on account of its enormous size. If you want some mammoth squashes do not fail to plant this. Per pkt. 5c.; oz. 10c.; ¼ lb. 30c.

IMPROVED HUBBARD—This is one of the best Winter Squashes and is too well known to need any description. It keeps perfectly throughout the winter, and is the most popular variety in cultivation. Sells well in all markets. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; ½ lb. 45c.; lb. 80c.

GOLDEN HUBBARD—Every one knows what an excellent winter Squash Hubbard is, and I am pleased to be able to offer my customers a strain of the GOLDEN HUBBARD that I am confident will become a standard variety. It is a deep orange yellow, exceedingly showy and attractive; fine grain, cooks well and is of excellent flavor. In quality and productiveness it far excels the old variety. I hope all my customers will grow some Golden Hubbard Squashes. Per pkt. 5c.; oz. 10c.; ¼ lb. 25c.; ½ lb. 45c.

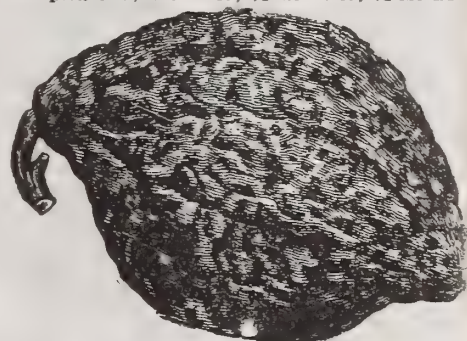

BOSTON MARROW—A good fall variety; both skin and flesh bright yellow color. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

ESSEX HYBRID—One of the richest flavored; is fine grained and one of the very best keepers. The flesh is thick, solid and very productive. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.

IMPROVED MARBLEHEAD—This is an excellent keeper, fine grained and of good flavor. Per pkt. 5c.; oz. 8c.; ¼ lb. 25c.; ½ lb. 45c.; lb. 80c.

GOLDEN SUMMER CROOK-NECK—A fine summer variety; color a bright yellow. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

MAMMOTH WHALE SQUASH—This new Squash comes from France and has lately been introduced. A most magnificent variety. The introducer in describing, says "The Squashes are often three feet long, of dark slate color and sometimes weigh over 100 pounds. Is very prolific; vines are robust and hardy; flesh is solid, of a beautiful orange color, of excellent quality and a good winter keeper." You should give this new variety a trial by all means. The seed is very scarce. Per pkt. 6c.; 3 pkts. 15c.

Golden Hubbard Squash

New Faxon Squash

NEW FAXON—A new variety and distinct from other Squashes. When ripe some are pale yellow with yellow stripes in hollows; others are mottled with green and striped lighter. It can be used as a summer Squash for it matures early. It is also a good winter variety of excellent keeping quality whether it is ripe or green. The flesh is of deep orange yellow, and, before cooking, seems to have a shell similar to any other Squash, but when cooked there appears to be no shell. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Mammoth Early White Bush Scalloped Squash

MAMMOTH EARLY WHITE BUSH SCALLOPED—Is of a pure white color, highly esteemed early variety, largely grown for first early. From the hard texture of its rind it is well suited for shipping. It is the largest of the Scalloped sorts, sometimes attaining a diameter of 15 to 20 inches. In table quality it is excellent. It is a very productive squash. Per pkt. 5c.; oz. 8c.; ¼ lb., 15c.; ½ lb., 25c.; lb., 40c.

THE DELICIOUS SQUASH—This is one of Gregory's latest introductions, who says it is the eighth variety he has introduced. The "Delicious" is the product of the work of years in careful selection, crossing and isolating. The Faxon was the starting point. About every variety we ever knew enters into its composition, among the least desirable of which were several kinds of yellow and the large Brazilian blue varieties. We have been engaged for years in weeding these out, at the same time selecting by the test of cooking the richest among the class bearing a green color, and these we crossed on the Hubbard.

For lack of space I cannot give full history of this grand new Squash, but my customers know that Mr. Gregory is an authority on Squashes, and any of his introductions are very valuable. The size of this new Squash closely follows the Hubbard, which weighs between 5 and 10 pounds. By all means give it a trial this year. Pkt. 10c.; 3 pkts. 25c.

MAMMOTH
WHALE
SQUASH

Mammoth Whale Squash

When you buy your Squash Seed from me you get the BEST IN THE COUNTRY. Try our MAMMOTH WHITE BUSH SCALLOPED, the Prize Winner.

is superior to any other early Tomato grown. Its value lies not only in the time of ripening its first fruit, but that such quantities of fruit can be gathered while other "Earlys" are ripening only a few. They are of large size, perfectly round and very handsome. They are as smooth as glass and the color is a very bright red. It is a very solid Tomato having but few seeds, the flavor being fine and rich. They grow in large clusters which ripen from July until killed by frost. This Tomato commands the highest price in the market on account of its beautiful form. It was introduced for the first time last year and, according to all reports, has given excellent satisfaction.

It is certainly the coming early Tomato and deserves a place in every garden in this country. You should plant a packet of the seed this spring.

Per pkt., 8c.; 3 pkts., 20c. postpaid.

EARLIEST TOMATO IN THE WORLD

MILLS' EARLIEST TOMATO IN THE WORLD—This grand early Tomato has been grown in the gardens of more than a half million people during the past few years. It is very early, smooth, and has proven a wonderful success in all sections of the country on account of its extreme earliness and perfectly smooth fruit. The handsome form and deep rich color make it very attractive. It is an immense yielder and when properly cared for produces an abundance of as handsome Tomatoes as one could wish. It is always medium size and of the best quality and from the excellent reports received from my customers I know they are more than pleased with it. Pkt., 5c.; 3 pkts., 12c.; 6 pkts., 20c.; ½ oz., 30c.; oz., 50c.

NEW LONG KEEPER—This new Tomato originated with the editor of the "Rural New Yorker." Pkt., 5c.; ½ oz., 10c.; oz., 15c.

PONDEROSA—Vines strong and produce enormous size fruits; skin firm. A favorite with many. Pkt., 5c.; ½ oz., 25c.; oz., 40c.

LIVINGSTON'S BEAUTY—Ripens early and is a hard sort to surpass; color a rich glossy crimson and grows in clusters. Per pkt., 5c.; ½ oz., 10c.; oz., 15c.

GOLDEN QUEEN—Per pkt., 5c.; ½ oz., 10c.; oz., 15c.

EARLY EARLIANA TOMATO

This is a new, perfectly smooth Tomato, and is claimed to be one of the earliest introduced. It originated with a Mr. Sparks and claims are made that it has been marketed fully two weeks ahead of others. It has given splendid satisfaction everywhere and I would like to have my customers try this variety this year. It is very handsome, large, uniform in size and of a beautiful red color. Wonderfully productive and the quality is of the very best, being solid and with but few seeds. I have a very nice lot of seed to offer. Per pkt., 6c.; 3 pkts., 15c.; 6 pkts., 25c.; ½ oz., 30c.; oz., 50c.

LIVINGSTON'S PERFECTION—Per pkt., 5c.; ½ oz., 10c.; oz., 15c.

DWARF CHAMPION—Per pkt., 5c.; ½ oz., 10c.; oz., 15c.

Early Earliana Tomato

NEW IMPERIAL—This new variety has many good qualities as an early or late sort, and embraces every desirable quality to make a good Tomato. It is very early, perfectly smooth and ripens evenly to the stem. It is of large size and includes many good qualities never before found in a single variety. It is between the Champion and Beauty in color, and one of the most productive. Do not fail to try this excellent sort. Per pkt., 5c.; ½ oz., 15c.; oz., 25c.; ¼ lb., 75c.

THE MATCHLESS—This is certainly a matchless Tomato in form and regularity of growth. Skin is unusually tough, and, if picked when ripe, they can be kept for several days; a strong grower, productive, large size and one of the best for market. Thousands of my customers will have no other variety. Per pkt., 5c.; ½ oz., 15c.; oz., 25c.; ¼ lb., 75c.

IMPROVED EXTRA EARLY TREE—This is an early variety, has dark green foliage and the plant is quite ornamental; largely planted by many who prefer it to others. Per pkt., 5c.; ½ oz., 15c.; oz., 25c.

NEW PEACH—Grows about two inches in diameter. For eating out of the hand it is excellent. Pkt., 5c.; ½ oz., 15c.; oz., 25c.

SUPERB MIXTURE—Per pkt., 5c.; ½ oz., 10c.; oz., 15c.

New Imperial Tomato

Mills' Mammoth Prize Tomato

This is one of the largest Tomatoes grown. I introduced it several years ago, and it has given great satisfaction everywhere. It possesses every good quality to be found in a Tomato. Vines are strong and vigorous and when properly trained will easily attain the height of 15 feet and carry an enormous weight of fruit. Its massive fruits are almost perfect in form, as shown by the illustration, and are so free from ridges as to seem nearly as smooth as glass, and, as to size, weight and solidity, no other mammoth Tomato can approach it. I have seen specimens of this Tomato that weighed $3\frac{1}{4}$ pounds and specimens weighing 2 and 3 pounds each are a common occurrence. The skin is exceedingly firm and a marked peculiarity of this variety is that it is almost seedless. This makes the seed cost much more to grow than that of any other variety. If started early, the fruit will ripen from July until killed by frost. There is no garden complete without this mammoth Tomato.

CAUTION—There are the short growing bush tomatoes called Tree Tomatoes and the long growing called Tree Tomatoes, but if you want the true MAMMOTH PRIZE, order your seed of me and you will not be disappointed. I have the genuine stock and offer it at the following prices: Pkt., 8c.; 4 pkts., 20c.; 12 pkts., 50c.

The Greatest of
all Giant Tomatoes

NEW CREATION TOMATO—This new Tomato is quite a wonder, a novelty and curiosity. It is not only valuable for many purposes, but very ornamental. It produces a handsome vine and the fruit is borne in large quantities from very near the ground to the top. The vines grow to a height of 14 to 15 feet and have borne as many as 1100 ripe Tomatoes of a bright yellow color almost as large as a medium plum; while there have been many green ones when killed by the frost. I bought entire control of this novelty a few years ago and can offer seed as follows: Per pkt., 5c.; 3 pkts., 12c.

MILLS' CHALLENGE—Nothing has so pleased my customers as this new Tomato, introduced by me five years ago. It is praised by everyone who tested it and I am sure there is no Tomato in existence that can surpass it. Its shape is the very best; is extra early and wonderfully productive. It grows just the size to please everyone. The skin is of a deep rich tinted red, making it very attractive and it is a sure variety to grow for a family garden or for market. It is not necessary for me to say any more. Try it and be convinced. It's a beauty. Pkt., 5c.; 3 pkts., 12c.; $\frac{1}{2}$ oz., 25c.; oz., 45c.

MILLS' KLONDIKE TOMATO—This is one of the most beautiful Tomatoes offered and you cannot obtain it elsewhere. I believe anyone who tries this grand new Tomato will not be disappointed. It was originated by Mr. A. A. Halladay who has made a specialty of growing Tomatoes for many years. Plants grow stalky; leaves are what is known as "solid" or "potato leaf." It is free from disease. Fruit is borne in large clusters. It is perfectly smooth, solid, meaty, and has few seeds. It is nearly as early as any Tomato offered, and much larger in size than many earlies. Per pkt., 8c.; 3 pkts., 20c.

MILLS' GIANT PRIZE TOMATO—This is without question the largest Tomato ever introduced. I have grown it for many years and find that it always produces an abundance of handsome fruit that will astonish everyone. The quality is excellent, and after you have once grown it you will have no others. It is a handsome red color, very solid, with only a few seeds and free from rot. If started early, the fruit will ripen from July until killed by frost. Order some seed and see what can be done. You will be sure of a large crop of Tomatoes. Price of seed, per pkt., 6c.; 3 pkts., 15c.

MIKADO, OR TURNER'S HYBRID—This is one of the largest, most beautiful and most productive Tomatoes grown. The color is a rich, pinkish red, with a suggestion of purple. The skin is thin, but so tough as to preserve the fruit a long time in good condition. The Tomato in the basket is especially handsome. It ships well and sells quickly.

The fruit ripens evenly to the stem, and is very smooth, with no hard core, and in flavor is unsurpassed. It is a strong, vigorous grower, the vines demanding plenty of room. The foliage differs from all others, the leaves being entire and not cut or deeply lobed, resembling potato foliage. In fruiting capacity it is enormous. Pkt., 5c.; $\frac{1}{2}$ oz., 10c.; oz., 15c.

ATLANTIC PRIZE—We place this at the head of main crop varieties for earliness. It follows closely the Early July and Mills' Earliest in the World, and comes in advance of such standard kinds as Perfection, Beauty, etc. It bears in clusters, is of good size, smooth, round, and of a fine scarlet color. Per pkt., 5c.; $\frac{1}{2}$ oz., 10c.; oz., 15c.

NEW ZEALAND FIG—Fruit small, smooth, and almost incredibly productive. The flesh is solid, thick-meated, very sweet and pleasant, and is just right for preserves or sweet pickles, or for drying in sugar like figs. Per pkt., 5c.; $\frac{1}{2}$ oz., 15c.

SPECIAL OFFER

Any 4 pkts. of Tomato Seeds, except Early July, for only 15c., postpaid.

Mills'
Giant
Prize
Tomato

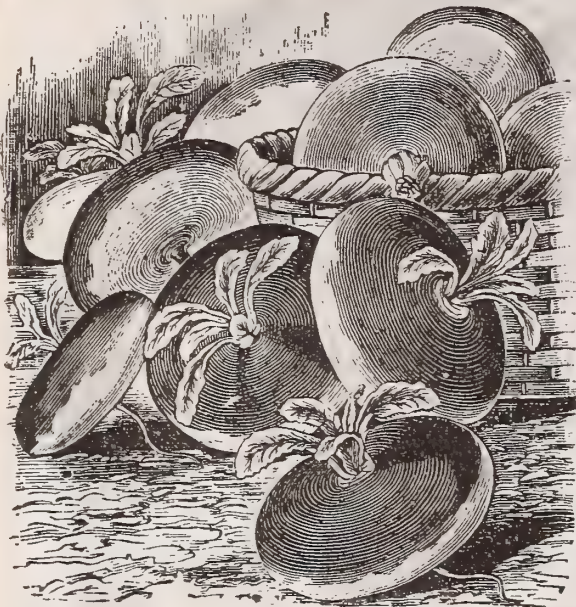

Mills' Klondike Tomato

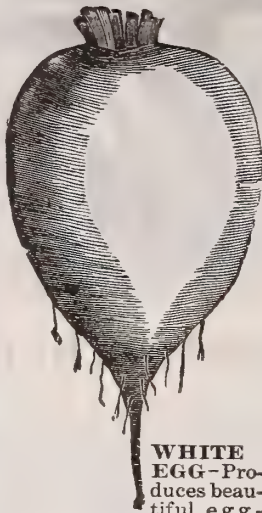

26 TURNIPS

SNOW WHITE TURNIP—This is one of the finest early Turnips ever introduced. It has a thin white skin, always solid, sweet and a good keeper. The flesh is snow white and on account of its being early is the best variety to sow in the garden for early use. It can be sown late with good results. Do not fail to give it a trial this season. Pkt. 5c.; oz. 12c.; ¼ lb. 25c.

Early White Flat Dutch Turnip.

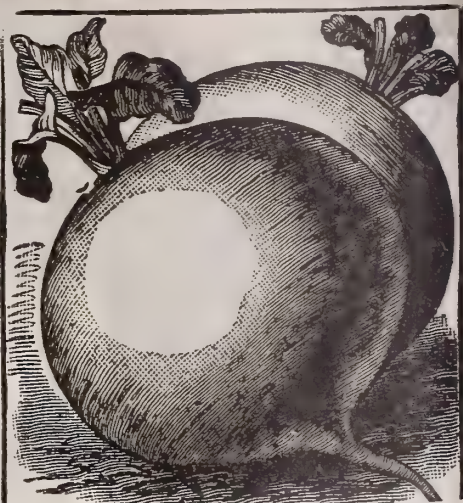

WHITE EGG—Produces beautiful egg-shaped roots, with thin white skin; always solid, sweet and a good keeper; excellent for early or late sowing, and is most desirable for table use. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

EARLY SNOW BALL OR SIX WEEKS—This is one of the best Extra Early Turnips in cultivation. The bulb of medium size, smooth white and of excellent flavor. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

EARLY WHITE FLAT DUTCH—This is another early variety, which grows to a medium size very quickly. It has a clear white skin and is always choice for table use, and is one of the very best varieties for spring sowing. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

PURPLE TOP STRAP LEAF—The bulb is very flat, of medium size and quite smooth, with a bright purple top; very fine grained. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

GOLDEN BALL—Very early, fine quality and keeps well. Excellent for table use or stock feeding. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Snow White Turnip.

EXTRA EARLY MILAN—This is a good Turnip and one of the earliest varieties grown; bulbs are flat, of medium size, smooth with a small purple top. The flesh is pure white, of the best quality; fine grained, hard, solid and an excellent keeper. Per pkt. 5c.; oz. 10c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 50c.

SUPERB MIXTURE OF TURNIPS—This mixture contains all of the leading varieties, both early and late, and, by sowing this seed, a continuous supply may be had throughout the season. You cannot do better than plant some of this seed. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

Rutabaga or Swede Turnips

IMPROVED AMERICAN PURPLE TOP—One of the best varieties; fine quality; it keeps hard and brittle until summer, and after heavy cropping is the largest yielder of them all. It is one of the best for table and stock feeding. I consider my extra choice stock unequalled. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

BREADSTONE—Is medium size, very quick growing and roots are smooth, white, with colored tops; flesh perfectly white, fine grained, cooks quickly. One of the best in cultivation for winter and spring use. Pkt. 5c.; oz. 8c.; ¼ lb. 20c.; ½ lb. 35c.; lb. 50c.

SKIRVING'S PURPLE TOP—Enormously productive; flesh yellow, solid, sweet and one of the best for field culture. Per pkt. 5c.; oz. 8c.; ¼ lb. 12c.; ½ lb. 20c.; lb. 35c.

HEAVY CROPPING SWEDE—This is a magnificent Rutabaga and I consider it the most profitable of all Swede Turnips, as well as the hardest, heaviest, best shaped and most productive. The flesh is yellow, of the choicest quality and bulbs always remain sound and good when flatter varieties will rot. It is a variety that should be sown in preference to all others and you will make a great mistake if you do not plant it this year. Pkt. 5c.; oz. 8c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 60c.

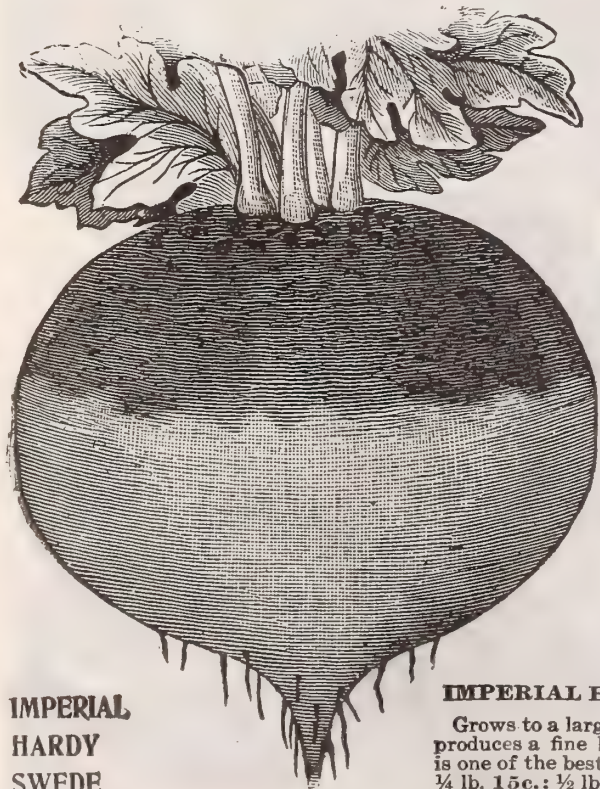

Large White Sweet

Flesh white and solid; rich sweet flavor; a well-known Rutabaga. Pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

HEAVY

CROPPING
SWEDE

IMPERIAL
HARDY
SWEDE

IMPERIAL HARDY SWEDE

Grows to a large size, with a single tap root and produces a fine bulb always of good quality, and is one of the best for winter use. Per pkt. 5c.; oz. 8c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 40c.

I never had

a better lot of Turnip

Seed than I have this

Year. Send in your order.

Special Offer: I will mail the following for 15c.: 1 packet Purple top Strap Leaf, 1 packet Early Snow Ball or Six Weeks, 1 packet American Purple Top, 1 pkt. Large White Sweet. 4 for 15c. postpaid.

The New Golden Era Yellow Dent Corn

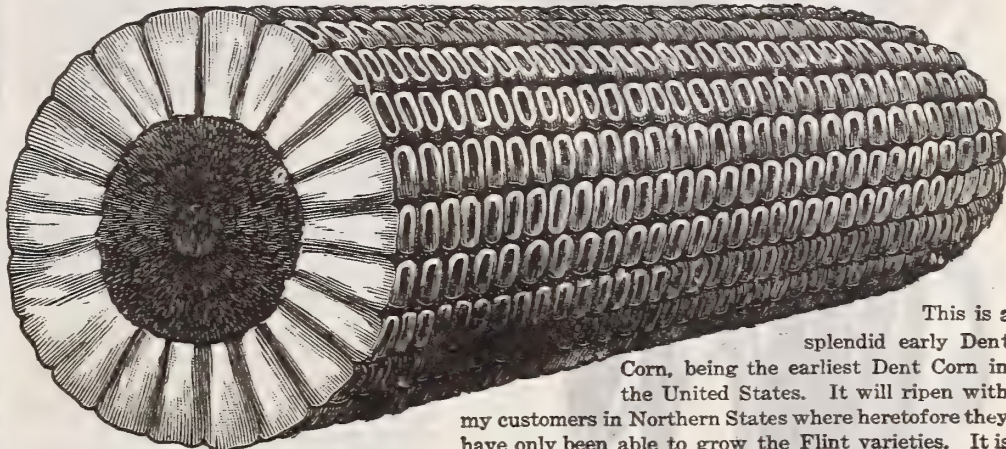

This is the New Dent Corn offered three years ago, for which \$100.00 was paid for a name. This name was won by Mrs. Louisa Randall, West Bay City, Mich., who suggested "New Gold Era." There was an unusually large demand for this Corn last year.

This new Corn was offered as the "Nameless" sort and hundreds of my customers were pleased with the variety. I purchased entire control of this new Dent Corn in 1901, and am very much pleased to hear of the great satisfaction it has given wherever planted.

The originator who claims to be a Seed Corn expert, says: "I have bred Corn for about 20 years and this new variety is the best I have ever seen. It combines every merit that is essential in an early Dent Corn and is larger than any other variety that matures so early. It will outshell any and all varieties and will produce more abundantly than any other Corn. It is more uniform in color and produces more perfect ears than any other Corn in existence. It matures its crop in 90 to 95 days of average corn weather. The plant is a strong vigorous grower with a luxuriant growth of foliage, and being strong in root growth, it withstands the dry weather to a surprising degree. Ears average 10 inches in length and are all symmetrical shape, and a very large majority filled out over the tip end with grain. The ears growing at a very convenient length, makes it a very easy Corn to husk. The grain is a beautiful yellow, wide and deep and is compactly set on a very small cob, and the cob is always bright red in color. This Corn has given us greater yield of fine grain than any other variety, and I want to assure you that every bushel of this Corn I will send you will surprise you. The type is fixed, color very uniform and in viewing it from any point, I cannot see where it can be improved."

I hope that farmers who want to get a grand new Corn will order this one. There is money in this Corn for farmers and I hope they will take my advice and grow it in 1906. My crop is somewhat limited, but I hope to have sufficient to fill all orders. Pkt. 10c.; pt. 25c.; qt. 40c. postpaid. By express or freight, not prepaid, pk. 75c.; ½ bu. \$1.25; bu. \$2.00. Sacks free.

Extra Early Huron Dent Corn

This is a splendid early Dent Corn, being the earliest Dent Corn in the United States. It will ripen with my customers in Northern States where heretofore they have only been able to grow the Flint varieties. It is

of bright orange color and has a good size stalk and ear, small red cob, long deep green, and the only smooth very early Dent Corn that I know of. 70 lbs. of ears make about 64 lbs. of shelled corn. Planted first week in May, it showed tassel and was silked out July 15, and August 4, ears were fit for roasting. The last of August it was ripe and fit to cut up. I wish to say that for good size ears and wonderful productiveness, it is at the head, and I know my customers will be pleased with it. My supply is perfectly pure and carefully selected. Per pkt. 8c.; ½ pt. 12c.; pt. 20c.; qt. 35c. postpaid. By express or freight, not prepaid, pk. 60c.; ½ bu. 80c.; bu. \$1.30.

Mills' Cuban Giant Ensilage Corn

The increasing demand each year for Ensilage Corn has induced me to again offer the Cuban Giant, a corn that has been thoroughly tested beside all the large white grained ensilage varieties. My seed stock, which I am offering my customers this season, is strictly pure and direct from the introducer. It has been found, by tests in this country and Canada, that it is a perfect fodder or ensilage corn, having the creamy quality of the Tuscarora Corn and the growth and rankness of the Red Cob Ensilage. The grains are pure white, very large, broad and long, very showy and of stronger vitality than any other variety in cultivation,

Cuban Giant Ensilage Corn

New Golden Era Dent Corn

a very strong point in its favor. The fodder grows on the stalks in great quantities and of the finest flavor. It is the best milk producer of all the ensilage corns, being most as sweet and tender as the sugar corn. It is earlier than any other variety of ensilage corn, and I know that all my customers who grow fodder corn will want some of it this season. I can offer it at the following prices: Per pkt. 8c.; ½ pt. 12c.; pt. 20c.; qt. 35c. by mail postpaid. By express or freight, not prepaid, pk. 50c.; ½ bu. 75c.; bu. \$1.20; sacks included free.

28 Mills' Golden Superior Dent Corn

This is one of the handsomest varieties in the world, and always produces large crops. It came from careful selection by an expert corn grower, who has had 20 years' experience in the growing of seed corn. In large fields it has yielded over 100 bushels of shelled corn per acre. It is a wonderfully strong grower and the ears are very large and handsome for a corn that is sure to ripen early. It was planted last year from the 10th to 15th of May, and the last of July was showing tassel and silking. Stalks are large, with broad rank leaves of a beautiful color. In appearance, the great long grains, small cob, beautiful color and great yield will please all who plant it. It is superior to Leaming, Early Butler, Extra Early Huron, Sibley, Pride of the North, Early Mastodon, White Cap Yellow Dent or any of the famous Dent varieties, because the ears are much larger; a more vigorous grower, heavier yielder and a more perfect field corn. I introduced this variety and have entire control of seed. Per pkt. 8c.; $\frac{1}{2}$ pt. 12c.; pt. 20c.; qt. 35c. postpaid. By express or freight not prepaid, pk. 60c.; $\frac{1}{2}$ bu. 80c.; bu. \$1.30. Sacks free.

Mortgage Lifter Dent Corn

I introduced this new and distinct yellow field corn seven years ago and it has given my customers splendid satisfaction. I gave facts to show the good points and that it was superior to any other variety in cultivation, and I know all who have planted it will say that these points were not exaggerated in the least. A large corn grower of Loraine County, Ohio, while visiting at the World's Fair, procured a few grains from an ear which was a sport found in a field in Iowa and pronounced the most beautiful ear of corn at the Fair. That is how this splendid variety found its way into the East, and from these few grains we have bred out a yellow field corn, which to date has not been equaled. The grains are the largest of any large eared variety in cultivation. The cobs are a beautiful dark red and very small. The fodder grows very quick, rank and green and withstands storms to a remarkable degree. Those who have grown the Mastodon, Klondike, Chester County Mammoth, Leaming, Iowa Gold Mine, Champion White Pearl, Mills' Golden Superior, Golden Beauty, White Cap Yellow Dent and Early Butler, say that this corn will out-yield any of them. We have records of fields producing 107 bushels and 118 bushels of shelled corn per acre. The largest grower of seed corn in America says that it will mature in 85 to 95 days and has 14 to 24 rows on a cob, and the longest grains of any early corn in cultivation. Describing it he says:

First—It is the most beautiful Yellow Corn ever seen.

Second—It will mature in 85 to 95 days.

Third—It has the longest grains of any Early Yellow Dent Corn in cultivation.

Fourth—The fodder grows 7 to 11 feet high, strong, rank and quick and stands storms remarkably.

Fifth—It grows ears of very large size.

Sixth—It will out-yield any other corn known.

Seventh—It husks and shells easy.

Eighth—It will bring the highest market price.

Ninth—It will sell for seed on sight.

Tenth—It will cure out in shock, where large cob varieties will mould and spoil.

Eleventh—It is 8 to 10 days earlier than Mills' Golden Superior.

Twelfth—Farmers can make more money growing this variety and selling it to their neighbors for seed than any other crop they can grow.

Thirteenth—It is a perfect large eared Yellow Dent Corn.

The above is what the originator said of this variety in the past but I must admit that the New Dent Corn offered on preceding page is somewhat superior in a great many ways. That corn is simply a wonder.

My customers should give Mortgage Lifter a trial in 1906. I have a fine stock of extra choice selected, which I can supply at the following prices: Per pkt. 8c.; $\frac{1}{2}$ pt. 12c.; pt. 20c.; qt. 35c. by mail postpaid. By express or freight not prepaid, pk. 55c.; $\frac{1}{2}$ bu. 75c.; bu. \$1.25. Sacks free.

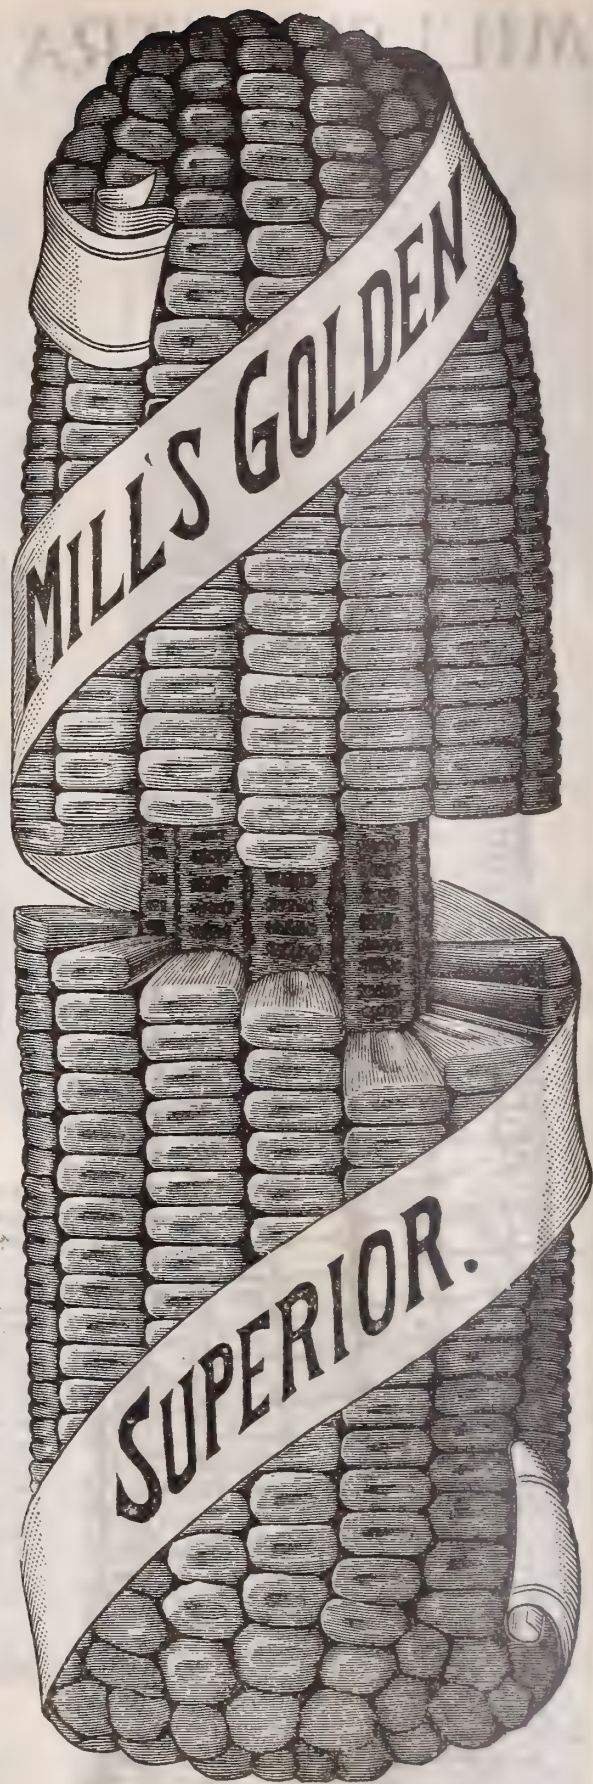

Mortgage Lifter Dent Corn.

Champion White Pearl Corn

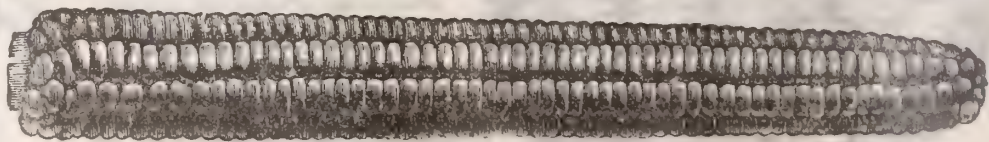

Champion White Pearl Corn.

This is a mammoth white dent variety, which originated in Illinois and is enormously productive, maturing in about 100 days. This corn grows very large; the stalk is stout and thick and the ears are set low. I have some extra selected stock, from the originators, and can supply my customers at the following prices: Per pkt. 8c.; $\frac{1}{2}$ pt. 12c.; pt. 20c.; qt. 35c. postpaid. By express or freight not prepaid, pk. 60c.; $\frac{1}{2}$ bu. 80c.; bu. \$1.30.

Mills' Mammoth 8 Rowed Early Yellow Flint Corn

Mammoth Early Yellow Flint Corn.

By all means grow it. This is a splendid Extra Early Yellow Flint Corn and has proven to be all that is claimed for it. The ears are large size, being the longest of any variety of Flint Corn that is grown. This variety has been grown for years by an expert corn grower, who has kept the seed for seed stock. It is the purest, handsomest, heaviest Yellow Flint Corn in this country. It grows to a good height and stalks often bear from 2 to 4 large ears, with good cultivation. Many farmers claim to have grown as high as 210 bushels from one peck of seed and it fully matured within 85 days from planting. Every one who wants a splendid Yellow Flint Corn, selected from the finest stock in this country, should place their orders at once. Price of extra selected stock, per pkt. 8c.; $\frac{1}{2}$ pt. 12c.; pt. 20c.; qt. 35c.; by mail postpaid. By express or freight not prepaid, pk. 75c.; $\frac{1}{2}$ bu. \$1.25; bu. \$2.00. Sacks free.

MILLS' CHOICE SEED POTATOES 29

My Potatoes are all Northern Grown, Selected Stock and will give the very best satisfaction. They are all carefully packed, and at prices quoted are F.O.B. cars here.

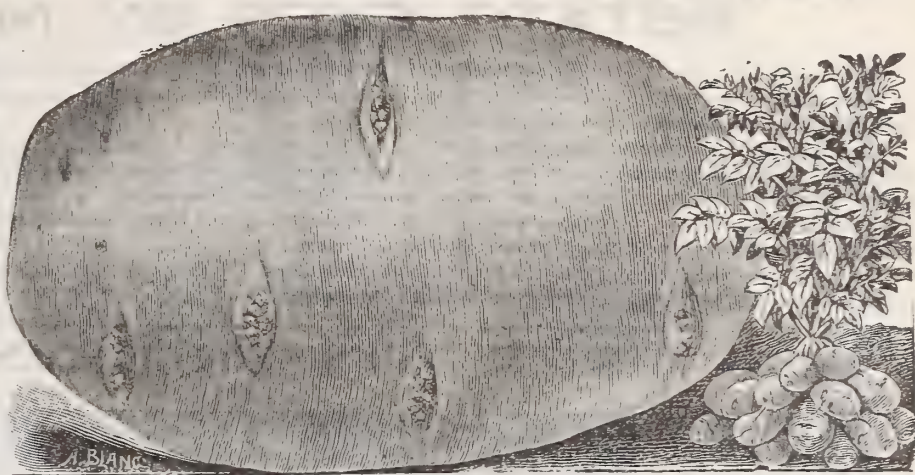

NEW EARLY POTATO, "EVERYBODY'S CHOICE"

This is the great potato I sent out to all parts of the country in 1905, free for testing, one year in advance of general introduction. It has given great satisfaction in nearly every section of the country, and reports from customers have been received by the thousand.

The potato will grow and develop in so short a time that it has proven a wonder to all. It is a very strong grower, enormously productive, handsome form, perfect size, eyes near the surface and the clear color will recommend it everywhere. It is fine grained, cooks dry and mealy, one of the very best for table and I predict it will have the greatest run of any potato I have ever introduced. You can sell all you can spare to your neighbors at high prices and I cannot too strongly urge my customers to give it a trial, in order to be among the first to have stock for seed. Nearly a hundred thousand people tested it in 1905. Read what some of them have to say.

For lack of room we publish only a few reports, but have them on file by the thousand. This should speak for the potato and I am sure everyone who wants to grow one of the GREATEST POTATOES ever introduced, should order this one.

On account of my stock of seed being rather limited and the enormous demand that is expected, it is impossible to offer only single potatoes and any one planting a few will be able to get a nice start this season. Price 15 cents each, 2 for 25 cents, or 10 for \$1.00, postpaid.

TESTIMONIALS.

DEAR SIR:—

If you remember you sent me a potato by mail last spring. It was about as large as a hen's egg. I cut it in two pieces making two hills of it, I dug fourteen potatoes from each hill, ten and one-half pounds in all. The largest one weighed one pound. We cooked one (could not afford to cook more) and it cooked splendid, dry and mealy.

I think they are all right, shall plant what seed I have of them another year.

Very respectfully yours,

O. W. LYBARGER.

Pavilion, N. Y., Sept., 23, 1905.

Belding, Mich., Sept 21, 1905.

F. B. MILLS, Rose Hill, N. Y.

DEAR SIR:—

Last spring by my request you sent me a small potato for seed on experiment and this is the result. The potato I planted weighed scant three ounces from which I have raised 171 ounces of good clean potatoes. Thirty-five good fair sized ones and thirteen little ones.

I have not tested the eating qualities but they look to be good.

Yours truly,

R. W. TRUSSELL

DEAR SIR:—

I take pleasure in saying that the potato which you sent me last April was properly planted on the 10th day of the month and dug on the 24th of August, 1905. As a result of the planting of the small potato which I cut in eight pieces, each having but one eye. I dug them and have seventy, which weigh nineteen pounds. The largest one is eight inches long and nine and one-half inches around, and are fine in every particular. Several farmers to whom I have showed them say they are the largest yield and finest looking potatoes they ever saw. I am delighted with them. When one stops to think of what an acre of ground would produce at this rate of yield it becomes astonishing in the extreme.

I have written you because I wanted you to know how much I appreciated the result.

Yours respectfully,

PETER V. D. VEDDER.

Clayton Sta. Mo., Sept 20, 1905.

Cumberland City, Ky., Oct. 2, 1905.

MR. F. B. MILLS, Rose Hill, N. Y.

DEAR SIR:—

Your potato can't be beat and I think that Kentucky soil is just fine for the variety of potato. You sent me a small potato and I made five hills out of it. I manured it good, only hoed it once. When I dug I got a measured peck of the finest potatoes you ever saw.

I expect to order lots of seed from you in the spring.

Respectfully,

A. S. GUFFEY.

International Falls, Minn.

MR. F. B. MILLS, Rose Hill, N. Y.

DEAR SIR:—

Your inquiry regarding sample potato at hand. What do I think about it? When it arrived I noticed several healthy sprouts on it and cut it into seven pieces and planted it for my little girl who has since taken care of it. Imagine my surprise when a few days ago I dug them and got a peck measure heaping full of the finest, largest potatoes I ever saw—this too when potatoes are only half crop on account of rain. The potato is a wonder. You also sent me a few samples of sweet corn which is unusually early and hardy being the only corn that matured in this locality to my knowledge.

Don't forget to send me a catalogue this winter.

Yours truly,

Box 21

P. A. ERICKSON.

EARLIEST SIX WEEKS POTATO

This is a new potato of the Ohio type, and it seems to be in great demand everywhere. It is not the heaviest yielder but is particularly adapted for the early garden, as it will produce good size, round to oblong, smooth tubers, ready for use everywhere in six weeks from planting, and the tubers will be in good condition for cooking, even when partly grown. The Earliest Six Weeks market potato has had a magnificent run as the earliest potato in America. Market gardeners and all others who grow potatoes cannot afford to be without this splendid early potato. I will say to all who are fortunate enough to receive this catalogue so early that the potato bugs have no chance at all, making their crop, if planted early, before the young bugs become numerous and the yield is always good, considering their extra earliness. My customers in Texas, Florida, Georgia and throughout the South will be pleased with this potato. Lb. 30c.; 3 lbs. 75c.; postpaid. By express or freight, not prepaid, pk. 90c.; ½ bu. \$1.25; bu. \$2.25.

EARLY FORTUNE POTATO

This potato, which I introduced in 1893, has made a wonderful record wherever planted, and customers who have planted it are more than satisfied and speak in the highest praise of it. It is one of the handsomest potatoes and the thousands of reports received from my customers are the best proof that it is highly prized by all who plant it. The Early Fortune is one of the strongest growers among early varieties and is enormously productive. If you have not already planted the Early Fortune, you should by all means do so this year. Lb. 30c.; 3 lbs. 75c.; by mail postpaid. By express or freight, not prepaid, pk. 75c.; ½ bu. \$1.25; bu. \$2.00.

EARLY MORTGAGE LIFTER POTATO

Here is a great early potato that has been tested by thousands of my customers in every section of the country. It has proven a great success everywhere. The Mortgage Lifter was introduced six years ago. The seed stock was imported by a seed expert, who found it the earliest and most prolific variety he had ever grown. The potatoes are always uniform in size and there are fewer small unsalable potatoes among a crop than most any other variety I have ever grown. Its extreme earliness and creamy white color make it very desirable. Single potato, 10c.; 3 for 25c.; lb. 30c.; 2 lbs. 55c.; postpaid. By express or freight, not prepaid, pk. \$1.00; ½ bu. \$1.75; bu. \$3.00.

MILLS' PRIZE POTATO

I introduced this potato several years ago, and I find that it cannot be excelled for main crop and thousands of my customers will testify the same. The potatoes are uniformly of good size, and there is a smaller per cent of small ones in a crop than almost any potato I have ever grown. It is handsome in form, with white skin, and yields immense crops in all sections. It is fine grained, cooks dry and mealy, and is of superior quality. This is the case when first dug and they retain their good cooking qualities and keep sound and perfect until the new crop comes again, being equal to any potato ever introduced on long keeping qualities. Never since I offered it have I been able to grow enough to supply my trade, as the demand increases from year to year. Although I had an enormous crop last season, my stock was all sold out long before planting season was over. It seems to be a great favorite with all after they once plant it. Lb. 20c.; 3 lbs. 60c. by mail postpaid. By express or freight, not prepaid, pk. 70c.; ½ bu. \$1.25; bu. \$2.00.

MILLS' BANNER POTATO

I have grown this new potato eight seasons and take pleasure in offering it to my customers. I find it is unsurpassed by any, and will equal in handsome appearance any potato ever offered. The skin is light cream color and slightly russeted in texture, which fact is recognized as having fine table quantities. It is of handsome shape. The eyes are not very abundant and are very shallow. The size is large, none under size, and in this respect is far in advance of a number of highly praised sorts of recent introduction. The Banner has never been known to produce prongy tubers, they are always smooth. No waste or sorting necessary. By mail postpaid, lb. 20c.; 3 lbs, 50c. By express or freight, not prepaid, pk. 70c.; ½ bu. \$1.25.; bu. \$2.00.

POTATO EYES BY MAIL, POSTPAID

Four years ago I adopted the plan of sending out Potato Eyes in order to supply my customers with choice varieties at a small cost.

Many of my customers do not wish to order a quantity of Potatoes on account of the high express charges, and to avoid this and still be able to furnish the Potatoes, I have arranged to send the eyes only.

Thousands of my customers, living in all sections of the country, will be glad to buy some of the choice varieties offered this year, and have the seed by mail, postpaid. The eyes are carefully cut from good strong Potatoes. In this way a new variety can be tested at very little cost. Orders from the South can be sent any time during the winter in safety, and orders from the North and West will be booked when received and sent when spring opens or planting time arrives.

Price of Potato Eyes of all kinds offered in this catalogue, except the New Potato, "Everybody's Choice," are as follows: 25 for 40c.; 60 for 75c.; 100 for \$1.00; 250 for \$2.25; 1000 for \$8.25, postpaid.

Not less than 25 eyes of any one kind furnished at above price. With careful culture 60 eyes should produce 4 to 5 bushels; 250 eyes 18 to 25 bushels.

Be careful when ordering to write name and address plainly.

NEW PRIZE WINNER BEAN

This is a variety I introduced four years ago and it has proved to be the best Bean I have ever offered. It is unsurpassed for cooking purposes and is one of the greatest yielders in existence. It originated in Dakota and has yielded 40 bushels per acre in that State. It somewhat resembles Prolific Tree Beans in shape, but should not be compared with that variety as the beans are about one-fourth larger, from two to three weeks earlier and far superior in quality. It grows about a foot and a half high, branching freely, its strong branches seldom allowing pods to touch the ground, thus preventing the beans from coloring or rusting in a wet season. Some of my customers as far north as Northern Pennsylvania claim this Bean is so early that they have ripened two crops on the same piece of land in one season. This grand new Bean cannot be too highly recommended. Per pkt., 6c.; 3 pkts., 15c.; ½ pt., 30c.; pt., 50c., postpaid. By express or freight, not prepaid, pk., \$1.50; ½ bu., \$2.50; bu., \$4.50.

Some of my customers as far north as Northern Pennsylvania claim this Bean is so early that they have ripened two crops on the same piece of land in one season. This grand new Bean cannot be too highly recommended. Per pkt., 6c.; 3 pkts., 15c.; ½ pt., 30c.; pt., 50c., postpaid. By express or freight, not prepaid, pk., \$1.50; ½ bu., \$2.50; bu., \$4.50.

IMPROVED DWARF ESSEX RAPE

Wherever grown it has made a remarkable record and as there is so much call for the seed, I am offering it in my 1906 catalogue. For feeding sheep, Rape is superior to any other fodder plant I know of and under favorable conditions is ready to pasture sheep or cattle within six weeks from time of sowing. An acre of Rape should, without difficulty, pasture 12 to 15 sheep from six weeks to two months. In the Northern States it should be sown from May until August for fall pasturing, and, as it thrives best in cool weather, it should not be sown in Southern States until September and October for winter pasturing. It is claimed that on fifty-four acres of Rape, after winter Rye had been removed, over 500 sheep and lambs were fattened, 18 cattle were fed for fifty-nine days and several acres were uneaten when winter set in. It should be sown broadcast at the rate of five pounds to the acre. If you have never tried Rape you should certainly sow Dwarf Essex this year. Per pkt., 6c.; lb., 25c.; 3 lbs., 65c., postpaid. By express or freight, not prepaid, 5 lbs. or more at 10c. per pound.

FAIRVIEW LAWN GRASS

Quick Growing—I offer the purest, cleanest and best Lawn grass I ever had. It is the best for our American climate, and composed of various grasses that grow and flourish during the different months of the year, so that a rich deep velvety green is constantly maintained. The seed is the result of several years experimenting and as I now offer it the mixture is unequalled. The amount required for making new lawns is five bushels per acre, and for renovating old lawns, two or three bushels per acre, or for a plot 15x20, or 300 square feet, one quart is required for new and one pint for renovating. Large pkt., 5c.; pt., 15c.; qt., 25c., postpaid. By express or freight, not prepaid, pk., \$1.00; ½ bu., \$1.75; bu., \$3.00.

AMERICAN GROWN TEOSINTE

The accompanying illustration gives a good idea of a crop of Teosinte. When planted the first of June, by the middle of September it has attained a height of 10 feet and made a yield of more than 140 tons of green fodder per acre. It resembles Indian Corn somewhat in appearance, but the leaves are longer and broader and stalks contain a sweeter sap. I know of no plant that is so useful to the dairyman and makes such a mass of foliage which will excel any corn that can be grown, and will give two or three cuttings in a season. I advise customers to plant it on good soil and you will be astonished at the result. It starts rather slow at first but after it reaches a height of 8 to 10 inches its rapid growth is simply astonishing. It requires three pound of seed per acre, and should be planted in hills two feet apart each way. If you have never sown Teosinte you should make a trial of it this season, and I know the result will more than please. Per pkt., 6c.; oz., 10c.; ¼ lb., 25c.; ½ lb., 40c.; lb., 75c.; 3 lbs., sufficient for one acre, \$2.00, postpaid.

AMERICAN GINSENG

My wide experience as a grower of Ginseng puts me in a position to say something regarding the many reports which have lately been circulated regarding American cultivated Ginseng Root.

There is a demand for American Ginseng which is proved by the following extracts from letters received by Prof. Craig, Department of Horticulture, Cornell University, N. Y., from United States Consuls in China in reference to the standing of cultivated American Ginseng in that market.

Hankow, China, July 18, 1905.

In reply to your inquiry of June 6th with regard to discrimination of Chinese dealers against cultivated Ginseng, I have to say that I have investigated the matter and do not think that the cultivated product has made any impression on the market in China. In fact I think the majority are unable to distinguish between the cultivated and the wild roots.

(Signed) WILLIAM MARTIN,
Consul General

Fuchau, China, Aug. 31, 1905.

Replying to the particular inquiry of your letter I may say that I have not been able to find any such objections as suggested. The American Ginseng is very much sought after, and stands high in the esteem of the Chinese people. In the report sent to Washington I have given the figures covering the amount received at this port. This product is handled chiefly by a syndicate at Hong-Kong and is shipped by them to the outports in China.

(Signed) SAMUEL L. GRACEY,
Consul General

I have not heard of any disposition on the part of the Chinese not to purchase American cultivated Ginseng, though I believe they much prefer the uncultivated.

(Signed) JAMES W. RAZADAY,
American Consul General

Tientsin, China, Aug. 5, 1905.

The price or value of Ginseng increases with the known years of its growth, its shape and the locality in which it is produced. Such are the bases of valuation in this part of China where a few of the roots are found in a native or wild state..

There is no appreciable discrimination here against the American product which, however, has not entered this market, as yet, in any considerable quantity. Last year (1904) imports of American clarified Ginseng into Manchuria, through the ports of Niuchwang—at which point the import business for three provinces of Manchuria practically centers at this time—were as follows:

QUANTITY.
1298 1/4 lbs.

VALUE.
\$8,100.18 Gold.

AVERAGE PRICE PER LB.
\$6.24 Gold.

Actual wholesale prices, although variable and fluctuating, may be quoted at present as follows:

QUALITY.	VALUE PER LB.
Wild Ginseng,	\$650. to \$800. Gold.
Native Cultivated Ginseng,	2.20 to 13., "
American Clarified Ginseng,	13. to 30., "

The above figures, particularly so far as export values are concerned, are unreliable. In order to secure a reduction in export dues, the quality of Ginseng is disguised in many instances. The wholesale rates, however, indicate values quoted in Niuchwang by dealers.

(Signed) THOS. SAMMONS,
Consul General

According to the above reports there is no truth for many statements that the Chinese do not wish American Ginseng. On the contrary Samuel L. Gracey, Counsil General at Fuchan, states it stands high in the esteem of the Chinese people and is much sought after.

The above reports are from men in the employ of the U. S. Government and who are in a position to know the right conditions. They are in no way connected with the Ginseng trade and have no interest but to give the exact state of affairs.

Ginseng is a staple article of commerce. There always will be a demand for American Ginseng roots as the native wild variety is not enough to supply the demand.

I regard this information as very reliable, coming as it does through Cornell University, and such a report I am pleased to be able to give my customers regarding the Ginseng industry and trust it may serve to show that the American root is in demand.

I do not think there was ever a better time to start a GINSENG GARDEN and all who would like to do so I will furnish full information absolutely FREE regard to growing and marketing this valuable root.

Write for particulars.

F. B. MILLS, Rose Hill, N. Y.

"MONEY=SAVING AND MONEY=MAKING CO-OPERATION."

I have published a booklet under the above title dealing with Co-operation in the Mail Order business which I feel sure will be very interesting reading to my customers.

This booklet is the outcome of a future business policy which I intend to adopt and I am very anxious to have the hundreds of thousands of my seed and poultry customers send for it and read it.

My trade is growing so rapidly and now that I am in the general supply business, I intend to take my customers into my confidence and show them how they can not only buy well and save money, but make money also.

I have been long enough established in business to know the great possibilities of co-operation between a business concern and its customers. I believe in co-operation as the great means of conducting the business of the future. I am sure on reading my book you will learn where co-operation is bound to benefit YOU.

Space forbids me giving details here. If you want to learn all about this great co-operative plan send me your name on blank below or make your request when you send your seed order and this booklet will be mailed to you at once, free of charge.

Do not neglect to send for this booklet. It costs nothing and may mean a great deal to you.

CUT OFF ON THIS LINE AND RETURN TO ME.

F. B. MILLS, Rose Hill, N. Y.

Date, 190

Send me at once your free Booklet on CO-OPERATION as offered above.

Novelties and Specialties in Flower Seeds

This is a Reliable List of the Very Best Varieties to Grow from Seed

Alyssum

Little Gem
—Grows 2 to 4 inches high and one plant will completely cover a circle 12 to 14 inches in diameter. The flowers are pure white, Per pkt., 250 seeds, 5c.

Sweet Pure White—Much used for borders; also used for basket or

Alyssum

pot. It is quite fragrant and its delicate white flowers make a very attractive appearance. Per pkt., 250 seeds, 5c.

Ageratum

Dwarf compact-growing plants, 6 to 8 inches high, flowering freely throughout the season from spring-sown seed; splendid for bedding, edgings or pot culture. Per pkt., 250 seeds, 5c.

New Giant Branching Comet Aster

weeks ahead of others. Its spreading habit makes it a handsome plant. The colors are deep blue, pink, deep rose, white, and all colors mixed. Per pkt., 50 seeds, 5c.

DWARF CHRYSANTHEMUM, MIXED ASTER—Plant grows from 10 to 12 inches high, producing large double flowers. They resemble chrysanthemums and are very valuable on account of profuse late blooming. Per pkt., 50 seeds, 5c.

NEW JAPANESE—This is a new strain of Asters. They are of immense size, measuring from 5 to 6 inches across, with long petals, curiously waved and curled, so as to give them a resemblance to Japanese Chrysanthemums. They produce vigorous growing plants about 15 inches high, branching well and bearing a large number of these enormous flowers of mixed colors. Per pkt., 50 seeds, 5c.

Dwarf Chrysanthemum, Mixed Aster

NEW GIANT BRANCHING COMET ASTER—Here is a novelty which originated in California and is sure to please everyone. The plants grow about 18 inches high and branch vigorously, many times one plant measuring over twenty inches across. The stems are often 12 inches long and each plant produces from 25 to 30 blossoms. The flower is full and double, measuring from 3 to 5 inches in diameter and of the truest comet type. One cannot appreciate these new Asters unless they have a bed of them growing. I offer the following colors: White, pink, and all colors mixed. Per pkt., 50 seeds, 6c.; 2 pkts., 10c.

NEW YELLOW—This great novelty has long been sought and is the only yellow Aster I have ever grown upon my grounds. The form of the double flowers is a perfect ball, and they are borne on long erect stems, making them excellent for cutting. I do not think there is an Aster more sure of producing pure yellow flowers than this. Per pkt., 75 seeds, 5c.

QUEEN OF THE MARKET—This is an early Aster, being in bloom at least two

ASTERS

This grand new Aster is of American origin and has no superior. It is easily grown from the seed and has a wonderful branching character. The magnificent pure white flowers are from 2½ to 4 inches in diameter and borne upon long stems, which makes them excellent for cutting. The petals are very long and many of them more or less curved and twisted in such manner as to give the blossoms the appearance of graceful chrysanthemums. Pkt., 75 seeds, 5c.

BRANCHING ASTER, MIXED COLORS—These Asters are similar in habit of growth to the White Branching, and they will produce some of the most handsome colors found among Asters. They grow to a large size and it will be necessary to see them growing in order to know their real beauty. The colors are simply wonderful. Per pkt., 75 seeds, 5c.

DWARF QUEEN

The Finest Dwarf Aster

This splendid Aster makes low bushy plants about 10 inches high, of compact habit of growth, producing a great number of double, extra large flowers which resemble in shape those of the Victoria Aster and measure from 3 to 3½ inches in diameter. Excellent for bedding and pot culture. Pkt. 5c.

Dwarf Queen, the Finest Dwarf Aster

Mills' Favorite Mixture Asters

This mixture of Asters is made up of all the varieties offered on this page and a great many that are not on the list. It is by far the grandest collection I have ever seen, and those who desire some of the handsomest Asters ever produced should order some of this seed. Per pkt., 100 seeds, 5c.; 3 pkts., 12c.

34 MILLS' SUPERB BALSAM SEED

Crimson Spotted

PERFECTION WHITE—A fine strain; without doubt the best White Balsam grown. Per pkt. 50 seeds, 5c.

PERFECTION PINK—Rich, deep pink in center, spreading gradually to a light rosebud pink at the petals. Per pkt. 50 seeds, 5c.

CRIMSON SPOTTED—A deep crimson, spotted with white; very double. Per pkt. 50 seeds, 5c.

BRILLIANT RED—This variety contains all the choicest shades of red, of most striking beauty. Per pkt. 50 seeds, 5c.

MILLS' DEFIANCE SPLENDID MIXED—These are surely the most attractive Balsams ever grown. The plants are crowded with very large double flowers of every beautiful color imaginable. This is one of the very best mixtures and my favorite variety. Per pkt. 60 Seeds, 5c.

BIRD OF PARADISE (Poinciana Gillesi)

Here is a rare novelty, a very interesting plant. The foliage of this new plant reminds one of a very delicate Acacia. The flower is a golden yellow, measuring nearly 2½ inches across, of beautiful shape as shown in the illustration. They are produced in very large trusses, and the most beautiful part of the flowers are the very large pistils, which spread out in a fan-like form, of a bright crimson color. It blooms in great profusion the first year, if sown early in the spring. I first offered it five years ago; and the demand has been immense, simply exhausting my entire stock of seeds some time before the season was over, but I hope to supply all orders this season, as I have arranged for a greater supply than heretofore. A packet of the seed should be included with your order. Per pkt. 15 seeds, 8c.

CALCEOLARIA HYBRIDA

The colors and markings include the rarest shades of crimson, maroon, yellow and brown. Mixed colors, per pkt. 150 seeds, 10c.

CENTAUREA, New Marguerite

A rare novelty. I consider the New Marguerite Centaurea a novelty worth growing. It is entirely distinct from all other Centaureas, and I believe is the most beautiful variety known. The plants grow about 18 inches high; easily grown, while the flowers are pure white and sweet scented.

Per pkt. 50 seeds, 5c.

MILLS' SUPERB CARNATIONS

NEW CARNATION, EDNA MAY—This is a Carnation that I introduced a few years ago. It is easily grown from seed, and is pronounced by those who have grown it to be one of the finest varieties from seed yet introduced. The

flowers are large, sweet scented and contain a great profusion of delicate colors. If sown early, they will flower in a little over four months after planting the seed, and will continue until checked by frost. It is almost impossible to describe this Carnation and I wish you would give it a trial as those who have grown it are more than pleased. Give it a trial. Per pkt. 50 seeds, 8c.; 3 pkts. 20c.

New Carnation, Edna May

NEW MARGUERITE—As is shown by the engraving, this is a very handsome Carnation and easily grown from seed. If sown early, they will flower in about four months from time of planting seed and continue until checked by frost. The plants are of a branching character and will stand upright without any support and will winter in open ground without protection. All mixed colors. Per pkt. 100 seeds, 5c.

DWARF MARGUERITE CARNATIONS, GIANTS OF CALIFORNIA—These Dwarf Marguerite Carnations produce magnificent flowers of very

large size. The plants are dwarf and bushy in habit; the flowers are produced in many brilliant colors, and this new strain, by reason of the new flowers being so freely produced, will please every one fond of Carnations. Seed is very scarce but I can supply a small quantity of the very best colors, mixed, at 10c. per pkt. of 50 seeds, 3 pkts. 25c.

CHOICE PERPETUAL CARNATIONS—This is a very fine selection of hardy ever-blooming Carnations. They are very profuse bloomers and their extra large double flowers cannot be surpassed in beauty or fragrance. They comprise all the beautiful colors ever seen in Carnations, and will not fail to please any lover of flowers.

When the flowers begin to wither cut them off and new buds will form, so that a plant of this variety well taken care of will bloom continuously. Try them. I am sure you will be gratified with results. Per pkt. 75 seeds, 8c.

New Marguerite

(See Plant Dept. for Carnation Plants.)

CANNAS

CROZY'S NEW DWARF—Very attractive, with bright flowers, each with golden border. Per pkt. 15 seeds, 5c.

SPLENDID MIXED—All the best colors. Per pkt. 20 seeds, 5c. See Plant Department for Canna Roots.

CELOSIA (Coxcomb)

FIRE FEATHERED—Grows nearly 3 feet high and is covered with flower heads of intense orange scarlet or fire. Per pkt. 150 seeds, 5c.

GOLD FEATHERED—Similar to Fire Feathered, except the flower heads, which are of bright golden color. Per pkt. 150 seeds, 5c.

NEW GIANT EMPRESS—Has mammoth purple combs and dark brown foliage. Per pkt. 200 seeds, 5c.

TALL MIXED—Per pkt. 200 seeds, 5c.

FEATHERED VARIETIES, MIXED—Per pkt. 200 seeds, 5c.

CALLIOPSIS

GOLDEN WAVE—A mass of bright golden colors. Per pkt. 200 seeds, 5c.

FINE MIXED—Per pkt. 200 seeds, 5c.

CINERARIA

This is a beautiful plant for the greenhouse or window and not at all hard to grow. The seed germinates quickly and the plant grows about as broad as it is high and is covered with large flowers of the most brilliant colors. Nothing can be more effective in a window, for the colors are exceedingly rich and velvety, ranging through all the shades of crimson and blue; some with large white centers or borders. I offer large flowering prize varieties in mixed colors. Per pkt. 100 seeds, 8c.

LOBELIA

ERNIUS COMPACTA—Mixed colors. Used for vases, hanging baskets, etc. It is a deep, rich blue. Per pkt. 300 seeds, 5c.

Chrysanthemums

(See Plant Department for Plants.)

PERENNIAL VARIETIES, MIXED—One of the very finest plants for winter flowering. Perennial Chrysanthemums cross fertilize and it is very seldom that any two plants are alike. Per pkt., 50 seeds, 10c.

GOLDEN FEATHER—Golden foliage and dark velvet skin. Center surrounded by circle of beautiful gold and yellow, followed by another of clear rich crimson. Per pkt., 100 seeds, 8c.

ANNUAL VARIETIES, MIXED—Bloom freely during summer and autumn. Per pkt., 125 seeds, 5c.

Dianthus, Hardy Garden Pinks 35

The family of Pinks is unrivaled for brilliancy and rich variety of color. The plants are bushy, of symmetrical form, bloom profusely until fall, rendering them most satisfactory for small flower gardens.

DWARF FIRE BALL—These plants are continually covered with brilliant red perfectly double flowers, until checked by frost. The plants are dwarf, compact, while the flowers are finely formed and of large size. Per pkt., 100 seeds, 5c.

DWARF SNOW BALL—These are exactly like Dwarf Fire Ball, except in color of flowers, which are of a double pure white. Per pkt., 100 seeds, 5c.

NEW LARGE FLOWERING DWARF DOUBLE HYBRID—These grand dwarf plants grow only from 9 to 11 inches high and are covered with extra large double flowers of bright colors, which quite frequently measure 3 inches across. They embrace all colors, from pure white to deep crimson, many of the flowers being beautifully variegated and fancy marked. Per pkt., 100 seeds, 5c.

CHOICE MIXED—This is a grand collection including all the varieties here named with many others. Per pkt., 5c.

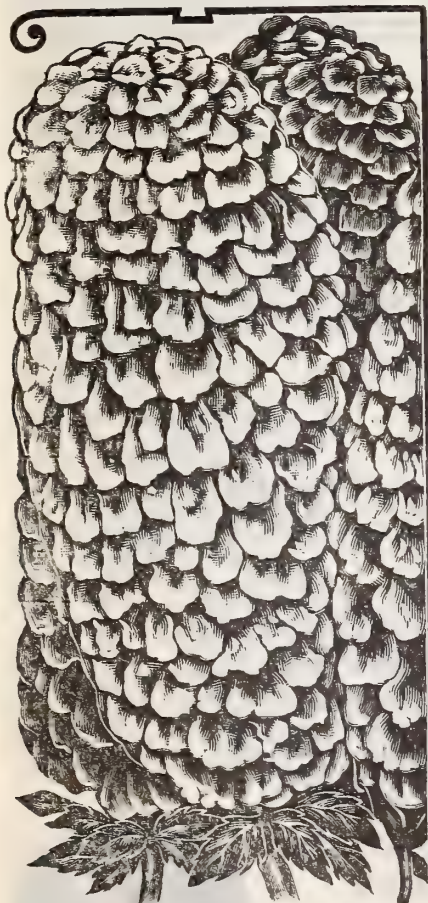

FUCHSIA

(For Plants see Plant Department.)

This well-known house plant will bloom the first year from seed if sown reasonably early. Double and single varieties mixed. Per pkt., 30 seeds, 10c.

CANDYTUFT

Candytuft

ALL COLORS, MIXED—Per pkt., 200 seeds, 5c.

Giant Hyacinth Flowered Candytuft—Here is a real novelty in Candytuft, and a great improvement over the Giant Empress, which has been called Giant Hyacinth Flowered. The flower heads grow nearly six inches long and about three inches in diameter and the color is a snow white. The plants grow about fourteen inches high and bear from four to six of these immense flower heads on one upright stalk and each plant will send out from four to eight branches. Per pkt., 100 seeds, 5c.

ROCKET—This produces pure white flowers, borne on pyramidal spikes. A splendid variety. Per pkt., 125 seeds, 5c.

PURE WHITE—This is a splendid variety for floral work. Per pkt., 125 seed, 5c.

NEW DWARF HYBRID, MIXED—Of dwarf habit; color from pure white to dark purple. Per pkt., 125 seeds, 5c.

CHOICE DAHLIAS

(For Dahlia Roots see Plant Department.)

NEW DAHLIA, TEDDY ROOSEVELT—This Dahlia is pronounced a wonder, because seed sown in the spring will produce an abundance of very large beautiful flowers by fall. The plants grow strong and produce double flowers of various colors, many being very rare. The general impression is that Dahlias cannot be grown successfully from seed, but I think this variety has fully convinced all who have grown it that there is no trouble in raising fine Dahlias from seed. Per pkt., 30 seeds, 8c.; 3 pkts., 20c.

NEW TOM THUMB—Perfect little plants, 12 to 15 inches high, covered with very showy flowers, mixed colors in great varieties. Pkt., 60 seeds, 6c.

NEW STRIPED SINGLE—Large single flowers, beautifully striped. Per pkt., 60 seeds, 5c.

NEW DOUBLE MIXED—Fine collection of colors. Per pkt., 50 seeds, 5c.

COSMOS

NEW MAMMOTH FANCY MIXED COLORS—Colors are light and dark pink, some flushed with shades of pink, while others are of rich, dark red. Per pkt., 100 seeds, 5c.

MAMMOTH WHITE—This will produce beautiful white flowers. Per pkt., 100 seeds, 5c.

MAMMOTH PINK—Produces delicate pink flowers. Per pkt., 100 seeds, 5c.

MAMMOTH RED—Flowers deep, rich, velvety crimson of enormous size. Per pkt., 100 seeds, 5c.

TINTS OF DAWN—This is a new variety, producing handsome flowers of white, with delicate tints of rose on the petals. Plants grow from 4 to 5 feet high. Per pkt., 100 seeds, 5c.

NEW MARGUERITE—This is a very pretty variety. The petals are deeply and irregularly fringed. Per pkt., 75 seeds, 5c.

NEW EARLY BLOOMING—This is a very choice selection and one of the earliest to bloom. It is worthy of a trial. Per pkt., 100 seeds, 5c.

SPECIAL NOTICE

I will mail one packet each of the following choice seeds for only 15c.

PHLOX Fancy Mixed	PORTULACA , Royal Beauty
POPPY , Flashlight	SWEET PEAS , Cupid Mixed
MIGNONETTE , Sweet	VERBENA , Fine Mixed

Six regular size packets for only 15c.

36 Mills' Fine Coleus

(For Coleus Plants see Plant Department.)

FANCY FRINGED AND COLORED—The leaves of this grand variety are very large and cut out in the most delicate and curious manner on the edge. Colors are handsome. Per pkt., 100 seeds, 10c.; 2 pkts., 15c.

GIGANTIC COPPER LEAVED—The introducer says: "This is a new strain, having only been recently introduced and comes true from the seed. Growth is strong and vigorous, ground color of the leaves is deep golden yellow overlaid with rich red brown; the yellow shows out clearly around edge." Per pkt., 50 seeds, 10c.; 2 pkts., 15c.

COLEUS—All colors mixed, pkt., 5c.

GIANT DOUBLE DAISY

LONGFELLOW—Very large double rose colored flowers. Per pkt., 125 seeds, 5c.

FINE GERMAN DOUBLE MIXED—Extra fine. Pkt., 125 seeds, 5c.
EXTRA DOUBLE WHITE—Double flowers, borne on long stems; pure white and valuable for cutting. Per pkt., 125 seeds, 5c.

GAILLARDIAS

FINE MIXED—Including the best varieties of bright red, gold, crimson and white and bright orange. Per pkt., 100 seeds, 5c.

GERANIUM

(For Plants, see Plant Department.)

Well-known popular plants for either pot culture in the winter or summer bedding, 12 to 18 inches high; although perennial they will produce nice bushy plants and flowers from seed sown the same season. There is always a chance of securing something new and desirable in sowing Geranium seed in this way.

FANCY MIXED—Pkt., 20 seeds, 15c.

HELIOTROPE

A great favorite on account of its strong fragrance.

It is easily grown from the seed and if sown in open ground, will produce flowers in August, but the seed will do better if sown in the house and set out in the open ground when the weather is warm.

LEMOINE'S GIANT HYBRID—A grand new variety of large size, great beauty and delicious fragrance and the flower heads are a great novelty. It is claimed that as many as 12,000 mammoth flower heads have been counted on a single stalk. The trusses measure from 8 to 12 inches across and the colors range from pure white, through shades of blue and violet to deep indigo. Per pkt., 100 seeds, 8c.

BLACK KING—Rich dark purple. Per pkt., 100 seeds, 6c.

LADY IN WHITE—Spotless white. Per pkt., 100 seeds, 5c.

Heliotrope

DARK BOUQUET—Intensely dark. Per pkt., 100 seeds, 5c.

CHOICE MIXED—Per pkt., 100 seeds, 5c.

ICE PLANT

A small white flower, very dwarf. Highly prized on account of its peculiar icy foliage. Fine for vases. Per pkt., 5c.

LANTANA

This is a well-known shrub-like plant, producing clusters of verbenalike flowers, in pink, yellow, orange and white colors, in great profusion. Many take the plants up before frost, cut them back and place them in a sunny window, where they generally give an abundance of flowers all winter. Pkt., 50 seeds, 8c. For Lantana Plants see plant department.

HOLLYHOCK

FINE DOUBLE MIXED—This is a splendid flower, and my extra choice double mixed is the finest on the market. Pkt., 50 seeds, 5c.

Lantana

MORNING GLORIES

Many Morning Glories have recently been introduced, but I think this new variety is taking the lead wherever they are grown. It is a Japanese novelty and my seed stock was brought direct from Japan by a friend, who pronounces it one of the most beautiful varieties grown in that country. It is a very strong grower and is soon in bloom, with dazzling flowers in all shades of rose, red, pink, maroon and crimson. Some are royal purple, others are blue with a pink or winered throat, or a white throat with an edge of beautiful colors. Per pkt., 50 seeds, 6c.; 3 pkts., 15c.

New Morning Glory—Japanese Belle

DWARF MORNING GLORY—Beautiful plant, growing about 12 inches high. Fine mixed colors. Per pkt., 75 seeds, 5c.

TALL MORNING GLORY—Should be planted to cover trellises, etc. Fine mixed colors. Per pkt., 75 seeds, 5c.

MOONFLOWERS

(For Plants see Plant Department.)

This is one of the quickest growing vines in cultivation. It attains a height of from 20 to 25 feet in a single season, and I am sure a plant of such rapid growth and handsome foliage will please anyone who wants such a vine; for arbors, fences or piazzas there is nothing better. It produces enormous blooms at night, which close near noon next day. The seeds should be started in a hot-bed in March or April, but before sowing the seed it should be soaked in lukewarm water about 24 hours.

WHITE SEEDED—Covered with pure white flowers every night after beginning to bloom. Per pkt., 15 seeds, 5c.

CROSSBRED or HYBRID—It comes into bloom nearly a month before the white seeded. The flowers are produced in great abundance every night. Per pkt., 15 seeds, 5c.

MUSK PLANT

NEW COMPACT—Excellent for beds; also for pot culture. Pkt., 5c.

LARKSPUR

Noted for richness of colors and great beauty. I offer the choicest varieties.

DOUBLE DWARF ROCKET, FINEST MIXED—Per pkt., 150 seeds, 5c.

TALL ROCKET—Per pkt., 150 seeds, 5c.

EMPEROR—Noted for large number of spikes on a single plant. Per pkt., 150 seeds, 5c.

MARVEL OF PERU

FOUR O'CLOCK

VARIEGATED—Brilliant flowers in rich colors; gold striped foliage. Per pkt., 40 seeds, 5c.

MARIGOLD

DOUBLE AFRICAN MIXED—This is an old favorite, but greatly improved in size and doubleness. Yellow and orange. Per pkt., 5c.

TOM THUMB MIXED—They form compact little bushes from six to eight inches high, completely covered with showy blossoms from summer until fall. Per pkt., 5c.

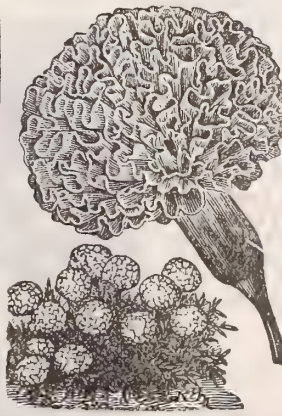

EVERLASTINGS

MIXED

This embraces all the leading varieties of Everlastings and the flowers are very attractive. A bouquet of these is a very novel thing, as they will keep for years without a drop of water and look as fresh as when first picked. Per pkt., 100 seeds, 5c.

Everlastings, Mixed

Marigold—Tom Thumb

NEW PANSY, MASTERPIECE

This is a remarkable type in Pansies. The difference consists in the border of the petals being conspicuously curled or wavy, which makes the flower have the appearance of being double. The flowers are of a large size and are free bloomers making them by far the handsomest for bedding. I would advise everyone to order some of this seed as I consider it a curiosity. Choice mixed colors per pkt. 10c.

MILLS' GIANT PANSY

This is a new variety introduced recently; on account of its large flowers and the many different colors and markings, it was selected as something very rare. The flowers are giant in size, sometimes measuring about 3 inches in diameter. The colors range through all shades that have ever been known in Pansies, and I consider that it is a very fine variety and must be seen to be appreciated. Choice seed, all colors, per pkt. 5c.

SPECIAL OFFER: I will mail 6 packets of pansies, your selection, for only 25c.

VIOLET SCENTED PANSIES

This is a new type of Pansies and a cross between the Pansy and the Violet. Flowers more like Pansies but fragrance like Violets. Colors embrace canary, azure blue, white, buff and many others.

Per pkt. 100 seeds, 6c.; 3 pkts. 15c.

METEOR—Bright canary yellow, with mahogany and reddish brown. Per pkt. 100 seeds, 5c.

GIANT TRIMARDEAU—Large in size and very attractive colors. Per pkt. 100 seeds, 5c.

SNOW QUEEN or SNOW FLAKE—Flowers of pure delicate satiny white. Per pkt. 100 seeds, 5c.

GOLD MARGINED—Very pretty. Per pkt. 100 seeds, 5c.

MAHOGANY COLORED—Per pkt. 100 seeds, 5c.

ROSY MORN—Red with white edges. Per pkt. 100 seeds, 5c.

MILLS' BUTTERFLY PANSY—The flowers are very large of many choice colors, reminding one of a beautiful butterfly. Pkt. 100 seeds, 6c.

EMPEROR WILLIAM—Flowers of ultramarine blue, with purple eyes. Per pkt. 100 seeds, 5c.

FIRE KING—Lower petals have blotch of deep brown red, margined yellow; upper petals are a bright reddish brown. Per pkt. 100 seeds, 5c.

KING OF THE BLACKS—Intensely dark and rich. Per pkt. 100 seeds, 5c.

PEACOCK—Resembles peacock feathers; very attractive and beautiful. Per pkt. 100 seeds, 5c.

ROYAL PRIZE PANSIES—Finest mixed. Fancy and giant varieties. Per pkt. 125 seeds, 6c.

PURE YELLOW—Very large golden flowers. Per pkt. 100 seeds, 5c.

STRIPED and MOTTLED—Per pkt. 100 seeds, 5c.

ENGLISH FACE—Light blue. Per pkt. 100 seeds, 5c.

(For Pansy Plants, see Plant department.)

Mills' Defiance Pansies

Finest mixed. Immense flowers; perfect form. Excel in their endless variety of colors combined with perfection of form and velvety texture. Per pkt. 6c.

NEW ORCHID FLOWERED PANSIES—A most interesting type of Pansies of the Giant Flowered class, containing a mixture of the most surprising novel, unique and beautiful color combinations, entirely new among Pansies. The ground color of nearly all the flowers is in light shades, the petals are marked with large brown or golden yellow blotches which diffuse into rays and veins toward the edge. The upper petals are upright and sort of plaited, which gives the flowers their resemblance to orchids. The colors range in the terra cotta shadings as well as in the flesh, orange, rose, pink and lilac. Pkt., 6c.

IMPERIAL GERMAN

I do not think that anything except my new Pansy can surpass the Imperial German. They produce flowers of large size and perfect form throughout the entire summer. They embrace all the solid colors; spotted on the background of every flower; spotted or bordered flowers of various colors, each with a distinct rim of white, blue or yellow, dark and light and various other combinations that cannot be described. Imperial German is always first to catch the eye, because of its striking beauty and enormous size. This splendid mixture embraces seeds of over 50 colors and markings. Per pkt. 125 seeds 5c.; 3 pkts. 12c.

Mills' Defiance Pansies.

38 Mills' Choice Mignonette

ALLEN'S DEFIANCE—This is pronounced a leading variety and the demand as a florist's flower is becoming great. It grows very strong, both as a plant and an individual flower, and the size and strength of the leaf have not been equaled. The spikes of flowers grow about 10 inches long and single florets more than one-half inch in diameter, having a delightful fragrance. I have a choice lot of seed and can supply at the following price: Per pkt. 100 seeds, 5c.

QUAKER CITY—This has a very sweet fragrance, handsome form; golden reddish color; excellent for pot culture. Per pkt. 250 seeds, 5c.

GOLDEN QUEEN—Produces yellow blossoms and is of very dense dwarf growth. Per pkt. 250 seeds, 5c.

SWEET LARGE FLOWERING—Fragrant. Per pkt. 250 seeds, 5c.

New Giant Flowered—Red

HYBRID SPIRAL—The flowers are white and very fragrant growing large spikes from 8 to 10 inches long, on a dwarf plant of branching habit. Per pkt. 250 seeds, 5c.

NEW GIANT FLOWERED, RED—Produces mammoth flower spikes; color is a very striking red. Per pkt. 250 seeds, 5c.

GIANT PYRAMIDAL—This is a splendid variety; robust grower, produces large spikes of flowers. Per pkt. 250 seeds, 5c.

FINE MIXED—This comprises all known varieties and is a very choice selection. Per pkt. 250 seeds, 5c.

GOLDEN MACHET—This produces flowers of golden hue; very fragrant and one of the very best varieties to grow. Per pkt. 250 seeds, 5c.

PURE MACHET—Produces large spikes with reddish gray flowers; is of rather dwarf habit. Per pkt. 250 seeds, 5c.

SOME OF MY CELEBRATED COLLECTIONS OF NASTURTIIUMS

the remarkable range of colors embraces rose, pink, salmon, purple, dark maroon, light maroon, light yellow, deep orange striped and blotched; extremely beautiful. Do not fail to give this Nasturtium a trial. Pkt. 20 seeds, 6c.; oz. 12c.; ¼ lb. 35c.

NEW CLIMBING HYBRIDS OF MADAM GUNTER—These new hybrids climb from 5 to 6 feet high and are fairly covered with brilliant colored flowers from spring until fall. This new strain is so very ornamental that it deserves a place in every garden, for

New Tom Thumb Nasturtiums

NEW TOM THUMB MIXED—This mixture contains all the Tom Thumb varieties and one of the best mixtures I have to offer. Pkt. 20 seeds, 5c.; oz. 10c.; ¼ lb. 35c.

SALPIG LOSSIS

(VELVET FLOWER)

Flowers are marked and somewhat similar in shape to a Petunia. Mixed colors. Per pkt. 100 seeds, 5c.

SCABIOSA

(Sweet Scabiosa or Morning Bride)

Flowers are large and double, sometimes measuring 3 inches in diameter. They are all mixed colors. Per pkt. 50 seeds, 5c.

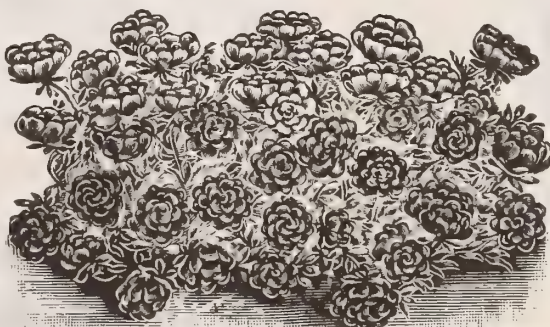

Tom Thumb Nasturtiums

NEW PORTULACA, ROYAL BEAUTY

A grand new variety I have recently introduced, which has given great satisfaction wherever grown. But few appreciate the beauty of coloring of the flowers of Portulaca, but this new variety is easily grown and will bloom profusely in the early summer, if the seed is sown in a bed in May. The flowers are very large and a large per cent perfectly double. The most brilliant colors of red, orange, white, maroon, yellow and various other shades that I will not undertake to describe. A bed of these is a magnificent sight and this new variety leads them all. It is greatly appreciated by all customers who have grown it, and I hope more will try it this season. Per pkt. 100 seeds, 8c.; 3 pkts. 20c.

EXTRA CHOICE MIXED PORTULACA—This is a very choice mixture, many beautiful and attractive colors. Per pkt. 300 seeds, 5c.

New Portulaca, Royal Beauty is a very choice mixture, many beautiful and attractive colors.

CLIMBING NASTURTIIUMS

MILLS' FAVORITE MIXTURE—This splendid mixture is composed of the types of Lobb's Nasturtiums, with the finest Tall Nasturtiums, including every variety of Climbing Nasturtiums I offer. All will be pleased with it. Per pkt. 20 seeds, 5c.; oz. 8c.; ¼ lb. 30c.

FORGET-ME-NOT

(MYOSOTIS)

ALPESTRIS BLUE—Free flowering. The best blue variety. Per pkt. 200 seeds, 5c.

LOBB'S NASTURTIIUMS

These are as easily grown as the Tall Nasturtiums, but far surpass them in the brilliancy of their flowers. The leaves are smaller and are in greater profusion. They can be trailed to a great height and are particularly attractive growing on trellises or trailing on the ground. I offer all the finest mixed colors. Per pkt. 20 seeds, 5c.; oz. 15c.; ¼ lb. 40c.

OXALIS

ROSEA—Deep rose flowers; clover-like foliage that grows from 6 to 7 inches high. Per pkt. 150 seeds, 5c.

VALDIVIANA—Light, clover-like foliage, light lemon-yellow flowers. It grows large. Per pkt. 150 seeds, 5c.

FINE MIXED—Pkt. 150 seeds, 5c.

MILLS' DEFIANCE—LARGE FLOWERING FRINGED and STAINED—This is a splendid variety; large size and produces the richest colors of any single variety in cultivation. Flowers measure nearly five inches in diameter, are beautifully fringed on the edges, and give various shades of purple, rose and crimson, while many produce pure white, blue and red. On account of the handsome foliage, large leaves, and the great abundance of flowers, this is a favorite variety. Per pkt., 50 seeds, 15c.

NEW PETUNIA, SUNSET RAINBOW—A fine new strain of large flowering Petunias, which I have grown at a great expense and also paid \$50.00 for a name. The plant is a very rapid grower, producing flowers of the richest color and largest size, and beautifully veined in such delicate shades that it is impossible to describe them. They should be grown to be appreciated, because no description will give but a faint idea of their beauty. Per pkt., 8c.; 3 pkts., 20c.

FANCY FRINGED DOUBLE—This is one of the very best double Petunias and will produce a large per cent of handsome double flowers in all shades of colors existing among this class of Petunias. It is almost impossible to describe this handsome double fringed variety and it must be seen to be appreciated. Do not fail to give it a trial. Per pkt., 50 seeds, 15c.; 2 pkts., 25c.

EXTRA CHOICE MIXED—All best colors. Per pkt., 5c.

PHILOX==Drummondii

MILLS' FANCY MIXED

—This is the very best strain for brilliancy of colors and also for the perfection and size of flowers. My customers will be pleased with this variety, which produces so many wonderful colors in flowers of enormous size. Per pkt., 6c.; 3 pkts., 15c.

LARGE BLOOD RED—This is the darkest color of all, being of the deepest blood red color, rich and beautiful. Per pkt., 125 seeds, 5c.

NEW LARGE YELLOW—No variety is more admired than this, being a very rich straw color. Very attractive. Per pkt., 125 seeds, 5c.

PURE WHITE—This is the very best pure white variety. Per pkt., 125 seeds, 5c.

STARRED AND FRINGED—(Star of Quedlinburg.) This is the finest starred and fringed variety, having a bright eye in the center. Mixed colors. Per pkt., 125 seeds, 5c.

New Flashlight Poppy

This new strain of Poppies, made up from one of the finest collections, proves a wonderful success. It has been grown by thousands of my customers. They are a beautiful sight when growing, and produce double, semi-double and single flowers of great beauty; from the time they begin blooming until late in the season, there is something new every morning. The colors range all through rose, flesh pink shades to crimson, white, maroon, striped and mottled, etc. Per pkt., 150 seeds, 5c.; 3 pkts., 12c.

ICELAND—These perennial Poppies will produce flowers in abundance the first year from seed. The colors range from pure yellow and white to deep orange scarlet. Excellent for decoration. Per pkt., 250 seeds, 5c.

GOLDEN GATE—They flower the entire summer, producing almost every color imaginable. Per pkt., 250 seeds, 5c.

SNOWDRIFT—Beautiful, large, pure white flowers, perfectly round and double; at a little distance a bed of them looks like a drift of snow, as name indicates. Per pkt., 200 seeds, 5c.

CALIFORNIA MIXED—Yellow, orange and white. Per pkt., 250 seeds, 5c.

SUPERB MIXED—This as well as the Flashlight is a first-class-class variety and embraces many beautiful colors. Per pkt., 300 seeds, 5c.

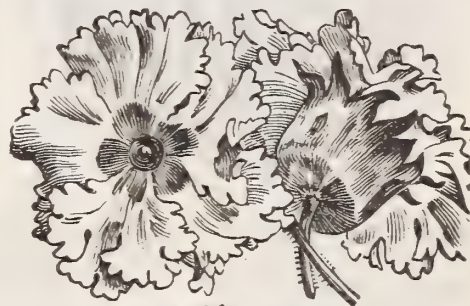

Sunset Rainbow

PRIMULA

(Chinese Primrose.)

These are included as winter bloomers. If right conditions exist and instructions are followed, they are easily grown from seed, will give a succession of flowers throughout the entire season, which are noted for their beauty and delicate fragrance.

ROSY MORN—This is a distinct variety, producing large fringed flowers of a very pleasing carmine rose color. Pkt., 30 seeds, 10c.; 2 pkts., 15c.
SPLENDID MIXED LARGE FLOWERING—A splendid mixture, embracing all the different varieties in colors. Per pkt., 40 seeds, 5c. (I offer the finest colors; excellent for house plants.)

POPPIES

New Tulip

NEW TULIP POPPY—Flowers are more of a tulip shape than any other and at a little distance one could scarcely tell a field of them in bloom from a field of scarlet tulips. Per pkt., 250 seeds, 5c.

40 Selections of all the Best New Sweet Peas

DOUBLE SWEET PEAS.

Produce from 20 to 50 per cent of double flowers. I have the finest strain in existence, with all the best colors, making a grand mixture. Is very attractive. Per pkt. 75 seeds, 6c.; 3 pkts. 15c.

RED RIDING HOOD—Produces bright, rosy, pink flowers in abundance, on strong plants, which always bloom freely throughout the season. Per pkt. 75 seeds, 5c.

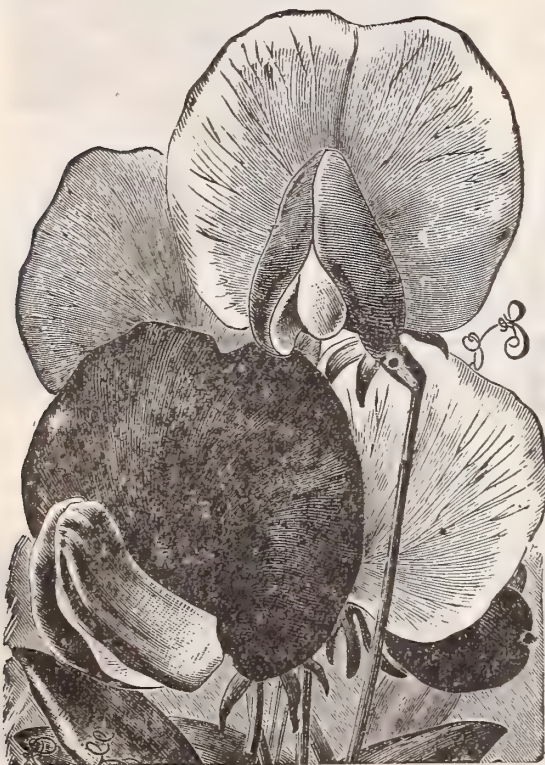

BLACK KNIGHT—Deep maroon color. Per pkt. 50 seeds, 5c.

BLUSHING BEAUTY—Pink with lilac. Per pkt. 75 seeds, 5c.

SENATOR—Chocolate and creamy white. Per pkt. 75 seeds, 5c.; oz. 8c.

EMILY HENDERSON—Largest white. Per pkt. 75 seeds, 5c.; oz. 8c.

LOTTIE ECKFORD—Rose and white, edged blue. Per pkt. 5c.; oz. 8c.

Best Mixed.

FAIRVIEW FINEST MIXED—My gilt edged or unsurpassed mixture. This contains the best colors, largest flowers and is the most perfect mixture that can be had. It includes all of Eckford's latest introductions, as well as others, and I claim there are no better colors offered in any collection. Per pkt. 75 seeds, 5c.; oz. 10c.; ¼ lb. 25c.; ½ lb. 40c.; lb. 75c. postpaid.

GORGEOUS—A new Sweet Pea; one of the richest colored varieties that I know of, being a rich orange salmon. Per pkt. 50 seeds, 5c.; oz. 10c.

APPLE BLOSSOM—Bright pink and bluish. Per pkt. 75 seeds, 5c.; oz. 8c.

GOLDEN GATE—Produces flowers of a pinkish mauve and lavender which are most beautiful. Per pkt. 75 seeds, 5c.; oz. 10c.

MRS. SANKEY—White; large size. Per pkt. 75 seeds, 5c.

ORANGE PRINCE—Orange flushed scarlet. Per pkt. 75 seeds, 5c.; oz. 8c.

PRINCE OF WALES—White, striped mauve. Per pkt. 75 seeds, 5c.; oz. 8c.

MRS. GLADSTONE—Pink, with rosy wings. Per pkt. 75 seeds, 5c.; oz. 8c.

PRIMROSE—Pale primrose yellow. Per pkt. 75 seeds, 5c.

EARLIEST OF ALL SWEET PEAS—A vigorous grower and always comes into bloom nearly two weeks in advance of Extra Early Blanche Ferry. It is so early that two crops of flowers may be grown in one season, by simply planting early in the spring, and those that go to seed, if sown in August, will produce flowers in September and October. Try a packet and have Sweet Peas in advance of your neighbors. Per pkt. 5c.; oz. 10c.

ECKFORD'S FINEST MIXED—An excellent mixture, containing all the best of Eckford's Famous Sweet Peas. Per Pkt. 75 seeds, 5c.; oz. 10c.; ¼ lb. 15c.; ½ lb. 25c.; lb. 45c. postpaid.

EXTRA EARLY BLANCHE FERRY—About 10 days earlier than the well-known common strain of Blanche Ferry. Per pkt. 75 seeds, 5c.

Unrivalled Beauty.

UNRIVALED BEAUTY—A new strain of Sweet Peas recently introduced by me which have been planted by thousands of my customers throughout the country. They are very fragrant and of the finest and earliest, containing all the choicest colors known in Sweet Peas. The flowers are unusually large and if frequently cut they will bloom from early summer until killed by frost in the fall.

Mrs. A. M. Babcock, Bethlehem Center, N. Y., who named the Unrivalled Beauty, says: "I tried to find a name that would in a slight degree express its most wonderful beauty. It is the perfection of Sweet Peas." I hope all will give this grand new variety a trial. Per pkt. 75 seeds, 5c.; 3 pkts. 12c.

Earliest of All Sweet Peas.

Special Offer

I will mail one packet of the following Sweet Peas for only 20c.

Extra Early Blanche Ferry,
Golden Gate,
Cupid Pink,
Cupid, all Colors
Fairview Finest Mixed,
Eckford's Finest Mixed.
6 Regular size Packets
only 20c. postpaid.

INVINCIBLE RED—White stripe on scarlet. Per pkt. 5c.; oz. 8c.

CAPTAIN OF THE BLUES—Bright blue. Per pkt. 75 seeds, 5c.; oz. 8c.

DWARF CUPID SWEET PEAS—These Dwarf Sweet Peas grow only about 5 inches high, spreading out and forming a mass of foliage with plants nearly 1½ feet across. I offer 3 varieties all of which produce very sweet-scented flowers of large size and in great abundance, the stems being about four inches long. Cupid Sweet Peas make excellent borders also pot plants, are wonderfully free bloomers and begin to flower as early as June, if planted early in spring, and continue all summer. No garden or flower bed is complete without this little novelty.

SEED OF ALL COLORS, Mixed. Per pkt. 5c.; oz. 8c.

WHITE CUPID Waxy white flowers nearly as large as Emily Henderson; perfect form; very sweet. Per pkt. 5c.

Cupid Sweet Peas.

PINK CUPID—Exactly like the white, except in color, which is a lovely pink. Per pkt. 5c.

CUPID BEAUTY—The most beautiful of the three, being of the cupid type, growing from 6 to 7 inches high and producing flowers of the largest size. A wonderfully free bloomer and, I believe, a grand pot plant. Per pkt. 5c.

STOCKS (TEN WEEKS)

LARGE FLOWERING GLOBE PYRAMIDAL—This variety produces immense spikes of perfectly double flowers; individual blooms measuring from 2 to 2½ inches in diameter; colors, crimson, white, rose, blue, lilac, brown, flesh color, apple blossom and yellow. They are greatly prized for cut flowers on account of their fragrance and many colors. Per pkt. 75 seeds, 5c.

DWARF GERMAN TEN WEEKS—Fine mixed. Per pkt. 75 seeds, 5c.

VIRGINIAN STOCKS

CHOICE MIXED COLORS—A hardy annual of very easy culture, contains all the colors known in Virginian Stock and is a very delicate and pretty little flower. Per pkt. 75 seeds, 5c.

SALVIA, OR SCARLET SAGE

LARGE FLOWERING SCARLET—A most gorgeous plant with its brilliant colors, producing an abundance of bloom during the summer. The great spikes of bloom completely conceal the foliage, making it a blaze of flaming scarlet. One plant will produce nearly 200 spikes of flowers in one season, each spike being nearly an inch in length. Pkt. 100 seeds, 6c.

SMILAX

A desirable window vine, glossy green, graceful foliage. Pkt, 5c.

RICINUS (Castor Oil Bean)

RICINUS ZANZIBARENSIS—This is a handsome, quick growing variety, and if planted in open ground in May, will be in full foliage by July; they attain a height of from 12 to 14 feet. A few plants in a large bed make a most picturesque sight, to be admired a long distance. The gigantic leaves measure 2½ to 4 feet across and are a magnificent sight. I offer this variety in mixed colors. Pkt. 12 seeds, 8c.; 3 pkts, 20c.

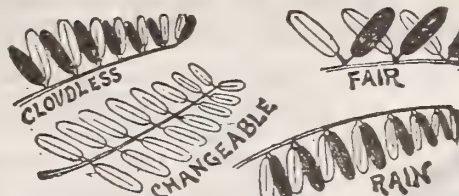

GODETIA (Satin Flower)

LADIES' SATIN ROSE—It produces handsome flowers of carmine crimson petals which shine like satin. Per pkt. 250 seeds, 5c.

FINE MIXED COLORS—Per pkt. 250 seeds, 5c.

SENSITIVE PLANT

Sometimes called the "Weather Plant." It is said that the leaves by changing their position, foretell the weather, nevertheless, whether this be true or not, it is a very pretty plant, lovely foliage and flowers. Pkt. 40 seeds, 5c.

SWEET WILLIAM

CHOICE MIXED—A hardy perennial, growing about 18 inches high. Both double and single flowers. All colors mixed. Per pkt. 100 seeds, 5c.

Mrs. M. J. Siders, N. Bend, Neb., writes: "I have just received the last of the seed which I ordered from you and I wish to thank you for the excellent seed and your prompt manner of doing business."

TORENIA

NEW LARGE FLOWERING—Very charming for pot culture; very large. Per. pkt. 100 seeds, 5c.

WHITE WINGS—Flowers waxy white color, tinted white at the throat. Pkt. 100 seeds, 5c.

WALLFLOWERS

FINE GERMAN (Double Mixed)—This grand mixture contains a great many shades of color. Per pkt. 75 seeds, 5c.

CHOICE SINGLE MIXED—Per pkt. 100 seeds, 5c.

Wallflower

DOLICHOS (Hyacinth Bean)—A rapid grower. It makes a dense and very attractive screen. Per pkt. 25 seeds, 5c.

BALLOON VINE (Cardiospermum)—It is of rapid growth and bright foliage. Per pkt. 35 seeds, 5c.

COBEA (Scandens)—A graceful climber with large bell-shaped flowers of violet hue. Per pkt. 15 seeds, 5c.

CRUEL PLANT (Physianthus Albens)—Name given it from the fact that moths, ants, butterflies etc., seeking honey are caught. White flowers. Per pkt. 5c.

WILD FLOWER GARDEN MIXTURE

These mixed flower seeds embrace more than a hundred varieties of easy growing and pretty flowers as are suitable for forming a wild flower garden. Excellent to sow in any corner of the garden for they grow and bloom freely. Liberal packet, 8c.

HYACINTHUS CANDICANS

The giant summer flowering Hyacinths. An excellent bulb for summer and autumn flowering, very showy and attractive, grows 3 to 4 feet high, each stalk having from 20 to 30 large bell shaped flowers, pure white and very fragrant; perfectly hardy. Per pkt. 5c.

SUNFLOWERS

MANY FLOWERED DOUBLE—This little sunflower grows nearly four feet high, and where each leaf joins it produces a double flower. It is very ornamental and much admired. A single plant will produce a great many flower heads and a large supply of seeds, which are good for feeding poultry. It will pay my customers to grow this variety. Per pkt. 50 seeds, 5c.

MINIATURE—Smallest variety I know of; has handsome foliage and produces hundreds of very bright orange colored, small single flowers. Per pkt. 40 seeds, 5c.

PRIMROSE—This handsome variety does not grow very large, but the flowers are produced in abundance, light primrose color with dark center. Per pkt. 40 seeds, 5c.

SWEET VIOLETS

41

ADMIRATION—Per pkt. 100 seeds, 5c.

PURPLE QUEEN—Pkt. 100 seeds, 5c.

WHITE

CZAR—

Sweet scented and large flowering. Pkt. 100 seeds, 5c.

FINEST MIXED—Per pkt. 100 seeds, 5c.

FEVERFEW

Handsome double white flowers, very profuse bloomers and easily grown. Per pkt. 5c.

FOX GLOVE

(or Digitalis)

FINE MIXED—A very showy plant, bearing long racemes of beautiful flowers of many choice colors. Per pkt. 5c.

SOME CHOICE CLIMBERS

CANARY BIRD FLOWER—This is a most beautiful climber and has handsome fringed rich yellow flowers and delicate foliage. Per pkt. 20 seeds, 5c.

CYPRESS VINE—This is one of the most elegant climbing vines. Fern-like foliage and star-shaped flowers. Pkt. 20 seeds, 5c.

20c. Flower Bed Collection—For only 20 cents I will send the following 15 kinds of choice flower seeds, by mail, postpaid, to any address in the United States, one regular size pkt. of each:

Mills' New Rose Aster, mixed.
World's Fair Sweet Peas, mixed.
Candytuft—Tom Thumb, White.
New Butterfly Larkspur, mixed.

Mills' Defiance Pansy, mixed.
Aquilegia, fine mixed.
Virginian Stocks, Fairy Queen.
Sweet Mignonette.

Rose Bud Balsam, mixed.
Petunia, fine mixed.
Sweet William, mixed.
Sweet Alyssum.

California Mixed Poppy.
Superb Mixed Poppy.
Wild Flower, garden mixture.

15 FULL SIZED PACKETS FOR ONLY 20c. POSTPAID.

MILLS' CHOICE VERBENAS

NEW MAMMOTH—This is a magnificent new Verbena of mammoth size; the extra large flowers embrace a wide range of the most brilliant colors, blooming continually from spring until late in autumn. For garden beds or massing this Verbena is unequalled. They bloom profusely the first season. Per pkt. 100 seeds, 5c.

New
Mammoth

GOLDEN LEAVED—Scarlet flowers with leaves of a bright yellow shade. Per pkt. 100 seeds, 5c.

SCARLET DEFIANCE—Intensely deep rich color, of the brightest scarlet. Very attractive. Per pkt. 100 seeds, 5c.

GIANT STRIPED—A most beautiful flower, producing beautiful colors; sure to please everyone. Per pkt. 100 seeds, 5c.

GIANT PURPLE—It produces mammoth purple flowers of beautiful color. Pkt. 100 seeds, 5c.

GIANT PINK—Similar to purple except in color. Per pkt. 100 seeds, 5c.

GIANT WHITE—The handsomest white variety grown; of enormous size. Pkt. 100 seeds, 5c.

GIANT MIXED—A mixture of the above four varieties, and will give a wonderful display during the season. Pkt. 125 seeds, 6c.

VERBENA ODORATA (Pure White)—Can be sown in the open ground early in the spring; will germinate quickly, grow rapidly and in a short time bear a great profusion of blossoms. These blossoms instead of growing in clusters like other sorts are borne erect on spikes 3 or 4 inches long. The flowers are pure white and extremely fragrant, making them very attractive. Per pkt. 100 seeds, 5c.

BLUE and WHITE EYE—A light blue flower with a white eye. A bed of only three plants makes a grand sight. Per pkt. 100 seeds, 5c.

EXTRA CHOICE FINE MIXED—An excellent selection of the most brilliant colors. All the finest strains in cultivation. Per pkt. 125 seeds, 5c.

Rose Hill Fancy Mixed Verbena

This is one of the best collections of Verbena I have ever offered. They produce large flowers and embrace a wide range of the most brilliant colors, blooming continually until late in autumn. For flower beds or massing this Verbena is unequalled. Per flower beds or massing this Verbena is unequalled.

It will be impossible to fully describe the handsome colors as they must be seen to be appreciated. Pkt. 5c.

SPECIAL OFFER

I will send one packet each of 5 varieties of Verbenas, customer's choice, for 15c.

SWEET SCENTED MAYFLOWER VERBENA—This is something new and is another strain of mixed verbena that is made up to include all the Sweet Scented varieties. The flowers are large, the colors are very brilliant and they bloom continually from early summer until late in autumn. Those who want one of the handsomest Sweet Scented Verbenas should give this a trial. Packet, 6c.

Choice Zinnias

ZINNIAS

DOUBLE LILLIPUT—The dwarf, compact bushes are covered during the summer and until frost sets in, with very small, perfectly double, pom-pone shaped flowers, embracing a wide range of both light and dark colors and evenly distributed. Per pkt. 60 seeds, 8c.

STRIPED ZEBRA—Produces all colors such as orange, pink, yellow, crimson, violet, scarlet, white, rose, and many are striped with different shades and hardly any two plants produce flowers alike. Per pkt. 60 seeds, 5c.

Double Lilliput Zinnia

NEW POMPONE—Colors, pure white through cream and buff to clear cream yellow, and pinks to deepest crimson and firey coppers and reds. All colors mixed. Per pkt. 60 seeds, 6c.

GIANT MAMMOTH MIXED—This is a new class of Zinnias, giant in size, and has perfect double flowers of the richest and most varied colors and shapes measuring nearly 5 inches across, of intense brilliant colors. The plants grow about 3 feet high, and bloom freely. Per pkt. 60 seeds, 6c.

Giant Mammoth Zinnia

My Flower Seeds are all new, fully tested and the varieties are the best. Send me your order.

Grown in My Own Greenhouses and Nurseries

I wish the great bulk of my plant-buying customers could visit my place here and see the millions of plants under cultivation. The greenhouses are built on the latest and most improved methods for the proper care and nourishment of plants.

In the following pages are shown the best varieties of all classes of plants, and I positively guarantee them to grow well and give the best results. All plants sent out are stocky, healthy, well established and absolutely free from insects and diseases of any kind.

Seeds and plants are never sent together. All packing is done in the most approved manner so that they will carry to destination in good condition. The prices of all plants, unless otherwise noted, are by mail, postpaid. When ordered to go by express, they will be carefully packed and enough extra ones added to more than pay the charges, unless the distance is too great; in which case they should be sent by mail.

All orders will have the best and closest attention, and are guaranteed to arrive safely by mail or express to any part of the United States or Canada. Complaints must be made within a week after plants arrive. Foreign shipments are at purchaser's risk.

Plumosus Nanus

ASPARAGUS

(LACE FERN)

SPRENGERII—Perhaps the best known plant introduced in years, especially useful to grow as a pot plant for decorative purposes, or for planting on premises or in suspended baskets. It grows free the whole year round. As it withstands dry atmosphere it makes an excellent house plant. A vigorous grower, producing sprays 4 to 5 feet long of fresh, green feathery foliage. 12c. each.

PLUMOSUS NANUS—One of the handsomest of our foliage plants. The leaves are a bright green, gracefully arched, and as finely woven as the finest silken mesh. The fronds are 12 to 15 inches in length, and taper to a point from a width of 12 inches. One of the most beautiful decorative plants. 12c. each.

Sprengerii

One of each variety for 20c.

ACALYPHA

A. TRIUMPHANS.—A wonderful strong grower, attaining any height desired up to 2 feet. Makes a compact plant of splendid dimensions; has a large foliage, about 2x4 inches; very heavy and of grand substance. The color is impossible of description. The predominant color is red, marbled lighter and darker; streaked and dashed green, yellow, white and other colors, making it even more attractive than any other Acalypha. Splendid for bedding, edges or for single specimens. 12c. each.

SANDERII—At Ghent, Belgium, this new plant won the distinction of being the most striking novelty exhibited. Of branching habit, the branches spread widely and throw out their long, bright crimson spikes 8 to 12 inches long between the green leaves

in the most effective manner. Price 12c. each.

Triumphans

MARGINATA—A beautiful variety that grows similar to Triumphans, but entirely different in coloring effects. The leaves combine almost every color, red, green, bronze and intermediate shades, some edged with white, others with reddish white, some with pure red; in fact must be seen to appreciate its beauty. 12c. each.

The entire set of 3 varieties sent postpaid for 30c.

ACHYRANTHES

(IRESINE)

LINDIANNA—Dwarf growing foliage. Plants valuable on account of their beautiful colored leaves. Color, a deep blood red. 10c. each.

ABUTILON

(FLOWERING MAPLE)

SAVITZII—This is one of the most beautiful variegated foliage plants, both for the house and out-of-doors. It somewhat resembles Souvenir De Bonn, but is superior to the latter variety. The variegation is green and white, the white predominating, and, in some cases, a great many leaves are entirely white. It is of dwarf habit, compact growth, and thrives well out-of-doors, retaining its variegation in the hottest sun. 12c. each.

ECLIPSE—A fine variegated Abutilon. The foliage is marked dark green with yellow spots; flowers are yellow with scarlet sepals. Will stand the sun, and as an edge for sub-tropical beds it is unsurpassed, being distinct and a decided acquisition. 10c. each.

ARTHUR BELSHAM—Has a long pendant flower of clear crimson, without markings; flower stems of unusual length and flower of good shape. A charming sort. 12c. each.

BOULE DE NEIGE—Pure white flowers of the real bell shape. Dwarf and compact in growth but strong, healthy and always blooming. 12c. each.

GOLDEN FLEECE—Appropriately named. A well grown plant of this variety has the appearance of being hung with abundance of glittering golden bells, making a fine contrast against the bright green leaves. Flowers bell shaped, of a rich golden yellow. 12c. each.

SOUVENIR DE BONN—A very distinct and striking new plant, with large, bright green leaves, distinctly edged with a pure white band. Flowers bright orange. An excellent plant for large vases and porch boxes. 12c. each.

NEW
ABUTILON
"SAVITZI"

MILLS' CHOICE FLOWERING BEGONIAS

Thurstoni.

SANDERSONI—One of the best flowers, scarlet, shading to crimson, and borne in profusion continuously. Known as Coral Begonia. 10c. each.

NITATA—One of the most showy Begonias we grow. Blooms in good-sized clusters of large flowers. White, delicately flushed rose. 10c. each.

PURITY—The finest pure white Begonia grown. Its marvelous freedom of bloom and close compact growth combine to make it one of the finest pot plants. Should be included in every plant collection. 10c. each.

A. P. GRAND—A handsome new variety of dwarf and branching habit with deep green foliage, and beautiful trusses of bright pink flowers. A very free bloomer, and one of the best varieties for pot culture. 10c. each.

FUCHSIOIDES RUBRA—A new variety with dark, glossy green foliage and bright red flowers. A constant bloomer. 10c. each.

FOLIOSA—This is a rare variety and one of the finest Begonias for house culture. The foliage is a dark green color and very small. The flowers are a soft pink and are continually in bloom. 10c. each.

I will send the entire set of 14 varieties, properly named, for \$1.00, postpaid.

THURSTONI—The underside of leaves is a rich, purplish red, the veinings very prominent; while the face or upper side is a bronze green, shaded with crimson and olive, with a peculiar glossy metallic luster over all. Flowers rosy white in large clusters, well above the foliage. 15c. each.

VERNON—A grand sort of unusual merit; flowers continuously. Foliage rich glossy green, shading to deep bronze. Flowers deep red, changing to clear rose when fully open. Thrives under the most ordinary conditions. 10c. each.

PRESIDENT PALMA—A new variety of dwarf habit, with dark red foliage, the flowers are borne in large clusters of a beautiful light rosy pink color. 10c. each.

RUBRA—One of the finest Begonias in cultivation. Has dark, glossy, green leaves; scarlet flowers produced in abundance; stout, upright habit. 10c. each.

METALLICA—A robust grower, the leaves are a metallic green above and bronze red beneath; flowers white. A fine variety for pot culture. 10c. each.

PRESIDENT CARNOT—Upright habit, strong grower; large, handsome leaves, upper side deep green, spotted silver; underside metallic red. Flowers, coral red in large pendant panicles. 15c. each.

ARGENTEA GUTTATA—Has the silvery blotches of Alba Picta, and in grace is not equalled by any other variety. Beautifully fringed oblong leaves, with silver markings; white flowers in clusters on ends of growth stems. 10c. each.

GLAUCA—This plant is a strong upright grower, with beautiful foliage which is of a bluish dark green color, with large white veins through the center of the leaf. Flowers are pure white and form in large clusters like those of President Carnot. 15c. each.

President Carnot

FANCY LEAVED REX BEGONIAS

Enormous triangular leaves of satin-like texture and metallic lustre, richly belted and zoned with the most striking colors. No finer decorative plant anywhere.

LESOUDESII—The largest leaved of the Rex family, and one of the handsomest varieties.

ROBERT GEORGE—Large disc of silver, bordered with deep green and with green center.

LADY LATHAM—Another large leaved variety of easy culture. The leaves are marked with a large silvery zone; edge and center beautiful dark green.

ENFANT DE NANCY—Large, beautiful ribbed; deep green disc, thickly spotted. Large silvery zone and spotted green edge. Very fine.

DISFONTAINES—A beautiful marked variety; one of the very best varieties and of easy culture.

LOUIS GLOSSON—One of the richest and most beautiful Rex Begonias. The predominant color effect is: Center, deep bronze, with broad band of silvery rose, edged with bronze, giving the whole leaf a purplish tint.

QUEEN VICTORIA—Solid silver leaves with crepe-like texture. Superb.

KAISER WILHELM—One of the handsomest new varieties ever introduced. The leaves are very large; deep green velvety center, outer edge darker; very distinct.

COUNTESS LOUIS ERDODY—Dark

silver in center, shading to coppery rose at margin. Yellowish green vein on both sides of leaf. From the curious whorl at the base of leaf, known as Corkscrew Begonia.

MANICATA AUREA—Large glossy foliage, beautifully marked with white and yellow, and carmine etchings in the mature leaves.

ECLIPSE—The leaves are of a soft velvety texture, with a reddish tint, while the cone is curved with small silvery dots.

Any of the above Begonias 12c. each. Entire set of 12 for \$1.20, postpaid.

Begonia--Tuberous Rooted

Unsurpassed for bedding and pot culture. As easy cared for as a Geranium. The large bulbs we send out produce all summer in profusion, gorgeous and brilliant flowers 3 to 5 inches in diameter. After blooming, dry off the same as a Gladiolus or Tuberose.

Single—White, pink, yellow and scarlet, 8c. each, 4 for 25c., 12 for 70c., postpaid.

Double—White, pink, yellow and scarlet, 12c. each, 3 for 30c., 12 for \$1.00, postpaid.

Special Offer—I will send by mail 2 Flowering and 2 Rex Begonias, 1 double and 1 single tuberous rooted Begonia, our selection, for 50c., postpaid.

Double

Single

Rex Begonia

Cannas==America's Most Popular Bedding Plant 45

New Canna-Austria, from One Root

and most handsome colored foliage of any of the Cannas. A rare and magnificent variety. crimson flowers.

FLORENCE VAUGHN—Considered by all to be the finest yellow spotted Canna; flowers very large of the most perfect form. Color, brilliant yellow, spotted with bright red.

DUKE OF MARLBOROUGH—The darkest of all Cannas, being a very dark crimson. It is an exceptionally fine variety for all purposes. Tall grower with large, green foliage.

SHENANDOAH—Rich ruby-red or bronze foliage, exquisitely veined and tinted. The beautiful rose-pink flowers are produced in large trusses, very early and abundantly.

Price, 12c. each; entire set of ten varieties, properly named, for 90c., postpaid.

The Canna, with its elegant tropical foliage and its brilliant showy flowers, whether bedded out or grown in tubs, is one of our most ornamental plants, and is of very easy culture. The improvements made in the Canna in the last four years, in size and diversity of color, place it in advance of all other plants for bedding purposes.

The Choice Orchid Flowering Cannas

AUSTRIA—Giant flowers, five or six inches across, in large bold, erect clusters; deep golden yellow, dotted with carmine. Strong, sturdy grower with immense leaves. 15c. each.

PENNSYLVANIA—One of the tallest growing, largest flowered sort, and the only deep red Orchid flowering variety. Immense flowers, seven to eight inches across; petals two and one-half inches broad. Massive spikes; always blooming. Deep green foliage, of enormous size. 15c. each.

ITALIA—Bright scarlet, with broad orange yellow border, forming a combination approached in beauty by no other Canna. It is a strong rampant grower, with broad heavy foliage. 15c. each.

QUEEN CHARLOTTE—A well known variety and one that deserves all the credit it holds. A bright orange scarlet, deeply edged with bright canary yellow; borne in immense heads well above the foliage. 15c. each.

The entire set of 4 varieties, properly named, for 50c., postpaid.

General Collection

ALSACE—The nearest approach to a white Canna. Flowers at first opening are light sulphur yellow, changing to creamy white. An excellent free flowering variety.

PRESIDENT M'KINLEY—Pronounced by all the best dwarf crimson bedder introduced. Color a very deep crimson scarlet. The nearest approach to the color of Alphonse Bouvier of any Canna we have. It is an early, constant and immensely profuse bloomer.

EGANDALE—One of the most popular dark leaved varieties. Foliage dark maroon of compact habit of growth. Flowers bright, cherry red, in good size trusses.

PRESIDENT CLEVELAND—Bright orange scarlet; very showy, compact and vigorous in growth, producing massive trusses of large flowers.

CHAS. HENDERSON—A free, continuous bloomer; large, compact trusses of solid crimson.

Alphonse Bouvier—On first opening the flowers are intense brilliant crimson, change to a beautiful deep crimson as they more fully expand and produce spikes of enormous flowers in wonderful profusion.

BLACK BEAUTY—The darkest Rich glowing,

Florence Vaughn

EXTRA CHOICE CALLA LILLIES

Easy of culture, freedom of bloom and beauty of flower have made these lillies almost indispensable. They are good at all seasons of the year.

LITTLE GEM—Is, indeed, a pigmy, scarcely growing more than twelve inches high, yet it produces its snowy white flowers with the greatest freedom. It is not an unusual sight to see ten to twelve flowers on a well established plant. 15c. each, 2 for 25c.

SPOTTED CALLA—Leaves dark rich green dotted with white. Ornamental even when not in flower. Beautiful white flowers with deep black throat. 10c. each, 3 for 25c.

ETHIOPICA (Lily of the Nile)—The old favorite white Calla; too well known for description. Grand white flowers, chaste and beautiful. 15c. each, 3 for 40c.

Little Gem

Spotted Calla Lily

CINNAMON VINE

A very graceful and pretty, rapid growing vine, with a delicious fragrance from its delicate clusters of tiny white flowers. The foliage is of a fine glossy dark green. Price 10c. each; 3 for 25c., postpaid.

ENGLISH IVY

An old favorite Evergreen Vine, perfectly hardy. This popular vine is much used in parlors to trail around the sides of windows and ceilings; very pretty and attractive the year around. The leaves are of a beautiful dark glossy green, with silvery markings, and beautifully shaped like maple leaves. Price 10c. each, postpaid. Large plants by express for 25c., not prepaid.

LEOPARD PLANT

(FARFUGIUM GRANDE.)

This is very easy to grow. Produces round, thick, leathery leaves with large yellow spots. A grand decorative plant and excellent for shaded rooms; a few variegated plants would retain their color for markings. 10c. each.

Choicest New Everblooming Carnations

New White Carnation, Lady Bountiful.

THIS IS ONE OF THE MOST BEAUTIFUL WHITE CARNATIONS GROWN.

bloomer. Flowers are of the largest size, three to three and one-half inches in diameter, well filled with high centers. Borne on long, stiff stems, two and one-half feet or more in length. It is a strong, vigorous grower and perfectly healthy.

G. H. CRANE—Flowers of largest size, intense brilliant scarlet, showing no tendency to fade and are delightfully fragrant. Stems are long and remarkably firm, holding the flowers erect and an exceedingly free bloomer, beginning to bloom very early in the season. To sum it up, it is a model grower—stem, flowers, color and size being all that is demanded in a Carnation of the highest quality.

Price, unless otherwise noted, 12c. each, 3 for 30c. The entire set of 10 for 90c., postpaid.

HARDY GARDEN CARNATIONS==

We have obtained a new strain of Hardy Garden Carnations direct from Germany, which will certainly please our customers. The plants are very hardy, strong and healthy in growth. Our collection contains the most wonderful colors, from the darkest crimson to the purest white; the beauty of the different shades of pink, yellow and variegated surpasses anything we have ever before seen. For masses of bloom they have no equal, and in ordinary seasons they will remain in blossom from five to seven months. 10c. each; 3 for 25c.; 10 for 70c.; 25 for \$1.50, postpaid.

The delicately rich and graceful odor, in connection with the beautiful colors and perfect outline of the Carnation, secures for it a prominent place in all collections of plants, either for the house or garden. It is one of the sweetest of flowers and yields an abundance of bloom all summer. Our list embraces a large variety of colors, and is the cream of the standard varieties.

LADY BOUNTIFUL—A pure white, large flowered variety, possessing all the characteristics of a first-class sort. Its keeping qualities are especially noteworthy. Never without flower, stems being twenty-four inches long and blooms three and one-half inches across. 15c. each.

PROSPERITY—Very large, frequently four inches in diameter. Color unique; white mottled pink, deepening towards the center. One of the finest variegated Carnations grown.

HARRY FENN—One of the best crimson scarlet varieties; unquestionably the most prolific Carnation of its color in existence. The bloom is very large, full and symmetrical, borne on an extra large wiry stem.

INDIANAPOLIS—A clear shade of pink in color between Joost and Lawson. Size of flowers about the average. An early, free, continuous bloomer. A strong and robust grower, producing only strong flowering plants.

MRS. THOMAS LAWSON—This famous Carnation was bought for \$30,000 by Mrs. Thomas Lawson and takes the place among Carnations just as "American Beauty" does among Roses—way at the top. Stems stiff and strong; flowers extra large, deep rose pink, entirely distinct.

THE MARQUIS—One of the most beautiful Carnations grown. An ideal color, light silvery pink; a shade that is very popular. Flowers are of the very largest size, of perfect form, fringed and very full, with a perfect calyx that never bursts; stem very strong.

ALBA—Flowers are absolutely snow white, with a silvery lustre, showing no creamy tint or other color during the entire season. It is a finely shaped, well-built-up flower with a perfect calyx and a heavy clove fragrance. It has an exceedingly stiff stem, holding the flower perfect and upright. It is an early and continuous bloomer and a very strong and healthy grower. As a fancy white Carnation, it has no equal.

MORNING GLORY—A beautiful Carnation of the shade of "Daybreak," which variety it has completely displaced, as it is a healthy, vigorous, compact grower, a free and continuous bloomer, giving a fine crop of flowers throughout the season. Stem is of medium length, stiff and wiry. Indispensable on account of its lovely color.

KLONDIKE—This is one of the finest golden yellow Carnations ever introduced and is an early and continuous

Glory Des Marches Fuchsia

Our Wonderful Fuchsias==

MINISTER BOUCHER—Double, of good size and very free. Corolla beautiful lilac with bright crimson sepals. Plants, when well grown, are one mass of bloom. 15c. each.

GLORY DES MARCHES—One of the most free blooming of all. Continually a mass of bloom. Flowers, purest white, with crimson tube and sepals. The plant is of compact symmetrical growth, making a fine shaped bushy plant. 15c. each.

AVALANCHE—Beautiful golden foliage with a dark, double violet purple flower. It is very early and a constant bloomer. This variety should be in every collection. 10c. each.

GUSTAVE NADUND—Long, pointed double flowers, with corolla a purplish rose, bright scarlet sepals. Very free blooming and strong variety. 10c. each.

SPECIAL OFFER—One of each of the above four varieties for 40c., postpaid.

BLACK PRINCE—This is single; well expanded, large corolla of a reddish rose; with petals of waxy carmine. 15c. each.

MADAM BRUANT—Flowers are very large and double, with a fine large rounded corolla with strongly recurved sepals; corolla is a delicate heliotrope; carmine stripes. 10c. each.

TRAILING QUEEN—Old favorite variety of trailing habit. 10c. each.

Bride of Orleans—A remarkably free flowering variety with very large double white flowers; undoubtedly the finest double white variety ever sent out. The plant is of compact symmetrical growth, making fine shaped bushy plants. 10c.

MR. GLADSTONE (new)—This is the largest double purple Fuchsia in existence; it has an enormous widespread corolla and the stamens are curiously attached to the petals, extremely free; a startling variety. 15c. each; entire set of 5 for 50c. postpaid.

Black Prince Fuchsia

One each of the above nine varieties for 75c. postpaid;

NEW CHRYSANTHEMUMS

One of the Japanese Incurved Varieties

Three New Ostrich Plume Chrysanthemums

ENFANT DES MONDES—Pure white. It is a strong grower of good habit, and is considered the best white of the hairy type and well deserves a prominent place in any set of this peculiar style of Chrysanthemums.

MRS. HIGGINBOTHAM—Enormous bright pink, broad spreading Japanese variety; with extremely wide cupping and incurved petals, which are covered with glandular hairs.

LEOCADIE GENTILS—This grand new variety has taken the lead for being the best yellow Ostrich Plume Chrysanthemum grown. The flowers are a beautiful bright yellow without a particle of orange. Large and substantial flowers.

Price of any of these three varieties, 12c each; 3 for 30c, postpaid.

Ostrich Plume Chrysanthemum

POPPIES (Papaver)

Very few plants make such a gorgeous display as these. Flowers four to six inches across, in great masses, simply dazzling when in bloom.

ORIENTAL (Papaver Orientale)—Dark brilliant scarlet.

Price, 12c. each; 3 for 30c., postpaid.

It is our aim to produce Chrysanthemums of sterling merit. In offering these new collections we can assure our customers they possess the highest qualifications yet attained. Each variety has been certificated by the Chrysanthemum Society of America.

WM DUCKHAM—The sensational variety of this year. Color deep, clear pink; incurved with broad petals. The flower is very large, measuring nine inches in diameter and supported by a long, stiff stem with good foliage. An exceedingly strong grower. Has received certificates at all the latest shows, including the St. Louis World's Fair.

GOLDEN AGE—Beautiful intense yellow with heavy foliage and stiff stem. Flowers often being seven inches in diameter, perfectly double and well formed. An ideal variety.

HARRY PLUMRIDGE—An enormous globular Japanese variety with broad petals of waxy white, measuring seven to nine inches in diameter when fully developed. This is one of the finest pure white varieties for either commercial or exhibition purposes.

HENRY SECOND—Crimson. The flowers are borne on stiff stems which are nearly covered with dark green foliage. A large double flower of velvety crimson, and has become one of the most popular varieties of its color.

Price for any of the above four varieties, 12c each; four for 40c, postpaid.

General Collection of Chrysanthemums

TIMOTHY EATON—The color purest white, stem stout, erect and stiff; blooms long in season.

T. CARRINGTON—Enormous Japanese incurved bloom of fine form and substance. Color, rich carmine rose with silver reverse.

MOYNELL—Deep crimson, with bronze reverse. A successful showy variety.

MARY HILL—Grand incurving flowers, full and deep; very double, color, beautiful bright pink.

One of the Grand Collection

OPHA—Pure white reflexing flower of large size.

PINK IVORY—A well known pink sport from Ivory.

IVORY—The most extensively grown white, a fine globular formed flower.

SILVER WEDDING—Color, pure white; flowers 7 to 8 inches in diameter. Magnificent.

MAUDE DEAN—The best of its color. Violet-pink; large, full and double.

A. J. BALFOUR—Lovely shade of bright rose. Dwarf, short jointed growth; well adapted for exhibition purposes.

ADELE—New Japanese incurved. Color, delicate pink, strong grower, perfect form.

MUTUAL FRIEND—Grand clear white, very large and well formed.

MARION HENDERSON—One of the earliest golden yellows. Large, incurved variety.

CONVENTION HALL—Very large white. When well developed cannot be surpassed for cut flowers and exhibition purposes.

BLACK HAWK—A large, dark crimson variety of perfect form; with healthy, dark green foliage.

Price, 10c. each; 3 for 25c.; the entire set of 15 varieties for \$1.00 postpaid.

AQUILEGIAS

Aquilegia or Columbines are extremely beautiful, and a collection of them should be a feature in every garden. If these and other choice, hardy plants were as well known as bedding plants the day of Geraniums, Coleus and other commonplace plants would soon be over. The flowers are most lovely and delicate, ranging from white to crimson, including shades of blue and yellow. Height 2 feet.

COERULEA—This is the true blue from Rocky Mountain Columbine, one of the handsomest of the family.

ALBA—Fine white variety.

CHRYSANTHA—The beautiful golden spurred "Columbine." Flowers golden-yellow.

Price, 10c. each; one of each variety properly named 25c. postpaid.

The book, How to Grow Plants, sent free upon request with every order for plants amounting to 75c.

Large Fancy and Flowering Geraniums

The following collection of Geraniums has been carefully selected as the very best for summer blooming. All have been thoroughly tested by us, and we can recommend every one as sure to give satisfaction:

EIGHT NEW VARIETIES FOR \$1.00, POSTPAID

MADAM JAUETIN—Has been pronounced the finest of all the delicate pink or blushed varieties. Plant is of dwarf but robust habit of growth. Flowers of good size and very abundant. Center of flower delicate pink; outside pure white. A decidedly attractive variety.

JEAN MADELINE—A magnificent fancy flowered variety. The flowers are very large, semi-double; color, bright clear pink. It is an extra fine bedding variety and a very free bloomer.

FIANCEE—Largest and best double white; blooms in immense trusses; plant, strong growing, yet very compact.

M. PAUL BLONDEAU—One of the best. Plant a robust free grower and constant bloomer; fine, large, full semi-double flowers in large, well-shaped trusses on stout stems, well above the foliage. Color, pure fresh rose.

P. A. NUTT—Rich, dark crimson. The flowers are of perfect shape and large size. The plant is a strong, compact grower. It is considered the best dark crimson for winter blooming and pot culture.

MARQUIS DE CASTELAINE—A giant among Geraniums. Produces a wealth of bloom the whole season. Color, deep rosy scarlet, shading into pure

M. G. MERAND—An excellent grower and profuse bloomer; color, reddish violet, shading to center light scarlet. One of the best of the many grand new sorts.

15c. each; 3 for 40c.; the entire set of 8 varieties, properly named, for \$1.00 postpaid.

Jean Madeline

scarlet at the edge of upper petals. We consider it one of the best Geraniums ever introduced.

BEAUTY POITEVINE—One of the finest of the semi-doubles and has no equal in its color. The trusses of bloom and individual flowers are of immense size and excellent shape. Beautiful rosy salmon, nicely shaded and tinted from deep orange to pure salmon.

LaFavorite

SIX GRAND BEDDING VARIETIES

MARVEL—Rich, bright crimson; one of the best dark colored bedding varieties.

LA FAVORITE—Trusses very large and one of the purest snowy white, even when grown in the open ground.

M. VARO—A very fine new variety; color, a rich pearly pink. The flowers are large and double. A fine variety for either out-of-door or pot culture.

LADY RENALS—(Single Flowered)—This variety is of free branching habit. Flowers are large and produced in large trusses. The color is entirely distinct from that of any other variety, being a clear, rosy scarlet with a white eye.

JEAN VIAUD—The finest pink; soft, pure, rich. Semi-double, with two white blotches. Dwarf, stocky grower, producing continuously large trusses of perfect florets throughout the season. A magnificent variety.

VULCAN—This plant is a strong grower and a very free bloomer, bearing large trusses of the most brilliant scarlet blossoms. This variety promises to become very popular on account of its free blooming qualities throughout the season.

10c. each. The entire set of 6 varieties, properly named, for 50c., postpaid

Selected Standard Geraniums

ALPHONSE RICARD—Bright orange red.

ANNIBAL—Double purplish crimson, marked with orange scarlet.

ATKINSON—Rounded flowers, pure scarlet and very attractive.

BELLEROPHON—Single scarlet, with flowers two inches in diameter.

FRANCIS PERKINS—One of the best double bedding Geraniums. Strong and produces flowers of bright pink color.

HETERANTHE—Large semi-double flowers, color orange scarlet.

GEN. GRANT—One of the most brilliant scarlet varieties.

JOHN DOYLE—One of the brightest variegated scarlet; semi-double.

MRS. J. M. JARR—The finest single white bedder, blooms all summer.

MRS. E. G. HILL—Bright salmon with a light shading at center.

MADAM LANDRY—Very large; semi-double, rich salmon color shaded orange.

NAPOLEON—Excellent scarlet. One of the prize semi-doubles.

WHITE SWAN—An extra fine Geranium, covered with large trusses of snow-white flowers that are very double and perfect.

Double Geranium

BLACK KNIGHT—Dark crimson, very large and double, fine for all purposes.

JACQUERIE—Very large, velvety in texture, very dark crimson scarlet. One of the best single Geraniums.

Any of the above varieties 10c. each, 3 for 25c. The entire set of 15 varieties, properly named, for \$1.20, postpaid.

Single Flowered Auroele

DRYDEN—Bright rosy red with large white blotches on two upper petals. 15c. each.

MADAME BRUANT—Center of flowers white veined with carmine lake. 10c. each.

THESEE—Produces well-shaded flowers, edge of petals rosy crimson shading away to white at the center. 10c. each. Set of 3 for 30c.

Double Flowered Auroele

HUBERT CHARRON—Beautiful, semi-double; flowers pure white, with reddish carmine band around each petal. 15c. each.

GRANDE DUCHESS OLGA—Rich carmine color, vigorous grower. 10c. each.

VERA VEND—Large flowered double and one of the oddest and most interesting. Color deep rosy orange with large center striped white, marble, red and orange. 10c. each.

IVY LEAVED GERANIUMS

This class of Geraniums is especially adapted for vases, baskets or any place where trailing or climbing plants are used. They have bright shining foliage and large bright colored flowers. 10c. each; 3 for 25c., postpaid.

FANCY LEAVED GERANIUMS

(BRONZE AND VARIEGATED.)

HAPPYTHOUGHT—Very attractive green foliage, having a light creamy, almost white, center with dark bands; flowers bright scarlet.

MOUNTAIN OF SNOW—Foliage green, edged in white, flowers scarlet; a fine bedder.

MADAME SALLEROI—Very compact silver variegated Geranium and a thrifty healthy grower.

McMAHON—A golden bronze color, excellent for borders.

MRS. POLLOCK—Beautiful tri-colored leaves, bright bronze, belted with crimson, edged with band of golden yellow. 15c. each.

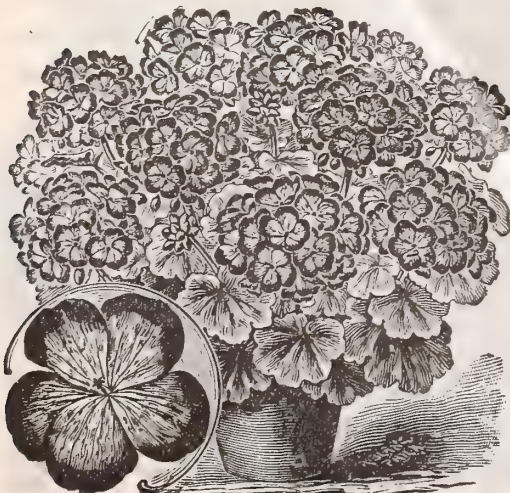

Unless otherwise noted, 10c. each; 12 for \$1.00.

PELARGONIUMS

(Pansy or Lady Washington Geranium.)

This is a handsome variety and gives splendid satisfaction. The plant is a strong free grower and profuse bloomer, and the flowers are bright cherry red with white markings at base of each petal, the two upper petals being spotted deep maroon. It has been impossible for me to supply my trade in the past. 25c. each.

SPECIAL OFFER—You will want a good collection of Geraniums, and I will send 16 choice varieties, our selection, for only \$1.00 postpaid.

Madame Bruant

Pansy Geranium

CHOICE COLEUS

Mills' Choice Coleus

I have nothing in the line of bedding plants that can take the place of Coleus. Beautiful effects can be made by using in solid clumps or as an edge to Canna beds, etc.

RAINBOW—Large, handsome foliage, deeply serrated. Crimson veined and marked chocolate and carmine; edge green.

GOLDEN CROWN—Bright yellow; an excellent bedder.

BRILLIANCY—A beautiful fancy variety with large leaves of heavy texture and finely scalloped edges. The center of leaf is dark velvety maroon, bordered with fiery red; edge is green, changing to creamy yellow at the point of leaf. 10c.

ALHAMBRA—Rosy carmine, edged with bronze black.

FIREBRAND—Maroon, flamed and shaded with brilliant fiery red.

RUBY—Dark ruby blotched in center with broad veins of same, merging into pale lemon and white.

KLONDIKE—Bright green, center beautifully marked golden yellow, distinctly bordered deep bronze.

Unless otherwise noted, 8c. each; the entire set of 7 distinct varieties, properly named, for 45c., postpaid.

Cyperus Alternifolius 49

(UMBRELLA PLANT)

A splendid aquatic plant, throwing up stems two or three feet high, surmounted at the top with a whorl of leaves; an excellent plant for growing in water or damp places, thriving in any good soil and always presenting a fresh, green, attractive appearance.

10c. each; 3 for 25c., postpaid.

CUPHEA

(CIGAR PLANT)

This is one of the most attractive flowering plants for house culture. The flowers are of a brilliant scarlet at the base, with a bright yellow and white edge and center. It blooms continuously, is one of the most satisfactory house plants and of easy culture; will bloom all winter if kept in a warm room.

10c. each; 3 for 25c., postpaid.

FERNS AND PLANTS FOR FERN DISHES

Boston Fern

foliage is always fresh green, very delicate and lace-like. fern dishes or grow in pots. 10c. each.

Special Offer—We will send one plant of each of the 5 varieties named above for 50c., postpaid.

NEPHROLEPIS BOSTONIENSIS (Boston Fern)

This is a popular plant. It makes one of the finest decorating plants ever introduced. Will grow rapidly under all conditions and the price is within the reach of everyone. It is often called "Fountain Fern" on account of its graceful drooping habit. The fronds, when fully matured, often reach a length of four feet. Plants 12c. each.

NEPHROLEPIS CORDATA COMPACTA—This is a dwarf, compact growing form of Sword Fern, making handsome plants two feet high when fully matured. Its deep green fronds have just enough arch to make them graceful. Plants by mail, 10c. each. Plants by express, 25c., 50c. and \$1.00 each.

MAIDEN HAIR—Is indispensable for flower work and its graceful lace-like foliage is very attractive and is well adapted for jardinières, or any place where a beautiful effect is desired. 15c. each.

PTERIS SERRULATA—A fine variety of easy culture, largely used for baskets and fern dishes. 12c. each.

SELAGENELLA or Moss Fern—A very pretty plant. Its One of the finest plants to fill in

HELIOTROPE

The Chieftain.

CHIEFTAIN—The color is deepest violet purple, with large white eye, very fragrant. The plant is of vigorous habit. 10c. each.

FLORENCE NIGHTINGALE—The color is light lavender. One of the very best free flowering. 10c. each.

SNOW WREATH—Of superior large clusters, very fragrant flowers, pure white in color. 15c. each.

New Large Single Petunias.

The large flowered varieties of Petunias from 4 to 5 inches in diameter, are best for single plants or for groups. The strain we offer are unrivaled in beauty and variety. Large in size and producing the richest colors of various shades of purple, rose and crimson, while many produce pure white, red and blue.

8c. each; 3 for 20c., postpaid.

Gloxinia

GLOXINIAS

Without seeing them, no one can appreciate the beauty of these grand flowers, which make the handsomest of summer blooming plants. The rich and varied coloring of the flowers is hard to describe. The flowers are nearly three inches long and about two inches in diameter, the colors ranging from dark blood red to pure white, pink, blush, lavender, blue, tigered, spotted, violet, rose, etc. They attain the greatest perfection if grown in a light rich soil in a shady place. They come into bloom quickly from the time of planting, and after they are done growing and blooming they may be kept in a warm dry cellar. I offer an extra choice selection, embracing all the finest colors.

15c. each; 3 for 40c.; 6 for 75c., postpaid

LEMON VERBENA

To simply brush against it is enough to fill a room with its delicious odor. Planted out-of-doors it grows into a fine large bush which can be taken up in the fall and wintered over in the cellar. 10c. each; 3 for 25c., postpaid.

Select List of Standard Dahlias

Gettysburg

The past few years have brought the Dahlia to the front as the most popular of summer flowering bulbs. My list is composed of the best standard varieties in cultivation. They are all good growers, free bloomers and the best of their respective classes, either for cutting or bedding. We offer strong roots of the following varieties:

Four New Quilled Dahlias

GETTYSBURG—An extremely decorative Dahlia: full, round, high center; bright, rich, pure double scarlet. An early and extremely profuse bloomer for so large a flower. The plant is strong and vigorous.

WHITE SWAN—A fine white flowered variety of the decorative type. Tall grower and an exceedingly free and early bloomer. A grand variety for cut flowers on account of its perfect form, earliness and the freedom with which it blooms.

ELEGANS—Rosy-purple with broad white stripe in center of each petal, giving the flower the appearance of being rosy-purple tipped with white. An extra fine variegated variety. Large, full, perfect form.

ADMIRAL DEWEY—Brilliant imperial purple: of fine form. One of the loveliest Dahlias ever produced and greatly admired.

Price, 15c. each. The set of four varieties, properly named, for 50c., postpaid.

Cactus and Decorative Dahlias

ZULU—Rightly named "The Black Dahlia." Jet black, changing to black maroon as the flower fully expands. Of fine form and full to the center.

CANARY—Clear canary yellow. Tall grower, with fine long stems. Fine for cutting; an exceedingly free and early bloomer.

NYMPHEA—This is called the Pink Water Lily Dahlia, because of its resemblance to this shade of water lily. Delicate pink, shading to white at center. One of the earliest and most profuse bloomers.

KING OF CACTUS—Deep Magenta, overlaid rosy carmine. The flowers are regular, being perfect models in form. The plant is very dwarf and an extremely profuse bloomer; the best of all bedders.

Price, 15c. each. The set of four, properly named, for 50c., postpaid.

Manettia Vine

A very desirable climbing plant, much appreciated wherever planted. It will bloom as long as kept growing, with bright orange red and yellow cigar-shaped flowers. Very pretty and attractive. Price, 10c. each, postpaid.

Mills' Giant Exhibition Pansy Plants

I consider that my collection of Mixed Pansy Plants are by far the best that I have ever offered. Nothing is more attractive than a large bed of Pansies and by purchasing these plants you will get a large col-

lection of colors very early and they will continue to bloom throughout the entire summer and fall, and by simply giving a little protection during the winter they will make larger plants and produce even more bloom the following season. The colors found in this collection have a wide range and I am sure will give the best of satisfaction. Price, 6 for 15c.; 15 for 30c.; 60 for \$1.00, postpaid.

Holt's Mammoth Sage

This mammoth variety has been grown throughout the country for about twenty years and I find that it is highly recommended. The plants grow strong, and if given good care, will attain one foot in height the first season, and they frequently spread to nearly three feet in diameter. The leaves are borne well above the ground, which keeps them clean. They are very large, strong flavored and of a superior quality. A few plants of Holt's Mammoth Sage will yield all that anyone would desire for a family garden. It is hardy and the plants will attain a large size the second year. Price, 10c. each: 3 plants for 25c.; 6 plants for 40c.; 12 plants for 75c., postpaid.

Palm

LATANIA BORBONICA—This is the most desirable Palm for general cultivation: it is of easy culture and is especially adapted as a decorative plant in the parlor; it is also extensively used for baskets, vases and jardinières. The plants begin to show their beautiful fan-shaped leaves when two or three years old. Fine young healthy plants 15c. each; 2 for 25c., postpaid.

Oxalis

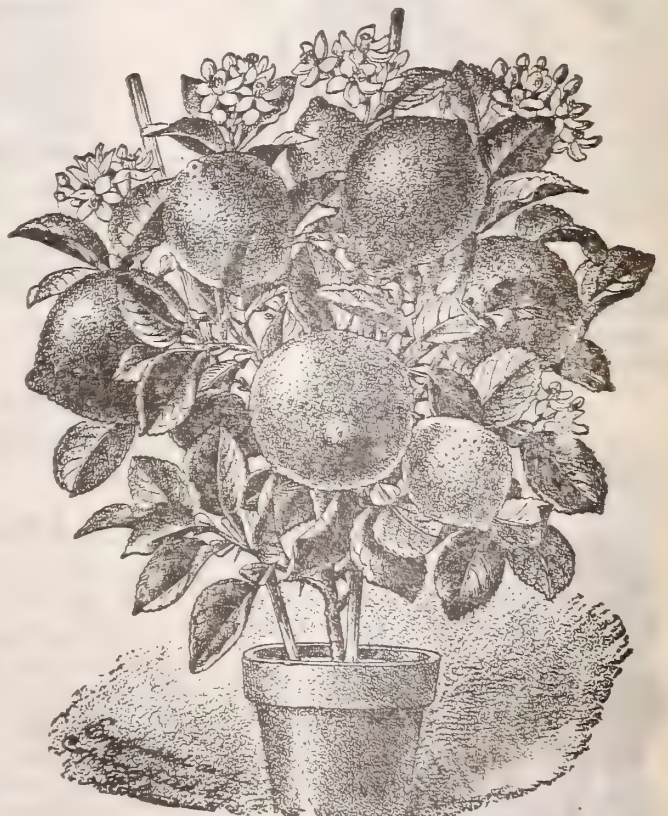

An interesting class of small bulbs, much admired for winter blooming and hanging baskets. Their culture is so easy that everyone can grow them. Plant from 6 to 12 bulbs in a pot. To grow them to perfection they require a somewhat light soil with plenty of sunlight. After they are well started they may be placed in any desirable position. We offer the following selected varieties: **ROSEA**—Beautiful light pink. **ALBA**—Pure white. **MULTIFLORA**—Orange scarlet. **DEPPEI**—Deep reddish purple violet. Price, 4 of any one variety for 10c., postpaid.

SPECIAL OFFER—I will send 4 large bulbs of each variety for 30c., postpaid.

American Wonder Lemon

One developed fruit of this new Lemon is equal to 4 or 5 common lemons. It is a true everbearing variety, having ripe and green fruit of all sizes at all times of the season. The pure waxy flowers which are very fragrant and the dark green foliage make it a very attractive plant for house culture. The plant is of very easy culture, and will grow, bloom and bear fruit in any ordinary garden soil. The fruit is of enormous size, and has very little rind for such large fruit. They are full of rich acid juice and equal to 4 or 5 ordinary lemons.

This Lemon is a real wonder, and the stock we have is in fine condition, assuring our customers that they will be very satisfactory in every respect. Price, 15c. each; 3 for 40c., postpaid. Large plants from 4 in. and 5 in. pots, 50c. and 75c., by express not prepaid.

American Wonder Lemon Tree (True)

Princess of Wales Violets

Nothing is more pleasing than the sweet Violet.

PRINCESS OF WALES—This has broad pansy like flowers of beautiful violet purple shaded with light center. It is a vigorous growing plant with clean healthy foliage and stiff long stems. I can highly recommend this as one of the most beautiful free flowering violets. 15c. each.

SWANLY—White flowers; large, pure white. 15c. each.

LADY CAMPBELL—Deep purple, fine large double flowers.

Price, unless otherwise noted, 10c. each; 3 for 25c.

OTASKA—A fine Japanese variety; large foliage of a deep green color; bears a profusion of bright pink flowers tinted with blue, on huge trusses; fine for Easter decoration. 15c. each; 2 for 25c.

THOS. HOGG—Similar to the above, except color which is pure white. These varieties are not hardy and are best kept in a cold cellar during winter.

15c. each; 2 for 25c., postpaid.

DOUBLE PETUNIAS

Double Petunias are greatly admired for flower beds and window boxes. Our collection consists of the finest varieties of many beautiful colors many of them being variegated. Price, 10c. each; 3 for 25c., postpaid.

House Hydrangea

MILLS' GLADIOLI

Gladioli are the most showy and easiest grown of the summer flowering bulbs. My Fancy Mixed is the finest mixture that can be found, and embraces a wide range of colors. They are in every way equal to choice named varieties which cost many times as much. They are superior to the Gladioli generally sold as mixtures, which are made up of cheap named varieties that contain so many common red and dark colors. You can rely upon my Gladioli blooming freely, and they embrace shades of the most beautiful colors, yellow, crimson, buff, salmon, lemon, pink, rose, white, cherry, maroon, scarlet, and in fact all the oddly marked sorts that one can think of. Price of fancy mixed, large bulbs, guaranteed to flower, 3 for 10c.; 12 for 30c.; 50 for \$1.00; 100 for \$1.75, by mail, postpaid. By express, not prepaid, \$1.40 per 100; \$10.00 per 1,000.

MOON FLOWER

This is one of the quickest growing vines in cultivation. If planted in a rich soil and fully exposed to the sun, they will reach a height of 30 to 40 feet before autumn; covered with sweet-scented flowers of immense size the entire season.

LEARII (Blue Dawn Flower)—This new variety can hardly be described on account of its charming beauty and grand

Gladioli

masses of large lovely bell-shaped flowers. It is a beautiful and striking contrast to the Grandiflora. Flowers of clear satiny blue with crimson bars; immense size.

GRANDIFLORA—Pure white flowers; very fragrant.

Price, 10c. each; 3 for 25c., postpaid.

MADEIRA VINE

A very rapid growing tuberous-rooted vine with glossy foliage. It produces beautiful feathery flowers, which are pure white and of delicious fragrance.

Price, extra strong roots, 10c. each; 3 for 25c., postpaid.

Madeira Vine

LANTANA

The following four varieties are the finest Lantanas in cultivation. They are continually in bloom and are the most beautiful plants for vases, baskets, pot culture and bedding. The bright colors of the flowers are very attractive. It is also a great winter bloomer, of easy culture and free from insects.

SPLENDENS—Bright yellow, changing to orange. One of the best.

PERFECTION—Variegated foliage with yellow spots. The flowers pink and lilac; very showy.

PERFECTA ALBA—Pure white; abundant bloomer; excellent.

RAINBOW—A new variety hard to describe. The flowers are first clear yellow, changing to nasurtium red and then to scarlet crimson. The plant is semi-dwarf with large dark green foliage.

Price, 10c. each; the whole set of 5, including Weeping Lantana, for 40c., postpaid.

HIBISCUS

NEW PINK PEACH-BLOW—An improvement over all other Hibiscus in color, size of flower and freedom of bloom. Flowers double; of a rich shade of clear pink with small deep crimson center, an entirely new and most beautiful shading. A fine variety as a house or garden plant. 15c. each.

AURIANTICA—Very large and double; bright orange colored flowers. 10c. each.

MINIATUS—Semi-double, of a brilliant vermilion scarlet, petals waved and recurved; very pretty. 10c. each.

COLLERII—Lemon yellow with a crimson scarlet base. 10c. each.

SUB-VIOLEACEOUS—Clear carmine tinted with violet; flowers enormous. 10c. each.

TUBEROSE

New Excelsior Pearl—This variety is superior to the ordinary Pearl Tuberose; produces pure white flowers nearly twice as large as the ordinary Tuberose. It is very fragrant and I am sure will give the best of satisfaction. Price of large bulbs 5c. each; 10 for 40c., postpaid.

Hibiscus, Peachblow

WEeping LANTANA

A rapid growing plant of graceful drooping habit. The colors are brilliant, and it is a robust grower and a profuse bloomer, making it fine for bedding. The flowers are the most delicate shades of lilac, appearing in great abundance and changing from one distinct color to another, as it increases in age and development. Unsurpassed for filling baskets and vases, whether used alone or with other plants.

Price, 10c. each; 3 for 25c., postpaid.

OTAHEITE ORANGE

A very dwarf, vigorous, free growing orange that blooms and produces fruit freely when grown in small pots. The plant will grow from 10 to 12 inches in height, flowering in great abundance. The fruit is about one-half the size of the ordinary oranges scarcely ever without few blossoms or fruit and is often completely filled with both. The flowers are white and very fragrant. It is pronounced by everyone to be one of the most interesting and beautiful of plants.

Price, 15c. each; 2 for 25c., postpaid. From 3 and 4 in. pots, 25c. and 50c. each by express.

OTAHEITE ORANGE

Roses Our Specialty

The
Golden
Gate Rose.

We have for years made Roses our leading specialty, and pay particular attention to their culture, so that our Roses are famed for their thrifty condition; besides we offer nothing but the very best selected varieties which have been thoroughly tested in our gardens. Our Roses are grown on their own roots and are therefore far superior to those budded or grafted on wild stock.

Our 1905 Set of New Hardy Everblooming Roses

The varieties offered on this page represent the highest degree of perfection yet attained in Roses. They have been introduced from various parts of Europe and this country, and are the cream of a large list of new varieties which were tested on our trial grounds the past year. The plants are strong and healthy and will give an abundance of bloom the first year.

GOLDEN GATE—The color is a rich creamy white, tinged with golden yellow, the petals are tinged with clear rose, making it a very handsome variety. It is of large size, blooms freely and continuously.

PINK MAMAN COCHET—A beautiful French Rose of great value; flowers very fragrant and enormous size, beautifully formed, full double, never showing center; color rich coral pink, shaded with rose. It is a very free bloomer and one of the hardiest and very best Everblooming Roses.

ETOILE DE LYON—This is certainly the best rich golden yellow Rose for general planting. It bears an abundance of fine buds and flowers the entire season. They are very large, double and fragrant. The plant is a strong grower and quite hardy; it stands the winter here with very little protection.

ADMIRAL DEWEY—In color and form this new variety is among the most beautiful of pink Roses. Its color is a beautiful deep pink, clear, distinct and very captivating. The flowers are deliciously fragrant, very large and perfectly double. It is a very free bloomer and a strong and vigorous grower.

RAINBOW—A beautiful colored variety, color bright pink, striped crimson, with amber center; a very profuse bloomer and strong, healthy grower.

KAISERIN AUGUSTA VICTORIA—A beautiful creamy white, large, double variety, very fragrant. Flowers borne on long, stiff stems with very fine glossy foliage. The plant is a strong grower and free bloomer.

SOUVENIR DE JEAN CABAUT—This Rose was introduced from France and is admired everywhere. It is a strong healthy grower and a free bloomer. The flowers are large and full and of a beautiful form. The outer petals are coppery yellow, shading to apricot and carmine towards the center.

MADAM VON SIEMEN—Habit of growth strong and vigorous; flowers are large and graceful, color being a flesh rose, exceedingly beautiful. Perfect flowers are borne in great profusion, and it is one of the best new Roses.

METEOR—And old standard variety, well-known the world over. This variety is largely grown by the commercial florists for cut flowers in the winter, but it is also fine for bedding and pot culture. The color is a rich velvety crimson, exceedingly bright and attractive.

BRIDESMAID—This is a beautiful Rose and a standard variety with the commercial florist. The flowers are large and full, delightfully tea scented; the color is a clear rose pink with crimson shading. It is a free flowering variety, excellent for summer bedding outdoors as well as for forcing in winter.

MADAME JOS. SCHWARTZ—One of the most shaded Tea Roses and well adapted for open ground planting. It produces its bloom in great profusion; color being white with beautifully flushed pink.

AUGUSTA HALEM—A new hardy perfect double everblooming variety. The flowers are handsomely shaped and of bright rosy red, verging to deep crimson. The plant is a bushy grower, excellent for bedding purposes.

MRS. DeGRAW—Always gives an abundance of flowers from early summer until frost. The flowers are large and double, borne in clusters, similar to Louis Phillip; the color is a glossy coral pink, very fragrant.

PAPA GONTIER—A splendid crimson Rose, one of the best for all purposes; it makes immense buds and magnificent flowers of great depth and substance.

PERNETT'S TRIUMPH—A continuous bloomer; very brilliant and handsome; color fine clear magenta red. The flowers are very large, having broad thick petals and long tapering buds with a delicious fragrance; perfectly double; excellent for bedding.

SNOWFLAKE—A perfectly double pure white Rose, which, on account of its freedom of bloom and habit of growth, is sometimes called "White Hermosa." It blossoms from early summer until hurt by frost, and is one of the finest of pure white Roses for bedding purposes.

WHITE GOLDEN GATE—A fine new variety with as many good points as the Pink Golden Gate. It is a very free bloomer, the flowers being very large and of perfect form; very fragrant.

Price for strong healthy plants, 15c. each; 8 for 75c. The entire set of 17 varieties, all properly named, for \$1.80, postpaid.

Special Offer

We can supply strong Roses of the above varieties taken from 4-inch pots, not exceeding six by mail, for 30c. each, postpaid; or 25c. each by express, not prepaid.

Hardy Moss Roses

Especially suitable for planting singly or in beds and much admired for their bright foliage and mossy-like covering on the flower buds.

BLANCHE MOREAU—Pure white, large and full. Buds very mossy and handsome.

CRIMSON GLOBE—Rich deep crimson scarlet, very bright, large and full; one of the best of its color.

Price for strong, healthy plants, 15c. each; 2 for 25c. postpaid.

3 Bourbon and China Roses

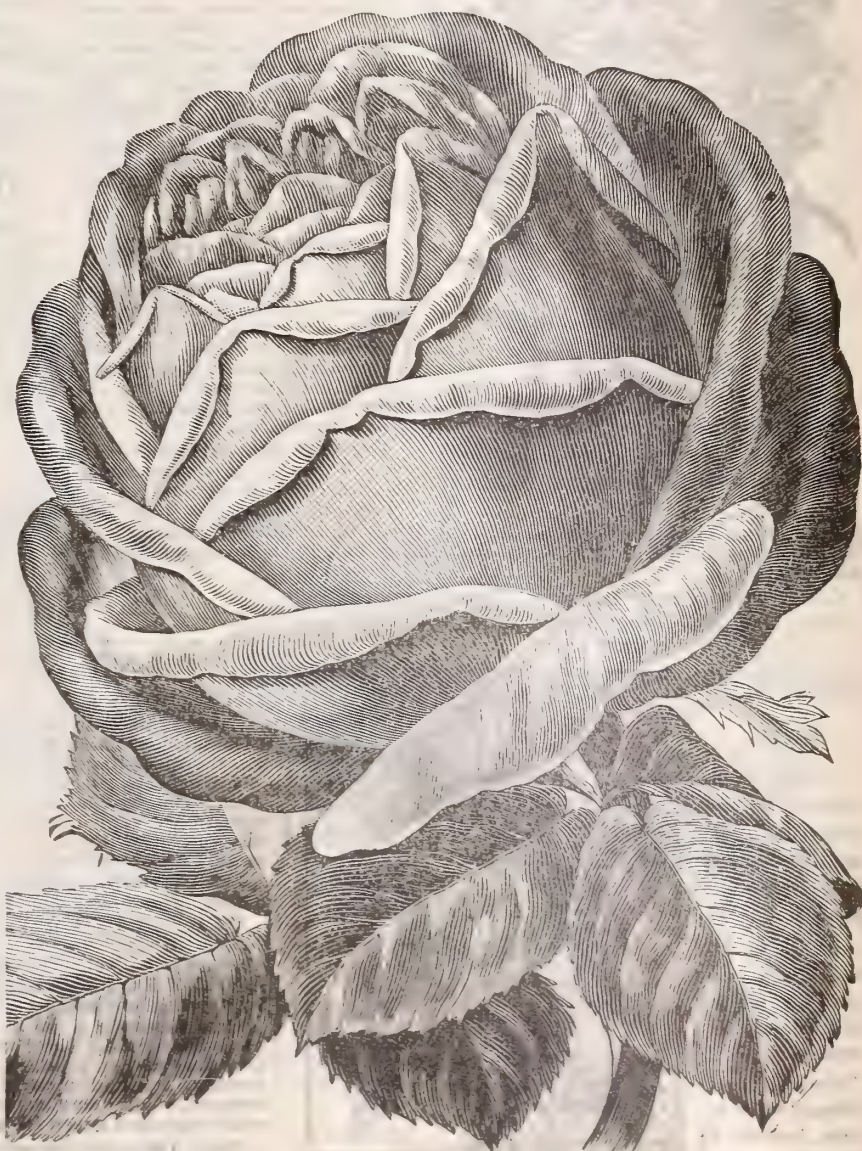

As the Bourbon and China Roses are hardy in most localities, we have placed together a small collection. They are strong, vigorous growers, free and continuous bloomers.

CHAMPION OF THE WORLD—This is a free-blooming hardy Rose of great merit, introduced recently. Flowers of large size, color a lovely clear, deep pink. One of the best of all Roses for outdoor cultivation. Price, 15c. each.

QUEEN SCARLET—Certainly one of the best. A constant and profuse bloomer; color rich velvety scarlet; very brilliant and striking; excellent Rose for bedding, either in masses or mixed in other sorts. Price 15c. each.

MALMAISON—This is certainly one of the choicest Roses in our collection and for general cultivation unsurpassed. The color is a beautiful rich creamy flesh, distinctly and elegantly shaded clear peachy red with a rose center. Flowers are very large, perfectly double and deliciously fragrant. Particularly valuable for outside cultivation. Price 15c. each.

The above set of 3 varieties properly named for 40c. postpaid.

Pink Maman Cochet Rose

General Collection of Hardy Everblooming Roses 53

True White Maman Cochet Rose

The hardy Everblooming Roses are the most valuable for planting in the garden. Their free blooming qualities and large and perfect double rich colored flowers have made them very popular within the last few years, and are now much more in demand than the hardy hybrid Perpetuals.

A bed of Everblooming Roses will give a continuous crop of flowers throughout the season.

LOUIS PHILLIP—One of the most profuse bloomers of all Everblooming and Monthly Roses, the flowers being large and perfectly double; the color is a beautiful dark scarlet, deeply shaded with a velvety crimson, a color which cannot be found in any other rose. It blooms continually from early spring until cut by frost. The flowers are borne in loose clusters on long stiff stems, often bearing a dozen buds and flowers on one stem, and will in the first season after being planted give an abundance of flowers. If only a few varieties are wanted this variety should always take the lead.

DUCHESS DE BRABANT—Another variety of great value for the garden. It is one of the best and most beautiful roses of its color and a wonderfully profuse bloomer. Its blooming qualities are equally as good as the Louis Phillip. The flowers are large and full, never showing the center; its color is a beautiful combination of light rose with heavy shading of amber and salmon; its perfume is very fragrant.

PERLES DES JARDINS—One of the very best yellow Roses grown; a very delicate clear yellow and distinct from all other varieties. The flowers are perfectly double and always develop fine buds and flowers. Its delicious fragrance together with the beautiful color and healthy foliage makes it a valuable variety that should be grown everywhere.

HELEN GOULD—This magnificent Rose has already gained a reputation as one of the best Everblooming Roses, in fact, it is already better known all over the world than thousands of older varieties. It will produce an immense crop of flowers in one season. The color is a very soft but intense carmine crimson, with deeper shades in the depths of the petals. The flowers are large and perfectly double.

SAFRANO—This is an old favorite, bright apricot yellow changing to yellow fawn, frequently tinted with rose. Very desirable for outdoor planting. Prized for its fragrance and nicely shaped bloom.

MARIE GUILLOT—A splendid Everblooming Tea Rose. The color is a pure white, sometimes lightly tinted with pale yellow in center. A fine variety for summer bedding.

BRIDE—A fine pure white Rose of perfect form, very large buds and perfect double flowers. It is a standard variety and splendid for cutting.

SUNSET—This grand Rose is a great favorite wherever known; the color is a rich golden amber or old gold, elegantly shaded with dark ruddy crimson. The flowers and buds are of extra large size, very full and finely formed and deliciously perfumed; it is a strong and vigorous grower and free bloomer.

MADAME DE WATERVILLE—Delightfully fragrant Rose with extra large flower of fine shape; color white, shaded with salmon deepening to a bright rose at the edge of petals.

MARIE VAN HOUTTE—This exceedingly lovely variety cannot be surpassed by any rose of its color. In the open ground it is truly magnificent. The color is pale canary yellow, passing to rich creamy white shaded with pale rose.

DR. SAGON—Handsome velvety crimson, with rich, healthy foliage. One of the best and most beautiful Everblooming Roses for general planting and may be had in bloom the entire year by proper treatment.

Price, 10c. each; 6 for 50c.; the entire set of 15 for \$1.25.

8 CLIMBING AND TRAILING ROSES for 65c. postpaid

3 NEW HARDY EVERGREEN VARIETIES

JERSEY BEAUTY—Extremely vigorous grower, foliage thick and shiny and of a leathery substance. The flowers are large, single, three inches in diameter; the color is a pale yellow with clusters of bright yellow stamens. It is very fragrant and a tremendous bloomer, sometimes covering the entire plant, giving it the appearance of a Yellow Cherokee Rose.

GARDENIA—A strong grower; flowers produced on stems 8 to 12 inches long. When in bud, it is hardly distinguishable from the popular Perles des Jardins, but when open it is a beautiful cream color, flowers measuring from 3 to 3½ inches in diameter, incurving towards evening to perfect imitation of Gardenia or Cape Jasmine, hence its name; a very fragrant free-blooming variety.

EVERGREEN GEM—The most wonderful grower of the set. Foliage fine rich bronze color. The flowers are perfectly double and very large for this class, often measuring three inches in diameter and are of a delightful sweet briar fragrance, flowers yellowish buff in bud, opening to almost clear white.

Price, 12c. each; the whole set of 3 for 30c. by mail postpaid.

5 MEMORIAL OR TRAILING ROSES for 35c. postpaid

WICHURIANA—This variety will creep over the ground like an Ivy, bearing great clusters of beautiful large single, very fragrant flowers, borne on the end of the short side branches. The color being pure white with a golden yellow disc. The foliage is a beautiful dark glossy green; one of the best varieties for all purposes described; very hardy.

PINK ROAMER—A bright, rich pink variety with large, single sweet smelling flowers, often measuring over 2 inches across.

MANDA'S TRIUMPH—The flowers are medium size perfectly double to the center, pure white.

UNIVERSAL FAVORITE—A clear bright pink variety of strong healthy growth; beautiful dense bright green foliage.

SOUTH ORANGE PERFECTION—Color, rosy blush changing to white: very pretty and distinct from all others.

Price, 10c. each; the set of 5 for 35c. by mail postpaid.

SPECIAL OFFER—I will send the above 8 Climbing and Trailing Roses by mail postpaid for **65c.**

Duchess de Brabant

3 Soupert Roses

For 25c. postpaid.

For garden and pot culture these three Roses have no equal. They are perfectly hardy and bear large double flowers all summer.

YELLOW SOUPERT—A handsome variety with yellow flowers, shading to white at the edge of the petals. It is a perfect everbloomer, being continually loaded with finely formed flowers of medium size and perfectly double, and needs but little protection in this climate.

CLOTHILDA SOUPERT—Fine for out-door planting. The color is a pearly white with center of a tinted salmon peach. It is one of the most popular varieties and will bloom when only 3 or 4 inches high and continue to bloom during the season, if plants are kept in a good healthy condition; flowers are perfectly double, borne in trusses of 3 and 4 roses. The plant is one of the hardiest of the Soupersts.

PINK SOUPERT—A beautiful deep, rich, pink variety of compact growth and a very free bloomer, producing large double flowers in clusters, and contrasts finely with the other varieties.

Strong healthy plants from 2¼ inch pots, 10c. each : 3 for 25c. postpaid.

8 Choice Everblooming Climbing Roses

For 75c. postpaid.

CLIMBING C. SOUPERT—A new hardy Everblooming Climbing Rose of unusual merits. The flowers are of the same color and form as the famous Everblooming C. Soupert, but it surpasses even the strongest Everblooming Tea Roses in growth, sometimes reaching from 15 to 20 feet in one season and producing an enormous crop of flowers the first year. The flowers are perfectly double; color ivory white shading towards the center to silvery rose. Price 15c. each; postpaid.

MRS. ROBERT PERRY—A pure white, hardy, Everblooming Climbing Rose, only recently introduced; the flowers are something grand, equal to the finest. Large, full, deep, double and borne on long stiff stems like a forcing or cut flower rose. The buds are long and pointed. It has a fragrance that is delicious, just like cherry blossoms. Price 15c. each; postpaid.

CLIMBING METEOR—A well-known Rose, fine rich velvety crimson in color; a very strong growing variety, making shoots from 12 to 15 feet long in a single season. Perfectly hardy in the South, but when grown in the extreme North it should be laid down and covered with straw.

WHITE PET—A true Everblooming Rose of great value; it is an abundant bloomer; the flowers are borne in large clusters and are of a pure white color and deliciously fragrant. It is one of the hardiest everblooming white climbing roses.

EMPRESS OF CHINA—A free flowering Climbing Rose of good size, blooming in clusters. Very hardy and produces bright pink flowers in great abundance. When well started it gives a continual bloom almost the entire summer.

MARY WASHINGTON—A fine hardy Everblooming Climbing Rose; always attracts a great deal of attention. The flowers are large and double and of a pure white color. The plant is a strong upright grower and profuse bloomer.

GLOIRE DE DIJON—This is one of the finest varieties in every respect; the flowers are very large, perfectly double and tea scented; color is a rich creamy white beautifully tinged with amber and pale blush. The plant is a strong grower with bright glossy green foliage. Price 15c. each.

W. A. RICHARDSON—A beautiful colored and free flowering sort, of a copery yellow color, tinged with carmine; has a delicious fragrance and is a strong rampant grower; it is something entirely unusual in this class of roses.

Price, unless otherwise noted, 10c. each; the entire set of 8 varieties for 75c. postpaid.

SOUPERT
ROSES.

7 Hardy Climbing Roses

for 55c. postpaid

BALTIMORE BELLE—Produces very large double flowers in clusters; blush white shading to rose.

RUSSELL'S COTTAGE—Dark velvety crimson; is very double, full and a profuse bloomer.

MULTIFLORA—A strong growing variety, attaining a height of nearly 10 feet in a single season; the plants being loaded down with creamy white flowers. The flowers have a delightful fragrance. Very hardy and a good rose to plant everywhere, even as far north as Canada.

ANNA MARIE—Produces large clusters of rosy pink flowers early in the season.

DAWSON—A wonderfully strong grower; very hardy. Blooms in immense clusters, similar to the Crimson Rambler and has all the merits of that variety, besides being a strong grower. Flowers are large, full and double and of a bright carmine color; very fragrant. A plant of the Dawson always attracts much attention wherever grown.

TENNESSEE BELLE—A strong vigorous climber and free bloomer. Bright rosy blush; large, full and fragrant. One of the very best.

QUEEN OF THE PRAIRIES—Clear, bright pink; sometimes with a white stripe. Very double, full and blooms in clusters.

Price 10c. each; entire set of 7 varieties for 55c. by mail, postpaid.

8 Hardy Hybrid Perpetual Roses

for 80c. postpaid.

This class of roses is extensively grown. They are best suited for garden culture in the North. All varieties given under this class are very hardy and suitable for planting in beds, borders or edges. They furnish deep rich coloring and are the finest of all roses for vases.

GENERAL JACQUEMINOT—This old well-known variety is still a favorite and holds the first place among the dark red roses and is one of the most satisfactory to grow. It is always a mass of bloom.

MAGNA CHARTA—A splendid upright grower with bright healthy foliage and large double flowers of a bright pink color, suffused with carmine.

ANNA ALEXIEFF—Very strong grower, producing flowers that are double and full; of a clear, dark pink color.

FRANCIS LEVET—One of the finest hardy hybrid perpetual roses; a strong and vigorous grower and free bloomer. The flowers are very fragrant and of a bright rose color.

COQUETTE DES ALPES—One of the best white roses of this class. The flowers are large and perfectly double and sometimes faintly tinged with pale blush. It blooms very freely and makes a fine shaped bush.

Hardy Hybrid Perpetual Roses.

VICKS' CAPRICE—The flowers are large, being of a soft satiny pink color, distinctly striped and dashed with white and carmine. It is beautiful in the bud, every one being quite large and pointed, showing the stripes and markings to a great advantage, making it valuable for cutting.

PAUL NEYRON—It produces rose colored flowers that are always very attractive. It is a very rapid grower, producing shoots 4 to 5 feet high in one season, each shoot being tipped with a handsome flower.

BARON DE BONSTETTEN—A splendid variety, extra large; flowers very fragrant and double; color is a dark crimson changing to maroon; free bloomer. Price 15c. each; the entire set of 8 for 80c. by mail postpaid.

for 45c. by mail postpaid.

We have the
Finest Stock
of Rambler
Roses ever put
upon the
Market.

THE SHELL PINK RAMBLER, DOROTHY PERKINS—This new Rose attracted much attention at the Pan American Exposition where a bed of fourteen month old plants produced a show of bloom unequalled by any other variety. It is a valuable companion to any Climbing Rose, and is by many considered even more attractive than the Crimson Rambler. The flowers are borne in large clusters, often having from 40 to 60 perfect double flowers, sweetly scented, and of a beautiful shell pink, a color so much admired in roses. The plants are absolutely hardy and of a very vigorous growth. This Rose has the advantage over the Crimson Rambler in not being subject to mildew like that variety.

PINK RAMBLER OR EUPHROSINE—Similar to the Yellow Rambler in nearly all respects except color. It is a seedling of Rosa Polyantha Sarmentosa; is clear light red or pink, with numerous golden anthers. The flower is double and very fragrant and hardy enough to stand the coldest winters in northern Minnesota with a slight protection. Its growth is rapid and vigorous, sometimes throwing up shoots 15 feet long in one season. Its habit is drooping and spreading.

CRIMSON RAMBLER—This is a splendid Rose, and another year's trial proves that it is perfectly hardy, making shoots 10 to 12 feet in a season. Produces 25 to 30 flowers in cluster, entirely covering the plant from the ground to the top with a mass of bright, glowing crimson. It has been very largely advertised and is very popular.

THE WHITE RAMBLER OR THALLIA—Originated by the well-known German, Mr. Peter Lambert. It is a seedling of Rosa Polyantha Sarmentosa, crossed with Parquette. Pure white, small, double flowers. It is a fitting companion for the Pink Rambler, closely resembling it in foliage as well as in the great clusters of pure white flowers. The flowers are very fragrant and remain on the plant a long time and are good keepers after being cut.

THE YELLOW RAMBLER OR AGALIA—This is the only hardy Yellow Climbing Rose, and has been found to successfully withstand, without protection, a continued temperature of from zero to 2 degrees below, which proves it to be far harder than any other Yellow Climbing Rose yet introduced and can be easily grown where other roses fail. As many as 150 blossoms grow in a cluster; buds a bright yellow, changing to a beautiful creamy tinge. The flowers last 3 to 4 weeks and are very fragrant.

Price 10c. each; the entire set of 5 varieties for 45c. postpaid.

3 Extra Choice Polyantha Roses for 25c. postpaid.

A profuse blooming class of Roses that bloom in clusters in great abundance, making the plant appear like a bouquet. You should plant some of these, as it is one of the best collections of this class and should be in every garden. The varieties named are quite hardy and stand the most severe winters in this part of the country with slight protection.

MARIE PAVIE—Flowers are borne in large clusters on long stems, making it excellent for cutting. The color is a rich creamy white flushed with carmine rose.

GEO. PERNET—An excellent variety; color a bright rose, lightly touched with yellow changing to peachblow, with silvery shade. A strong bushy grower.

JEAN DRIVON—A pure white rose, double and very fragrant. One of the best for pot culture.

Price 10c. each; the entire set of 3 varieties properly named for 25c. postpaid.

SOLANUM (Jerusalem Cherry)

This great old favorite of our grandmothers has been pushed from the front by the thousands of new plants advertised every year. But the last few years the people have again put their attention to this grand old standby, which was once used to make so many plant loving house-mothers happy. More and more every year my customers began to ask me, what had become of the old-fashioned Jerusalem Cherry, the cherry that would look so bright and brilliant red all through the dark winter days. Many of my younger customers inquire about the dwarf shrub with those nice bright cherries on all winter that their mother or grandmother use to have and wanted to know the name and where it could be found. I have a large stock of these to fill all orders promptly with nice strong healthy plants. For those who have forgotten this old favorite or have never seen it, I may say the Jerusalem Cherry is a shrubby plant of dwarf growth and very easy culture. It may be

planted out in the garden during summer where it will bloom continuously with small white flowers with yellow center and form small cherries, which will turn bright scarlet red in autumn and remain on the plant all winter, if kept in the house. It may be kept in a cool window where it only gets a little of the morning or evening sun. For further culture, etc. see book on culture of plants.

Strong plants from 2 1/4 inch pots, 10c. each; 3 for 25c. postpaid.

Salvia Splendens

The long spikes of flowers are borne on good strong stems and are of a most brilliant dazzling scarlet color. It remains in bloom until cut down by frost, if left out doors. It belongs to the finest of all blooming plants, both for bedding and house culture.

Price 10c. each; 3 for 25c. postpaid.

Smilax

One of the finest climbing plants in cultivation; excellent for bouquets, wreaths and decorations. The fine, delicate, mossy foliage is of a deep green color. The smilax is largely grown by florists for cutting-green.

Strong plants from 2 1/4 inch pots, 10c. each; 3 for 25c. postpaid.

Tradescantia Muticolor

A beautiful variegated drooping or trailing plant for hanging baskets or rockeries. Its fine purplish variegated foliage, with 3 distinct shades of green and small reddish-purple flowers, makes it very attractive. The plant is of very easy culture and will do well in any dark room or hall and is not particular about soil or treatment; one of the most satisfactory hanging plants in cultivation.

10c. each; 3 for 25c. postpaid.

Russelia Multiflora

A novel and beautiful flowering plant and is among the finest plants for baskets and vases. The flowers are bright coral red, shaped something like a manettia bloom. The plant is of strong growth and of a graceful drooping habit. 15c. each postpaid.

Our New Roses have been thoroughly tested, are of superior quality and should be in every collection.

PLEASE NOTE--All Shrubs and Vines may be safely sent by Freight with very little cost.

We are offering this year the large field grown Shrubs at a very low price, as we have two blocks which we wish to clear up to make room, and therefore offer them at a remarkably low price; we have never offered such bargains in Shrubs before. The freight charges are very low, and the express companies have made a reduction of 20 per cent on all trees and plants, so that they may be sent at a very low cost. Purchasers must pay express or freight charges.

Double Redbeckia

(Golden Glow.)

This is considered one of the very best hardy perennials introduced in many years. It grows from five to seven feet and flowers very early, from summer until frost. Flowers are produced on long stems in enormous quantities and resemble Golden Yellow Cactus Dahlias. Young plants when planted out in spring will bloom freely first season.

10c. each; 3 for 25c.; 75c. per dozen.

Wiegelia--Rosea

Fine rose colored flowers, produced in great profusion. The plant is perfectly hardy, grows well in any soil, always making nice bushy shaped shrubs. One of the best. Price 10c. each, postpaid. Large shrubs, 2 to 3 ft. by express, not prepaid, 35c. each; 3 for 90c.

Wiegelia Rosea Nana Variegata

(Variegated Leaved Dwarf Wiegelia.)

A beautiful variety with rose colored flowers and clearly defined silvery variegated leaves. A fine variety for small lawns and gardens.

Price 15c. each, postpaid. Large shrubs, 2 to 3 ft., by express, not prepaid, 50c. each.

Hemerocallis Flava

(Yellow Day Lily.)

A very ornamental and elegant foliage and flowering plant, perfectly hardy anywhere. Even in the extreme north it will stand the winters without injury, but may be lightly covered the first winter after planting. If planted in autumn they will bloom the next season. They are of very easy culture and grow well in any ordinary garden soil and form admirable clumps. The flowers are bright canary yellow, delicately perfumed, fine for cutting. Price 10c. each; 3 for 25c., postpaid.

Deutsia Cranata Fl. Pl. Alba

A very showy flowering shrub adapted to any location or soil. This variety is one of the finest hardy flowering shrubs, completely covered with very large trusses of beautiful pure white flowers in June and July. This beautiful shrub is not yet fully known, but will undoubtedly become one of the leading varieties everywhere.

Price extra large shrubs 2 to 3 feet high, 25c. each, express not prepaid.

Ampelopsis Veitchii

(Boston Ivy.)

Clings tightly to stone-work, brick or wood without other support than its own tendrils; it forms a dense mat of thick leathery foliage, dark glossy green in summer, changing in autumn to the most gorgeous crimson.

Large 2 and 3 year old vines 40c. each; 3 for \$1.00 by express or freight not prepaid.

ALTHEA (Rose of Sharon.)

Beautiful hardy flowering shrubs, unsurpassed for freedom of bloom and variation of colors, with large Camelia-like flowers blooming from July until hurt by frost. They are very much admired for their late free flowering qualities and their beautiful colored rose shaped flowers. We offer the double white, double purple and double variegated.

Price for large shrubs 2½ to 4 feet high 35c. each; or 3, your selection, for 90c. by express not prepaid.

IRIS KAEMPFERII (Japan Iris)

This is the finest of the Iris family. The flowers are of immense size and the mixture I offer are the most beautiful and delicate shades and include the finest named sorts and must not be confounded with cheap mixtures of poor seedlings. They are perfectly hardy and flower in great profusion during June and July. The well established plant gives a dozen or more flower stalks from two to three feet high.

I offer a complete mixture of both double and single as follows: 10c. each; 6 for 50c. postpaid.

Clematis

A Popular Class of Vines and Hardy Everywhere.

JACKMANNI—Purple, deep and velvety.

DUCHESS OF EDINBURG—Double and pure white.

MADAM BARON VELLARD—Light rose and pink.

PANICULATA—Pure white; very fragrant flowers.

MADAM EDWARD ANDRE—Bright crimson.

Price for strong 3 year old plants 40c. each; the entire set of 5 varieties, properly named, for \$1.75.

FORSYTHIA (Golden Bell)

Makes long pendant shoots, being extremely pretty when its arched branches are full of golden yellow flowers in early spring. The plant is very hardy and one of the first to bloom.

Price extra large shrubs 3 to 4 feet high, 25c. each; 3 for 70c., express not prepaid.

Two Everblooming Spireas

THE CRIMSON SPIREA, ANTHONY WATERER—Nearly a year before its

introduction by Mr. Waterer, *The Garden* published a very fine and accurate colored plate of it. Extract from a letter by Prof. W. F. Massey, N. C. Agr. Exp. Sta.: "We are delighted with Spirea Anthony Waterer; our little plants set from three inch pots last spring have been in profuse bloom all summer and are still blooming.—Sept 25."

Hundreds of prominent people interested in horticulture

have praised this new ever-blooming shrub. It is perfectly hardy of dwarf habit and one of the most showy shrubs for borders or pot culture.

Large shrubs 3 years old, by express not prepaid, 25c. each.

CALLOSA ALBA—Same as above, except color of flower which is pure white.

Large shrubs 3 years old by express not prepaid 25c. each.

Sanseveria Zealanica

Adapted for the decoration of drawing rooms and halls, as it stands drought and dust with impunity, and requires scarcely any water. The leaves grow 3 to 4 feet in length and are striped crosswise with broad, white variegations on a dark green ground. 20c. each.

Shrubs, Vines and Plants

HARDY PHLOX

Hardy Perennial Phlox

But few plants give better satisfaction than Hardy Phlox. They are easily cultivated, very hardy and will thrive in any ordinary rich soil. They begin to bloom early and continue throughout the season, making them very valuable for garden planting. I offer a good collection of varieties and colors. Plants 10c. each; 3 for 25c.

NORWAY SPRUCE

NORWAY SPRUCE—This is one of the hardiest Evergreens under cultivation, as it stands the most severe winters in Northern Minnesota and the Dakotas. It forms a lofty elegant tree, pyramidal in form. This variety is extensively planted for wind-breaks as well as for ornament, the branches being very tough so that they do not break down like most trees when they are covered with snow. 12 to 15 inches high.

WHITE SPRUCE—Perfectly hardy, with beautiful blue tinted foliage. It has the same habit of forming finely shaped trees as the Norway Spruce, but is somewhat slower in growth. It is one of the most attractive of Evergreens to plant around a building or on a lawn. 12 to 15 inches high.

Prices for any of these Evergreens, 10c. each; 3 for 25c.

HONEYSUCKLE

HALLEANA—A remarkable variety; is very hardy. The flowers are first pure white, changing to yellow. It is a continuous bloomer and one of the most fragrant Honeysuckles. Large plant, 2 to 3 feet high, 35c. each; 3 for \$1.00, by express or freight, not prepaid.

CHINESE TWINING—This is a very hardy climbing variety, blooms at intervals through the summer with white sweetly scented flowers, and retains its foliage nearly all winter. Price 35c. each; 3 for \$1.00, by express or freight, not prepaid.

SYRINGA or McORANGE

GRANDIFLORA FLORA PLENA—A very hardy shrub of dwarf growth with large double pure white flowers; very fragrant. One of the best of all Syringas. Price for large shrubs 2 to 3 feet high, 35c. each; 3 for 90c., by express, not prepaid.

SNOWBALL

This popular shrub is too well known to need a description. The flowers are pure white, and extensively used for decorating. Price, large shrubs, 2 to 3 feet high, 35c. each; 3 for 90c., by express, not prepaid.

Norway Spruce

PAEONIES

The finest hardy Perennial in existence, rivaling the rose in perfection of bloom and coloring. They are absolutely hardy everywhere and have no insect pests. The varieties I offer are the largest and produce perfect double flowers of the most beautiful colors. **Chinensis alba**—Fine, large, pure white. **Officinalis rubra plena**—Rich, deep crimson. **Queen of the Pinks**—One of the finest pinks grown. Strong roots, 15c. each; 3 for 40c., postpaid.

HYDRANGEA

Hydrangea—Paniculata Grandiflora

This Hydrangea attains a height of 5 to 7 feet, is hardy in all localities; blooms from July to September. The blossoms are borne in immense cone-shaped trusses, often measuring ten inches in length; are white when first open, changing to pink, and finally to a beautiful coppery red. The matured flowers may be cut and used as parlor ornaments in the same way as Everlastings and will retain their beauty all winter.

Price, large plants, 2 to 3 feet high, 35c. each; 3 for \$1.00, by express, not prepaid.

HARDY SHRUBS and VINES

By Mail, Postpaid

We grow a large quantity of the following Hardy Shrubs and Vines in small sizes, which we send by mail, postpaid. (For descriptions see this page and next.)

	Each
HYDRANGEA—Paniculata Grandiflora	10c

Bargain List of Plants, Shrubs and Vines

In the following collections will be found many desirable plants at greatly reduced prices. The reason we make this special low price is on account of our having almost unlimited quantities of certain varieties. The selection must be left to us, which will consist of only good and desirable varieties. The plants sent will all be labeled true to name. These assortments will be sent postpaid to any address in the United States or Canada.

No. 1—15 assorted plants for bedding, \$1.00.

No. 2—10 Choice Hardy Pinks, 50c.

No. 3—10 Large Flowering Chrysanthemums, assorted, 60c.

No. 4—10 large Flowering Carnations, assorted, 60c.

No. 5—5 assorted plants for hanging baskets, urns or boxes, 30c.

No. 6—15 Choice Hardy Herbaceous Plants for lawns or garden, assorted, \$1.00.

No. 7—10 Choice Hardy Shrubs, assorted, 75c.

No. 8—5 Choice Vines for window or veranda, assorted, 30c.

No. 9—20 Choice Summering Flowering Bulbs, assorted, 60c.

No. 10—5 Choice Roses, assorted colors, 40c.

PURE BRED POULTRY

There is no business today growing like the poultry industry. It is a well known fact that the business in the United States alone amounts to the vast sum of \$300,000,000 per year from sale of poultry and eggs. Poultry raising has become a very important industry in which hundreds of thousands of people under all conditions are engaged; some keeping only a few hens, while others breed for pleasure and profit. Fresh eggs are wanted by millions of people every day, and your chances are as good as thousands of others to produce the best and sell at high prices. The poultry industry yields quick returns, making it a desirable calling for men and women with limited capital. Chickens are hatched in three weeks, in nine to twelve weeks time they are broilers, and in five months they begin laying and working for you. What could make you quicker returns?

The poultry industry is something that anyone can profitably engage in, and when looking for a future occupation, consider this business for it can never be overdone. It is never too late to start, and, if managed right, will make money from the beginning. We have one of the largest poultry farms in this country and make a specialty of supplying both poultry and eggs to beginners. Our system of dealing from the farm to consumer is the reason we can sell high grade stock at lower prices than the average raiser of pure-bred poultry. We not only have our own farm, but we have thousands raised for us on contract in all sections of the country by expert breeders, and in filling orders we supply stock from the point nearest to the customer. We offer here the leading varieties of which we are prepared to furnish choice breeding stock in almost unlimited numbers. Our shipping coops are light and we can ship stock to all parts of the country in perfect safety.

Our Poultry Catalogue should be in the hands of every person interested in the poultry industry. We show nearly eighty breeds and varieties of pure-bred land and water fowls. This book is free for the asking. Send for it.

Single Comb Buff Leghorns.

Single Comb Buff Leghorns

Buff Leghorns are a favorite variety and are becoming very popular with all progressive breeders. They are extra good layers and their eggs are somewhat larger than any other class of the Leghorn family. They are about the same size as other Leghorns and their buff color is preferred by some fanciers. This is becoming a favorite variety and we are having quite a demand for them. They are hardy, very easily raised, and come to maturity very quickly, pullets beginning to lay when quite young.

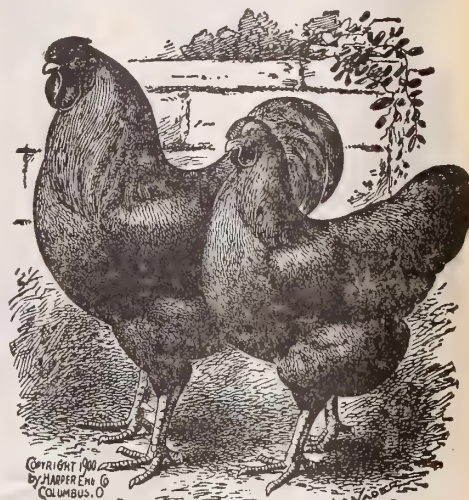

If you prefer buff-colored fowls, and wish good egg-producers, this is the variety we advise. They are handsome in appearance and highly profitable to the poultry keeper. Buy good stock if you want results. Our Buff Leghorns are the best that can be procured.

We intend making a special effort to introduce our Buff Leghorns this season, and advise those of our customers who wish to own this variety to order early, as the demand is sure to be very great.

Eggs for hatching, \$1.25 per sitting 13; three sitting, 40 eggs, \$3.25; Breeding stock, single bird, \$2.00; pair, \$3.50; trio, \$5.00.

For larger quantities of stock, eggs, or extra selected birds, write for prices.

Buff Wyandottes

Buff Wyandotte.

The Buff is the cousin of the White Wyandotte and is identical except in color, which is a beautiful deep buff throughout. Their color makes them a great favorite as there is a great demand for buff fowls. They have been bred long enough to have the color firmly and evenly established, and it is seldom an off-color bird is produced. Certainly no finer buff fowl can be found than the Wyandotte. In laying qualities they are unexcelled, their eggs being of good size and of a darkish brown color. The chicks mature early if reasonably well cared for. The birds themselves are medium weight, but have good form and mature for market in a shorter period than most other breeds. They are excellent for table use and hold a high place in the estimation of broiler raisers. They thrive well in confinement.

Eggs for hatching, \$1.50 per sitting 13; three sittings, 40 eggs, \$3.50. Breeding stock, single bird, \$2.00; pair, \$3.60; trio, \$5.25.

For larger quantities of stock, eggs, or extra selected birds, write for prices.

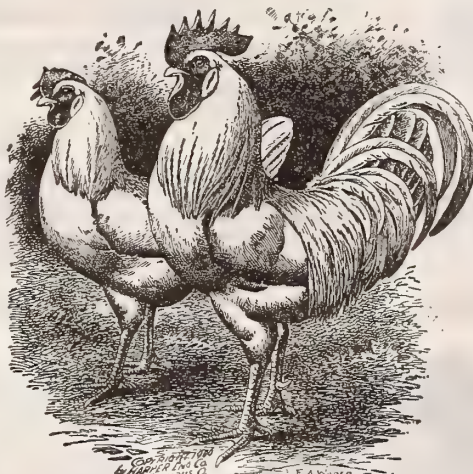

Single Comb White Leghorns

The Leghorn is one of the most popular breeds because of splendid laying qualities. This variety is of a pure snowy white, yellow legs, bright red combs and wattles, and white earlobes. They are finely made birds and possess a graceful symmetry. If fed right, and with proper attention, White Leghorns will furnish eggs through the entire year. The eggs usually hatch well, as they are very vigorous and prolific. Chicks are hardy, mature early, and often begin laying at four months. They are good foragers and also bear confinement well. Cocks weigh from 4½ to 6 pounds; hens from 3½ to 5 pounds.

We can provide the best strains of this snowy white variety. Our prices for thoroughbred stock are within the reach of all poultry raisers. Don't buy cheap stock. This never pays in any transaction, much less in the poultry business where success depends so much on well-bred fowls.

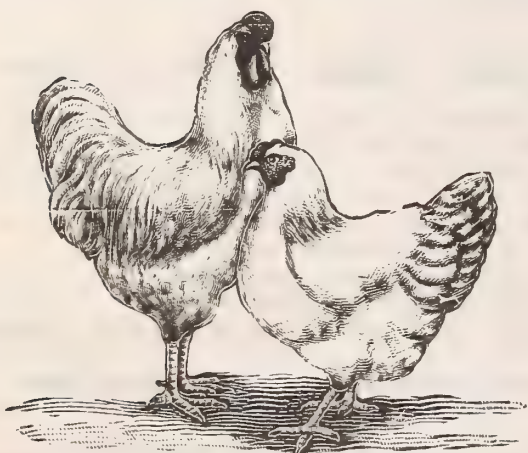

Eggs for hatching, \$1.25 per sitting 13; three sittings, 40 eggs, \$3.25. Breeding stock, single bird, \$2.00; pair, \$3.50; trio, \$5.00.

For larger quantities of stock, eggs, or extra selected birds, write for prices.

Single Comb White Leghorns.

White Wyandottes

Pair White Wyandottes.

and wattles, which makes them most attractive for the fancier or for the market. Cocks weigh from 7 to 9½ pounds; hens, 6 to 6½ pounds.

We make a specialty of Wyandottes and can supply the purest and best strain of white and all other varieties.

Eggs for hatching, \$1.50 per sitting 13; three sittings, 40 eggs, \$3.50. Breeding stock, single bird, \$2.00; pair, \$3.60; trio, \$5.25.

For larger quantities of stock, eggs or extra selected birds, write for prices.

The Wyandottes are in many ways similar to the Plymouth Rocks, being general purpose fowls, very good layers, excellent mothers, good foragers and possessing very good table qualities. The origin of the Wyandotte dates back about twenty-five years. They are purely of American production, being a cross of several breeds. Have pure white plumage, rose combs, bright yellow legs, beak and skin, red faces, ear lobes

Single Comb Brown Leghorns

Probably the best known and most admired of all Leghorns. They have red wattles and combs, white ear lobes; brown in color, except the cock, which is black on breast, deep bay red on hackle and each feather should have a black stripe in center. They have yellow skin and legs. Like all other Leghorns they are very prolific layers. The chicks are usually very hardy, grow rapidly and mature at an early age. They are good winter layers if warm quarters are provided. This is a money-making fowl if you get a good strain. Cocks weigh from 5 to 6½ pounds; hens 3½ to 5 pounds.

Profitable poultry raising cannot be successfully accomplished with scrub fowls. Good stock is necessary for paying results.

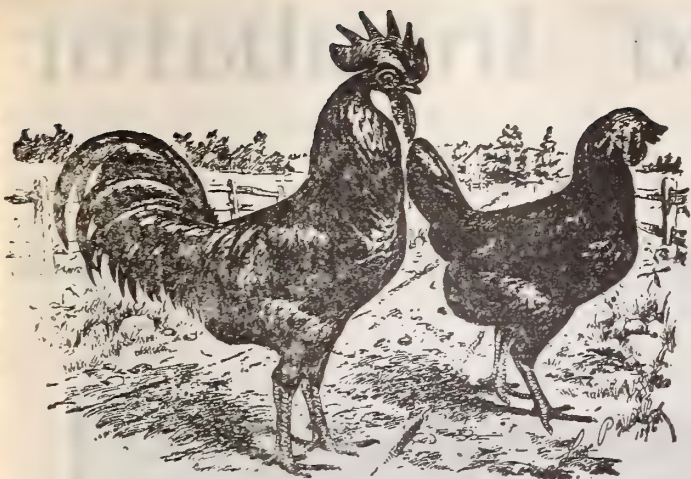

Eggs for hatching, \$1.25 per sitting 13; three sittings, 40 eggs, \$3.25. Breeding stock, single bird, \$2.00; pair, \$3.50; trio, \$5.00.

For larger quantities of stock, eggs, or extra selected birds, write for prices

Single Comb Brown Leghorns.

Single Comb Black Minorcas 59

Pair Black Minorcas.

The Minorca is one of the best of the Mediterranean class. They are supposed to have originated at Minorca, one of the Balearic Isles of the Mediterranean Sea, from which they derive their name. They are adapted to either the farm or the city lot, being excellent foragers and bearing confinement in city yards very well. In size they are about one-half pound lighter than Wyandottes, about two pounds more than Leghorns, and their flesh is very dainty, light colored and fine grained. They lay the year round, and are not-sitters; eggs are white and very large, averaging eight to the pound. They lay about as many eggs as the Leghorns, and in bulk will far exceed them. They are very hardy, easy to raise, mature early, pullets laying at four or five months.

The Black Minorca has a beautiful glossy black plumage with metallic green lustre. The face, comb and wattles are a bright red; ear lobes, white; legs are featherless, clean and of a dark slate color. They have a very stylish and majestic carriage, and are indeed noble birds.

Eggs for hatching, \$1.25 per sitting 13; three sittings, 40 eggs, \$3.25. Breeding stock, single bird, \$2.00; pair, \$3.50; trio, \$5.00.

For larger quantities of stock, eggs, or extra selected birds, write for prices.

Light Brahmas

Pair Light Brahmas.

One of the oldest breeds and held in favor by all poultrymen. Plumage is white; neck penciled with black; wings white with black on inner part of web which does not show when they are closed; tail nearly black; pea comb; legs feathered to tip of outer toes. They are not inclined to roam, will stand confinement and do well in a small yard. They are very large, dress well for market, have a nice yellow skin, will fatten nicely when matured, and command the highest market price. Eggs are quite large and brown in color. Some are lighter in color than others, the best specimens often laying the lightest shaded eggs. The females make good sitters and are not over broody. This old-fashioned breed is still a great favorite and will always remain so.

New breeds may come and go, but the Light Brahma remains.

Eggs for hatching, \$2.50 per sitting 13; three sittings, 40 eggs, \$5.00. Breeding stock, single bird, \$2.50; pair, \$4.50; trio, \$6.25.

For larger quantities of stock, eggs, or extra selected birds, write for prices.

Silver Spangled Hamburgs

The Silver Spangled Hamburg is one of the most beautiful varieties found on the poultry list. They are very handsome fowls, and as egg producers they stand in the front rank, laying the year round. Chicks grow very fast and mature early, pullets often laying when four months old. They are good foragers, very small eaters, and make excellent table fowls. Their plumage is a silvery white, the end of each feather being tipped with black. They have rose combs and are non-sitters. Cocks weigh from 4½ to 5½ pounds; hens, 3½ to 4 pounds.

Pair Silver Spangled Hamburgs.

Eggs for hatching, \$2.00 per sitting 13; three sittings, 40 eggs, \$5.00. Breeding stock, single bird, \$2.50; pair, \$4.50; trio, \$6.50.

For large quantities of stock, eggs, or extra selected birds, write for prices.

Single Comb Rhode Island Reds

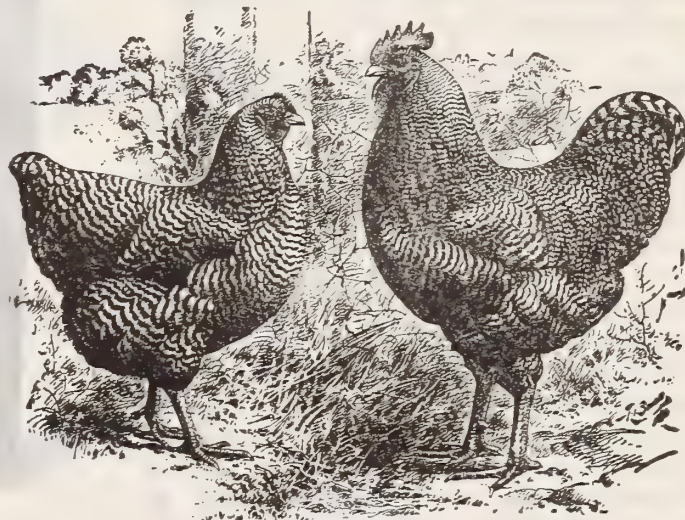

Pair Single Comb Rhode Island Reds.

Rhode Island is claimed as the birth-place of this fowl, hence the name. They are being bred extensively throughout the Eastern States and are fast coming to the front as a general-purpose fowl. In shape and general appearance they are similar to the Plymouth Rock or Wyandotte. Their plumage is a rich brilliant red, except that they show some dark feathers in tail and underportion of wing flights. Shanks and beak are a reddish yellow. They are good layers, eggs being of good size and brown in color.

Eggs for hatching, \$1.50 per setting 13; three sittings, 40 eggs, \$3.40. Breeding stock, single bird, \$2.00; pair, \$3.60; trio, \$5.25.

For large quantities of stock, eggs, or extra selected birds, write for prices.

Barred Plymouth Rocks

Pair Barred Plymouth Rocks.

Every poultry raiser knows this most popular breed. For a general purpose fowl they are far in the lead of many others. They are vigorous, noted for hardiness of constitution. Young chicks grow rapidly and are ready for market at an early age. When matured they are large, ranking next in size to Asiatics. Have clean legs, beautiful barred blue plumage, are splendid layers and make excellent table fowls. This is one of the best breeds known to poultrymen. Cocks weigh about 9½ pounds; hens, 7½ pounds.

We are particularly well prepared to supply you with the best strain of Plymouth Rocks, many of them prize winners. We can ship you a pair, trio or any quantity you may desire. Our facilities for handling and shipping fowls and eggs are such that we can take care of your interests in every way, sending nothing but thoroughbred stock.

Eggs for hatching, \$1.50 per sitting 13; three sittings, 40 eggs, \$3.60. Breeding stock, single bird, \$2.50; pair, \$4.25; trio, \$6.00.

For larger quantities of stock, eggs, or extra selected birds, write for prices.

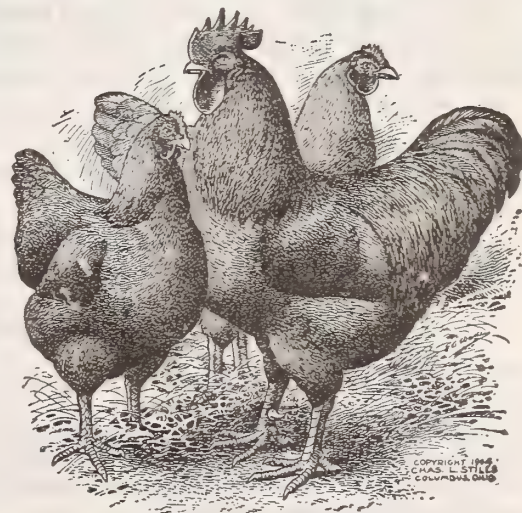

Single Comb Buff Orpingtons

This is perhaps the most popular variety of the Orpington family. Their color and hardiness having much to do with their popularity. Some of the characteristics are: Very large and mature at an early age; excellent table fowls, meat sweet, white and juicy; legs and skin white; good layers, eggs large, varying in color from light to dark brown; good sitters, but not persistent and easily broken up; carriage erect and proud; color an even, deep buff throughout and easy to breed true to color; very good foragers, but bear confinement and cold weather well, therefore very hardy.

Buff Orpingtons are a breed that if properly looked after will pay better than any other variety we know of. We can supply some of the finest stock in the country, also eggs for hatching.

Eggs for hatching, \$2.50 per sitting 13; 3 sitting, 40 eggs, \$5.50. Breeding stock, single bird, \$3.00; pair, \$5.00, trio, \$7.25.

For larger quantities of stock, eggs, or extra selected birds, write for prices.

Trio of Buff Orpingtons

Our Incubators and Brooders are Best By Test on the Market.

⁶⁰ Mills' "Early Bird" Incubator

55 EGG CAPACITY

The Proverbial Early Bird Catches the Worm; Our "Early Bird" Hatches the Chicks

Our large and extensive poultry business was started with just such an incubator as this. It has been perfected by practical experience, and today our "Early Bird" is acknowledged to be the lowest priced and most satisfactory little machine on the market. It is intended for those who raise a hundred or two chicks in a year, and also those who intend starting in the business. It is shipped direct from the factory, which is the main reason for its low cost.

We know that many farmers and poultry keepers have not yet begun to make use of an incubator for hatching purposes. Poultry raising can be made a business, and a money-making one at that, but not with the old-fashioned hen-sitting process. The steady demand for market fowls and broilers can only be met by using an incubator. By this method "spring chicken" can be raised at any season of the year.

The demand for eggs is greater than the supply, especially in the winter months, and a large hatch of pure-bred chicks in the early spring and summer, by means of an incubator, will increase your flock to the extent of providing you with eggs at the season when prices are high. In this way the poultry industry can be conducted on a paying basis. If you have a small flock of fowls and want to increase, a few sittings of eggs and a reliable incubator will do it. There is less trouble in running an incubator than attending to the wants of an erratic, broody hen, and the results are infinitely greater. Poultry keeping is a business and should be conducted as such, whether your facilities be great or small. And the main secret of a successful poultry business lies in the use of an incubator.

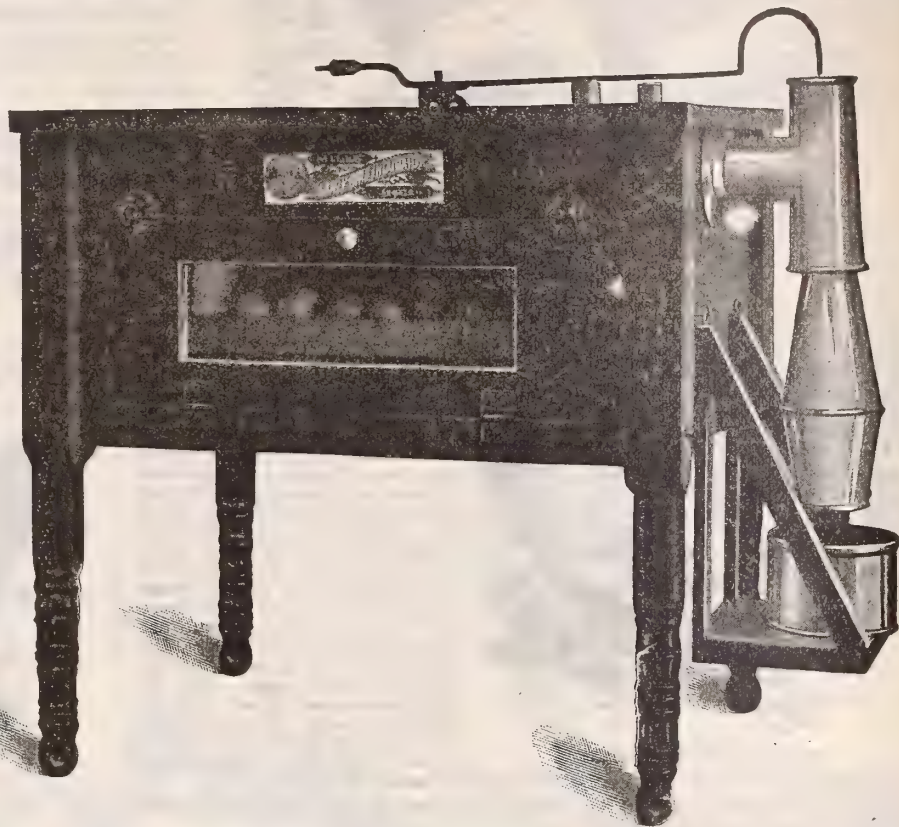

Mills' "Early Bird" is just the incubator for the beginner, or those who do not care to hatch any more than fifty-five eggs at a time. It is a sure hatcher—you can count on a chicken for every egg, providing they are fertile. This machine is built of good, well-seasoned lumber throughout. It is nicely finished in natural colors, and gives the appearance of a fine piece of furniture. It is supplied with a large nursery underneath the egg tray, making an excellent place for the chicks to exercise and gain strength as soon as they are hatched.

This incubator is equipped with our improved radiator or heater, which always insures an even temperature. It is so constructed that no heat is wasted, which makes it one of the most economical incubators to operate, requiring fifty per cent less oil than it takes to operate other machines. The lamp and burner are made of good material, their construction and perfect operation being the result of our extensive, practical experience in the incubator business.

Our "Early Bird" is double walled throughout, insulated with mineral wool and asbestos paper, making it as durable in every particular as the highest priced machine and strictly fire-proof. The regulator is carefully tested and fitted, insuring an even temperature in the egg chamber, regardless of where the machine may be placed.

Our system of ventilation is unsurpassed, and this is a very important feature, as no incubator can do its work properly unless it is supplied with a steady supply of fresh air. Each machine is furnished with an accurate thermometer, egg tester and instructions for operating, which are so simple that anyone can get the most satisfactory results, whether they are experienced or not in the operating of an incubator.

The very low price of the machine is one of its strong points. We are perfectly safe in saying our "Early Bird" is equal to many other incubators selling at double the money. **Price** **\$5.50**

What People Say About the "Early Bird"

MRS. W. B. HAMILTON, writes:—

ECKFORD, Mich., May 29, 1905.

I had intended to write you before but something hindered. I have received my Incubator and Brooder and am well pleased with both. I have had two hatches in the incubator; the first one was off May 4th and had 48 tested eggs in and hatched 48 chicks; the second hatch was off May 25, and out of 49 tested eggs I had 45 nice chicks.

R. B. COGGINS, writes:—

LUVERNE, Ala., March 24, 1905.

We have just a few days ago received your "Early Bird" Incubator and Brooder. The Incubator is all right and is just what you claim for it. Please accept my thanks.

JAS. S. OSBORNE, writes:—

NORWALK, Conn., March 22, 1905.

The "Early Bird" Incubator I bought of you is due to hatch Friday morning and there were two hatched Thursday night and tonight there are more than I can count. I am very much pleased.

JAMES KEEGAN, writes:—

SOUTH AMBOY, N. J., April 25, 1905.

Incubator and Brooder arrived in good order. I am very much pleased with them. The "Early Bird" is a little gem. I thank you for the prompt shipment.

MRS. CHAS. DESHNER, writes:—

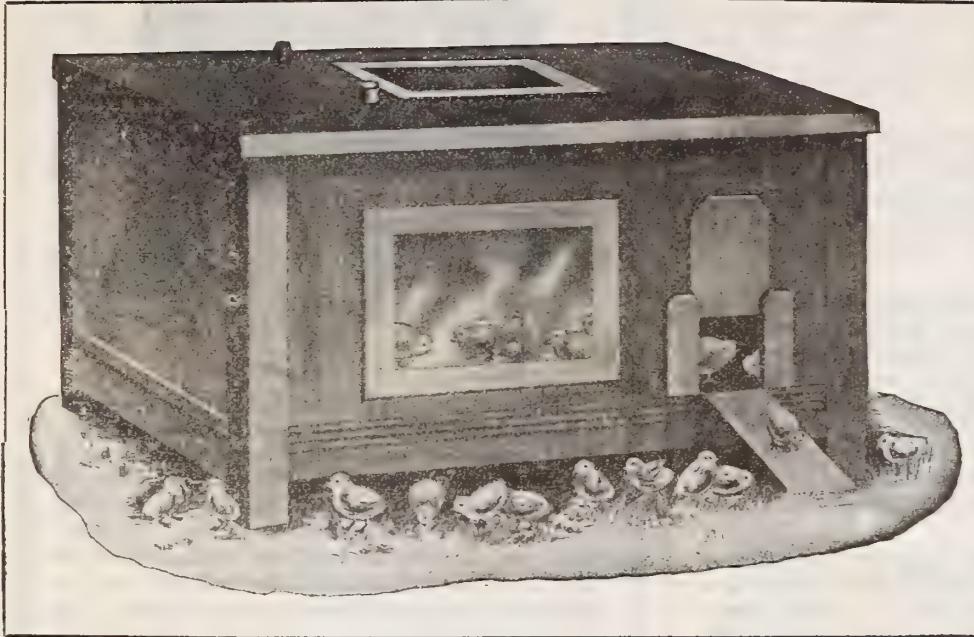

MAYBURG, Pa., May 5, 1905.

We received the Incubator and Brooder all right and am pleased with both. My first hatch I got 34 chicks out of 48 eggs. They are all alive and growing nicely. I have the Incubator set again with 50 eggs.

Buy an "EARLY BIRD" this year=You will be Pleased

"SPECIAL 1905" BROODER 61

Built Especially to Go With Our "Early Bird" Incubator

If you use an incubator, a brooder is also required to care for the newly hatched chicks. We have built this "Special 1905" Brooder to go with our "Early Bird" Incubator, and the combination is a most happy one. Hundreds of our customers who are using these combined machines have written us telling of the splendid success they have had with hatches and rearing of chicks. As an outfit for those starting in the poultry business, or for anyone wishing to hatch 150 to 200 chicks in a season, our "Early Bird" and "Special 1905" is the best and most inexpensive combination on the market.

The value of a brooder over hens is evidenced by the following advantages: Snug and secure quarters are always ready for the young chicks when taken from the incubator; they are fed more regularly and much more evenly, and are less liable to disease and acci-

dent; they can be kept dry and comfortable at all times, and it is almost impossible for parasites to attack them.

In operation, material, workmanship and low price, our "Special 1905" Brooder is truly a wonder. It is operated by overhead heat, which every experienced poultryman will tell you is the only consistent method of heating a brooder.

Another great feature of this machine is that it is equipped with a perfect system of ventilation, which supplies the chicks with a constant circulation of fresh air, keeping them in a good, healthy condition, and protecting them from being smothered. All fumes from the lamp are carried directly into the heater or radiator, escaping through ventilators at top of machine as seen in illustration. The chicks are never brought into contact with the burnt-out, impure air.

This brooder is built to meet the requirements of the practical poultryman as well as the beginner. Being a companion machine to the "Early Bird" Incubator, its capacity is sufficient to take care of all the chickens that can be hatched at one time, even if it be the full number of fifty-five.

We recommend the use of incubators and brooders for successful poultry rearing. Nature's way—the hen—may be more picturesque, but for money-making returns it is too slow a process. A fifty-five-egg incubator equals several industrious hens' combined efforts. By using a machine you can have these hens working for you in another capacity—laying eggs or for market.

Again, an incubator hatches eggs at a time when a hen won't, and enables you to provide broilers at almost any time of the year. With a hatch of say fifty chicks, a brooder is of the greatest benefit in caring for the young birds. They thrive well and grow quickly when reared with the aid of a brooder.

Years of experience in the poultry business has convinced us that successful returns alone depend upon the methods adopted. The modern and progressive farmer knows he cannot get the best results from the soil without he uses labor-saving implements and tools. How, then, in poultry keeping for profit can you expect success without you adopt progressive measures to make the industry pay? Incubators and brooders in poultry raising are just as necessary as weeders and cultivators in farming. Ask the farmer which he prefers—the laborious hand methods or the labor-saving implements he now uses. HE cannot afford to do his work by hand when he can buy machines to do it in a fraction of the time. The same is true in poultry keeping. Keep your fowls for egg-production and the market, and do your hatching and rearing with an incubator and brooder. That's the whole secret of the poultry business. A little time and attention, reliable machines, good stock, and success will be yours.

Our "Special 1905" Brooder is practical in every way, strongly made of good quality lumber, with solid corner posts and nicely painted. The cheapest and most perfectly constructed machine on the market.

PRICE, = = = = = \$3.50

OUR SPECIAL COMBINATION OFFER

"Early Bird" Incubator and "Special 1905"
Brooder---The Two for = = = = \$8.00

This combination is well suited to those wishing to engage in poultry raising in a small way. We have sold thousands of these outfits and know the great amount of satisfaction they give. We will ship the two machines, all complete, with full directions for operating, for \$8.00, f. o. b. cars at Rose Hill, N. Y. This is the greatest offer ever made to poultry keepers.

Our incubators and brooders are sold with our absolute guarantee to bring good results if handled according to our directions. You can purchase them with the understanding that if they are not all we claim them to be, you may return them and have your money refunded.

These Brooders are used by Thousands of my Customers

All our machines are operated by the hot air system—the only practical method of heating.

62 OUR "FIRST PRIZE" INCUBATORS

The Best Equipped and Most Perfectly Constructed Egg-Hatching Machines Made.

There are many kinds of incubators on the market today, each guaranteed by its respective maker as the "best ever." But while the man who builds a machine is privileged to make all the assertions he is capable of, the **buyer** must be convinced of the machine's good points before he can be expected to become a purchaser.

We claim for our "First Prize" the distinction of being the best equipped and most perfectly constructed incubator made. Nor do we stand alone in our opinion. Hundreds of our customers who are using them have written us regarding the merits of our incubators, and those who have used them with other makes give our "First Prize" the palm for the largest and most successful hatches.

Successful poultry raising depends greatly on the methods used. No matter the quality of the eggs for hatching, if your incubator does not give a large percentage of results your profits are thereby affected. Besides, there is the uncertainty, the fear that all your work may be in vain. Your incubator should, with fertile eggs and some attention, give you at least eighty-five chicks out of every hundred eggs. We know our "First Prize" will do better than this, the average being from 90 to 95 per cent. It is easy to operate and requires comparatively little care and attention once it is set right, which is a simple matter as everything is mathematically adjusted for perfect working.

The heating system is scientifically applied to the eggs by radiation of heat from above, assisted by proper ventilation distributed freely and evenly to every portion of the machine. The regulator is a very simple device to keep in order, and so sensitive that it will hold the temperature in the egg chamber to the smallest degree. The roomy nursery under the egg tray is regulated to a slightly lower temperature, making a comfortable place for the newly hatched chicks to spend their first twenty-four hours drying and gaining strength. The inner door is of glass, allowing the operator to see the eggs and thermometer without exposure to the egg chamber.

The case is built of selected white pine, thoroughly seasoned and put together in a manner to prevent warping, shrinking or swelling. The inside case is sheltered with thick asbestos board. The outside is of yellow or Georgia pine, finished in natural wood colors and as handsome as a piece of parlor furniture.

Is it not to your advantage to own an incubator that will do good work—a machine that has been perfected by many expensive experiments and which is used exclusively on one of the largest poultry ranches in the country? Many men are able to build incubators, but it's the poultryman who has to work the machine and get the egg-hatching results. We could not afford to risk our reputation and money on a machine that was not perfect in its operation and a sure egg hatcher. Our incubators and brooders are the results of years of experience in poultry raising, and surely we must know something of the requirements of a machine when we use no less than from thirty to forty incubators and brooders in our poultry business.

We speak convincingly because we are convinced from actual, practical experience that our incubators are as near egg-hatching perfection as any machine can be. Hundreds of our customers are behind us in this statement. We ship our machines to every state in the Union, and have yet to hear of a complaint regarding their inefficiency where our instructions were followed.

A few testimonials taken from our large list of pleased buyers:

C. J. HENION, writes as follows:—

MARION, CONN., May 29, 1905.
On the 21st inst. I took off the third hatch with the "First Prize" Incubator. Had 161 fertile eggs and took off 150 good live chicks. My hatches have beaten the new—incubator badly this year. There are a number of machines in this vicinity new this year but 60 per cent is the largest I have found so far, and my last two hatches were 92 and 95 per cent respectively.

Am willing you should use this among your testimonials if you think it good enough.

JOHN E. ANDERSON, writes:—

NORTH ATTLEBORO, MASS., May 4, 1905.
The Incubator is all right and runs fine, and is just right.

ROBERT J. COY, writes:—

WILTON, CONN., Feb. 10, 1905.
I write to inform you that I have received my Incubator all in perfect order, owing to your good judgment in packing. I set the machine up and it registered 103 in five hours and twenty-five minutes. In twenty hours had it running at nominal 103.

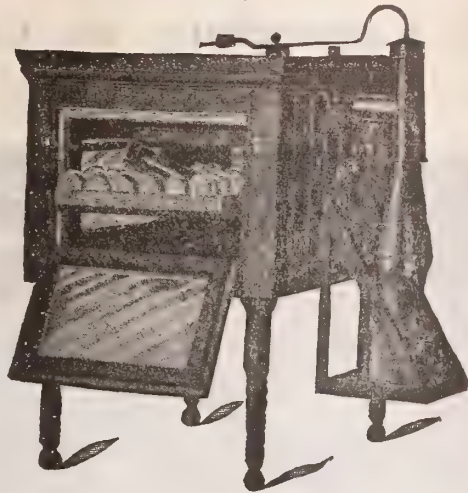

MRS. J. A. HEWITT, writes:—

ALGA, PA., March 2, 1905.
The Incubator and Brooder received the 1st. Everything in good condition, and am very much pleased so far. With many thanks for same.

If you want good results from your hatches—and who does not?—you cannot expect success without a good and reliable incubator. You may have good stock, and if you do own pure-bred fowls you cannot afford to lose money by experimenting with untried machines. Ours are well-tried and proven by experience. We passed the experimental stage long ago, and you now have the benefit of the perfected incubator—our "First Prize"

"First Prize" Incubator

CAPACITY, 55 EGGS

This accurately illustrated little machine is handsomely finished in natural wood colors. It is compact and only occupies as much space as is necessary. This incubator is double walled throughout and insulated with mineral wool and asbestos paper. It contains our improved tank or radiator and is strictly fireproof, or at least as safe as the kerosene lamp you burn in your house. This machine is a favorite where only 150 or 200 eggs are to be hatched during a season. It is complete, furnished with lamp, egg tray, thermometer, egg tester and moisture pan. The regulator is carefully fitted and tested, which insures a perfect and simple operating machine. Our instructions for operating are furnished with every order, and are so simple that any one can succeed in obtaining the most satisfactory results.

Price.....\$8.50

"First Prize" Incubator

CAPACITY, 100 EGGS

This is a larger sized machine and is intended for use where 400 or 500 chicks are to be hatched during a season. It is built with great mechanical correctness and finely finished in natural wood colors. It is double walled throughout, with mineral wool and asbestos paper insulation. Furnished with everything ready for use—lamp, egg tray, thermometer, egg tester and moisture pan.

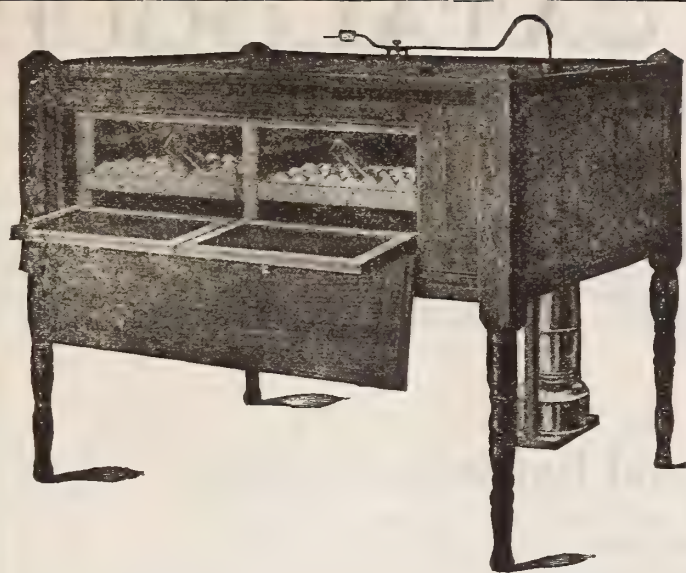

This incubator cannot be equaled as a successful egg hatcher. We do not hesitate to state that it is impossible to secure as costly built and as perfect an operating machine anywhere at anything like our price. This 100 egg "First Prize" Incubator

Price.....\$12.50

All Orders for Incubators are Filled Soon as Received

Mills' "First Prize" Incubator 63

200 EGG CAPACITY

"First Prize" Incubator. 200 Egg Capacity

The cut shows this two hundred egg incubator. It is made precisely on the same principle as our smaller "First Prize" machines. It is double walled throughout, and insulated with mineral wool and asbestos paper. Completely furnished with lamp, egg trays, thermometer, egg tester and moisture pans. The regulator is carefully fitted and tested before leaving factory, so that there can be no trouble in getting the machine into proper working shape. The operation is simple and perfect, and there is no complicated or delicate machinery to get out of order.

The case is beautifully finished in natural wood, strongly yet lightly built. This machine will last a lifetime with ordinary use. It can be successfully operated without constant worry or attention, will bring good results and prove a money maker to those who use it.

Price, 200 egg capacity, all complete.....**\$16.50**

The experienced poultryman, who makes poultry raising his special business, will have use for an incubator of this size and capacity. Eight hundred to a thousand chicks can be hatched with this machine in a single season. To get large returns one must work on a large scale, and to hatch a great number of chickens quickly an incubator of this size is necessary.

Our "First Prize" is constructed with the best skill and care, on the latest and most improved scientific methods. The prices we make on this and the smaller sizes are very low for a high-grade machine. There is no incubator on the market that is equal to our "First Prize" for reliability and efficient hatching. Our machine will hatch a larger percentage of chicks than any other make, is constructed so that it requires very little attention once it is regulated—an easy matter, if you follow the directions we give you.

Successful poultry raising if gone into on a large scale requires the use of incubators to bring profitable results. This two hundred egg size we have especially designed, and the best guarantee we can give it is in saying we use this machine almost exclusively in our egg hatching. We have recommended it to a great many of our poultrymen customers, and have yet to hear of a single case where, when our directions were followed, it has failed to do its work properly and well.

If you are in the market for an incubator, there is every reason why you should invest in a "First Prize." It is a well-trying, reliable machine, made to give satisfactory results. It is constructed along scientific lines and perfected by practical experience and long use.

Your success in the poultry business will be due in a great measure to your success with your incubator. Our "First Prize" will hatch the highest percentage of chicks possible—the true test of a good incubator.

Don't experiment with machines that are made to sell only. There are many on the market with hardly any other purpose than to make money—for the seller. Buy a "First Prize," the size that suits your requirement. We guarantee best results or money refunded.

"First Prize" Brooder

For the successful rearing of young chicks, after an incubator hatch, a brooder is of the utmost necessity. Our "First Prize" Brooder will take care of any number of chicks that may be hatched in our 200-egg incubator..

In operation the heating is accomplished by an overhead system which allows for a free circulation of air. The heat is radiated from an overhead galvanized iron tank. The fresh air comes in contact with this heating tank circulating through the entire brooder, escaping at ventilators on top of machine. This is the only consistent method of heating a brooder, and is the only system which follows nature's plan—the brooding hen, which gathers her chicks under her wing, supplying the needed heat with her own body on top of chicks.

This brooder is divided by a felt curtain into two compartments, one used as the hover, the other as an exercise room and several degrees lower in temperature. The chicks have thus two places to stay in, using one or the other as necessity demands.

In construction this brooder is all that can be desired. It is strongly and substantially built of good quality lumber, throughout with solid corner posts and nicely painted.

While our "First Prize" Brooder is low in price, we guarantee it to be superior to any machine made. The low cost is because of our selling direct from factory and saving you all intermediate profits. We use this brooder in our own poultry business and find it superior to all other makes. Our poultry farm is equipped with the "First Prize" Incubators and Brooders, and this in itself is a sufficient guarantee. We have, also, many pleased customers who can support us in our statements.

Use our "First Prize" Brooder and rear strong, healthy chicks.

Price.....**\$7.00**

"First Prize" Brooder

OUR BINDING GUARANTEE.—We guarantee the "First Prize" Incubators and Brooders to be equal in material, workmanship and finish to any similar machine made and sold at much higher prices. We further guarantee each and every "First Prize" Incubator or Brooder, of small or large capacity, to be exactly as represented. You can purchase a machine under these conditions, in default of which it may be returned and your money will be refunded.

"FARM AND FACTORY TO CONSUMER"

You need goods of all kinds at times—Furniture, Watches, Jewelry, Musical Instruments, Stoves, Crockery, Silverware, Glassware, Kitchen Utensils, Buggies, Harnesses, Guns, Agricultural Implements, etc. If you are interested in how to buy well and save from twenty-five to fifty per cent on your purchases, send for this catalogue. It's a Great Money Saver.

On this and the colored pages we show a number of specimen bargains taken from this catalogue. These are but a few of the many great offerings contained in the complete book. We sell our goods direct from factory to consumer, cutting out all middle profits and selling at prices absolutely impossible to the average dealer. Everything we sell is guaranteed to be exactly as represented. We agree to please and satisfy you with our goods, the failure of which means the prompt return of your money with any transportation charges you have paid.

Send for our Supply Catalogue. It will save you money and is free for the asking.

Central Rail Combined Step and Extension Ladders

This is the most useful and practical ladder made. It is four ladders in one. The center rail added to the lower section renders the whole more rigid, safer and stronger, at the same time not adding materially to the weight. Every ladder spreads at the bottom and as the spread increases in proportion with the length, a long ladder is given as safe a foundation as a short one. We claim a greater spread for the bottom of our ladder than any other, as the center rail makes it possible. Without the center rail, and with this great spread, the rounds would bend and break, but with the center rail holding them firmly to position it is not possible to break them under ordinary conditions.

This ladder can be used as a simple step ladder, both sides of which can be used when open. As an extension it can be extended twice its length any number of steps at a time, or it can be telescoped to one-half its length. It can be taken apart, and as both sections are of equal length they make two desirable straight ladders. This one combination contains four ladders, which can be said of no other ever manufactured. The hinge, or joint, holding the two sections of ladder together is something new and unique, the device being the most simple of anything used for the purpose; at the same time being very strong, as it is made from best malleable casting.

The weak point in all extension ladders is where the two sections join. In the Center Rail Ladder this weakness is overcome by the steel center-plate reinforcing center rail when ladder is extended. This is a scientific feature, and no other extension ladder can show this reserve strength.

The side rails of ladder are made from best Norway pine, the rounds from selected hardwoods. The little amount of ironwork used is made from best malleable castings and pressed steel. All extension ladders over twenty feet are equipped with rope and pulleys, and the pulley shieves being attached to center rail does away with the loose pulleys used on most ladders. The center rail, plate, joint and method of using pulleys and dogs are covered by letters patent.

Steel Frame Spring Tooth Lever Harrow

The frames of our steel harrows are made from angle steel, the portion coming in contact with the ground being protected by steel shoes which can be renewed when worn out. Our two section harrow, as shown in cut, has an improved center shoe, the style of which is superior to anything on the market. It allows more clearance and has no chance to clog. Teeth bars are 1½ inch tubular steel. The teeth are made of selected carbon steel, tempered to give perfect spring action without injuring the set. They are held in place by patent fasteners whereby a tooth may be replaced in a moments time. There are no holes in teeth to weaken them.

The quality and improved construction of this harrow makes it without an equal for doing satisfactory work. The extremely low prices quoted below proves this the greatest harrow bargain ever offered by any house. Prices include draw bar.

T2541 Price, Two section steel double lever harrow, 15 teeth, weight 240 lbs.....\$11.95

ROSE HILL TWO-HORSE PLOW

Our Rose Hill General Purpose Chilled Plows are made expressly for us by one of the largest plow factories in the country. With the interests of our farmer friends and customers in mind we set out to procure a plow that would in every way equal the best made plows at present on the market. We have succeeded in our efforts, and not only do we ourselves, but plow experts, who have had the opportunity of testing our Rose Hill, pronounce it the best made and most satisfactory working plow ever produced. We make this statement because we know it to be so, because we have expert opinion back of us, a verdict given by those who are familiar with the characteristics of every well known plow. Every plow is sold on our positive guarantee of good working qualities and select and perfect material. Notice by cut which is a fac-simile of our Plow, the room back of the jointer which permits plowing in loose and thrashy substances without danger of clogging. These Plows are equally adapted for sod, stubble and stony land. In order to make prompt delivery direct to our customers and low freight rate we have arranged to have all shipments carry Rochester, N. Y. freight direct on all roads entering Rochester. Extras of all kinds of these Plows carried in stock and shipped promptly. Our special factory arrangements give us price concessions which enables us to sell our Rose Hill plow considerable lower than its actual value. Our economical system of trading allows only one small profit to come between you and the factory cost. The jobber and dealer cut no figure in our methods. It's the factory and the farmer in this deal, with ourselves as a necessary part of the transaction. We unhesitatingly pronounce our Rose Hill plow to be all we claim it to be. It is sold with the guarantee that if not as represented it can be returned and your money will be refunded. Our Rose Hill is made in three sizes as follows:

T2500 No. 60, Light Two-Horse Plow. Furrow 4 to 7 inches deep, 11 to 14 inches wide. Furnished complete with chilled mouldboard; carbon shin piece, landside and point. It is also fitted with a flat wheel standard that will not bend or break and cannot get out of line. Weight, about 120 lbs. Price, full rigged with jointer and wheel, \$8.60

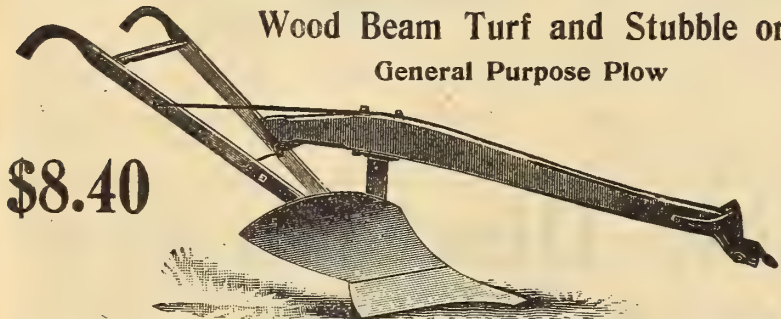

T2501 No. 61, Standard Two-Horse Plow. Furrow 5 to 8 inches deep, 11 to 15 inches wide. Furnished with chilled mouldboard; carbon chilled shin piece, landside and point. Has flat wheel and jointer standards that are always in line and do not break or bend. Weight, about 130 lbs. Price, full rigged with jointer and wheel, \$9.60

T2502 No. 62, Two or Three-Horse Plow. Furrow 5 to 8 inches deep, 12 to 16 inches wide. Fitted with flat steel wheel and jointer standards; chilled mouldboard; carbon chilled shin piece, landside and point. Furnished also with a ten hole clevis, making it suitable as a three-horse plow. Weight, about 135 lbs. Price, full rigged with jointer and wheel, \$9.60

Shipped from New York State factory.

Wood Beam Turf and Stubble or General Purpose Plow

\$8.40

This general purpose plow is fitted with a mouldboard having a long, easy turn which adapts it for use in sod plowing. It turns the furrow completely over, covering trash and weeds. For plowing timothy, alfalfa or clover sod and where crops are rotated, this plow is unsurpassed. This is a well made plow, mouldboard and landside of soft center steel, double shinned and interchangeable shares.

T2503 Price, 12-inch.....\$8.40 | T2505 Price, 16-inch.....\$10.50
T2504 Price, 14-inch.....\$9.25 | Average weight, 100 lbs.

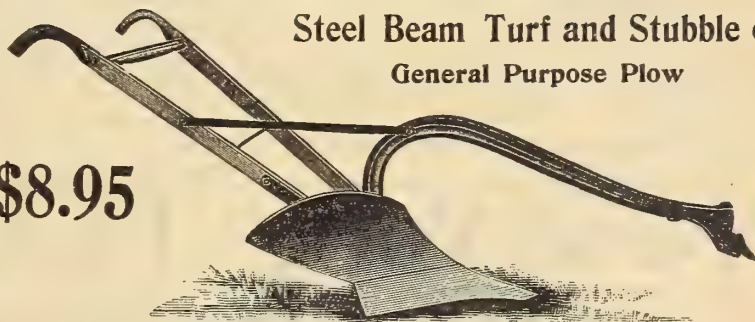

Extra shares, each, 12-inch, \$1.85; 14-inch, \$2.10; 16-inch, \$2.15.

Extra for jointer,.....\$1.70 Extra for rolling coulter, 14 inch.....\$1.80

Shipped from factory in Northern Illinois.

Steel Beam Turf and Stubble or General Purpose Plow

\$8.95

Our steel beam turf and general purpose plow is equally well adapted for old ground or sod. In sod it laps the furrow uniformly, and leaves the ground in good condition for harrow. This plow is unquestionably the most desirable for general usefulness. Made of the finest materials with all the essentials of a high grade plow—double shins, soft centre steel mouldboard and landside, interchangeable shares. Our price, too, is very low for a general purpose plow of this quality.

T2506 Price, 12-inch.....\$8.95 | T2508 Price, 14-inch.....\$10.25
T2507 Price, 16-inch.....\$11.50 | Average weight, 100 lbs.

Extra shares, each, 12-inch, \$1.85; 14-inch, \$2.10; 16-inch, \$2.15.

The Prize Sulky Plow

Beam Hitch. Raises 8 Inches. Light Draft.

\$31.50

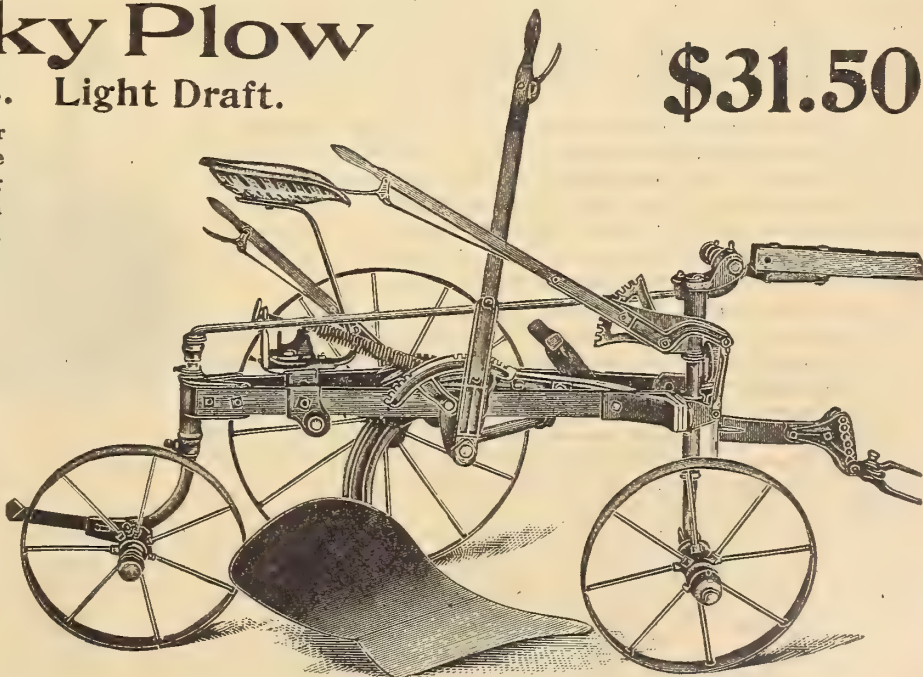

No matter how much money you pay, you cannot get a better plow than Our Prize. The frame is built from highest grade steel, perfectly formed and well braced. No chance for sagging or springing as the frame receives a uniform distribution of strain and weight. The bottom is fitted together perfectly on steel templet, so we know that every bottom is correct. No packing used in fitting the bottom. Mouldboard, share and landside made from best soft center steel which is properly and uniformly tempered. Mouldboard is shinned on top to give double wear. We guarantee these plows to scour. Our front and rear furrow wheels are equipped with dust proof hubs. Raising spring is of best oil tempered steel. Its tension is regulated by hand wheel to give correct adjustment. The levers are long and within easy reach. This plow is of the beam hitch style. This means light draft and steady motion. The equalizers are constructed from No. 1 clear white oak. This plow is furnished with the latest improved rolling coulter. Furnished with either Stubble or Turf & Stubble bottom. Be sure to state which you want. Weight 480 pounds.

T2514 Price 14 inch.....\$31.50

T2515 Price 16 inch.....\$32.25

Extra shares, each, 14 inch, \$2.25. 16 inch, \$2.40.

Shipped from factory in Northern Illinois.

Rose Hill Potato Hiller and Coverer

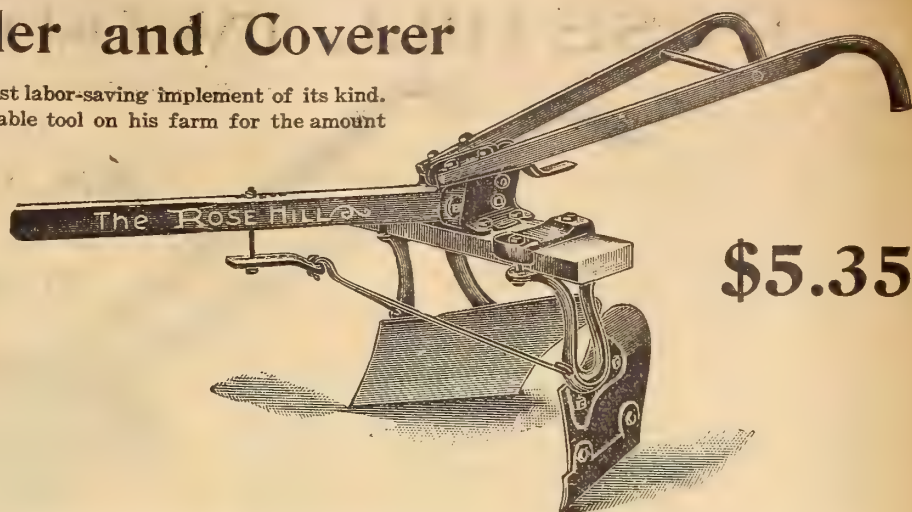

Our Rose Hill Potato Hiller and Coverer is without doubt the greatest labor-saving implement of its kind. Any progressive farmer after using one will admit it is the most valuable tool on his farm for the amount invested. Pole, handles and top are of best hardwood seasoned timber. Mouldboards are of polished Bessemer steel. The points can be furnished steel or cast, but we recommend the cast point. Mouldboards can be narrowed up or made wider by simply loosening bolts in moveable clamps. Handles can be easily shifted to right or left, making it possible for the operator to continually walk in the finished row. The pole can be easily adjusted up or down and there is no weight on horses.

No farmer should be without this machine, when he stops and considers the low price. It is reliable, and will do the work quickly and thoroughly.

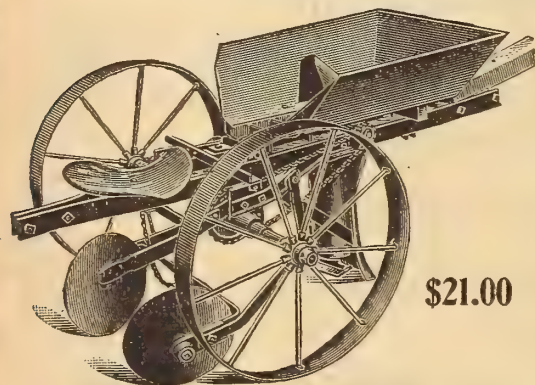

This is a tool we can recommend to any farmer.

T2585 Price.....\$5.35

Shipped from New York State factory.

Schofield Combination Potato Planter and Digger

This is the only combined planter and digger made in America. It will plant 13, 16 or 19 inches apart in the row, as you wish, by using different sized sprocket wheels, which are furnished with each planter. It will plant any desired depth, from 3 to 6 inches, by raising or lowering the bearing plates. It is fed by hand, insuring more accurate dropping than has ever been done by any so-called self-drop potato planters. It does the work so much better than can be done by hand, and by placing the seed in fresh ground it comes up quicker and grows more vigorous, which largely increases the yield. A seat is provided for the operator and the feeding can be done by a boy. The driver walks on the side next to the horse which follows the wheel track. The Digger can be set to run any desired depth necessary to raise

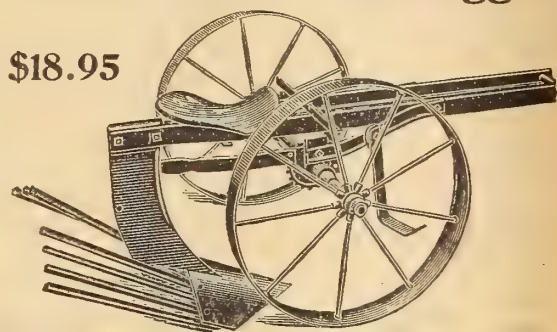

all the potatoes. The operator rides in a position that gives him perfect control over both team and digger and makes the work of digging potatoes very easy. The separator bars are made of diamond steel, set edgewise, which allows the ground to pass through freely, raising the potatoes to the surface and leaving them in the best position to be picked up. Weight of combined digger and planter, 240 lbs.

“New York” Flexible Disc Harrow

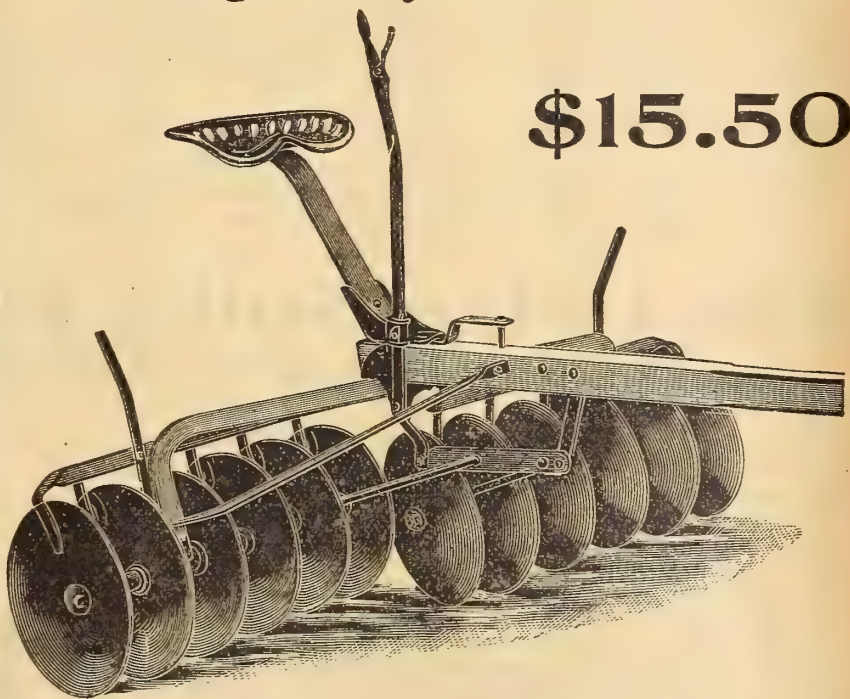

Ball=Bearing==Deep Cutting==Easy Draft

A flexible steel disc harrow, simple, durable and strong. It has a steel beam made in one continuous piece, with no cast iron parts to break or bother. The discs are flat at the center with deeper concavity toward the edges, which gives them greater cutting capacity. The bearings are of a superior grade of iron and are fitted with balls to take the end thrust of the gang when working. They are cast in one piece and their ends protected by dust caps that make the bearings dust-proof. The frame is attached to the bearing in a way that allows the greatest possible flexibility of each gang. This flexibility and the ball bearings make the harrow very light in draught. It leaves no ridges. One gang runs about eight inches behind the other, which lets the inner discs come close together. Therefore, when set at an angle for working, they cut practically all the ground. This position of the gangs allows for satisfactory side-hill work without a double lever. Our handy single lever is on the right side of the pole—therefore no slot in the pole to weaken it—within easy reach from the seat. Both gangs are easily adjusted by it at the same time. This harrow requires no double levers. The seat is large and comfortable. The steel scrapers and clod cleaners, adjustable from the seat, are the most perfect on the market. The gangs can be removed for loading or storing in one minute by removing two cotter pins and giving the gangs a slight turn, making this the most satisfactory and durable Disc Harrow on the market.

We have had this flexible Disc Harrow made especially for our general trade. The farmer who wishes to be alive to his interests and profit knows the value of a disc harrow. We guarantee our “New York” to have features unknown in any other make, a few of which are mentioned above. The price of this harrow is also a strong feature. We have contracted for all we can handle, and the factory concessions we have obtained, in view of the large trade, are so considerable as to enable us to sell this flexible all-steel disc harrow at lower prices than any house in the country, and at least fifty per cent less than dealers.

The harrow we show is the popular “OUT-THROW,” but we can also supply this harrow with an “IN-THROW” if preferred. This style has as yet been little known, but in case any of our customers may want an “in-throw” we will be glad to supply it at the prices quoted.

Shipped from factory in Central New York.

The Prize Spring Lift Riding Cultivator

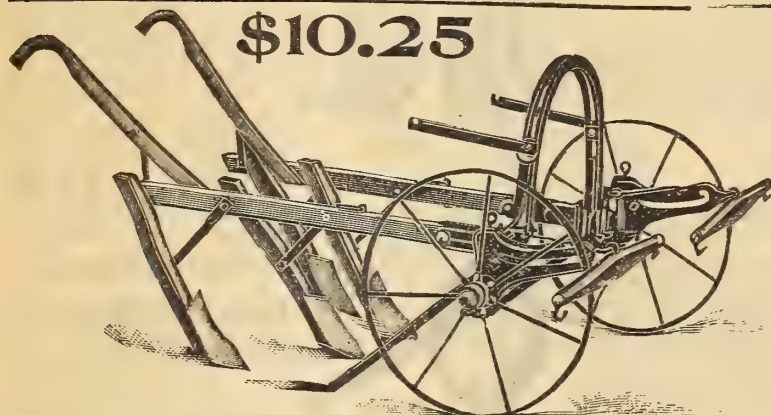

\$21.00

This is an all steel, balance frame, foot lift machine. It is the only spring lift cultivator that will allow the shovels to stay in the ground without any force or effort on the part of the driver. When the gangs are down the lifting cam is over the center, leaving the gangs free with their entire weight. There is no other spring lift cultivator in the market that equals ours in this feature. A slight upward pressure of the foot will raise the shovels out of the ground and an equally slight pressure will put them down so that the labor on the part of the operator is reduced to a minimum. On the road the gangs are held up by simply throwing back a small latch on the cam. The frame is balanced to weight of driver by means of levers on the axle. The machine can be balanced instantly. Our gangs can be set wide or narrow by simply adjusting a set screw. Gangs have straight shanks, allowing shovels to be raised or lowered as desired. The wheels can be set in or out for different width of rows. Wheels are 42 inches high—2 inch tire—6 inch hub with removable boxes and 1000 mile oil retaining hubs. No better wheel has ever been used on a cultivator. Shovels best soft center steel. Weight 400 lbs.

T2558 Price, Four 5-inch shovels, \$21.00. T2559 Price, Six 3½-inch shovels, \$21.75. T2560 Price, Eight 3-inch shovels, \$22.50.

Shipped from factory in Northern Illinois.

\$10.25

OUR PRIZE

Wood Beam Tongueless Cultivator

This is the very best tongueless cultivator on the market. No cheap material used in its construction. Arch is double and of finest grade of high carbon steel, wheels, made by the leading wheel factory of the world. Beams, legs, handles and singletrees are of No. 1 thoroughly seasoned white oak. Shovels of highest quality of soft center steel and are twisted to provide for throwing ground either to or from the corn. Beams are adjustable to any desirable width and can be raised or lowered by reversing beam couplings. Singletrees may be adjusted to different widths to accommodate the size of horses or their mode of travel. Each horse does his own share of the work. Beam couplings are double and fit on outside of beams, avoiding any danger of splitting ends of beams. Some firms use a single coupling set back into end of beam and causing it to split when strained. We furnish fenders with this cultivator. Weight, 176 lbs.

T2572 Price, with four 5-inch shovels, \$10.25

Shipped from factory in Northern Illinois.

Fourteen Tooth Steel Harrow

This 14-tooth steel harrow is a strongly made tool and will be found well adapted to farmers and gardeners. It is used for working very closely to small plants of tobacco, corn, cotton, potatoes, etc. It thoroughly pulverizes, but throws no dirt on plants. It can be used as a straight diamond tooth harrow, also as a smoother with sharp points down in order to cut and level the surface, the tooth, with sheared end down, being less liable to injure young plants when smoothing over corn, potatoes, etc. The teeth are diamond shaped, with a small cultivator tooth forged on one end. They can be adjusted to four different positions, the change being made in little time. This is a thoroughly practical tool in every sense of the word.

BUG-A-BOO HAND SPRAYER

This little sprayer is most effective for spraying potato vines, shrubs, plants, and the interior of henneries. It is strongly made with tin or brass reservoir, and is guaranteed to do the work in a very satisfactory manner.

T2659 Price, with Tin Reservoir, **50c**

T2660 Price, with Brass Reservoir, **75c**

Shipped from factory in Central New York.

Will fit any Pail or Bucket

Whitewash Sprayer and Force Pump

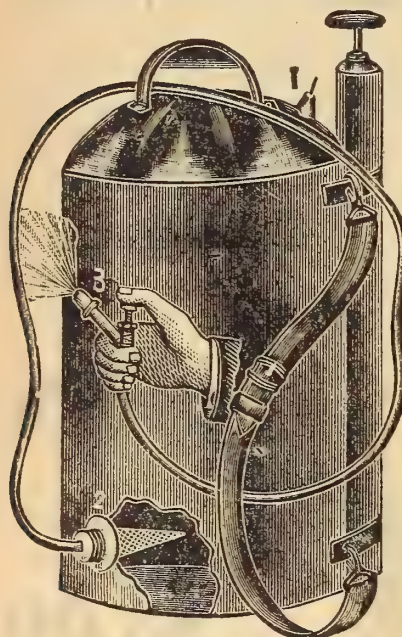

This is the only spray pump that will properly spray whitewash without clogging. It will do much better work than can be done with a brush, especially on a rough surface, as the force with which the material is applied causes it to penetrate the small crevices and openings, thus making a complete and perfect job. It has a large air chamber and ball valves, the pressure being held in air chamber and on the hose, so that the nozzle throws a continuous spray and is not affected by the upward stroke. Throws a stream 35 feet. Well adapted for washing buggies, windows, sprinkling lawns, flowers, spraying trees, etc. The stirrup is made of steel, and the pump is provided with best quality hose and two nozzles.

Shipped from factory in Central New York.

Compressed Air Sprayer

This sprayer is provided with safety valve, to prevent over-pressure, adjustable shoulder-strap, three feet of the best hose, and without extra cost, we furnish our own design patent automatic brass shut-off, and nozzle, which is held in one hand and worked at the will of the operator, by simply pressing the thumb a trifle, letting out an instantaneous spray; and by releasing the thumb the stop-cock shuts itself off automatically; the operator, therefore, at all times has the spray under perfect control, and can give any size spray desired, which is greatly appreciated for spraying potatoes, and all vegetable matter, fruit trees, etc., as there are no liquids wasted. It is also provided with our patent brass strainer, as shown in cut, so that no sediments can pass through the hose or nozzle, without being strained, which is a great improvement over all Compressed Air Sprayers. This part is detachable and may be taken off if necessary. There is no labor required to operate this machine. Simply fill the tank two-thirds full of liquid; pump in a few strokes of air with the pump, until the safety valve blows off, and the labor is done.

T2664 Made of galvanized iron, price.....\$2.60

T2665 Made of brass, price.....\$4.25

Extension brass pipe, per three feet length.....40c

Extra for brass automatic stop cock.....60c

Shipped from factory in Central New York.

Compressed-Air Barrel Spray Pump

This barrel spray pump has great capacity, and will throw a solid stream of any size spray desired, by the use of our graduating Vermorel nozzle. The air is compressed into the air chamber thereby giving a great force of water. The pressure is retained by working the pump handle slowly. The agitator thoroughly stirs the liquids and makes a complete circulation of water before it enters the cylinder of the pump. There is a brass strainer at bottom of suction barrel which prevents dirt or straws from entering. Barrel and valves are of heavy brass. All parts fit absolutely air-tight, and will not corrode or rust out. This pump is easily and quickly adjusted to any barrel and is well adapted for whitewashing, kalsomining and the use of water paints.

T2663 Price, complete, with three-ply rubber hose, **\$4.90**

Shipped from factory in Central New York.

Galvanized Bucket Sprayer

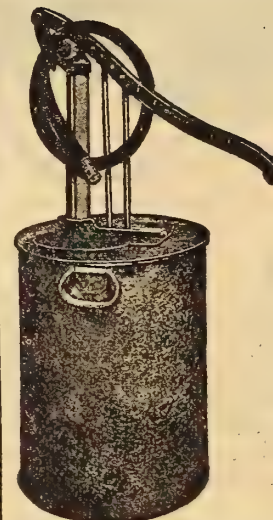

For Whitewashing and General Use.

In the application of whitewash and cold water paints will do the work of five men with brushes. Also suitable for spraying trees, shrubs and vines with insecticides and fungicides. Tank extra heavy, hold 8 gallons. Brass pump.

T2666 Price, including pump, tank, 8 ft. 3-ply hose, 8 ft. iron extension and Vermorel nozzle...**\$8.40**

Wheelbarrow Grass Seeders

Sow any time regardless of the wind and anyone can use them. Machines of this kind have been made to some extent for fifty years, but have come more prominently before the farmers during the last few years probably on account of their being the most practical machine ever made for sowing fine light seeds broadcast, such as clover, timothy, millet, alfalfa, red top, orchard grass, etc. We offer a steel machine that is up-to-date in every respect, combining all the features found in other seeders of this class with our improvements. Our seeders will sow accurately and evenly in any quantity per acre desired, either mixed or separate, and by an index, the quantities are instantly changed. We can furnish this seeder with boxes 12, 14, or 16 feet long and price the different machines as follows:

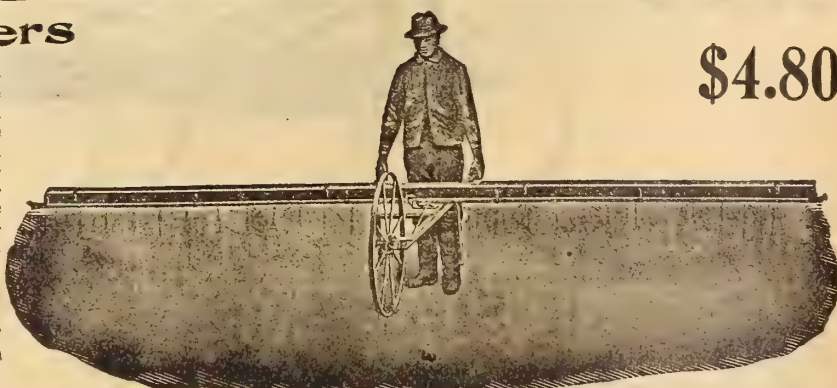

T2600 Price, 12-foot Seeder, complete, each.....\$4.80

T2601 Price, 14-foot Seeder, complete, each.....\$4.95

T2602 Price, 16-foot Seeder, complete, each.....\$5.15

Double hopper seeders to sow chaffy seeds, red top, orchard grass, and clean blue grass will cost \$1.25 extra over above prices.

Shipped direct from factory.

which is wanted. Shipping weight, about 375 lbs.

Our Challenge Top Buggy

A top buggy at this price is certainly cheap and to anyone wishing a fairly good and well finished vehicle, we can recommend our Challenge to give the best possible service. For an all-round, strongly built and serviceable vehicle, it is well worth the price we ask for it.

In quoting this top buggy at the extremely low price of \$31.50, we can do this only by reason of our system of selling at factory prices. There is only one profit to pay—the in-between expenses which make the high prices charged by dealers are cut out, and you, the consumer, have the advantage of buying your buggy from us from \$15 to \$30 less than the regular cost. This benefit applies to each and all of our buggies. You can make no mistake in buying from us—the prices and high quality prove this.

Description of our Challenge Buggy:

Body—23 x 54 inches, piano box as shown, or Corning shape. Can also furnish 19-inch. Well made, screwed, glued and plugged.

Wheels— $\frac{3}{4}$ -inch or $\frac{7}{8}$ -inch steel tires, 38 x 42 inches high, Sarven patent, all hickory. Can furnish 36 by 40 inches, or 40 x 44 inches high.

Gear—Rear king-bolt fifth wheel, double perch, ironed full length.

Springs—Guaranteed steel elliptic end springs, or Brewster side bars, if ordered. Wood spring bars.

Axles—15-16-inch double collar, steel; axle beds full clipped.

Top—Three or four bow, enameled imitation leather quarters, roofs and stays, full lined.

Upholstering—Cushion and back trimmed with imitation leather, regular full drop back and box cushion, with pads on seat ends. **Painting**—Body, black, plain or striped. Gear, black or green, neatly striped. Carmine or red gear, 75 cents extra. **Track**—4 feet 8 inches, or 5 feet 2 inches. Specify whether broad or narrow track is wanted. Shipping weight, about 400 lbs.

Price, Furnished Complete with side curtains, storm apron, imitation leather dash, hickory shafts, carpet, etc., \$31.50.

Extras—Cloth upholstering, \$1.50. Leather dash, in place of imitation leather, \$1.00. Dash rail, 30 cents. Pole in place of shafts, \$2.00. Both pole and shafts, \$3.75. Bailey loops, 50 cents.

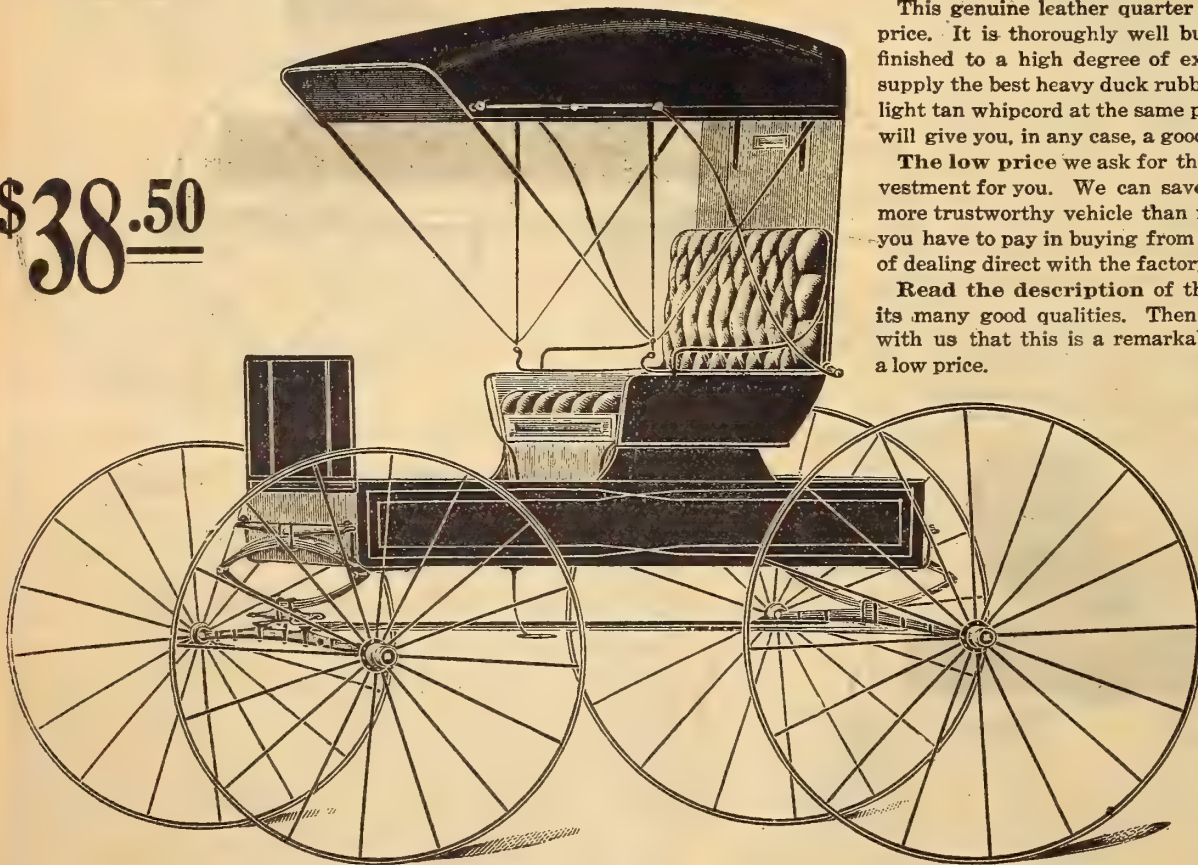

Shipped from factory in Southern Ohio.

V505.

Leather Quarter Top Buggy

\$38.50

V507.

This genuine leather quarter top buggy we offer at a very moderate price. It is thoroughly well built of good material, nicely trimmed and finished to a high degree of excellence. Should you desire it, we can supply the best heavy duck rubber top, lined with all-wool head lining, or light tan whipcord at the same price. Your choice of either of these tops will give you, in any case, a good and reliable well-wearing buggy.

The low price we ask for this buggy makes it a very satisfactory investment for you. We can save you money and give you a better and more trustworthy vehicle than most houses. The middle profits which you have to pay in buying from a dealer are saved by adopting our plan of dealing direct with the factory.

Read the description of this buggy which will give you an idea of its many good qualities. Then consider the price, and you will agree with us that this is a remarkably good and well-built buggy for such a low price.

Body—23 x 54 inches (20 or 24 inches wide, if preferred.) Piano box, as shown, or Corning style, as ordered. Hung on wood spring-bars, with full length body-loops.

Wheels—Select hickory, Sarven patent, $\frac{3}{4}$ or $\frac{7}{8}$ -inch wheels, oval-edge steel tires. (See extras for rubber tires.) **Gear**—Double perch, ironed full length and securely braced with wrought-iron stay braces; rear king-bolt fifth wheel.

Springs—Are best oil-tempered steel, full length, easy riding and and thoroughly tested. Brewster side-bar springs if preferred.

Axles—15-16-inch long-distance, bell collar, mud and dust proof, arched or drop, as desired.

Top—Genuine leather quarter top, with imitation leather roof, stays and

curtains, or best heavy rubber duck top, lined with all-wool head lining or light tan whipcord, as ordered. **Upholstering**—Spring cushion and solid panel spring back are trimmed in best style in all-wool or whipcord; padded seat ends. Trimmed in cloth regularly. **Painting**—Body is painted black, neatly decorated. Gear painted black, red, wine or as ordered. **Track**—Narrow, 4 feet 8 inches, or wide, 5 feet 2 inches. State whether broad or narrow track is wanted. Shipping weight, about 450 lbs.

Price, Furnished Complete with shafts, fully ironed and braced, carpet, leather dash, water-proof storm apron and boot, \$38.50.

Extras—Pole in place of shafts, \$1.50; in addition to shafts, \$3.00. $\frac{3}{4}$ -inch guaranteed rubber tires, \$11.50. $\frac{7}{8}$ -inch, \$13.00.

Our "Superior" Rubber-Tired Top Buggy

With 7-8 inch Guaranteed Rubber Tires.

\$58^{.50}

A Rubber-Tired Buggy has style to it, affords pleasant driving, saves tear and wear on springs, and makes easy drawing for your horse. There's no "jar" in riding with rubber-tired wheels, and you can always depend upon "making the pace" in a fast run.

We Use Only Guaranteed Rubber Tires, the well-known, tried and tested brands, and the extra price we ask over steel tires is trifling compared to the pleasure a rubber tired vehicle affords. We can fit our guaranteed rubber tires to any of our vehicles, prices of which are quoted as extra.

The General Excellence of this Buggy makes it most desirable as a first-class vehicle, and, at the price we quote, a remarkable bargain. Our factory price system is the only reason for us being able to offer such a high grade rubber-tired buggy at this price. Compare this with what a retail dealer would charge for the same class of vehicle, and you'll appreciate the significance of this great offering. We claim to sell cheap, but we also claim to give you quality with our low price.

If You wish a Strictly First-Class Buggy with genuine leather quarters and stays, heavy rubber roof and side curtains, selected hickory "iron clad" wheels, high panel spring back, best clips and forgings, best steel springs and axles, and fitted with 7/8-inch rubber-tired wheels, you cannot do better than invest in our "SUPERIOR." Read the detailed description and we are sure you will want to own no better vehicle than this, which in the ordinary retail way would cost you from \$25.00 to \$40.00 more than we ask for it. Shipped from factory in Southern Ohio.

Body—Piano-box style, 23x54 inches. Thoroughly seasoned poplar panels, hardwood frame and sills. Swelled panels, glued, screwed and plugged to frame and posts. Can furnish 18 or 20-inch body, or Corning style if preferred. Hung on Bailey loops, or wood spring bars if ordered.

Wheels—Fully warranted, Sarven patent, seasoned hickory, fitted with 7/8-inch rubber tires, wheels 38x42 inches, also 36x40, 40x44 or 42x46 inches high.

Gear—Double perch, ironed full length; wood parts second-growth hickory, strongly clipped and braced. Rear circle, rear king-bolt, anti-rattler fifth wheel.

Springs—Full sweep elliptic end springs, 1 1/4-inch, 3 and 4 plates, oil-tempered steel. Bailey loops clipped on. (Brewster side bars if ordered.)

Axles—15-16-inch long distance, bell collar, dust and mud-proof, made of best refined steel; axle caps cemented. Arched or drop.

Top—Leather quarters, cut deep, leather stays, rubber roof, and side curtains, wool lining, 3 or 4 bows. All tops with shifting rail so that they can easily be removed.

Upholstering—High, solid-panel spring back and sanitary spring cushion, covered with 14-oz. wool blue or green cloth or tan whipcord. Bellows or overstuffed back. Seat panels lined and padded.

Painting—Body, black; gear, black, green, maroon or New York red, neatly striped. Will stripe and decorate body or paint any color desired, without extra charge.

Track—Narrow, 4 feet 8 inches; wide, 5 feet 2 inches, or 4 feet 4 inches. State whether wide or narrow track is wanted. Shipping weight, about 425 lbs.

Two-in-One Combination Top Buggy and Open Runabout

V514.

ling bell collars, mud and dust proof 15-16-inch; arched, as shown, or drop if preferred. - **Top**—Best leather quarter top, leather back stays, heavy rubber roof and curtains; wool cloth head lining to match upholstery, 3 or 4 bows, straight or curved joints.

Upholstering—For regular buggy seat we furnish high, solid panel spring back and spring cushion, nicely upholstered with cloth or whipcord, seat ends padded; the extra seat is neatly trimmed with the best grade whipcord or cloth. (Genuine leather one seat, \$1.50 extra, or on both seats \$3.00 extra.)

Painting—Body, plain rich black. Gear, New York red, carmine, Brewster green or any other color, neatly striped. **Track**—Narrow, 4 feet 8 inches, or wide, 5 feet 2 inches, or special, 4 feet 4 inches. State which is wanted. Shipping weight about 450 lbs. **Note**—State in order whether style "A" or "B" seat is wanted.

Price, Furnished Complete with full leather quarter top and buggy seat as described, extra spindle or panel seat with spring cushion, 13-inch patent leather dash, double braced shafts, full-length Brussels carpet or rubber mat, storm apron, quick shaft shifters, etc., ready for use, \$54.50.

Extras—Pole in place in place of shafts, \$2.00; in addition to shafts, \$4.00. Full leather top, leather back curtain in place of leather quarter top, \$3.90. ¾-inch guaranteed rubber tires, \$11.50. ½-inch, \$13.00. 1-inch, \$16.00. Shipped from factory in Southern Ohio.

This is one of our most popular styles and rightly so, as it is virtually two vehicles for the price of one. It is so arranged that it can be used either as a top buggy or as an open runabout, the change being made in a minutes time. At the price quoted we furnish the complete buggy and choice of either panel seat (style "A") or stick seat (style "B"), as shown in small illustrations. In making change from top buggy to open driving wagon, the top and regular seat are easily removed and runabout seat quickly adjusted, or vice versa. With this outfit all necessary accessories are included. We furnish extra seat complete with cushions.

In this combination you are buying two buggies for the cost of one, and at our price the money saving is considerable. The factory price prevails in this as in all our vehicles.

Description of our Two-in-One Buggy:

Body—24x54 inches, piano box style. Hung on Bailey loops, clipped to springs, irons running full length of body. (20 or 22 x 54 inches or Corning style without extra cost, if preferred.)

Wheels—Best Sarven patent or compressed band wood hubs, selected hickory, ¾, 7/8 or 1-inch steel tires, 38 x 42, 40 x 44 or 42 x 46 inches high. (For rubber tires see extras.)

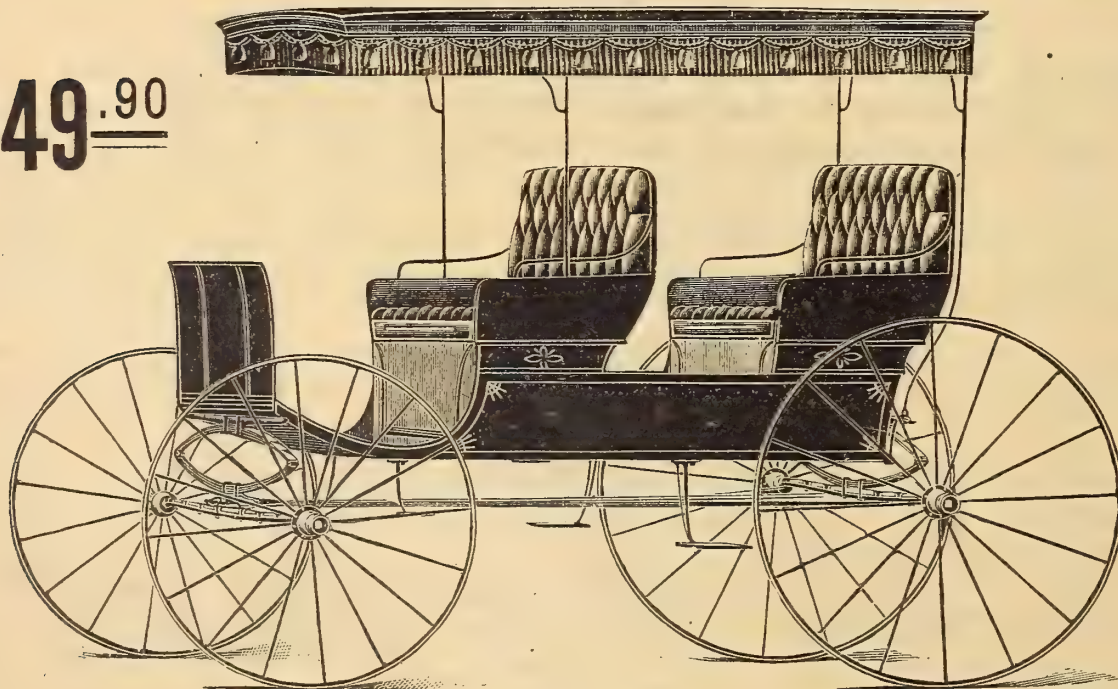

Gear—Double perch, best hickory, fully ironed and braced; rear king-bolt, anti-rattler fifth wheel, improved pattern.

Springs—Elliptic style, 36 inches long, 3 and 4 plates, very easy riding; graded and tested spring steel. (Brewster side bars, if preferred, no extra charge.)

Axles—Improved long-distance, with Col-

Farmers' Combination Surrey==Rear Seat Removable

\$49.⁹⁰

V516.

This is a light, thoroughly strong, well made Surrey, used for both pleasure and business. It is built so that the rear seat may be removed, making the back portion of the body useful for the carrying of trunks or packages. This makes a very handy arrangement, and gives this vehicle many advantages over other styles. It will appeal to a great many of our customers who have use for this kind of surrey, and we offer it knowing it will give the best possible service.

This Surrey can be supplied with Leather Quarter Extension Top, Rubber Roof and Curtains for \$7.50 extra.

The factory price of this Surrey is very considerably lower than its real value, but the large number we are selling in a way compensates us for the very small profit we make. Our aim is to provide our customers with the best we possibly can furnish at the lowest possible price, and we are sure this combination Surrey is one of our strongest leaders. The following is a full description:

Body—Quite roomy, with wide, deep, solid panel seats.

Wheels—Sarven patent, 38 x 42 or 40 x 44 inches, 1-inch steel tires. **Gear**—Double perch, ironed full length and strongly braced; rear circle, fifth wheel, and rear king-bolt. **Springs**—1½-inch, 4 and 5 plate elliptic springs; easy riding and durable. **Axles**—1 1/16-inch, long-distance, self-oiling, double collar, fantail, drop axles. (Arched if wanted.) **Top**—Canopy top, side and back curtains, of rubber; neatly trimmed in deep fancy cord and tassel fringe, head-lining to match seat trimming. (Extension top, if ordered, see extras.)

Upholstering—Trimmed in imitation leather, green, tan, or maroon color. Solid panel spring backs and spring cushions. (Trimmed also in genuine leather, cloth or whipcord, see extras.) **Painting**—Body is painted black, neatly striped. Gear, Brewster green, or any color wanted, tastefully striped.

Track—Narrow, 4 feet 8 inches, or wide, 5 feet 2 inches. State whether wide or narrow track is wanted. Shipping weight, about 600 pound.

Price, Furnished Complete, ready to hitch to, with shafts, storm apron, patent leather dash, full length carpet, etc., \$49.90.

Extras—For leather quarter extension top, rubber roof and curtains, \$7.50. Cloth or whipcord trimming, \$2.00. Leather trimming, \$4.00. Pole in place of shafts, \$1.70. Both pole and shafts, \$3.25. ¾-inch guaranteed rubber tires, \$13.00. 1-inch, \$16.00. Shipped from factory in Southern Ohio.

HARNESS AND SADDLERY.

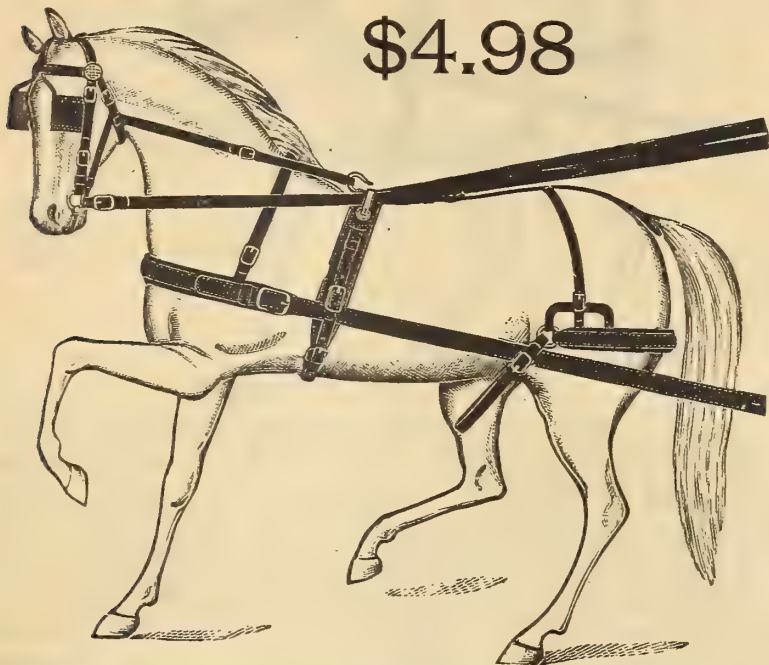

Quality is our watchword in this as well as other departments. We use the best grades of leather. Most of our styles are cut from the highest grade Pure Oak Tanned Leather, and at prices so low you will wonder why we do it. We have made arrangements with two of the largest harness and saddlery makers, and our customers can depend upon getting the best that can possibly be made, at a great saving in price.

Every harness we offer is guaranteed. The prices we quote are based on factory cost and fully one-half less than you can buy the same qualities at ordinary retail. A trial order will prove the truth of this statement.

Single Buggy Harness

Special Double Farm Work Harness

PURE OAK TANNED LEATHER.

A farm harness of this description and sold at the low price of \$25.50, with collars, makes a splendid bargain. For heavy, hard wear our oak tanned leather will stand all the strain it can be put to. Sewn with well-waxed thread and guaranteed not to rip. The metal hame tugs avoid punching holes in the traces and give much better service.

Our factory price on this harness gives it to you at a great deal less than the ordinary retail price. This is your opportunity to buy a good farm harness at comparatively little cost.

Bridles— $\frac{7}{8}$ -inch box cheek loops, harness leather blinds stitched with waxed thread, square or sensible shape, flat side checks over hame.

Lines— $\frac{7}{8}$ -inch, average length 21 feet.

Collars—Team, all kip, solid rim, hame chafes, $14\frac{1}{2}$ -inch draft, out seam machine, metal middle seam, patent fasteners, russet face.

Hames—Low or over top, black or red.

Hame Tugs— $1\frac{1}{2}$ -inch metal.

Traces— $1\frac{1}{2}$ -inch, three row stitched, clip cockeyes and hooks.

Martingales— $1\frac{1}{2}$ -inch, with dees.

Breast Straps— $1\frac{1}{2}$ -inch.

Girths—Folded and stitched.

Back and Hip Straps— $\frac{7}{8}$ -inch crotched back, $\frac{3}{4}$ -inch crotched hip, stitched in trace carriers on hip.

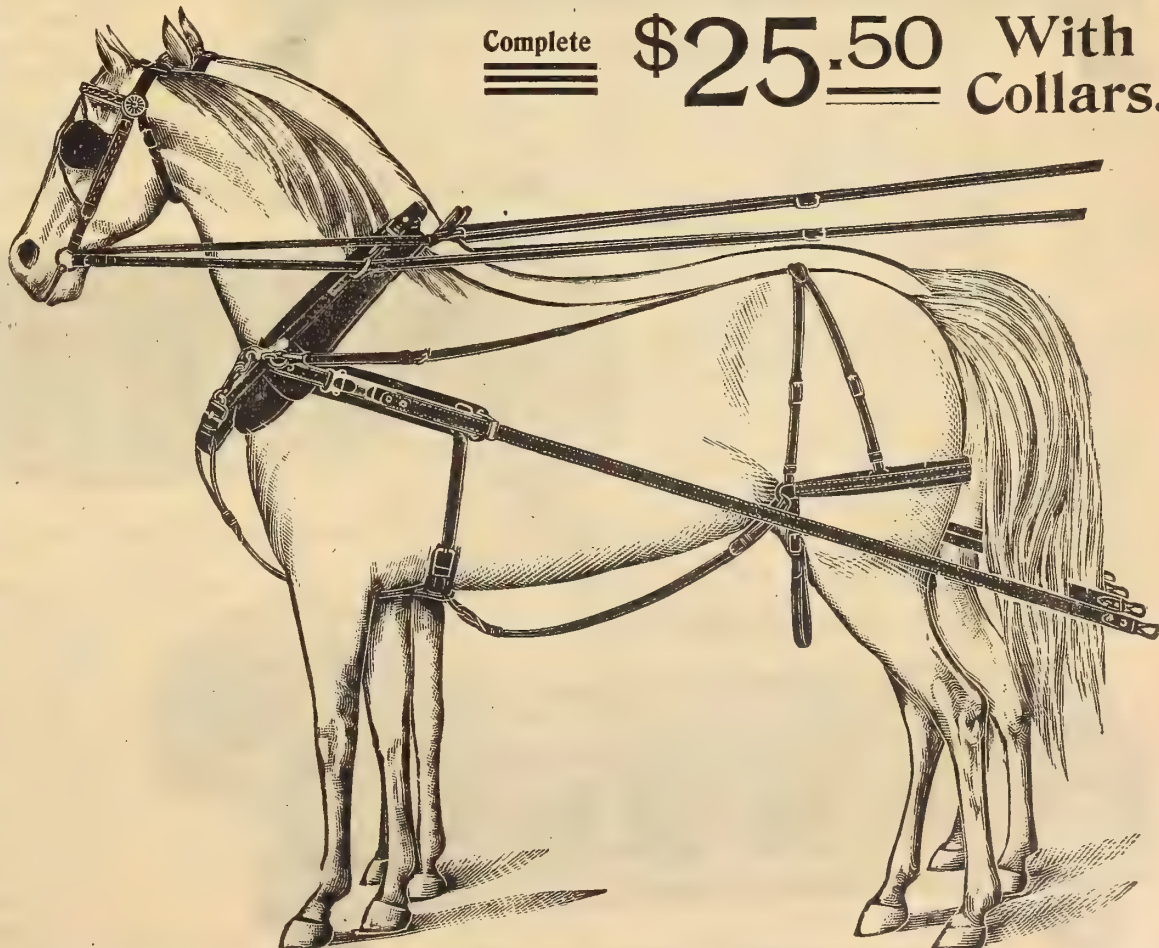

Breeching—Folded with $1\frac{1}{4}$ -inch layers.

Side Straps— $\frac{7}{8}$ -inch with snaps.

Lazy Straps— $\frac{3}{4}$ -inch.

Our \$5.90 Tufted Couch.

Shipped from factory in Central New York.

F1021 This is a heavy, massive Couch of beautiful lines and proportions. It has a handsome heavily carved oak frame with carved feet fitted with good castors. This couch is of very large size, being 75-inches long and 30-inches wide. It has eight rows of deep hand made tufts, fastened with steel pronged buttons, which are covered with same goods as couch. The tufts are well filled with tow and moss with a good cotton top. Fitted with 30 base coil knotted top black tempered steel springs, held together with steel wires, fastened with a soft metal clip which prevents noise and is indestructable. The springs are covered with a heavy white duck canvas.

This is a couch of quality and at our price is a decided bargain. Can be had in various coverings. Be sure and state which color and covering you want.

Our Special Automatic Morris Chair

\$ 4.⁷⁵

F1041. This large, massive Morris Chair is made of selected oak, rubbed and polished, with heavy claw feet, broad arms and embossed front rail. It has spring back and spring seat, upholstered with tow and cotton. Covered with a good quality plain or figured velour in red, green or brown. Cushions may be detached which makes it convenient for dusting or cleaning. The automatic attachment is such that back may be raised or lowered while occupant is sitting in chair. The mechanism is strong and simple and cannot possibly get out of order.

The illustration is from a photograph and shows chair as it really is—the heavy upright front posts, deep front rail and wide arms, making a strongly built and substantial chair equal to many costing a great deal more money. The very low price—\$4.75 is possible only because of our factory to consumer system, which gives you the benefit of buying at first cost. We unhesitatingly pronounce this Automatic Morris Chair the greatest bargain ever offered, and which no dealer can duplicate under \$10.00. In buying this chair you have our unquestionable guarantee that it is all if not better than we claim it to be.

In ordering be sure to state whether figured or plain velour is wanted, also color desired.

Price, F.O.B. factory in Central New York, **\$4.75**

OUR

"Housewife's Friend" Kitchen Cabinet

F1229 This cabinet is constructed and designed as a labor-saving article of furniture—a completely equipped and handy kitchen necessity to lessen the cares of the woman whose "work is never done." Housework is robbed of half its terrors by an arrangement such as this. Baking and cooking are accomplished in very little time with vessels and utensils right at hand. Like the good tradesman the good housekeeper must have her tools to work with, and we know of nothing better than this kitchen cabinet. It is indeed a housewife's friend.

This cabinet is 62 inches high, built in the best possible manner of oak and elm and finished in the popular shade of golden oak. The top of the base is 45 inches long and 26 inches deep and has a kneading bread board 21x24½ inches. The base is equipped with one large sliding bin, a cupboard fitted with a panel door and a good spring catch, and two large drawers. The top cabinet has a closed cupboard directly in the center and an array of open shelves. The top shelf is fitted with a rod, making a very convenient plate rail. One side has a hinged towel rack and the other a swing rack with hooks for hanging kitchen utensils.

The low price of this most desirable kitchen cabinet is one of its especially strong features. Made by a factory famed for this class of work, we unquestionably guarantee this cabinet to be the best of its kind, and at a price that cannot be equaled anywhere.

MILLS' "EARLY JUNE" CABBAGE. EARLIEST CABBAGE IN THE WORLD.

This is a great Cabbage and should be planted in every garden in the country. I am very fortunate in securing this strain of Cabbage which is even earlier than my famous "First in the Market," which previously was the earliest Cabbage I had ever offered. "Early June" is just what its name implies and is the quickest growing Cabbage in the world, and is sure to please everyone who plants it. The heads are fair size, very solid and just the thing for market gardeners, truckers or home garden. "Early June," coming so early, will readily sell in any market. The illustration well shows the Cabbage, and almost every plant is sure to form a perfect head. They can be planted close together and will yield a large crop and I am sure that my customers will appreciate my offering this grand new Cabbage. I have a fair stock of seed on hand and would advise early orders, because this new Cabbage cannot be secured from any other dealers as I control the seed stock that I am offering this year. If there is only one vegetable in this catalogue that you want, let it be "Early June" Cabbage. Per pkt. 10c.; 3 pkts. 25c.
